CURRITUCK COUNTY NORTH CAROLINA

Minutes – Regular Meeting of the Board of Commissioners

WORK SESSION

1. 4:30 PM Campgrounds/Discussion Regarding Board Regular Meeting Time

The Board of Commissioners met in the Board Meeting Room at 4:30 PM for two Work Session discussions. Commissioners continued discussion on language related to campgrounds in Currituck County and considered a change to the Board of Commissioner's regular meeting time. Commissioner McCord was not present at the start of the work session.

Commissioners considered whether to leave the current language as written in the Unified Development Ordinance related to existing, non-conforming campgrounds after a recent court of appeals decision ruled against campground owners, 85 and Sunny, LLC, in their lawsuit against the county. Chairman Payment suggested the Board focus on language for new campgrounds and to make changes to existing language as needed to clean up the text. Interim County Manager/County Attorney, Ike McRee, briefly reviewed the current language in the UDO and the proposed language that would allow existing campgrounds to come into compliance over time. He said current language prohibits the expansion or enhancement of existing campgrounds. It does allow for maintenance and repair of existing structures. Mr. McRee responded to questions related to the attrition of permanent residents and conformity of existing campgrounds. He said Sandy Point Campground would be the only existing campground that could come into conformity because they are located on a major arterial.

Commissioner White was not in favor of language that does not provide a path for existing campgrounds to become conforming. Without all Commissioners present to provide input, it was decided the conversation would move to new campgrounds.

Laurie LoCicero, Planning and Community Development Director, reviewed the language the Board had agreed to at prior work sessions and Commissioners resumed discussion of minimum parcel sizes for new campgrounds. Concerned that the majority of new campgrounds would locate in her district, Commissioner Jarvis preferred a 50 acre minimum parcel size as opposed to a 25 acre minimum. Commissioners considered placing a cap on the number of campgrounds that could be established in any district or township and Mr. McRee said he would research whether it is legal for the Board to place such restrictions.

Commissioners discussed seasonal campgrounds and after originally agreeing to allow up to 35% of campsites to be used on a seasonal basis, concerns related to seasonal use and enforcement were considered and Commissioners agreed to a 20% designation for seasonal sites. Commissioners considered licensing, amenity requirements, and other

Communication: Sept. 7, 2021 Minutes (Approval Of Minutes: 9/7/2021, SM-6/3/2021)

methods to assist with enforcement and address concerns with seasonal occupancy. Mr. McRee discussed types of units that would be subject to Occupancy Tax.

Commissioner McCord arrived at 5:10 PM and the discussion of existing campgrounds was resumed. The earlier discussion was summarized for Commissioner McCord and, after consideration, Commissioners agreed to leave the ordinance pertaining to existing campgrounds as is and to allow revisions to close some loopholes in the current ordinance.

Ms. LoCicero continued and summarized the discussion related to new campgrounds. Commissioners considered residential dwelling units that would be allowed on site and asked staff to research other campgrounds to see what they provide for on-site housing of year round management and staff. Storage allowances, operational plans, closure periods, and annual inspections for licensing were presented, and Commissioners agreed to meet again at the September 20, 2021 Board meeting to discuss alternative camping units and to receive reports on the information that had been requested.

Several Board members were having difficulty making the 4:00 PM meeting time due to scheduling conflicts and Commissioners were asked to consider moving all of the regular meetings back to 6:00 PM. All Commissioners agreed to the time change. A Resolution had been prepared by the County Attorney in anticipation of the change and the meeting agenda would be amended so official action could be taken. The Work Session concluded at 5:52 PM.

COMMISSIONER'S REPORT

Commissioner Jarvis reported on a recent tour of the Public Safety Center. She, Chairman Payment and representatives of College of the Albemarle (COA) hosted executives from Blue Cross and Blue Shield, who were impressed with the facility and the collaborative effort between COA and Currituck County to provide health and safety classes. She announced the opening of the County wellness clinic, available to citizens. She noted the tragic start to the school year after a student was struck by a vehicle on the highway and encouraged people to drive slowly through the school zone.

Commissioner Mary Etheridge discussed Labor Day as a day to celebrate workers and their achievements and recognized all of the staff who make Currituck County run. She thanked Interim County Manager, Ike McRee, and the Administrative staff for their efforts during the transition to a new County Manager.

Commissioner White announced he will not attend the September 20, 2021, Board of Commissioners meeting, as he will be traveling.

Chairman Payment reported on the Public Safety Center tour and remarked on the interest shown by Blue Cross and Blue Shield representatives. He encouraged people to be careful on the roads after the terrible accident on the highway and asked citizens to support their local fire departments and first responders.

Commissioner McCord also recognized Labor Day and reported statistics on job openings and unemployment rates. He noted how busy the beach was this season and said businesses did well but struggled with staffing. He recognized county staff and acknowledged those who drive buses for Currituck Schools. He reported on the child who was hit on the highway and said the Sheriff Deputies will ticket for speeding in the school zone. He encouraged citizens to thank first responders.

Commissioner J. Owen Etheridge reported on the current shortage of school bus drivers and noted it is a problem nationwide. He said Currituck Kids will be receiving a contribution from Boomerang Architects, after winning a door prize from a contest he entered while attending the North Carolina Association of County Commissioners Annual Conference.

COUNTY MANAGER/COUNTY ATTORNEY REPORT

Interim County Manager/County Attorney, Ike McRee, updated Commissioners on two lawsuits recently resolved in the courts. Currituck County had already been dismissed from the Allied Properties and Quality Homes v. Denise Hall, and Mr. McRee reported both parties have voluntarily dismissed their suit and countersuit. He reviewed the North Carolina Court of Appeals decision in the matter entitled 85 and Sunny, LLC v. Currituck County, in which the appeals court affirmed the County's original letter of determination that had been presented at the Board of Adjustment hearing by Planning and Community Development Director, Laurie LoCicero. Mr. McRee said no action had been taken by the County to attempt to destroy a member of the business community, but did defend the integrity of county policies and preserved the community values expressed in the County Land Use Plan and Unified Development Ordinance. Portions of the Court of Appeals ruling were read by Mr. McRee.

PUBLIC HEARINGS

A. PB 20-16 Currituck County Text Amendment Utility and Drainage Easements:

To: Board of Commissioners

From: Planning Staff

Date: August 17, 2021

Subject: PB 20-16 Currituck County – Text Amendment
Utility and Drainage Easements

Request

The original text amendment language submitted by the Planning and Community Development Department proposed revisions the UDO to:

- Require an access dedication to the county for easements on major drainage features. For **new** projects, maintenance access easements are required on ditches that drain more than five acres or along the major ditches listed in Section 7.3.4.
- Prohibit on-site wastewater systems in utility and maintenance access drainage easements on individual lots.

The Planning Board heard the text amendment request on February 9, 2021, it was tabled, and heard again on March 9, 2021. The Planning Board recommended approval of the text amendment as presented by staff. Following the Planning Board meeting, the Board of Commissioners held a work session with staff to review the proposed language. After discussion, the Board directed staff to make changes to the draft ordinance. The text amendment changes have been updated as part of this staff report. Specifically, the Board of Commissioners requested that the proposed ordinance prohibiting placement of septic systems in utility and maintenance access drainage easements be removed. With input from the County Engineer about sufficient width for a maintenance easement, the Board of Commissioners requested to change the required easement to 25' along major drainage features.

This revised text amendment provides that required maintenance access drainage easements be dedicated to the county and revises the required easement width from 50' to 25' along major drainage features.

Text Amendment Review Standards

The advisability of amending the text of the UDO is a matter committed to the legislative discretion of the Board of Commissioners and is not controlled by any one factor.

In determining whether to adopt or deny the proposed text amendment, the Board of Commissioners may weigh the relevance of and consider whether and the extent to which the proposed text amendment:

1. Is consistent with the goals, objectives, and policies of the Land Use Plan and other applicable county-adopted plans;
2. Is not in conflict with any provision of this Ordinance or the County Code of Ordinances;
3. Is required by changed conditions;
4. Addresses a demonstrated community need;
5. Is consistent with the purpose and intent of the zoning districts in this Ordinance, or would improve compatibility among uses and ensure efficient development within the county;
6. Would result in a logical and orderly development pattern; and
7. Would not result in significantly adverse impacts on the natural environment, including but not limited to water, air, noise, stormwater management, wildlife, vegetation, wetlands, and the natural functioning of the environment.

Staff Recommendation

Staff recommends approval of the request as submitted and suggests the following Consistency Statement:

The requested zoning text amendment is consistent with the goals, objectives, and policies of the 2006 Land Use Plan including:

1. POLICY WQ6: Currituck County supports the retention or preservation of VEGETATED BUFFERS along the edge of drainage ways, streams and other components of the estuarine system as an effective, low cost means of protecting water quality.
2. POLICY WQ8: Currituck County shall support the development and maintenance of a countywide COMPREHENSIVE DRAINAGE AND FLOOD MANAGEMENT PLAN, including public and private actions in support of plan implementation. Currituck County shall support County, NCDOT and property owner cooperation in preventing and resolving stormwater problems.

The request is reasonable and in the public interest because:

1. It clarifies that required maintenance access drainage easements shall be dedicated to the county to ensure access to maintain drainage infrastructure.

Planning Board Recommendation

On August 10, 2021, the Planning Board recommended approval of the requested text amendment with a 5-0 vote.

Motion

Mr. Bass moved to approve PB 20-16 because the request is consistent with Land Use Plan policies WQ6 and WQ8 and the request is reasonable and in the public interest because it clarifies that required maintenance access drainage easements shall be dedicated to the county to ensure access to maintain drainage infrastructure. Vice-Chairman Owens seconded the motion and the motion carried unanimously.

Communication: Sept. 7, 2021 Minutes (Approval Of Minutes: 9/7/2021, SM-6/3/2021)

Item 2: Consistency Statement:

The requested zoning text amendment is consistent with the goals, objectives, and policies of the 2006 Land Use Plan including:

1. POLICY WQ6: Currituck County supports the retention or preservation of VEGETATED BUFFERS along the edge of drainage ways, streams and other components of the estuarine system as an effective, low cost means of protecting water quality.
2. POLICY WQ8: Currituck County shall support the development and maintenance of a countywide COMPREHENSIVE DRAINAGE AND FLOOD MANAGEMENT PLAN, including public and private actions in support of plan implementation. Currituck County shall support County, NCDOT and property owner cooperation in preventing and resolving stormwater problems.

The request is reasonable and in the public interest because:

1. It clarifies that required maintenance access drainage easements shall be dedicated to the county to ensure access to maintain drainage infrastructure.

Item 3: The provisions of this Ordinance are severable and if any of its provisions or any sentence, clause, or paragraph or the application thereof to any person or circumstance shall be held unconstitutional or violative of the Laws of the State of North Carolina by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions which can be given effect without the invalid provision or application.

Item 4: This ordinance amendment shall be in effect from and after the _____ day of _____, 2021.

Planner, Jennie Turner, reviewed the staff initiated text amendment for the Board. The change would require dedicated drainage easements for construction along major drainageways and would reduce the width of easements along those waterways from fifty feet to twenty-five feet. Ms. Turner reviewed the text amendment language based on prior Board direction. A map on the overhead showed the location of major drainage features in the county. Review standards and consistency statements were presented, and both staff and Planning Board recommend approval of the request. Ms. Turner responded to questions pertaining to setbacks and Commissioner J. Owen Etheridge voiced concern with the reduction to twenty-five feet.

Chairman Payment opened the Public Hearing.

Dylan Lloyd, County Soil and Stormwater Technician, spoke in support of the text amendment. Speaking on behalf of Manly West, Chairman of the Soil and Water Supervisors, who said a fifty foot setback may be necessary for some of the larger ditches.

No others were signed up nor wished to speak and the Public Hearing was closed.

Commissioner Jarvis moved to approve PB 20-16-Currituck County Utility and Drainage Easements Text Amendment, because the request is consistent with the following policies of the 2006 Land Use Plan: Policy WQ6 and Policy WQ8. And, the request is reasonable and in the public interest because it clarifies that required maintenance

access drainage easements shall be dedicated to the county to ensure access to maintain drainage infrastructure. Commissioner White seconded the motion. The motion carried, 6-1, with Commissioner J. Owen Etheridge opposed.

NEW BUSINESS

A. Consideration and Adoption of Resolution Opposing General Assembly Limitation on County Authority to Regulate Storm Water and Other Land Use Matters

Interim County Manager/County Attorney, Ike McRee, presented the Resolution. The Resolution was prepared at the request of Commissioners after discussion at a previous work session raised concerns that measures in the North Carolina Senate Appropriations Bill would remove local government's ability and authority to establish and regulate land use in their communities. Following a review of the language in the Resolution, Commissioner J. Owen Etheridge moved for approval and directed that a copy be sent to all one hundred counties in North Carolina. Commissioner Beaumont seconded the motion. The motion carried, 7-0.

RESOLUTION OF THE CURRITUCK COUNTY BOARD OF COMMISSIONERS OPPOSING REDUCTION OF COUNTY AUTHORITY TO ADOPT POLICIES THAT BEST REPRESENT NEEDS OF COUNTY COMMUNITIES

WHEREAS, the North Carolina General Assembly's proposed 2021 Appropriations Act includes law that if enacted will reduce county authority to adopt policies that best represent the needs of communities within counties and reflect values of a county's citizens as expressed through a county's land use plan, land use regulations and actions of the duly elected county governing boards; and

WHEREAS, the proposed reduction in local control and authority includes removing local authority to determine the location of relocated billboards; limiting local authority to establish storm water regulations essential for the maintenance of water quality and flood prevention; preemption of local authority on the placement of schools and prevention of local government adoption of ordinances related to the removal of trees; and

WHEREAS, the limitation or removal of local control over the cited matters would, in Currituck County, require ending local practices long accepted, expected and in some instances demanded over time by its citizens; and

WHEREAS, of particular concern is prohibiting a county's regulation of storm water more restrictively than provided in state or federal regulations will require Currituck County to repeal its existing storm water regulation that will then decrease by one-half the amount of storm water that development must contain on its property, allow faster release of storm water downstream, further exacerbate flooding and end the county's plan to further reduce storm water impact on property outside of development by requiring upstream and downstream analysis of storm water facilities and outfalls; and

WHEREAS, requiring a county to ignore storm water infrastructure policy and needs specific to its topography will frustrate resiliency efforts that to date are endorsed and encouraged by the state government that now seeks to impede those efforts and result in further inundation of homes and property with flood waters and interference with private property rights.

NOW, THEREFORE, BE IT RESOLVED by the Currituck County Board of Commissioners that:

Section 1. Currituck County is opposed to language in the 2021 Appropriations Act further reducing local control and requests that the North Carolina General Assembly, and in particular the county's legislative delegation Senator Bob Steinberg and Representative Bobby Hanig, oppose any language in the final 2021 Appropriations Act that further reduces local authority and control over the public's health, safety and welfare.

Section 2. The Clerk to the Board of Commissioners is directed to forward a copy of this resolution to the Honorable Tim Moore, Speaker of the House of Representatives, the Honorable Phil Berger, President Pro Tempore of the Senate, Senator Bob Steinberg and Representative Bobby Hanig.

WORK SESSION

1. County Manager Search and Recruitment

A brief recess was called at 6:53 PM. The meeting reconvened at 7:00 PM and the Board held a work session to discuss the County Manager search and recruitment process.

Chairman Payment began the work session by asking Board members to comment on whether they prefer to have County Attorney, Ike McRee, continue in the role of Interim County Manager or to hire someone from the outside to serve as Interim until a new manager is selected. Commissioners discussed the pros and cons of Mr. McRee continuing as Interim and cited his capability, professionalism and knowledge of the County and its history as reasons for him to continue. Concerns were expressed with Mr. McRee serving dual roles as County Manager and County Attorney and the need for someone experienced with budget preparation.

Following discussion, Board members were polled by Chairman Payment and he, Commissioner Mary Etheridge, Commissioner Jarvis, Commissioner McCord and Commissioner White were in favor of Mr. McRee continuing as Interim Manager until a permanent replacement is found.

Commissioners discussed how they wanted to move forward with recruitment. Commissioner Jarvis suggested using a hybrid method, as proposed at a prior Work Session by Neal Emory of the North Carolina Association of County Commissioners. Chairman Payment and Commissioners J. Owen Etheridge and Paul Beaumont agreed to work together to compile information and move the process forward. Commissioners asked staff to provide sample Requests for Proposals (RFPs) to use as templates to hire an executive search firm and to research on-line job sites.

Commissioners chose to require a new manager to reside in the County, allowing ample time for relocation as needed. For future discussion, Commissioner Beaumont will

receive and compile comments from Board members on the experience, qualities and qualifications they want to see in a County Manager for future discussion. There was no further discussion and the Work Session concluded at 7:33 PM.
