

RFB FOR CURRITUCK COUNTY EXTENSION CENTER 2026 GREENHOUSE CONSTRUCTION

Date: February 16, 2026

To: Prospective Proposers

From: Trischa Quinlan, Contracts & Purchasing Agent, Currituck County

Subject: Addendum No. 1 to RFB for Currituck County Extension Center 2026 Greenhouse Construction

Questions:

1. In review of these documents, I see there are some notes for plumbing, electrical, and mechanical systems but not any drawings or specs dedicated to this. Also, I do not see any site drawings provided so we know what sitework, grading, etc needs to be completed for this. Do you expect to have any new drawings or more information on this?

Answer:

The General Terms and Conditions of the RFB have been updated to clarify the scope of the project and are attached. Assembly Instructions, Atlas Wall Vent Instruction Manual, Evaporative Cooling System Manual, and Electrical Plans are attached.

2. I've gone through the documents; however, I don't see an actual scope of work. The plans from Atlas are there, as well as standard contract terms, but expectations surrounding utilities, site work, and other relevant portions necessary for us to even pull permits for the work don't seem to be there. Is there a document missing or am I misunderstanding something?

Answer:

The General Terms and Conditions of the RFB have been updated to clarify the scope of the project and are attached. Assembly Instructions, Atlas Wall Vent Instruction Manual, Evaporative Cooling System Manual, and Electrical Plans are attached.
