

**CURRITUCK COUNTY
NORTH CAROLINA**

January 3, 2022

Minutes – Regular Meeting of the Board of Commissioners

6:00 PM CALL TO ORDER

The Currituck County Board of Commissioners held a regular meeting at 6:00 PM in the Board Meeting Room of the Historic Courthouse, 153 Courthouse Road, Currituck, North Carolina.

Attendee Name	Title	Status	Arrived
Michael H. Payment	Chairman	Absent	
Paul M. Beaumont	Vice Chairman	Present	
J. Owen Etheridge	Commissioner	Present	
Mary "Kitty" Etheridge	Commissioner	Present	
Selina S. Jarvis	Commissioner	Present	
Kevin E. McCord	Commissioner	Present	
Bob White	Commissioner	Absent	

Vice-Chairman Paul Beaumont called the meeting to order. He acknowledged the absence of Chairman Mike Payment and Commissioner Bob White.

A) Invocation & Pledge of Allegiance

Engineer, Mark Bissell, was in attendance and offered the invocation and lead the Pledge of Allegiance.

B) Moment of Silence

Commissioners observed a moment of silence for the loss of a 20 year County Employee, Crawford Fire Chief, Ryland Lee Poyner.

Commissioners also observed a moment of silence for the loss of Veteran Advisory Board member Aaron Sterling.

C) Approval of Agenda

Commissioner Mary Etheridge made a motion to amend the agenda and requested Old Business Items A and B, moved to the next regular meeting due to absent Board Members Commissioner White and Chairman Payment. Commissioner Jarvis seconded the motion, motion failed 2-3, Commissioner Beaumont, J.O. Etheridge and McCord opposed.

Vice Chairman Beaumont moved to amend the agenda to move Public Hearing Item B to the January 18, 2022, meeting and approve the agenda with the Public Hearing 21-24 moved. Commissioner McCord seconded the motion. The motion carried. 5-0

Approved agenda:

6:00 PM Call to Order

- A) Invocation & Pledge of Allegiance
- B) Moment of Silence
- C) Approval of Agenda

Public Comment

Please limit comments to matters other than those appearing on this agenda as a Public Hearing. Public comments are limited to 3 minutes.

Commissioner's Report

County Manager/County Attorney Report

Public Hearings

A) **PB 21-28 Currituck County Text Amendment:** Request to amend the Currituck County Unified Development Ordinance, Chapter 4. Use Standards, to allow Elementary and Middle Schools in the Agriculture and Single-Family Residential-Isolated zoning district subject to a zoning compliance permit.

B) **AMENDED- PB 21-24 W & J Development, LLC** ~~Requests a text amendment to the Unified Development Ordinance to modify the allowable uses and maximum building size in the MXR (Mixed Residential) zoning district.~~

The agenda was amended, and this item was moved to January 18, 2022 BOC Meeting.

C) **PB 21-26 Royal Farms Conditional Rezoning:** Two Farms, Inc. requests conditional rezoning of 3.55-acres from General Business & Single-Family Mainland to Conditional-General Business for properties located south of the

intersection of Caratoke Highway and Walnut Island Blvd.

Old Business

A) Deliberation and Decision for PB 21-25 Flora Farms, Special Use Permit Application

B) Deliberation and Decision for PB 18-23 Fost, Phase 6-9, Preliminary Plat/Special Use Permit Application

New Business

A. Consideration of the Guaranteed Maximum Price for Moyock Middle School Addition and Renovation Project.

B. Consideration of Phase 2 Dune Walk-Over Design Alternates

C. Consideration of the Easement Agreement between Currituck County and Eric B. Kean for Easement Extending from Lot 17 Corolla Bay across Currituck County property to the Currituck Sound.

D. Consent Agenda

1. Budget Amendments
2. Surplus Resolution and Authorization for Corporal Mark Chappell to Purchase His Service Weapon in the Amount of \$1.00 Upon Retirement.
3. Approval Of Minutes for December 17, 2021, Special Meeting and December 20, 2021, Regular Meeting.

Adjourn

RESULT:	APPROVED [UNANIMOUS]
MOVER:	Paul M. Beaumont, Vice Chairman
SECONDER:	Kevin E. McCord, Commissioner
AYES:	Paul M. Beaumont, Vice Chairman, J. Owen Etheridge, Commissioner, Mary "Kitty" Etheridge, Commissioner, Selina S. Jarvis, Commissioner, Kevin E. McCord, Commissioner
ABSENT:	Michael H. Payment, Chairman, Bob White, Commissioner

PUBLIC COMMENT

Please limit comments to matters other than those appearing on this agenda as a Public Hearing. Public comments are limited to 3 minutes.

Vice Chairman Beaumont opened the Public Comment.

No one signed up nor wished to speak. Public Comment was closed

COMMISSIONER'S REPORT

Commissioner Mary Etheridge encouraged community involvement.

Commissioner McCord recognized Corporal Mark Chappell for his retirement from the Currituck County Sheriff's Office along with his K-9. He encouraged community involvement with the Annual Wounded Warrior Project scheduled for the weekend.

Commissioner J.Owen Etheridge, recognized the Weeping Radish Farm Brewery and Butchery located in Jarvisburg, North Carolina and the contribution the family brought to the County. He conveyed well wishes to the new owners.

Vice-Chairman Beaumont encouraged community involvement as a Public Servant.

Commissioners conveyed tribute to Mr. Ryland Poyner and reflected on his role as a Public Servant and wished all a Happy New Year.

COUNTY MANAGER/COUNTY ATTORNEY REPORT

Interim County Manager/County Attorney, (ICM/CA) Ike McRee, presented a map of the Maple Commerce area as a suited location for the Boy Scouts of America to continue their camping program. Mr. McRee discussed the Boy Scouts of America's pervious arrangement and he recommended the Board to proceed with the practice establishing similar terms and conditions. A lease agreement provided at a future meeting. Board consensus was to continue.

Mr. McRee provided an update on the Corolla Civic Association lawsuit against the county challenging the use of occupancy tax revenue. The Pasquotank County Superior Court granted the county's Motion for Judgment in the county's favor.

PUBLIC HEARINGS

A. PB 21-28 Currituck County Text Amendment:

To: Board of Commissioners
From: Planning Staff
Date: December 27, 2021
Subject: PB 21-28 Currituck County Text Amendment
Elementary and Middle Schools in AG and SFI

Background

The enclosed text amendment submitted by the Currituck County Development Services Department is intended to revise Section 4.1.1.A, "Summary Use Table," of the Unified Development Ordinance (UDO) as it relates to:

- Allowing Elementary and Middle Schools in the AG (Agriculture) and SFI (Single-family Residential Isolated) zoning districts subject to a zoning compliance permit instead of a special use permit.

The need for this text amendment became evident when reviewing the submittal criteria for the Moyock Middle School expansion and the new elementary school proposed in Moyock. During this process, it was found that Elementary and Middle Schools were a permitted use requiring only a zoning compliance permit in the SFM, SFO, MXR residential districts and the GB, LB, CC and VC commercial districts. The only two districts where a special use permit is required are the AG and the SFI districts.

Text Amendment Review Standards

The advisability of amending the text of the UDO is a matter committed to the legislative discretion of the Board of Commissioners and is not controlled by any one factor. In determining whether to adopt or deny the proposed text amendment, the Board of Commissioners may weigh the relevance of and consider whether and the extent to which the proposed text amendment:

1. Is consistent with the goals, objectives, and policies of the Land Use Plan and other applicable county-adopted plans;
2. Is not in conflict with any provision of this Ordinance or the County Code of Ordinances;
3. Is required by changed conditions;
4. Addresses a demonstrated community need;
5. Is consistent with the purpose and intent of the zoning districts in this Ordinance, or would improve compatibility among uses and ensure efficient development within the county;
6. Would result in a logical and orderly development pattern; and
7. Would not result in significantly adverse impacts on the natural environment, including but not limited to water, air, noise, stormwater management, wildlife, vegetation, wetlands, and the natural functioning of the environment.

Staff Recommendation

Staff recommends approval of this request subject to the suggested Consistency Statement. It is staff's belief that Elementary and Middle Schools are compatible with the uses permitted in agriculture and residential zoning districts. This amendment will make the approval process for elementary and middle schools more efficient by alleviating the extra time and expense of approval from the Board of Commissioners. It will also provide consistency with the approval process required for Elementary and Middle Schools for all other residential and commercial districts (except for the SFR district, the residential district encompassing the off-road area).

POLICY SFI: Currituck County shall support and actively engage in ADVANCED PLANNING FOR THE LOCATION OF NEW SCHOOLS. Such locations shall serve to reinforce contiguous growth patterns near existing developments rather than promoting sprawl in more rural locations. New schools shall be viewed as a cornerstone of the communities in which they are located and shall serve to proactively influence growth.

This amendment is consistent with this policy in that it expands the number of speculative sites for elementary and middle schools by making the development approval process less laborious in the AG and SFI districts. Elementary and Middle School uses are consistent and compatible with typical uses within the AG and SFI districts, which include single-family sites and cultivated fields, many with

adjacent

commercial uses along major thoroughfares. Consistent with these uses not requiring a special use permit in the other residential zoning districts (not including the off-road area), schools act as cornerstones in residential districts.

By permitting elementary and middle schools in the AG and SFI zoning districts with a zoning compliance permit, rather than requiring a special use permit, the number of speculative sites for new schools is broadened. Additionally, the process for approval of renovations and expansions to existing schools located within those zoning districts becomes more efficient.

POLICY SF2: Currituck County encourages OFFERS OF LAND FOR THE SITING OF NEW SCHOOLS, particularly in conjunction with related community development. Acceptance of such properties shall be based on approved location and design criteria.

This amendment creates an easier path for the construction of new elementary and middle schools in areas where there is undeveloped land remaining in a community. By expanding the zoning districts in which these schools are permitted without the special use permit process, the number of sites that the School Board may be able to consider will expand.

Planning Board Recommendation

On December 14, 2021, the Planning Board recommended approval of the requested text amendment with a 6-0 vote.

Motion

Vice-Chairman Owens moved to **approve PB 21-28** because the request is consistent with Policy SF1 and SF2 of the 2006 Land Use Plan.

Mr. Bass seconded the motion and the motion was approved unanimously 6-0.

Currituck County requests an amendment to the Unified Development Ordinance, Chapter 4 Use Standards to allow elementary and middle schools in the AG and SFI zoning districts subject to a zoning compliance permit.

BE IT ORDAINED by the Board of Commissioners of the County of Currituck, North Carolina that the Unified Development Ordinance of the County of Currituck be amended as follows:

Item 1: That Chapter 4 is amended by deleting the following strikethrough language and adding the underlined language:

TABLE 4.1.1.A: SUMMARY USE TABLE																
USE CATEGORY	USE TYPE	ZONING DISTRICT [NOTE: OVERLAY OR SUB-DISTRICT REQUIREMENTS MAY FURTHER LIMIT USES]												ADDITIONAL REQ. (4.2.____)		
		RC	AG	SFM	SFO	SFR	SFI	MXR	GB	LB	CC	VC	LI		HI	
INSTITUTIONAL USE CLASSIFICATION																
Educational Facilities	College or university								Z	Z	Z	Z				
	School, elementary		Z U	Z	Z		Z U	Z	Z	Z	Z	Z				
	School, middle		Z U	Z	Z		Z U	Z	Z	Z	Z	Z				

Item 2: Staff suggested Consistency Statement:

The requested zoning text amendment is consistent with the 2006 Land Use Plan Policies SF-1 and SF-2:

Item 3: The provisions of this Ordinance are severable and if any of its provisions or any sentence, clause, or paragraph or the application thereof to any person or circumstance shall be held unconstitutional or violative of the Laws of the State of North Carolina by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions which can be given effect without the invalid provision or application.

Item 4: This ordinance amendment shall be in effect from and after the _____ day of ____, 2022.

Development Services Director, Kevin Kemp, reviewed the text amendment with the Board. Mr. Kemp used a powerpoint discussing the background of the request which would provide criteria for the Moyock Middle School expansion and the new elementary school proposed in Moyock. He discussed the zoning districts for schools, and consistency statements were reviewed. Mr. Kemp said the Technical Review Committee (TRC) recommended approval. He presented the findings of fact and responded to questions related to the TRC comments included in the agenda documents.

Vice-Chairman Beaumont opened the public hearing. No one was signed up nor wished to speak and the Public Hearing was closed.

Commissioner J. Owen Etheridge moved to approve PB 21-28 because the request is consistent with Policy SF1 and SF2 of the 2006 Land Use Plan. Commissioner M. Etheridge seconded the motion. The motion carried, 5-0

RESULT:	APPROVED [UNANIMOUS]
MOVER:	J. Owen Etheridge, Commissioner
SECONDER:	Mary "Kitty" Etheridge, Commissioner
AYES:	Paul M. Beaumont, Vice Chairman, J. Owen Etheridge, Commissioner, Mary "Kitty" Etheridge, Commissioner, Selina S. Jarvis, Commissioner, Kevin E. McCord, Commissioner
ABSENT:	Michael H. Payment, Chairman, Bob White, Commissioner

B. AMENDED-PB 21-24 W & J Development, LLC

The agenda was amended, and this item was moved to January 18, 2022 BOC Meeting

RESULT:	CONTINUED WITH NO VOTE	Next: 1/18/2022 6:00 PM

C. PB 21-26 Royal Farms Conditional Rezoning:

APPLICATION SUMMARY	
Property Owner: Multiple Property Owners: See attachment A	Applicant: Two Farms, Inc. c/o Ward and Smith, P.A. 120 W Fire Tower Rd. Greenville, NC 28590 Attn: Drake Brinkley/Clint Cogburn
Case Number: PB 21-26	Application Type: Conditional Rezoning
Parcel Identification Number: 1) 0107000059A0000 2) 0107000061A0000 3) 010700000620000 4) 0107000067A0000	Existing Use: 1) Retail 2) Vacant 3) Vacant 4) Single Family Dwelling
Land Use Plan Classification: Full Service	Parcel Size (Acres): 3.55
	Zoning History: Recreational Residential – 1989 General Business – 2013
Current Zoning: General Business	Proposed Zoning: Conditional General Business
Request: Conditional rezoning of multiple properties currently zoned General Business and Single- Family Mainland to Conditional General Business to allow construction of a convenience store with fuel sales. The properties are located on the south side of the intersection of Caratoke Hwy. and Walnut Island Blvd. in Grandy, Poplar Branch Township.	

NARRATIVE

The applicant is requesting conditional rezoning of four parcels, including three General Business parcels and one Single Family Mainland parcel, which have a combined area of 3.55 acres and are proposed to be zoned Conditional-General Business. The parcels will be recombined to accommodate a new Royal Farms convenience store with fuel sales. Historically, located at the corner of Caratoke Hwy. and Walnut Island Blvd was a 7-Eleven convenience store with fuel sales. However, currently the building is being used for retail sales and the fuel tanks and pumps have been removed. The applicant has been working closely with staff, during the concurrent major site plan review process, to achieve a development that will enhance the grandy commercial area while remaining in harmony with the surrounding communities. The community compatibility standards of

the UDO provide requirements for the appearance of the rear of the site and building, which will ease the transition from the convenience store to Walnut Island subdivision.

COMMUNITY MEETING

- 1) Time/Location. The community meeting ("Community Meeting") was held at 5:30 PM on Tuesday, September 14, 2021, at the Jarvisburg Church of Christ located at 121 Forbes Road, Jarvisburg, NC 27947. Enclosed is a copy of the notice that was mailed to the provided list of nearby property owners, and a copy of that provided list.
- 2) Attendees. In attendance at the Community Meeting on behalf of Two Farms, Inc. were Drake Brinkley of Ward and Smith, P.A., Andrew Mueller of BL Companies, and William McAnally of BL Companies. The following individuals signed the attendee sheet at the Community Meeting: Teresa MacPherson, Jim Branthask, Steve Danna, Nancy M. Walker, Barry M. Walker, Robert S. Seelow, Jim Hoverbrook, Mike Payment, Michele Thomas, Curtis Inge, Matthew Sweeley, Leslie Knoffler, and Colon Grandy (please note we have attempted to spell the preceding names correctly based on the handwritten names provided by such attendees). Jason Litteral attended on behalf of the Currituck County planning staff. Enclosed is a redacted version of the sign in sheet provided at the meeting.
- 3) Material Discussed / Issues Relates to Application. Drake Brinkley introduced the project to the attendees. He discussed the proposed use, a Royal Farms convenience store with gasoline sales. He, and those in attendance from BL companies, explained the current conceptual design. Drake also explained the conditional rezoning process, the current status of the project in the process, and the projected target dates for future steps in the conditional rezoning process.
- 4) Summary of Attendee Comments. The Two Farms, Inc. team fielded a variety of questions about the project, primarily about ingress/egress locations, traffic impacts along both Caratoke Highway and Walnut Island Blvd., and how the back parcel (the current single-family parcel) would be utilized.
- 5) Addressing Attendee Comments. The Two Farms, Inc. team provided information in response to the various questions asked by attendees. With regard to how the back parcel (single-family parcel) would be utilized, the current conceptual plan was shown to the attendees, and it was explained that based on the current conceptual design the store and parking would not be located on the back parcel. Regarding the various questions associated with traffic and ingress/egress concerns, the current conceptual plan was explained to the attendees, and additionally, it was noted that much of the design associated with such topics will be dependent on the DOT analysis. The Two Farms, Inc. team welcomed any additional questions/comments from attendees.

CONDITIONS OF APPROVAL

The applicant submitted the following conditions of approval:

1. All permitted uses in the General Business ((IB) zoning district shall be allowed, except for the following:
 - a. Equestrian Facility
 - b. Farmers Market
 - c. Nursery, Production
 - d. Agricultural Research Facility
 - e. Distribution Hub for Agricultural and Agronomic Products
 - f. Farm Machinery Sale, Rental, and Service
 - g. Agricultural Retail Facility
 - h. Silviculture
 - i. Dormitory
 - j. Family Care Home
 - k. Rooming or Boarding House
 - l. Adult Day Care Center
 - m. Child Care Center

- n. All Educational Facilities
- o. All Government Facilities
- p. All Health Care Facilities
- q. All Institutions
- r. All Public Safety
- s. All Transportation
- t. Animal Shelter
- u. Kennel
- v. All Parking, Commercial
- w. All Recreation/Entertainment, Indoor
- x. All Recreation/Entertainment, Outdoor
- y. Bar, Nightclub, or Cocktail Lounge
- z. Entertainment Establishment
- aa. Funeral Home
- bb. Pawn Shop
- cc. Shopping Center
- dd. Winery
- ee. All Vehicle Sales and Services, Heavy ff. Automotive
Parts and Installation
- gg. Automobile Repair and Servicing (Including Painting/Bodywork)
- hh. Automobile Sales or Rentals
- ii. Taxicab Service
- jj. All Visitor
- kk. All Accommodations
- ll. All Industrial Uses

SURROUNDING PARCELS

	Land Use	Zoning
North	Hardee's	General Business
South	Vacant	General Business/Single Family Mainland
East	Walnut Island Subdivision	Single Family Mainland
West	Dunkin Donuts/Convenience/Fuel Sales	General Business

LAND USE PLAN

The 2006 Land Use Plan classifies this site as Full Service within the Grandy subarea. The policy emphasis for the Grandy subarea is to allow Grandy to further evolve as a community center in its own right. The proposed plan is consistent with the policies of the plan, some of which are:

Policy CD2	Commercial and office development of greater than a neighborhood scale shall be encouraged to cluster in COMMERCIAL OR MIXED-USE CENTERS to curtail the proliferation of strip development and minimize traffic generation.
Policy CD4	HIGHWAY ORIENTED COMMERCIAL USES should be clustered along segments of highways and contain land uses which are mutually compatible and reinforcing in use and design; they should be designed in such a way as to minimize signage, access points, and to prevent unsightly, dysfunctional STRIP DEVELOPMENT.

Policy ED1	NEW AND EXPANDING INDUSTRIES AND BUSINESSES should be especially encouraged that: 1) diversify the local economy, 2) train and utilize a more highly skilled labor force, and 3) are compatible with the environmental quality and natural amenity-based economy of Currituck County.
---------------	---

Technical Review Committee

The Technical Review Committee recommends approval of the conditional rezoning subject to the following conditions:

1. Modify the rear building elevation to fully comply with the community compatibility standards of the UDO.

The applicant has been working closely with staff to meet the community compatibility standards. This will be resolved prior to approval of the Major Site Plan.

Planning Board

On December 14, 2021, the Planning Board recommended approval of the requested conditional rezoning with a 6-0 vote.

Motion

Mr. Bass moved to move to **approve PB 21-26**, with agreed upon conditions, because the request is consistent with Land Use Plan policies:

- CD2
- CD4
- ED1

And the request is reasonable and in the public interest because it results in a logical and orderly development pattern.

Mr. Hurley seconded the motion and the motion carried unanimously 6-0.

A conditional zoning is a legislative decision of the Board of Commissioners. In determining whether to approve or deny a conditional rezoning the Board of Commissioners shall adopt a written statement of consistency and reasonableness.

This conditional zoning request is:

- 1) ***consistent with the goals, objectives, and policies of the Land Use Plan, other applicable county-adopted plans, and the purposes of this Ordinance.***
- 2) ***is compatible with existing and proposed uses surrounding the land subject to the application and is the appropriate zoning district and uses for the land.***

It is reasonable and in the public interest because it:

- 1) ***would result in a logical and orderly development pattern.***
- 2) ***would not conflict with the public interest and is in harmony with the purposes and intent of this Ordinance.***

CONDITIONS OF APPROVAL

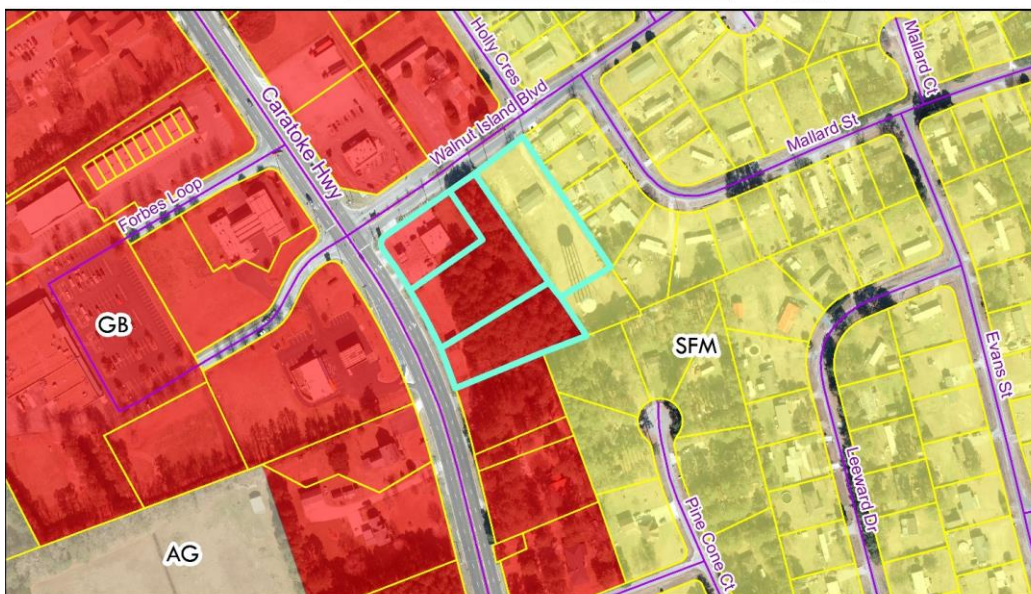

Only conditions mutually agreed to by the owner(s) may be approved as part of a conditional zoning district. Conditions shall be limited to those that address conformance of development and use of the site with county regulations and adopted plans and that address the impacts reasonably expected to be generated by the development or use. No condition shall be less restrictive than the standards of the parallel general use zoning district.

Agreed upon conditions of approval:

1. **Front elevation fenestration shall be increased to 50 percent.**
2. **The front elevation shall include a pitched roof element.**

Development Services Director, Kevin Kemp, reviewed the conditional rezoning application with Commissioners. A powerpoint displayed location maps and zoning for the subject property and surrounding parcels. He discussed the traffic analysis, consistency and reasonableness statements were reviewed. Mr. Kemp said the Technical Review Committee (TRC) recommended approval. He presented the findings of fact and responded to questions related to the TRC comments included in the agenda documents.

Attorney for the applicant, Clinton Cogburn, provided testimony of the clients and the proposed development site. Mr. Cogburn responded to the Boards questions and

introduced Senior Project Manager, Bill McAnally, with BL Companies. Mr. McAnally discussed the proposed fuel site, and the traffic impact analysis.

Vice-Chairman Beaumont opened the public hearing. No one was signed up nor wished to speak and the Public Hearing was closed.

Commissioner Jarvis moved to approve PB 21-26, with agreed upon conditions, because the request is consistent with the Land Use Plan policies CD2, CD4, and ED1 and the request is reasonable and in the public interest because it results in a logical and orderly development pattern Commissioner McCord seconded the motion. The motion carried. 5-0.

Vice-Chairman Beaumont called for a brief recess at 7:05 PM. The meeting reconvened at 7:15 PM.

RESULT:	APPROVED [UNANIMOUS]
MOVER:	Selina S. Jarvis, Commissioner
SECONDER:	Kevin E. McCord, Commissioner
AYES:	Paul M. Beaumont, Vice Chairman, J. Owen Etheridge, Commissioner, Mary "Kitty" Etheridge, Commissioner, Selina S. Jarvis, Commissioner, Kevin E. McCord, Commissioner
ABSENT:	Michael H. Payment, Chairman, Bob White, Commissioner

OLD BUSINESS

A. Deliberation and Decision for PB 21-25 Flora Farms, Special Use Permit Application

Vice-Chairman Beaumont opened discussion and deliberation to the Board.

Commissioner Jarvis expressed her concern of the growth occurring in the county and the school capacity numbers provided for the mobile classrooms do not fulfill an adequate education for students, nor does it exemplify adequacy for cafeterias, gymnasiums, playgrounds, common areas, nor auditoriums. She said approving the preliminary plates does not ensure adequacy for our children and she is not against growth, welcomes visitors to become residents but the growth is outpacing the county facilities and advocates to slow down the phasing process.

Commissioner McCord mentioned the school district lines, population of surrounding schools operating over capacity, and suggested aggressive phasing schedule to establish adequate facilities.

Commissioner Mary Etheridge referenced the rules and regulations in the UDO adopted by the Board September 13, 1994. Mrs. Etheridge echoed Commissioner Jarvis stating she is not against growth, but growth needs to be managed, allowing the schools to catch up.

Vice Chairman Beaumont expressed that he does not like the language of the UDO and the lack of specific aspects of adequate state standards.

The Board discussed the school capacity, requested for each phase schedule to push back an additional 6 months and the applicant's attorney Jamie Schwedler, answered Commissioner questions regarding the phase timeline referenced in agenda packet. The applicant agreed to Phase 1 to December 1, 2022. Phase 2 to June 1, 2023, Phase 3 to December 1, 2023, Phase 4 to March 1, 2025 and Phase 5 to September 1, 2025.

Commissioner McCord moved to approve PB 21-25 Flora Farms, Preliminary Plat/Special Use Permit, because the applicant has demonstrated the proposed use meets the special use permit review standards of the UDO. Special Use Permit review standards based with the phase and to Phase 1 to December 1, 2022. Phase 2 to June 1, 2023, Phase 3 to December 1, 2023, Phase 4 to March 1, 2025 and Phase 5 to September 1, 2025. The use will not endanger the public health or safety. The use will not injure the value of adjoining or abutting lands and will be in harmony with the area in which it is located. The use will be in conformity with the 2013 Land Use Plan. The statutory regulations were met, and the applicant has met their burden to prove their case.

Commissioner J. Owen Etheridge seconded the motion. Motion carried, 3-2. Commissioner Jarvis and Commissioner Mary Etheridge opposed.

RESULT:	APPROVED [3 TO 2]
MOVER:	Kevin E. McCord, Commissioner
SECONDER:	J. Owen Etheridge, Commissioner
AYES:	Paul M. Beaumont, Vice Chairman, J. Owen Etheridge, Commissioner, Kevin E. McCord, Commissioner
NAYS:	Mary "Kitty" Etheridge, Commissioner, Selina S. Jarvis, Commissioner
ABSENT:	Michael H. Payment, Chairman, Bob White, Commissioner

B. Deliberation and Decision for PB 18-23 Fost, Phase 6-9, Preliminary Plat/Special Use Permit Application

Vice-Chairman Beaumont opened discussion and deliberation to the Board. The applicant offered to push back the Fost Phases 6-9 to a full year from prior offer. Phase 6 to August 2023, Phase 7 to February. 2024, and Phase 8-9 to August 2025.

Commissioner J. Owen Etheridge move to approve PB 18-23 Fost, Phases 6-9, Preliminary Plat/Special Use Permit because the applicant has demonstrated the proposed use meets the special use permit review standards of the UDO. They have presented competent evidence that the use will not endanger the public health or safety. The use will not injure the value of adjoining or abutting lands and will be in harmony with the area in which it is located. The use will be conformity with the Land Use Plan and other officially adopted plans, specifically the 2006 Land Use Plan and the 2014 Land Use Plan and that is used for the County's ability to provide adequate public facilities with the phasing schedule being moved back Phase 6 to August 2023, Phase 7 to February. 2024, and Phase 8-9 to

August 2025.

Commissioner McCord seconded the motion. Motion carried, 3-2. Commissioner Jarvis and Commissioner Mary Etheridge opposed.

To: Board of Commissioners

From: Planning Staff

Date: December 27, 2021

Subject: PB 21-28 Currituck County Text Amendment
 Elementary and Middle Schools in AG and SFI

Background

The enclosed text amendment submitted by the Currituck County Development Services Department is intended to revise Section 4.1.1.A, "Summary Use Table," of the Unified Development Ordinance (UDO) as it relates to:

- Allowing Elementary and Middle Schools in the AG (Agriculture) and SFI (Single-family Residential Isolated) zoning districts subject to a zoning compliance permit instead of a special use permit.

The need for this text amendment became evident when reviewing the submittal criteria for the Moyock Middle School expansion and the new elementary school proposed in Moyock. During this process, it was found that Elementary and Middle Schools were a permitted use requiring only a zoning compliance permit in the SFM, SFO, MXR residential districts and the GB, LB, CC and VC commercial districts. The only two districts where a special use permit is required are the AG and the SFI districts.

Text Amendment Review Standards

The advisability of amending the text of the UDO is a matter committed to the legislative discretion of the Board of Commissioners and is not controlled by any one factor. In determining whether to adopt or deny the proposed text amendment, the Board of Commissioners may weigh the relevance of and consider whether and the extent to which the proposed text amendment:

1. Is consistent with the goals, objectives, and policies of the Land Use Plan and other applicable county-adopted plans;
2. Is not in conflict with any provision of this Ordinance or the County Code of Ordinances;
3. Is required by changed conditions;
4. Addresses a demonstrated community need;
5. Is consistent with the purpose and intent of the zoning districts in this Ordinance, or would improve compatibility among uses and ensure efficient development within the county;
6. Would result in a logical and orderly development pattern; and

7. Would not result in significantly adverse impacts on the natural environment, including but not limited to water, air, noise, stormwater management, wildlife, vegetation, wetlands, and the natural functioning of the environment.

Staff Recommendation

Staff recommends approval of this request subject to the suggested Consistency Statement. It is staff's belief that Elementary and Middle Schools are compatible with the uses permitted in agriculture and residential zoning districts. This amendment will make the approval process for elementary and middle schools more efficient by alleviating the extra time and expense of approval from the Board of Commissioners. It will also provide consistency with the approval process required for Elementary and Middle Schools for all other residential and commercial districts (except for the SFR district, the residential district encompassing the off-road area).

POLICY SF1: Currituck County shall support and actively engage in ADVANCED PLANNING FOR THE LOCATION OF NEW SCHOOLS. Such locations shall serve to reinforce contiguous growth patterns near existing developments rather than promoting sprawl in more rural locations. New schools shall be viewed as a cornerstone of the communities in which they are located and shall serve to proactively influence growth.

This amendment is consistent with this policy in that it expands the number of speculative sites for elementary and middle schools by making the development approval process less laborious in the AG and SFI districts. Elementary and Middle School uses are consistent and compatible with typical uses within the AG and SFI districts, which include single-family sites and cultivated fields, many with adjacent commercial uses along major thoroughfares. Consistent with these uses not requiring a special use permit in the other residential zoning districts (not including the off-road area), schools act as cornerstones in residential districts.

By permitting elementary and middle schools in the AG and SFI zoning districts with a zoning compliance permit, rather than requiring a special use permit, the number of speculative sites for new schools is broadened. Additionally, the process for approval of renovations and expansions to existing schools located within those zoning districts becomes more efficient.

POLICY SF2: Currituck County encourages OFFERS OF LAND FOR THE SITING OF NEW SCHOOLS, particularly in conjunction with related community development. Acceptance of such properties shall be based on approved location and design criteria.

This amendment creates an easier path for the construction of new elementary and middle schools in areas where there is undeveloped land remaining in a community. By expanding the zoning districts in which these schools are permitted without the special use permit process, the number of sites that the School Board may be able to consider will expand.

Planning Board Recommendation

On December 14, 2021, the Planning Board recommended approval of the requested text amendment with a 6-0 vote.

Motion

Vice-Chairman Owens moved to **approve PB 21-28** because the request is consistent with Policy SF1 and SF2 of the 2006 Land Use Plan.

Mr. Bass seconded the motion and the motion was approved unanimously 6-0.

**PB 21-28 CURRITUCK COUNTY
TEXT AMENDMENT
BOARD OF COMMISSIONERS
JANUARY 3, 2022**

Currituck County requests an amendment to the Unified Development Ordinance, Chapter 4 Use Standards to allow elementary and middle schools in the AG and SFI zoning districts subject to a zoning compliance permit.

BE IT ORDAINED by the Board of Commissioners of the County of Currituck, North Carolina that the Unified Development Ordinance of the County of Currituck be amended as follows:

Item 1: That Chapter 4 is amended by deleting the following strikethrough language and adding the underlined language:

TABLE 4.1.1.A: SUMMARY USE TABLE

USE CATEGORY	USE TYPE	ZONING DISTRICT [NOTE: OVERLAY OR SUB-DISTRICT REQUIREMENTS MAY FURTHER LIMIT USES]												ADDITIONAL REQ. (4.2.____)

Agenda Item Title: PB 21-24 W & J Development, LLC:

Submitted By: Donna Voliva – Planning & Community Development

Item Type: Legislative

Presenter of Item: Donna Voliva

Board Action: Action

Brief Description of Agenda Item:

Requests a text amendment to the Unified Development Ordinance to modify the allowable uses and maximum building size in the MXR (Mixed Residential) zoning district.

Planning Board Recommendation: Approval

Staff Recommendation: Denial

TRC Recommendation:

Currituck County

Development Services Department
 Planning and Zoning Division
 153 Courthouse Road Suite 110
 Currituck NC 27929
 252-232-3055 Fax 252-232-3026

To: Board of Commissioners
 From: Planning Staff
 Date: December 27, 2021
 Subject: PB 21-24 W & J Development LLC Text Amendment

Request

W&J Development, LLC submitted a text amendment to the Unified Development Ordinance (UDO) that would amend Chapter 3 dimensional standards for the Mixed Residential (MXR) zoning district and allow commercial buildings up to 10,000 square feet on lots fronting major arterial streets. In addition, the request includes language to amend Chapter 4 that would allow restaurants, grocery stores, retail sales establishments, and shopping centers in the MXR district with a zoning compliance permit.

Background

The MXR zoning district was established with the adoption of the 2013 UDO by reclassifying the Mixed Residential (RA) zoning district to the MXR district. The UDO identifies the MXR zoning district as a residential zoning district and limits the building area and intensity of neighborhood serving commercial uses due to the residential designation of the district. As provided in Section 3.4.6, District Purpose, the MXR district is established to accommodate a variety of residential use types at moderate densities with very low intensity neighboring serving commercial, personal service and institutional uses outside of a community and village center. The UDO limits commercial and personal uses in the MXR district to a maximum of 2,500 square feet per building. Larger size buildings are permitted in business districts such as General Business (GB) or Limited Business (LB), and if the building is more than 5,000 square feet a special use permit is required when located outside of full-service designation. In the MXR district, lands designated with non-residential uses can be used to calculate overall residential density.

2006 Land Use Plan

The Land Use Plan (LUP) does not provide detailed policies related to a particular size or type of uses for neighborhood serving commercial. However, the following policies are relevant to general neighborhood serving commercial development, but do not necessarily support the amendment:

COMMERCIAL DEVELOPMENT POLICIES

POLICY CD2: Commercial and office development of greater than a neighborhood scale shall be encouraged to cluster in COMMERCIAL OR MIXED-USE CENTERS to curtail the proliferation of strip development, and minimize traffic generation.

POLICY CD5: Incompatible or poorly planned COMMERCIAL ENCROACHMENT within or immediately adjoining existing residential areas shall be prohibited. Such incompatible encroachments often exclude, but are not limited to, large scale commercial uses or automobile oriented commercial uses such as service stations, car lots, car washes, drive through restaurants, and the like.

POLICY CD8: MIXED-USE DEVELOPMENT, properly planned from the outset, which allow for a compatible mixture of residential and non-residential uses with a pedestrian scale and design, are encouraged. Similarly, businesses may be located adjoining (and therefore convenient to) an existing residential area, when such businesses can be shown to satisfy design considerations similar to a newly planned, pedestrian-scale, mixed use development.

Staff commentary: The MXR district is a transitional residential district that typically would be located between residential zoning (single family) and more intense commercial zoning (GB). Commercial uses greater than a neighborhood scale should be located in commercial or mixed-use districts and not the residential district.

Staff Comments Regarding the Proposed Request

Planning staff identified concerns with the proposed text amendment at the pre-application meeting and after the application was submitted. The applicant is considering a development plan for a particular site and staff suggested options at that time to facilitate the proposed development. The properties being considered include GB zoned lands adjacent to the major arterial street that will accommodate the commercial development at the proposed size and intensity.

Since the MXR district is a residential zoning district with very low-density neighboring serving commercial, uses such as shopping centers, grocery stores, and larger scale retail establishments are not permitted in the district. The current ordinance allows:

1. More intense larger scale commercial uses in the General Business (GB) zoning district in areas typically located on major arterials and in full-service areas; and,
2. A mixture of housing types in the MXR district.

The proposed language attempts to combine uses and intensity of uses found in the GB district and in some instances less restrictive than the GB district. This type of amendment could create an imbalance in the zoning district standards and Summary Use Table. Staff suggested the applicant consider other options to address the concerns and comments including:

1. Exclude GB lands from the request to reduce the limitations on current GB zoned property. Only include the areas intended for multi-family, open space, and smaller less intense commercial land uses in the MXR zoning district.
2. A maximum 5,000 square foot building single tenant for properties in the MXR with a full-service land use designation located on a major thoroughfare and maintain 2,500 square foot building maximum within the limited-service land use designation. Although this is an option, it is not the more preferred option.
3. Establish a mixed-use zoning district.
4. Evaluate the Commercial Center (CC) zoning district standards. This district requires a small area plan or civic master plan that includes the development area.

Text Amendment Review Standards

The advisability of amending the text of the UDO is a matter committed to the legislative discretion of the Board of Commissioners and is not controlled by any one factor. In determining whether to adopt or deny the proposed text amendment, the Board of Commissioners may weigh the relevance of and consider whether and the extent to which the proposed text amendment:

1. Is consistent with the goals, objectives, and policies of the Land Use Plan and other applicable county-adopted plans;
2. Is not in conflict with any provision of this Ordinance or the County Code of Ordinances;
3. Is required by changed conditions;
4. Addresses a demonstrated community need;
5. Is consistent with the purpose and intent of the zoning districts in this Ordinance, or would improve compatibility among uses and ensure efficient development within the county;
6. Would result in a logical and orderly development pattern; and
7. Would not result in significantly adverse impacts on the natural environment, including but not limited to water, air, noise, stormwater management, wildlife, vegetation, wetlands, and the natural functioning of the environment.

Staff Recommendation

The staff recommendation on the proposed text amendment involves concluding whether the application complies with all applicable review standards (Text Amendment Review Standards). As presented, staff recommends denial of the proposed text amendment because the proposed amendment:

1. Is in conflict with the UDO by creating intensity discrepancies between the MXR zoning district and the business districts; and,
2. Is not consistent with the purpose and intent of the MXR zoning district.

And, the request will not result in a logical and orderly development pattern since the proposed language increased the intensity of business use types in a residential district and creates inconsistencies between the MXR, a residential zoning district, and business districts.

Planning Board Recommendation

On December 14, 2021, the Planning Board recommended approval of the requested text amendment with a 5-1 vote.

Motion

Mr. Doll moved to **deny PB 21-24** because the request is not consistent with the Unified Development Ordinance and will not result in a logical and orderly development pattern because:

1. The amendment establishes intensity and use discrepancies between the MXR zoning district and the business districts; and,
2. Is not consistent with the purpose and intent of the MXR zoning district.

The request is not consistent with Policies CD2, CD5, and CD8 of the 2006 Land Use Plan and will not result in a logical and orderly development pattern since the proposed language increased the intensity of business use types in a residential district and creates inconsistencies between the MXR, a residential zoning district, and business districts.

Chairman Ballance asked for a second on the motion to deny the request. There was no second and the motion failed.

Chairman Ballance motioned to **approve PB 21-24** because the request is consistent with the Land Use Plan and Unified Development Ordinance and is in the public interest.

Mr. Hurley seconded the motion and the motion was approved with a 5-1 vote; Mr. Doll voting nay.

PB 21-24 W & J DEVELOPMENT, LLC
TEXT AMENDMENT
BOARD OF COMMISSIONERS
JANUARY 3, 2022

Amendment to the Unified Development Ordinance, Chapter 3. Zoning Districts and Chapter 4. Use Standards to modify the allowable uses and building size in the MXR (Mixed Residential) zoning district.

BE IT ORDAINED by the Board of Commissioners of the County of Currituck, North Carolina that the Unified Development Ordinance of the County of Currituck be amended as follows:

Item 1: That Chapter 3, Section 3.4.6., Mixed Residential (MXR) District is amended by adding the underlined language:

D. DIMENSIONAL STANDARDS					
CD=COTTAGE DEVELOPMENT					
	Residential Single-Family Detached	Multi-Family CD Other		Nonresidential	
Max. Gross Density, Full-Service Area (du/ac)	2.0	3.0	3.0	2.0	
Max. Gross Density, Limited-Service Area (du/ac)	1.0	1.5	1.5	1.0	
Max. FAR (%)	N/A	N/A	N/A	0.40	
Min. Lot Area/Dwelling Unit (sq ft) [1]	15,000	N/A	N/A	20,000	1
Min. Open Space Set-Aside (% of development size) [2]	30	40	30	10	2
Min. Lot Width (corner or interior lots) (ft)	100	100 [3]	100[3]	200 [3]	3
Max. Lot Coverage (%)	30	40 [3]	40 [3]	65 [3]	
Perimeter Building Wall Setbacks (from development boundaries)					
Front and Corner Side Setback (ft)	20	20	50	20	4
Major Arterial Street Setback (ft)	50	50	50	50	
Side Setback (ft) [5]	10	10 [3]	15	15	5
Rear Setback (ft)	25	30[3]	30[3]	30	6
Min. Agricultural Setback (ft) [4]	50	50	50	50	
Min. Accessory Use Setback (ft)	10	10[3]	10	10	7
Min. Driveway/Parking Setback (ft)	10	10 [3]	10 [3]	10 [3]	8
Min. Fill Setback from Perimeter Lot Line	10	10	10	10	
Min. Wetland/Riparian Buffer (ft) [4]	30	30	30	30	
Max. Building Height (ft)	35	35	35	35	
Min. Spacing Between Buildings (ft)[5] [6]	20	20	20	20	9
Max. Building Length (ft)	N/A	N/A	250	[7]	0

Attachment: PB 21-24 W&J Development LLC TA Staff Report (PB 21-24 W & J Development, LLC)

- [1] Maximum lot depth shall not exceed four times the lot width
 [2] Applied to subdivisions platted after UDO effective date
 [3] Applied to entire development, not individual building lots
 [4] Applied to major subdivisions platted after January 1, 2013 and site plans on lots 10 acres in area and greater

- [5] Setbacks are subject to needed fire flow based on the ISO method
 [6] Not applied to individual units in a zero lot line development
 [7] Commercial and personal service uses are limited to a maximum size of 2,500 square feet per building, unless the site fronts on a major arterial, in which case the maximum building size will be 10,000 square feet.

Item 2: That Chapter 4, Table 4.1.1.A., Summary Use Table is amended by adding the underlined language and removing the strikethrough language:

TABLE 4.1.1.A: SUMMARY USE TABLE

Z = Zoning Compliance Permit; U = Special Use Permit; MP = Allowed with Master Plan;
 CZ= Allowed in a Conditional Zoning District blank cell = Prohibited

USE CATEGORY	USE TYPE	ZONING DISTRICT [NOTE: OVERLAY OR SUB-DISTRICT REQUIREMENTS MAY FURTHER LIMIT USES]													ADDITIONAL REQ. (4.2.____)
		RC	AG	SFM	SFO	SFR	SFI	MXR	GB	LB	CC	VC	LI	HI	
COMMERCIAL USE CLASSIFICATION															
Eating Establishments	Dinner theater								Z	Z	Z	Z			
	Restaurant, with indoor or outdoor seating							<u>Z*</u>	Z	Z	Z	Z	Z		4.C
	Specialty eating establishment							Z	Z	Z	Z	Z	Z		
Retail Sales & Services	Grocery store							<u>Z*</u>	Z		Z				
	Retail sales establishments							<u>Z*</u>	Z	Z	Z	Z			
	Shopping center							<u>Z*</u>	U		Z	Z			4.G4

*Uses shown with an asterisk apply to sites that front on a major arterial

Item 3: Staff suggested Statement of Consistency

The proposed text amendment is not consistent with the Unified Development Ordinance and will not result in a logical and orderly development pattern because:

1. The amendment establishes intensity and use discrepancies between the MXR zoning district and the business districts; and,
3. Is not consistent with the purpose and intent of the MXR zoning district.

Item 4: The provisions of this Ordinance are severable and if any of its provisions or any sentence, clause, or paragraph or the application thereof to any person or circumstance shall be held unconstitutional or violative of the Laws of the State of North Carolina by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions which can be given effect without the invalid provision or application.

Item 5: This ordinance amendment shall be in effect from and after the _____ day of _____, 2021.

Max. Building Length (ft)	N/A	N/A	250	[7]	10

[1] Maximum lot depth shall not exceed four times the lot width
 [2] Applied to subdivisions platted after UDO effective date
 [3] Applied to entire development, not individual building lots
 [4] Applied to major subdivisions platted after January 1, 2013 and site plans on lots 10 acres in area and greater

[5] Setbacks are subject to needed fire flow based on the ISO method
 [6] Not applied to individual units in a zero lot line development
 [7] Commercial and personal service uses are limited to a maximum size of 2,500 square feet per building, unless the site fronts on a major arterial, in which case the maximum building size will be 10,000 square feet.

Currituck County Agenda Item Summary Sheet

Agenda ID Number – 3300

Agenda Item Title: PB 21-26 Royal Farms Conditional Rezoning:

Submitted By: Jennie Turner – Planning & Community Development

Item Type: Legislative

Presenter of Item: Jason Litteral

Board Action: Action

Brief Description of Agenda Item:

Two Farms, Inc. requests conditional rezoning of 3.55-acres from General Business & Single-Family Mainland to Conditional-General Business for properties located south of the intersection of Caratoke Highway and Walnut Island Blvd.

Planning Board Recommendation: Approval with Conditions

Staff Recommendation: Approval with Conditions

TRC Recommendation: Approval with Conditions

**STAFF REPORT
PB 21-26 ROYAL FARMS
CONDITIONAL ZONING
BOARD OF COMMISSIONERS
JANUARY 3, 2022**

APPLICATION SUMMARY

Property Owner: Multiple Property Owners: See attachment A	Applicant: Two Farms, Inc. c/o Ward and Smith, P.A. 120 W Fire Tower Rd. Greenville, NC 28590 Attn: Drake Brinkley/Clint Cogburn
Case Number: PB 21-26	Application Type: Conditional Rezoning
Parcel Identification Number: 1) 0107000059A0000 2) 0107000061A0000 3) 010700000620000 4) 0107000067A0000	Existing Use: 1) Retail 2) Vacant 3) Vacant 4) Single Family Dwelling
Land Use Plan Classification: Full Service	Parcel Size (Acres): 3.55
	Zoning History: Recreational Residential – 1989 General Business – 2013
Current Zoning: General Business	Proposed Zoning: Conditional General Business
Request: Conditional rezoning of multiple properties currently zoned General Business and Single-Family Mainland to Conditional General Business to allow construction of a convenience store with fuel sales. The properties are located on the south side of the intersection of Caratoke Hwy. and Walnut Island Blvd. in Grandy, Poplar Branch Township.	

REQUEST

NARRATIVE

The applicant is requesting conditional rezoning of four parcels, including three General Business parcels and one Single Family Mainland parcel, which have a combined area of 3.55 acres and are proposed to be zoned Conditional-General Business. The parcels will be recombined to accommodate a new Royal Farms convenience store with fuel sales. Historically, located at the corner of Caratoke Hwy. and Walnut Island Blvd was a 7-Eleven convenience store with fuel sales. However, currently the building is being used for retail sales and the fuel tanks and pumps have been removed. The applicant has been working closely with staff, during the concurrent major site plan review process, to achieve a development that will enhance the grandy commercial area while remaining in harmony with the surrounding communities. The community compatibility standards of the UDO provide requirements for the appearance of the rear of the site and building, which will ease the transition from the convenience store to Walnut Island subdivision.

COMMUNITY MEETING

- 1) Time/Location. The community meeting ("Community Meeting") was held at 5:30PM on Tuesday, September 14, 2021, at the Jarvisburg Church of Christ located at 121 Forbes Road, Jarvisburg, NC 27947. Enclosed is a copy of the notice that was mailed to the provided list of

nearby property owners, and a copy of that provided list.

- 2) Attendees. In attendance at the Community Meeting on behalf of Two Farms, Inc. were Drake Brinkley of Ward and Smith, P.A., Andrew Mueller of BL Companies, and William McAnally of BL Companies. The following individuals signed the attendee sheet at the Community Meeting: Teresa MacPherson, Jim Branthask, Steve Danna, Nancy M. Walker, Barry M. Walker, Robert S. Seelow, Jim Hoverbrook, Mike Payment, Michele Thomas, Curtis Inge, Matthew Sweeley, Leslie Knoffler, and Colon Grandy (please note we have attempted to spell the preceding names correctly based on the handwritten names provided by such attendees). Jason Litteral attended on behalf of the Currituck County planning staff. Enclosed is a redacted version of the sign in sheet provided at the meeting.
- 3) Material Discussed / Issues Relates to Application. Drake Brinkley introduced the project to the attendees. He discussed the proposed use, a Royal Farms convenience store with gasoline sales. He, and those in attendance from BL companies, explained the current conceptual design. Drake also explained the conditional rezoning process, the current status of the project in the process, and the projected target dates for future steps in the conditional rezoning process.
- 4) Summary of Attendee Comments. The Two Farms, Inc. team fielded a variety of questions about the project, primarily about ingress/egress locations, traffic impacts along both Caratoke Highway and Walnut Island Blvd., and how the back parcel (the current single-family parcel) would be utilized.
- 5) Addressing Attendee Comments. The Two Farms, Inc. team provided information in response to the various questions asked by attendees. With regard to how the back parcel (single-family parcel) would be utilized, the current conceptual plan was shown to the attendees, and it was explained that based on the current conceptual design the store and parking would not be located on the back parcel. Regarding the various questions associated with traffic and ingress/egress concerns, the current conceptual plan was explained to the attendees, and additionally, it was noted that much of the design associated with such topics will be dependent on the DOT analysis. The Two Farms, Inc. team welcomed any additional questions/comments from attendees.

CONDITIONS OF APPROVAL

The applicant submitted the following conditions of approval:

1. All permitted uses in the General Business ((IB) zoning district shall be allowed, except for the following:
 - a. Equestrian Facility
 - b. Farmers Market
 - c. Nursery, Production
 - d. Agricultural Research Facility
 - e. Distribution Hub for Agricultural and Agronomic Products
 - f. Farm Machinery Sale, Rental, and Service
 - g. Agricultural Retail Facility
 - h. Silviculture
 - i. Dormitory

- j. Family Care Home
- k. Rooming or Boarding House
- l. Adult Day Care Center
- m. Child Care Center
- n. All Educational Facilities
- o. All Government Facilities
- p. All Health Care Facilities
- q. All Institutions
- r. All Public Safety
- s. All Transportation
- t. Animal Shelter
- u. Kenel
- v. All Parking, Commercial
- w. All Recreation/Entertainment, Indoor
- x. All Recreation/Entertainment, Outdoor
- y. Bar, Nightclub, or Cocktail Lounge
- z. Entertainment Establishment
- aa. Funeral Home
- bb. Pawn Shop
- cc. Shopping Center
- dd. Winery
- ee. All Vehicle Sales and Services, Heavy ff. Automotive Parts and Installation
- gg. Automobile Repair and Servicing (Including Painting/Bodywork)
- hh. Automobile Sales or Rentals
- ii. Taxicab Service
- jj. All Visitor
- kk. All Accommodations
- ll. All Industrial Uses

SURROUNDING PARCELS		
	Land Use	Zoning
North	Hardee's	General Business
South	Vacant	General Business/Single Family Mainland
East	Walnut Island Subdivision	Single Family Mainland
West	Dunkin Donuts/Convenience/Fuel Sales	General Business

LAND USE PLAN

The 2006 Land Use Plan classifies this site as Full Service within the Grandy subarea. The policy emphasis for the Grandy subarea is to allow Grandy to further evolve as a community center in its own right. The proposed plan is consistent with the policies of the plan, some of which are:

Policy CD2	Commercial and office development of greater than a neighborhood scale shall be encouraged to cluster in COMMERCIAL OR MIXED-USE CENTERS to curtail the proliferation of strip development and minimize traffic generation.
Policy CD4	HIGHWAY ORIENTED COMMERCIAL USES should be clustered along segments of highways and contain land uses which are mutually compatible and reinforcing in use and design; they should be designed in such a way as to minimize signage, access points, and to prevent unsightly, dysfunctional STRIP DEVELOPMENT.
Policy ED1	NEW AND EXPANDING INDUSTRIES AND BUSINESSES should be especially encouraged that: 1) diversify the local economy, 2) train and utilize a more highly skilled labor force, and 3) are compatible with the environmental quality and natural amenity-based economy of Currituck County.

RECOMMENDATION

Technical Review Committee

The Technical Review Committee recommends approval of the conditional rezoning subject to the following conditions:

1. Modify the rear building elevation to fully comply with the community compatibility standards of the UDO.

The applicant has been working closely with staff to meet the community compatibility standards. This will be resolved prior to approval of the Major Site Plan.

Planning Board

On December 14, 2021, the Planning Board recommended approval of the requested conditional rezoning with a 6-0 vote.

Motion

Mr. Bass moved to move to **approve PB 21-26**, with agreed upon conditions, because the request is consistent with Land Use Plan policies:

- CD2
- CD4
- ED1

And the request is reasonable and in the public interest because it results in a logical and orderly development pattern.

Mr. Hurley seconded the motion and the motion carried unanimously 6-0.

CONSISTENCY AND REASONABLENESS STATEMENT

A conditional zoning is a legislative decision of the Board of Commissioners. In determining whether to approve or deny a conditional rezoning the Board of Commissioners shall adopt a written statement of consistency and reasonableness.

This conditional zoning request is:

- 1) *consistent with the goals, objectives, and policies of the Land Use Plan, other applicable county-adopted plans, and the purposes of this Ordinance.*
- 2) *is compatible with existing and proposed uses surrounding the land subject to the application and is the appropriate zoning district and uses for the land.*

It is reasonable and in the public interest because it:

- 1) *would result in a logical and orderly development pattern.*
- 2) *would not conflict with the public interest and is in harmony with the purposes and intent of this Ordinance.*

CONDITIONS OF APPROVAL

Only conditions mutually agreed to by the owner(s) may be approved as part of a conditional zoning district. Conditions shall be limited to those that address conformance of development and use of the site with county regulations and adopted plans and that address the impacts reasonably expected to be generated by the development or use. No condition shall be less restrictive than the standards of the parallel general use zoning district.

Agreed upon conditions of approval:

1. *Front elevation fenestration shall be increased to 50 percent.*
2. *The front elevation shall include a pitched roof element.*

Conditional Rezoning Review Process

Contact Information

Currituck County
Planning and Community Development
153 Courthouse Road, Suite 110
Currituck, NC 27929

Phone: 252.232.3055
Fax: 252.232.3026

Website: www.co.currituck.nc.us/departments/planning-community-development

Step 1: Pre-application Conference

The purpose of a pre-application conference is to provide an opportunity for the applicant to determine the submittal requirements and the procedures and standards applicable to an anticipated development application. A pre-application conference is also intended to provide an opportunity for county staff to become familiar with, and offer the applicant preliminary comments about, the scope, features, and impacts of the proposed development, as it relates to the standards in the Unified Development Ordinance (UDO).

The applicant shall submit conceptual drawings that show the location, general layout, and main elements of the development to be proposed as part of the application to the Planning and Community Development Department at least three business days before the pre-application conference.

Step 2: Community Meeting

The purpose of the community meeting is to inform owners and occupants of nearby lands about the application for a conditional rezoning that is going to be reviewed under the UDO, and to provide the applicant an opportunity to hear comments and concerns about the application as a means of resolving conflicts and outstanding issues, where possible.

Community meetings are opportunities for informal communication between applicants and the owners and occupants of nearby lands, and other residents who may be affected by the application.

The community meeting shall comply with the following procedures:

- **Time and Place**
 - The meeting shall be held at a place that is convenient and accessible to neighbors residing in close proximity to the land subject to the proposed conditional rezoning.
- **Notification**
 - Mailed Notice
 - The applicant shall mail notice of the meeting a minimum of ten days in advance of the meeting to the Planning Director and to:
 - i. All owners of the land subject to the application;
 - ii. All owners of land within 500 feet of the property lines of land subject to the application (including owners of land located outside the county) whose address is known by reference to the latest ad valorem tax records; and
 - iii. Commanders of military bases located within five miles of the subject application when the development proposal affects the type of uses allowed.

**Conditional
Rezoning**

- ☐ Posted Notice
 - The applicant shall post notice of the community meeting on the land subject to the application for at least ten days before the date fixed for the meeting, in a form established by the Planning Director. Signs used for posted notice shall have a minimum size of six square feet per side.
- ☐ Notice Content
 - The notice shall state the time and place of the meeting and general nature of the conditional rezoning.
- **Conduct of Meeting**

At the meeting, the applicant shall explain the development proposal and application, inform attendees about the application review process, respond to question and concerns neighbors raise about the application, and propose ways to resolve conflicts and concerns.
- **Staff Attendance**

County staff shall attend the meeting for purpose of advising attendees about the applicable provisions of the UDO and the land use plan, but shall not serve as facilitators or become involved in discussions about the proposed conditional rezoning.
- **Written Summary of Community Meeting**

The applicant shall prepare a written summary of the meeting that includes a list of meeting attendees, a summary of attendee comments, discuss issues related to the conditional rezoning application, and any other information the applicants deems appropriate. The meeting summary shall be included with the application materials and be made available to the public for inspection.
- **Response to Summary**

Any person attending the community meeting may submit a written response to the applicant's meeting summary to the Planning Director within 30 days after the application is determined complete. The response may state their understanding of attendee comments, discuss issues related to the development proposal, and include any other information they deem appropriate. All written responses to the applicant's summary of the community meeting shall be transmitted to the applicant, included with the application materials, and made available to for public inspection.

Step 3: Application Submittal and Acceptance

The applicant must submit a complete application packet on or before the application submittal date. Conditional rezoning applications may not be initiated by anyone other than the landowner(s) of the subject land. A complete application packet consists of the following:

- Completed Currituck County Conditional Rezoning Application.
- Application Fee (\$200 plus \$5 for each acre)
- Written Summary of Community Meeting.
- A conceptual development plan drawn to scale. The plan shall include the items listed in the conceptual plan design standards checklist.
- Architectural drawings and/or sketches illustrating the design and character of the proposed structures.
- Number of Copies Submitted:
 - ☐ 2 Copies of conceptual site plans
 - ☐ 2 Hard copies of ALL documents
 - ☐ 1 PDF digital copy (ex. Compact Disk – e-mail not acceptable) of all plans AND documents

On receiving an application, staff shall, within ten business days, determine whether the application is complete or incomplete. A complete application contains all the information and materials listed above, and is in sufficient detail to evaluate and determine whether it complies with appropriate review standards. If an application is determined to be incomplete, the applicant may correct the deficiencies and resubmit the application for completeness determination. Failure to resubmit a complete application within 45 calendar days after being determined incomplete will result in the application being considered withdrawn.

Step 4: Staff Review and Action

Once an application is determined complete, it will be distributed to the Technical Review Committee (TRC). TRC shall review the application, prepare a staff report, and provide a recommendation on the application. The staff report may identify and recommend conditions of approval addressing how compliance deficiencies might be corrected and adverse effects of the application might be mitigated.

Step 5: Advisory Body Review and Recommendation

After the TRC prepares a staff report and provides a recommendation on the application, staff shall schedule the application for a public meeting with the Planning Board. At the public meeting, the Planning Board shall consider the application, relevant support materials, staff report, and any public comments. It may suggest revisions to the proposed conditions including the conceptual plan with only those revisions agreed to in writing by the applicant being incorporated into the application. It shall then recommend approval, approval subject to revised or additional conditions agreed to by the applicant, or denial, and clearly state that factors considered in making the recommendation. The Planning Board shall provide a recommendation on an application it reviews within two months from the date of its initial meeting to consider the application.

Step 6: Public Hearing Scheduling and Public Notification

After the Planning Board provides a recommendation on the application, staff shall ensure that the public hearing on it is scheduled for a regularly scheduled Board of Commissioners meeting or a meeting specially called for by the Board of Commissioners. The required public hearing with the Board of Commissioners shall be scheduled so there is sufficient time for a staff report to be prepared and for the public notification requirements to be satisfied under state law.

The application shall meet the following public notification requirements:

- **Published Notice**
Staff shall publish a notice of the hearing once a week for two successive calendar weeks in a newspaper having general circulation in the county. The first time notice is published, it shall not be less than 10 days nor more than 25 days before the date fixed for the hearing.
- **Mailed Notice**
Staff shall be responsible for preparing and mailing a written notice between 10 and 25 days before the public hearing. Notice shall be mailed to:
 - All owners of the land subject to the application;
 - The applicant, if different from the land owner;
 - All owners of land within 500 feet of the property lines of land subject to the application (including owners of land located outside the county) whose address is known by reference to the latest ad valorem tax records; and
 - Commanders of military bases located within five miles of the subject application when the development proposal affects the type of uses allowed.
- **Posted Notice**
At least 10 days before the public hearing, posted notice shall be made by staff. A sign shall be placed in a conspicuous location as to be clearly visible to the traveled portion of the respective street. Where the land subject to the notice does not have frontage on a public street, the sign shall be erected on the nearest street right-of-way with an attached notation generally indicating the direction and distance to the land subject to the application.

Step 7: Public Hearing Procedures, and Decision-Making Body Review and Decision

The applicant must be in attendance at the public hearing. During the public hearing, the Planning Director will present the staff report and any review body findings and recommendation to the Board. The applicant will then have the opportunity to present any information they deem appropriate. The burden of demonstrating that an application complies with applicable review and approval standards of the UDO is on the applicant. The public may be permitted to speak in accordance with the Board of Commissioners rules of procedure, or at their discretion, as appropriate, in support of or in opposition to the application. The applicant and Planning Director may respond to any comments, documents, or materials presented.

The Board of Commissioners shall make one of the following decisions on the application:

- Approval of the conditional rezoning subject to the conditions included in the application;
- Approval of the conditional rezoning subject to any revised or additional conditions agreed to by the applicant, in writing;
- Denial of the conditional rezoning; or
- Remand of the conditional rezoning application back to the Planning Board for further consideration.

A conditional rezoning is a matter committed to the legislative discretion of the Board of Commissioners and is not controlled by any one factor. In determining whether to adopt or deny a conditional rezoning, the Board of Commissioners may weigh the relevance of and consider whether and the extent to which the application:

- Is consistent with the goals, objectives, and policies of the Land Use Plan, other applicable county-adopted plans, and the purposes of the UDO;
- Is in conflict with any provision of the UDO, or the County Code of Ordinances;
- Is required by changed conditions;
- Addresses a demonstrated community need;
- Is compatible with existing and proposed uses surrounding the land subject to the application, and is the appropriate zoning district and uses for the land;
- Adversely impacts nearby lands;
- Would result in a logical and orderly development pattern;
- Would result in significant adverse impacts on the natural environment including, but not limited to, water, air, noise, stormwater management, wildlife, vegetation, wetlands, and the natural functioning of the environment;
- Would result in development that is adequately served by public facilities (e.g., streets, potable water, sewerage, stormwater management, solid waste collection and disposal, schools, parks, police, and fire and emergency medical facilities.);
- Would not result in significantly adverse impacts on the land values in the surrounding area; and
- Would not conflict with the public interest, and is in harmony with the purposes and intent of the UDO.

Conditional Rezoning Request

To Chairman, Currituck County Board of Commissioners:

The undersigned respectfully requests that, pursuant to the Unified Development Ordinance, a conditional zoning district be approved for the following use(s) and subject to the following condition(s):

Proposed Use(s):

The proposed use is a Royal Farms convenience store with gas sales.

Proposed Zoning Condition(s):

See Exhibit C.

An application has been duly filed requesting that the property involved with this application be rezoned from: GB & SFM to: C-GB

It is understood and acknowledged that if the property is rezoned as requested, the property involved in this request will be perpetually bound to the conceptual development plan, use(s) authorized, and subject to such condition(s) as imposed, unless subsequently changed or amended as provided for in the Currituck County Unified Development Ordinance. It is further understood and acknowledged that final plans for any development be made pursuant to any such conditional zoning district so authorized and shall be submitted to the Technical Review Committee.

See Attached Signature Pages.

Property Owner (s)

Date

NOTE: Form must be signed by the owner(s) of record. If there are multiple property owners a signature is required for each owner of record.

Conditional Rezoning Design Standards Checklist

The table below depicts the design standards of the conceptual development plan for a conditional rezoning application. Please make sure to include all applicable listed items to ensure all appropriate standards are reviewed.

Conditional Rezoning Conceptual Development Plan Design Standards Checklist

Date Received: _____

TRC Date: _____

Project Name: _____

Applicant/Property Owner: _____

Conditional Rezoning Design Standards Checklist		
1	Property owner name, address, phone number, and e-mail address.	
2	Site address and parcel identification number.	
3	A scaled drawing showing existing boundary lines, total acreage, adjacent use types, location of streets, rights-of-way, and easements.	
4	North arrow and scale to be 1" = 100' or larger.	
5	Vicinity map showing property's general location in relation to streets, railroads, and waterways.	
6	Existing zoning classification of the property and surrounding properties.	
7	Approximate location of the following existing items within the property to be rezoned and within 50' of the existing property lines: Pathways, structures, septic systems, wells, utility lines, water lines, culverts, storm drainage pipes, ditches, canals, streams, wooded areas, ponds, and cemeteries.	
8	Approximate Flood Zone line and Base Flood Elevation as delineated on the "Flood Insurance Rate Maps/Study Currituck County."	
9	Approximate location of all designated Areas of Environmental Concern or other such areas which are environmentally sensitive on the property, such as Maritime Forest, CAMA, 404, or 401 wetlands as defined by the appropriate agency.	
10	Proposed zoning classification and intended use of all land and structures, including the number of residential units and the total square footage of any non-residential development.	
11	Proposed building footprints and usages.	
12	Proposed traffic, parking, and circulation plans including streets, drives, loading and service areas, parking layout, and pedestrian circulation features.	
13	Approximate location of storm drainage patterns and facilities intended to serve the development.	
14	Proposed common areas, open space set-asides, anticipated landscape buffering, and fences or walls (if proposed).	
15	Architectural drawings and/or sketches illustrating the design and character of the proposed uses.	
16	Proposed development schedule.	

Conditional Rezoning Submittal Checklist

Staff will use the following checklist to determine the completeness of your application within ten business days of submittal. Please make sure all of the listed items are included. Staff shall not process an application for further review until it is determined to be complete.

Conditional Rezoning Submittal Checklist

Date Received: _____

Community Meeting Summary

Two Farms, Inc. / Grandy, NC

1. Time / Location. The community meeting ("Community Meeting") was held at 5:30 PM on Tuesday, September 14, 2021, at the Jarvisburg Church of Christ located at 121 Forbes Road, Jarvisburg, NC 27947. Enclosed is a copy of the notice that was mailed to the provided list of nearby property owners, and a copy of that provided list.
2. Attendees. In attendance at the Community Meeting on behalf of Two Farms, Inc. were Drake Brinkley of Ward and Smith, P.A., Andrew Mueller of BL Companies, and William McAnally of BL Companies. The following individuals signed the attendee sheet at the Community Meeting: Teresa MacPherson, Jim Branthask, Steve Danna, Nancy M. Walker, Barry M. Walker, Robert S. Seelow, Jim Hoverbrook, Mike Payment, Michele Thomas, Curtis Inge, Matthew Sweeley, Leslie Knoffler, and Colon Grandy (please note we have attempted to spell the preceding names correctly based on the handwritten names provided by such attendees). Jason Litteral attended on behalf of the Currituck County planning staff. Enclosed is a redacted version of the sign in sheet provided at the meeting.
3. Material Discussed / Issues Relates to Application. Drake Brinkley introduced the project to the attendees. He discussed the proposed use, a Royal Farms convenience store with gasoline sales. He, and those in attendance from BL companies, explained the current conceptual design. Drake also explained the conditional rezoning process, the current status of the project in the process, and the projected target dates for future steps in the conditional rezoning process.
4. Summary of Attendee Comments. The Two Farms, Inc. team fielded a variety of questions about the project, primarily about ingress/egress locations, traffic impacts along both Caratoke Highway and Walnut Island Blvd., and how the back parcel (the current single-family parcel) would be utilized.
5. Addressing Attendee Comments. The Two Farms, Inc. team provided information in response to the various questions asked by attendees. With regard to how the back parcel (single-family parcel) would be utilized, the current conceptual plan was shown to the attendees and it was explained that based on the current conceptual design the store and parking would not be located on the back parcel. Regarding the various questions associated with traffic and ingress/egress concerns, the current conceptual plan was explained to the attendees, and additionally, it was noted that much of the

design associated with such topics will be dependent on the DOT analysis. The Two Farms, Inc. team welcomed any additional questions/comments from attendees.

RE: Neighborhood Meeting -- Proposed Royal Farms Convenience Store
 6511 Caratoke Highway, Grandy, NC
 Our File: 211113-00001

Dear Neighbor:

We are writing to invite you to a neighborhood meeting to discuss a proposed Royal Farms convenience store to be located at 6511 Caratoke Highway, Grandy, North Carolina. We represent Royal Farms in rezoning the subject property to allow for the development of a convenience store with gas pumps. We have consulted with Currituck County Planning and Development staff regarding this project and before we file our application, we wanted to introduce this project to the community, discuss Royal Farms' vision for the development, receive and integrate the community's feedback, and answer any questions you may have concerning the site.

Royal Farms currently has over 200 locations serving Delaware, Maryland, New Jersey, Pennsylvania, and Virginia. Royal Farms develops, maintains, and operates quality convenience stores that provide communities and visitors with a variety of fresh, prepared foods, coffees, drinks, snacks, select grocery/convenience products, and gasoline/diesel fuel. Throughout its history, Royal Farms has been committed to delivering value to its customers and providing its communities with a safe, friendly, and convenient location for people to get gas, grab something to eat, or purchase a few convenience products on the way to their next destination. Royal Farms looks forward to providing that same level of service to the people of Grandy and Currituck County.

Concerning the proposed development, the site includes four (4) parcels, totaling approximately 3.55 acres, and located at the corner of Caratoke Highway and Walnut Island Boulevard. Four of the parcels are presently zoned General Business (GB), which permits a convenience store with gas pumps. The remaining parcel is zoned Single Family-Mainland. We are proposing to conditionally rezone all parcels to General Business (GB) with conditions on the permitted uses allowed at the site.

WARD AND SMITH, P.A.

[ADD NAME/ADDRESS]

September 1, 2021

Page 2

We will be holding a neighborhood meeting to provide further information and detail on the proposed development. The details for that meeting are as follows:

Date: Tuesday, September 14, 2021

Time: 5:30 PM – 6:30 PM

Location: Jarvisburg Church of Christ
121 Forbes Road
Jarvisburg, NC 27947

Given the ongoing COVID-19 pandemic, we ask that all attendees wear a mask when indoors and we will adhere to federal and state guidance on social distancing practices. We also understand that some individuals may not feel comfortable attending and we want to ensure all are included in the process. If you cannot attend or otherwise wish to participate in this process outside of the meeting, please do not hesitate to contact me (chcogburn@wardandsmith.com; 828-348-6012) or Drake Brinkley (jdbrinkley@wardandsmith.com; 252-215-4014) with any questions or comments. We welcome your feedback and want to hear your thoughts about this development.

We thank you for your time and look forward to meeting with you. Royal Farms is excited about this site and is dedicated to being a great neighbor and community member for years to come.

Yours truly,

Clinton H. Cogburn

MEMORANDUM

To: Two Farms, Inc.
 Ward and Smith, P.A.

From: Planning Staff

Date: 10/14/2021

Re: Royal Farms (Technical Review Committee Comments)

The following comments have been received for the 10/13/2021 TRC meeting. Please address all comments and resubmit a corrected plan as necessary. **Resubmittals are due by 3:00pm on 10/28/2021 in order to be reviewed at the next TRC meeting held on 11/10/2021.** TRC comments are valid for six months from the date of the TRC meeting.

Planning, Jason Litteral

Reviewed with comments

1. Provide site landscaping shrubs along building facades facing streets.
2. Provide vehicular use landscaping shrubs at SE corner of parking lot.
3. Canopy (Shade) trees are required within 60 feet of all parking spaces.
4. Please show freestanding sign landscaping on the site plan. 2 square feet of landscaping are required for every 1 square foot of sign area. This is calculated using the square footage of one side of the sign. The landscaping shall include an appropriate mix of shrubs and ground cover.
5. There are still more parking spaces forward of the front building façade than there are on the sides and rear. No more than 50% of parking can be located forward of the front building façade.
6. Please provide a heritage tree survey and update the plans for tree protection as required by section 7.2 (Tree Protection).
7. Provide confirmation that all light fixtures are full cut-off.
8. Wall pack lights are limited to 1600 lumens.
9. The lighting plan shows areas that exceed the maximum of 30 foot-candles on site. Please address this issue.
10. The max foot candles at a property line abutting residential use is 0.5. The plans shows some spots that are 0.6 foot candles. Please address this issue.
11. An eight foot wide concrete sidewalk is required along Caratoke Highway. This can be located on the site, in the right-of-way, or both. Please coordinate with NCDOT if necessary.
12. Show crosswalks as necessary for any sidewalks that cross an entrance.

Attachment: trc comments (PB 21-26 Royal Farms Conditional Rezoning)

13. We need to discuss the building design requirements for the front and two side elevations. Please contact me at your convenience to discuss.
14. The driveway spacing between the Caratoke Hwy. entrance and the driveway on the lot to the south is inadequate. The required spacing is 200 feet from centerline to centerline. Please provide a letter from NCDOT stating they approve the driveway location in relation to the driveway to the south.
15. There is a chain link fence detail on the plans, but I could not find a fence on any of the site plans. Please either indicate the location of the chain link fence, or if a fence is not proposed, please remove the detail from the plan set.

Currituck Soil and Stormwater, Dylan Lloyd

- 1) Parcel at 6523 Caratoke Hwy - pending conditional rezoning - appears to have fill within the setback area on the southern portion of the lot line. Fill setback is 10' from lot line.
- 2) Do the storm line pipes running adjacent to the gas pump area have inlet drains?
- 3) Topo lines indicate 4 feet of fill above existing grade in some locations. The maximum allowed is 3. This may require special approval from the County Engineer

Currituck County Public Utilities, Will Rumsey/Dave Spence

8" tower feed waterline runs behind the property. Make sure septic field meets the minimum requirement for separation.

Water meter that feeds the lot is a 3/4" service line. To upgrade to a 1.5 inch, the old service line will need to be disconnected and a new 1.5" line will need to be installed. the difference in the developmental fee will be due at building permit.

Currituck County GIS, Harry Lee

Prior to development, please require the four parcels to be recombined into one parcel.

Currituck County Building Inspections, Bill Newns

The only comments I have for this site plan so far would be even though there is a new hydrant at the Hardee's and it may fall within 400' of proposed building I have concerns about the median that separates Walnut Island Blvd. I would ask that they add a hydrant to their property as there appears to be a 10" water main that runs down center of median according to GIS they can tap into but we can confirm this with Water Dept. The underground gas tanks removed in 2019 so site should be ok with DEQ they never called for a final so we will look at it.

Provide Appendix B with Building Plans at permit application.
Provide fire flow calculations for structure(s) based on the ISO standard.

Currituck County Water Department (Backflow) Chas Sawyer

I would like to see on the utilities sheet where an RP backflow device is going to be added. I would also like to see a detail on how it is to be installed.

Albemarle Regional Health Services, Joe Hobbs

*NOTE; OWNER/DEVELOPER NEEDS TO CONSULT WITH KEVIN CARVER RS(252-232-6603) CONCERNING SEPTIC SYSTEM APPROVAL FOR PROPOSED BUSINESS
ALSO OWNER/DEVELOPER NEEDS TO CONSULT WITH DAVID SWINNEY RS (252-232-6603)CONCERNING PROPOSED FOOD STORE APPROVAL.

The following items are necessary for resubmittal:

- 3 - full size copies of revised plans.
- 1- 8.5"x11" copy of all revised plans.
- 1- PDF digital copy of all revised documents and plans.

STAFF ANALYSIS

The Board of Commissioners approved the rezoning for this development on March 1, 2021. The developer notes that the goal of the development is to build a community that has a creative design, with single-family lots in an attractive arrangement, with an efficient use of open space that promotes an active lifestyle and strong sense of community. Limited, neighborhood commercial uses are also proposed on a 2.3 acre portion of the property.

The Phased Recording Schedule estimates earliest recording dates as shown:

Transportation	<p>Pedestrian: A series of sidewalks and pedestrian trails; The developer must install an 8' multi-use path along the Caratoke Highway property line as required by the Connect Currituck Plan.</p> <p>Connectivity Score: Minimum = 1.4 Proposed = 1.41</p> <ul style="list-style-type: none"> • One connection to Survey Road • Five connections to Fost, PD-R
Stormwater/Drainage	See attached map for required stormwater/drainage improvements (PB 18-23 Fost PD-R Rezoning Stormwater Conditions dated 7/2019 prepared by engineering staff). The Flora off-site improvements on the Flora tract have not been completed to date and must be completed. Staff recommends that a final plat not be approved for this development until those drainage improvements are complete.
Design Standards	Non-residential design standards apply to the commercial development.
Lighting	Street lights are proposed and must be full cut-off fixtures
Landscaping	Farmland buffers, street trees, major arterial screening, and site landscaping are required
Compatibility	The BOC determined that this development was compatible with the Land Use Plan and the Moyock Small Area Plan at its March 1, 2021 meeting.
Recreation and Park Area Dedication	The applicant will be paying approximately \$48,548.87 as a fee-in-lieu of recreation and park area dedication for this development.
Riparian Buffers	Required for the wetlands in these phases.

Attachment: 1 Flora PP SUP Staff Report 12-20-2021 (PB 21-25 Flora Farms)

COMMUNITY MEETING

The developer held a community meeting on June 22, 2021 at the Eagle Creek Pavilion. There were approximately eleven people in attendance. Most of the questions were regarding drainage and traffic. A community meeting summary prepared by the applicant is attached to this staff report.

SCHOOLS

This development is split between the Shawboro and Moyock Elementary School districts. The portion closest to Survey Road is in the Moyock Elementary attendance area and the rear portion of the development is in the Shawboro Elementary School attendance area. There are Adequate Public Facility concerns that Shawboro Elementary is at 100% *Actual Capacity* for this school year. (*Dr. Lutz, October 2, 2021 BOC meeting*). There is not capacity for the 26 additional students project to attend Shawboro Elementary. The Adequate Public Facilities ordinance requires that school capacity be in place at the time of approval or within two years of approval of the special use permit for the development. There are no plans in place to expand Shawboro Elementary School in the future.

There is a substantial completion date of August 2023 for the expansion of Moyock Elementary School.

ADEQUATE PUBLIC FACILITIES – SCHOOLS ¹			
School	2021-2022 Actual Capacity ²	Committed Capacity ³	Proposed Capacity Changes
			Number of Students
Moyock Elementary	128%	131%	+ 26 Shawboro +42 Moyock
Shawboro Elementary	99%		
Central Elementary	96%		
Moyock Middle	94%	92%	+22
Currituck Middle	62%		
Currituck High	88%	105%	+38
JP Knapp Early College	86%		

¹Does not include minor subdivisions, exempt subdivisions, and subdivisions approved prior to the adoption of the adequate public facilities ordinance (October 1994)

²Capacity percentages are based on 2021-2022 school year classroom standards and Sep 2021 ADM

³Capacity percentages are based on the 2021-2022 school year classroom standards and Sep 2021 ADM

Based upon questions at a previous meeting regarding school capacity and the adequate public facilities ordinance, a brief history of the adequate public facilities ordinance and its application is attached for your review.

STORMWATER

The stormwater/drainage improvements required as shown on the attached “PB 18-23 Fost PD-R Rezoning Stormwater Conditions dated 7/2019” prepared by engineering staff remain unchanged. On-site stormwater will be conveyed to on-site retention ponds through a combination of curbs with inlets, stormwater pipes, and open vegetated swales.

TRANSPORTATION

The main subdivision entrance will be connected directly to Survey Road (SR 1215). Proposed improvements to Survey Road include widening, adding a turning lane, and adding a left turn lane restriction at Caratoke Highway (NC 168). Connectivity will be provided to the Fost Development. According to the application, streets will be in accordance with the approved right-of-way and pavement

PB 18-23 Fost Tract, Phases 6-9
Preliminary Plat/Special Use Permit
Page 3 of 10

width characteristics, using the NCDOT Complete Streets Planning Manual as a guide and appropriate access has been made for emergency service vehicles in accordance with applicable standards including the N.C. Fire Code.

WASTEWATER

The developer proposes to connect to the Eagle Creek wastewater treatment plant (WWTP). Currituck Water and Sewer, LLC (CWS) Major Utility operates the WWTP and is the process of acquiring ownership of the entire wastewater system (collection systems, treatment plant, etc.) from Sandler Utilities Company. A force main is being installed to connect the collection system in Fost development to the Eagle Creek WWTP and the this development will tap into that line. A wastewater collection system will be constructed by the developer for the entire development and managed by Currituck Water and Sewer. The utility will be regulated by the North Carolina Utilities Commission and the North Carolina Department of Environmental Quality. CWS has begun the process with state regulatory agencies for this transference.

STAFF REVIEW

TECHNICAL REVIEW COMMITTEE

The Technical Review Committee (TRC) reviewed the application and provided the following comments:

1. The applicant has not demonstrated that the proposed use will meet the special use permit review standards of the UDO including adequate public facilities (LUP Policy PP2 Adequate Public Facilities) and public health and safety (LUP Purpose of the Plan).
2. Noted plan deficiencies:
 - a. The adjoining property owner information is missing from the most recent version of the plat.
 - b. Residual tract note and references must be removed from the plat since there is not a residual tract.

Other staff concerns:

1. Staff has concerns about allowing additional lots from other subdivisions to connect to the Eagle Creek WWTP with the known performance problems of the plant. On August 10, 2021, NCDEQ Division of Water Resources issued a Wastewater Collection Extension Permit for 60,000 gallons per day for 92 four-bedroom homes and 44 three-bedroom townhouses for Fost Phase 1A. On September 17, 2021, NCDEQ Division of Water Resources issued a letter stating “the WWTP must demonstrate consistent performance achieving permit treatment requirements, prior to submittal of a sewer extension permit application. WWTP performance must be satisfactory for approval of any potential sewer extension permits.” At this time, County staff has not received notification that these permit requirements have been met and a sewer extension permit for additional lots will be issued. (LUP Purpose of the Plan – public health, safety, and welfare)
2. Although the Flora collection system **will not connect to the Eagle Creek collection system**, there are concerns from staff about the impact of the Consent Judgement on the Major Utility. There continues to be issues with the collection system at Eagle Creek. Untreated wastewater system backups into the homes of customers and mandatory water conservation efforts placed on Eagle Creek homeowners because of problems with the collection system. Please see the Consent Judgement issued by the Superior Court on June 23, 2021 attached to this staff report for more detailed information (North Carolina Division of Environmental Quality v. Sandler

Utilities at Mill Run, LLC). The Court ordered Sandler Utilities at Mill Run, LLC to complete a system upgrade plan, and then a timetable to implement the upgrade plan. The timetable to implement the upgrade plan has not been shared by NCDEQ DWR staff due to the legal proceedings. For the protection of the existing users of the system, staff recommends the system be fully repaired and functioning properly as certified by NCDEQ for the Eagle Creek residents before other subdivisions are allowed to connect. (LUP Purpose of the Plan – public health, safety, and welfare)

2006 Land Use Plan

The 2006 Land Use Plan classifies the site as Full Service within the Moyock subarea. At its March 1, 2021, meeting, the BOC determined this development was compatible with the Land Use Plan Policies HN3 and CD1 and that the request is reasonable and in the public interest because the increase in the number of residential roof tops may bring additional commercial development to the Moyock area.

Moyock Small Area Plan

The Moyock Small Area Plan classifies the site as Limited Service and Full Service. The policy emphasis for Full Service in Moyock is to provide focal points in the community where high amounts of activity occur. Both residential and commercial components will be present in Full Service areas. Cluster or planned commercial and residential areas with diversity in housing types is preferred. The policy emphasis for Limited Service designations are less intensely developed than Full Service. Emphasis is more on residential development and densities. Limited Service designation has reduced public services such as fire protection, emergency service, recreation, and public water.

SPECIAL USE PERMIT REVIEW STANDARDS

Following an evidentiary hearing, the board shall decide if the application is in accordance with Section 2.3.10, Decision-Making Body Review and Decision, and Section 2.4.6.D, Special Use Permit Review Standards. It is the burden of the applicant to provide evident to address the Review Standards. The applicant's findings can be found in the attached application.

Special Use Permit Review Standards

A special use permit shall be approved on a finding that the applicant demonstrates the proposed use will:

1. Not endanger the public health or safety.
2. Not injure the value of adjoining or abutting lands and will be in harmony with the area in which it is located.
3. Be in conformity with the Land Use Plan or other officially adopted plan.
4. Not exceed the county's ability to provide adequate public facilities, including but not limited to, schools, fire and rescue, law enforcement, and other county facilities. Applicable state standards and guidelines shall be followed for determining when public facilities are adequate.

THE APPLICATION AND RELATED MATERIALS ARE AVAILABLE ON THE COUNTY'S WEBSITE

STORMWATER STATEMENT

NO MORE THAN 30% OF ANY LOT SHALL BE COVERED BY IMPERVIOUS STRUCTURES AND MATERIALS, INCLUDING ASPHALT, GRAVEL, CONCRETE, BRICK STONE, SLATE, OR SIMILAR MATERIAL, NOT INCLUDING WOOD DECKING OR THE WATER SURFACE OF SWIMMING POOLS. THIS COVENANT IS INTENDED TO ENSURE COMPLIANCE WITH THE STORMWATER PERMIT NUMBER _____ ISSUED BY THE STATE OF NORTH CAROLINA. THE COVENANT MAY NOT BE CHANGED OR DELETED WITHOUT THE CONSENT OF THE STATE. FILLING IN OR PIPING OF ANY VEGETATIVE CONVEYANCES (DITCHES, SWALES, ETC.) ASSOCIATED WITH THIS DEVELOPMENT, EXCEPT FOR AVERAGE DRIVEWAY CROSSINGS, IS STRICTLY PROHIBITED BY ANY PERSON. THE LOT COVERAGE ALLOWANCE PROVIDED IN THE CURRITUCK COUNTY UNIFIED DEVELOPMENT ORDINANCE MAY BE DIFFERENT THAN THE NC STATE STORMWATER PERMIT. THE MOST RESTRICTIVE LOT COVERAGE SHALL APPLY.

ZONING CONDITIONS:

CONDITION 1 REGARDING DRAINAGE IMPROVEMENTS:
DRAINAGE IMPROVEMENTS WILL BE PROVIDED AS FOLLOWS:
a. EXTEND THE ROWLAND CREEK DRAINAGE IMPROVEMENTS TO THE EAGLE CREEK PUMPSTATION, WITH AGREEMENT FROM EAGLE CREEK.
b. MAKE IMPROVEMENT TO THE DRAINAGE DITCH THAT RUNS ALONG THE COMMON BOUNDARY BETWEEN THE FAST/BRUMSEY PROPERTY AND EAGLE CREEK/RANCHLAND BASED ON RESULTS OF THE STORMWATER MODELING OF EXISTING CONDITIONS.
c. PERFORM STORMWATER MODELING OF THE PROPOSED FLORA FARM DEVELOPMENT TO MANAGE THE 100 YEAR STORM EVENT AND PROVIDE STORMWATER STORAGE, INCLUDING BERMS AS NECESSARY.

CONDITION 2 REGARDING PHASING:
a. DEVELOPMENT WILL BE RECORDED IN 5 PHASES. DEVELOPER WILL NOT RECORD THE FIRST PHASE BEFORE JUNE 1, 2022.
b. THE FIRST PHASE WILL NOT CONTAIN MORE THAN 55 LOTS.
c. SUBSEQUENT PHASES WILL NOT BE RECORDED SOONER THAN 6 MONTHS FOLLOWING THE PRIOR PHASE, AND IN ANY EVENT, NO SOONER THAN JANUARY 1, 2023.
d. DEVELOPER WILL RETAIN THE RIGHT TO PROVIDE AN ANNUAL UPDATE OF PHASING, INCLUDING MAKING ADJUSTMENTS TO PHASE LINES AND THE SEQUENCE OF RECORDING, AS LONG AS THE TIMING OF TOTAL LOTS RECORDED IN THE ABOVE CONDITIONS IS FOLLOWED.

CONDITION 3 REGARDING THE PRIVATE WASTEWATER TREATMENT PLANT (WWTP):
a. CERTIFICATION BE PROVIDED THAT THE PRIVATE WWTP PROPOSED TO SERVICE THIS DEVELOPMENT CAN ACCOMMODATE THE GALLONS PER DAY (GPD) OF WASTEWATER THIS DEVELOPMENT PROPOSES TO GENERATE.

MEMORANDUM

To: Mark Bissell, Bissell Professional Group
 Justin Old, North-South Development LLC

From: Tammy D. Glave, CZO, Senior Planner

Date: October 14, 2021 **10-28-21 reply to TRC comments**
November 10, 2021 TRC Responses
December 1, 2021 reply to November 10, 2021 comments

Subject: PB 21-25 Flora Farm, Preliminary Plat/Special Use Permit

The following comments have been received for the October 13, 2021 TRC meeting for Flora Farm, Preliminary Plat/Special Use Permit. In order to be scheduled for the November 10, 2021 TRC Revision Review meeting, please address all comments and resubmit a revised plan by 3:00 p.m. on October 28, 2021. TRC comments are valid for six months from the date of the TRC meeting.

Planning (Tammy Glave. 252-232-6025)

Denial:

1. While permitted by the NCDEQ Division of Water Resources, staff notes its concern about connecting dwelling units to the WWTP at Eagle Creek until the system is compliant with State standards. **DWR has agreed that flow from Flora can be allocated to the facility, and funds are being set aside for system upgrades, which are expected to be completed prior to new homes being ready for occupancy at Flora.**
2. This development is split between the Moyock and Shawboro Elementary School districts. Staff notes the following concerns regarding school capacity:
 - a. Per the plat, Phase 1 (55 Lots/13 Students) has an earliest recording date of June 1, 2022. The substantial completion date of expansion of Moyock Elementary is not until August 2023. Homes in the development could be constructed within that 14-month period without capacity available for the elementary school students those homes are projected to generate. Phase 2 (76 Lots/19 Students), with an earliest recording date of January 1, 2023, would face a similar issue.

The schedule for new connections is approximately as follows: SUP approval - assumed December, 2021; construction drawing approval: approximately April, 2022; construction completion – first phases: approx. October, 2022; final plat recordation: approx. Dec. 1, 2022; Completion of first homes for occupancy: summer, 2023. New students are therefore not

expected to enroll in the school system until the Moyock school expansions are ready for occupancy.

Please amend the Phasing Schedule on Sheet 3 to match this response. Earliest recording date for Phase 1 , December 1, 2022 and amended the subsequent recording dates for phases accordingly to match the six month between recording phases.

The phasing schedule on sheet 3 has been updated to show 12-1-22 as the earliest recording date.

2021-2022 Moyock Elementary School Capacity	529
10-4-2021 School Enrollment	676
Current Available Capacity	0
After Expansion Capacity (Substantial Completion Date of August 2023)	750 (Per County Manager 1/15/2021)
Available Capacity	74
Project Capacity Changes for this Development	+42
*Not factored into this count are students enrolling from homes under construction or homes to be constructed in subdivisions that have received final plat approvals.	

- b. The above then sets back the dates in Condition of C-MXR approval 2.C for subsequent recording of phases six months apart.
- c. There is zero capacity left at Shawboro Elementary School and no plans for expansion. There is not capacity for the 26 students this development is project to generate.

2021-2022 Shawboro Elementary School Capacity	622
10-4-2021 School Enrollment	622
Available Capacity	0
Project Capacity Changes for this Development	+26
*Not factored into this count are students enrolling from homes under construction or homes to be constructed in subdivisions that have received final plat approvals.	

With the recording of phase 1 pushed back nearly a year from the phasing projection that was included in the zoning approval, and the first 3 phases being substantially in the Moyock school district, it appears that the earliest recordation of the phases that are in the Shawboro school district will be June, 2024; with new home construction now taking 8-10 months to complete, it is projected that the first homes that are located in the Shawboro school district will be ready for occupancy between February and April, 2025. Substantial occupancy would likely not take place until after the end of the 2024-25

school year, and we understand that a new elementary school is planned to be open in August, 2025.

UDO Section 6.6 Adequate Public Facilities mandates that all required public facilities be in place or programmed to be in place within two years after the initial approval of the special use permit. It does not appear that a finding can be made that adequate school capacity will be available within two years of the special use permit approval of each of these phases.

3. The redesign of the road/lot layout on norther property line east of Roland Creek Canal has been determined to be a minor amendment since the change has no material effect on the character of the approved development. An amended C- MXR approval is not required for a minor amendment. **Thank you.**
4. The redesign for the portions of the 50' canal easement on individual lots has been determined to be a minor amendment since the change has no material effect on the character of the approved development; however, staff request that those buyers be made well aware that development is not allowed in that drainage easement area (i.e. plat notation, HOA docs, deeds) **The BOC amended the UDO so that this required easement width is now 25'. A request is being submitted for minor modification of the zoning conditions to make this easement with consistent with the UDO, with the intent that no part of the easement be located within the lot boundaries.**
5. Remove reference to "residual tract" from plan sheets for 0015-000-085D-0000 since it has been subdivided from the subject property. Identify ownership. **The reference has been removed and ownership identified. The adjoining property owner information is now missing from all of the other adjoining lots. See Sheet 2 of the 10/18/2021 Resubmittal for comparison to this 10/28/2021 resubmittal for reference. Please correct. (G.S.)**
Adjoining property owner information has been added as requested (sheet 7).
6. It does not appear that FIRM Map 3721804000K applies to this development. If correct, please remove reference to that map from Sheet 1, Note 5. **The reference has been removed. COMPLETE**
7. Please verify that the 5' non-access easement on all corner lots is not along the street that generates less traffic. For example, it is staff's opinion that Lots 271 and 272 should have the non-access easement on Flora Blvd since that will get substantially more traffic than the Moss Street cul-de-sac that has the non- access easement. (UDO Section 10.3.3) **The non-access easement locations have been reviewed and modified. COMPLETE**
8. Please verify that the heavy black lines at street intersections on Sheet 6 represent crosswalk stripping. (UDO Section 5.6.10) **The markings do represent crosswalk striping; a note to that effect has been added. COMPLETE**
9. Call out easements for future connections of infrastructure (i.e. streets, sidewalks) not extending to the property line. (i.e. Orchid Street's northern terminus). If the ultimate plan is to connect Orchid Street to the exempt lot, that portion of right-of-way cannot be counted as open space. **There is no intent to extend Orchid Street, so it appears that no future roadway easements are needed. COMPLETE**
10. Call out the street tree planting easement on the Typical Lot Detail as described on Sheet 1, Note 7. **The street tree planting easement has been added to the Typical Lot Detail. COMPLETE**
11. Note 7 mentions pedestrian easements. Are there locations where the sidewalk is not within the ROW? If so, please identify. **No pedestrian easements appear to be needed, so the notation has been removed. COMPLETE**
12. Type A buffer required (not B) for property lines that adjoin AG zoning district (Eagle

Creek) and the Exempt Division for Mary Nell Flora Brumsey and John J Flora III (if not remaining in cultivation). (UDO Sections 6.2.1, 5.2.6) The buffer has been changed to Type A. COMPLETE

13. Call out the major arterial buffer along the residential portion of the development where it abuts Caratoke Highway. (UDO Section 5.2.8) The major arterial buffer along the residential portion of the development has been added to landscaping plan. COMPLETE
14. As noted on the plan, if the exempt division continues to be farmed, a farmland buffer is required along that property line. COMPLETE
Correct "Fast" to "Fost" on Sheet 7, Condition 2.b. The spelling has been corrected. COMPLETE
15. The red dashed lines on Sheet 7 appear to be a phasing line. Please add phase numbers or remove the red line to clarify. Phase lines have been removed from sheet 7. COMPLETE
16. There is a meeting scheduled for later this month to discuss the availability of all County services (i.e. water, fire and rescue, law enforcement, etc.) because of the increased demand for development. Staff will not be able to speak to the availability of county services until the results of that meeting are shared. We have not received any updated information. The BOC will share information as it available.
17. Please indicate that drainage easements are dedicated to Currituck County. (UDO Section 7.3.4) A note that drainage easements are dedicated to Currituck County has been added on sheet 1. COMPLETE
18. Prior to Construction Drawing submittal, verify photometric plan of streetlights closest to Caratoke Highway and property lines do not exceed the footcandle limits listed in Table 5.4.6.D of the UDO. Photometrics will be verified at the construction drawing stage as requested.
19. The commercial portion of the development will be reviewed using the non-residential standards in the UDO upon site plan submittal.

Currituck County Chief Building Inspector/Fire Official (Bill Newns. 252-232-6023)

Reviewed with comment:

1. No street parking signage on streets. Parking not permitted. "No parking" sign locations have been added to the landscaping and signage plan. COMPLETE

Currituck County Economic Development (Larry Lombardi. 252-232-6015)

Reviewed without comment.

Currituck County Engineer (Eric Weatherly. 252-232-6035)

Reviewed with comments:

1. Please provide an explanation of the sewer flows.
 - a. Acceptance letter from Sandler is 45,000 gpd
 - b. The CWS Willingness to Serve letter is 62,847 gpd (277 lots and 7500 sf commercial)
 - c. The major subdivision application is for 277 lots
The 45,000 gpd allocation from Sandler is based on 160 gpd per lot, which is closer to, but still above, what is actually expected to be generated from this development. The CWS letter is based on a peak flow condition, but is actually superfluous to the application requirements. A separate site plan approval application will be filed for the commercial development when end users are known for this part of the development.

2. It is preferred to keep stormwater ponds out of the Rowland Creek easement Since the easement width is being changed to 25', the ponds will be outside of the easement.
3. Include improvements to Rowland Creek (see attached) Limits of excavation have been added to sheet 4. Clarify that Rowland Creek through Flora has been or will be excavated to 3:1 slopes and 100-year storm carrying capacity.
The top of bank and grades shown on the preliminary plan set reflect these conditions.

Currituck County GIS (Harry Lee, 252-232-4039)

Reviewed with comment:

1. THE STREET LABELED AS LYNNE LN NEEDS A DIFFERENT NAME. LYNNE LN IS ALREADY APPROVED IN THE FOST DEVELOPMENT. PLEASE CONTACT GIS AT 252.232.2034 TO DISCUSS PROPOSED STREET NAMES. (Not corrected with 10/28/2021 resubmittal)

Currituck County Parks and Recreation (Jason Weeks, 252-232-3007)

Reviewed without comment.

Currituck County Soil and Stormwater (Dylan Lloyd, 252-232-3360)

Reviewed with comment:

1. Are the public spaces / paths between Lydia – Eunice – Leif and Myriam Streets going to be used for drainage? If so, show flow arrows. Flow arrows have been added to sheet 4.
2. Berm along southwest portion of property – will this impede flow across wetland delineated portions? It is intended that the berm be located between the new development and an improved property line ditch to improve existing and future drainage. Do not to construct berm through wetlands. Berm shall not impede flow of water between separated wetlands. Dylan will meet on site to discuss if desired.
Based on our recent discussion, the Fost and Flora wetlands are separated by an upland strip, and the berm is proposed to run along the edge of this strip, but its need and final location will be determined following computer modeling of the stormwater management system.
3. Align Pond 7 with Rowland Creek Canal Easement The edge of the pond has been aligned with the proposed 25' easement.

Currituck County Utilities Director (Will Rumsey, 252-232-2769)/Water Department – Distribution Supervisor (Dave Spence, 252-232-2769)

Reviewed with comment: Approved as corrected.

1. We ask that all 2" waterlines are changed to a minimum of 4". The 2" line has been changed to 8" (it was mislabeled).

Currituck County Public Utilities/Backflow (Chas Sawyer, 252-232-6060 ext. 4221)

Major Subdivision Application

Page 6 of 12

Revised 7/1/2019

Attachment: 5 Mary's Application (PB 21-25 Flora Farms)

ATTACHMENT TO APPLICATION FOR PRELIMINARY PLAT/USE PERMIT APPROVAL for Flora Farm

Purpose of the Use Permit and Project Narrative

The goal is to build a community that has a creative design, with single family lots in an attractive arrangement, with an efficient use of open space that promotes an active lifestyle and strong sense of community. Limited, neighborhood commercial uses are also proposed on a 2.3 acre portion of the property.

The ways in which these goals and objectives will be achieved is shown graphically on the approved Conditional Zoning Plan, and is further described in the following paragraphs:

- Housing type has been revised to be all conventional frontloaded single family development lots.
- The Community will be pedestrian friendly, with open spaces and greenways strategically located throughout the community, and with a combination of sidewalks, multi-use paths, a dog park and a clubhouse with attractive outdoor recreation areas.
- Lower areas that are more flood prone are being set aside as open space, most of which will be used for the construction of lakes and ponds for the management of stormwater.

USE PERMIT CRITERIA:

1. The use will not endanger the public health or safety.

Transportation, portable water, wastewater and stormwater management will be addressed in accordance with the following paragraphs:

- a. Transportation: The main subdivision entrance will be connected directly to Survey Road. Deceleration and acceleration lanes will be provided in accordance with NCDOT Standards and have been approved by NCDOT. Connectivity will be provided to the Fost development to the east.

Roadways have been laid out generally as shown on the Master Plan and will be in accordance with the approved right-of-way and pavement width characteristics, using the NCDOT standards.

Appropriate access has been made for emergency service vehicles in accordance with applicable standards including the N.C. Fire Code.

- b. Potable Water: Water will be supplied by Currituck County via an existing 12" main located on Caratoke Highway, which will be tapped and looped through the site. Fire protection will be provided in accordance with UDO Standards and the applicable ISO standards. The water system will be modeled to demonstrate adequate flow and pressure for fighting fires while meeting the maximum day domestic demand.
- c. Wastewater: A centralized off-site wastewater treatment and disposal facility will be utilized (Currituck Water & Sewer Major Utility), and connected to a force main running from the Fost Tract to the treatment facility at Eagle Creek. A wastewater collection system will be constructed by the Developer and managed by the same wastewater utility. The utility will be regulated by the North Carolina Utilities Commission.
- d. Stormwater Management: A major drainage way known as Rowland Creek Canal runs through the development property. Due to the importance of this drainage feature not only to the development but to other properties located both upstream and downstream of this property, the Developer has committed to cleaning and laying back the slopes and stabilizing the portion of Rowland Creek that runs through this property to the Eagle Creek pup station. The Developer has also committed to improving the common property line ditch along Ranchland and the Eagle Creek property to the west.

On-site stormwater will be managed by constructing a series of stormwater management ponds that will be interconnected and will retain and slow-release stormwater to existing outlets. In addition to modeling and retaining stormwater to the UDO and Stormwater Manual standard of the difference between runoff from the 10-year developed condition and runoff from a 2-year wooded condition site, stormwater will be modeled for the 100-year storm without adversely impacting neighboring properties. Implementation of this plan should improve drainage for neighboring properties compared to existing conditions.

Stormwater will be conveyed to on-site retention ponds through a combination of curbs with inlets, stormwater pipes, and open vegetated swales.

2. The use will not injure the value of adjoining or abutting lands and will be in harmony with the area in which it is located.

Land use to the west is residential. Land use to the north is commercial, land to the east is residential lots, and land to the south is residential lots. Perimeter compatibility is being addressed as follows:

- a. To the west: A 25' vegetated buffer is being provided to existing development.
- b. To the north No compatibility issues are envisioned
- c. To the east: A PD-r with higher density is being developed ahead of this community.

- d. To the south: Compatible residential development is being proposed and a minimum 50 foot open space buffer is shown to the property line.
- e. Limited commercial development is proposed along the highway where appropriate.

Lot size ratios and density ratios are comparable to other developments that have been approved in the immediate area and in other parts of Moyock.

The applicant is not aware of any adverse impacts on land value in the surrounding area. The applicant anticipates that its proposed stormwater improvements may benefit the property values of the nearby Ranchland community. The Development is anticipated to **increase** the values of nearby properties by improving existing drainage problems.

The site is adjacent to the Eagle Creek neighborhood. The proposed use is compatible with these adjacent uses and furthers the County's goal of concentrating new residential development in the vicinity of existing residential development. Nearby communities include existing planned communities of 588 lots to the west, a 479 unit PD-R to the east and 426 lots under development to the north of Caratoke Highway, all in the vicinity of the Flora tract. The development is appropriate for the location as it continues existing development patterns in this part of Moyock. Lot area ratios and density ratios are consistent with other developments that have been approved recently nearby and in other parts of Moyock.

3. The use is consistent with the goals, objectives, and policies of the Land Use Plan or other applicable county-adopted plans:

- a. **The use is consistent with the following policies of the Currituck County Land Use Plan ("LUP"):** The project is consistent with the Land Use Plan policies addressing density, recreational and open space, transportation infrastructure, and utilities:

- i. **Density:** The project is located within the Full Service Area of the Land Use Plan, and proposes a density of 1.37 units per acre. The proposed use will include residential development in village like-clusters and will include open spaces surrounding the clusters, helping to prevent traditional suburban sprawl. The applicant is proposing centralized sewer, and the Full Service Area designation recognizes higher density (above 2 units per acre) is appropriate here. The proposed use will not interfere with nearby resource production activities. This is consistent with the County's density designations because development is occurring along Caratoke Highway, a major transportation corridor, and is an infill site between two existing residential subdivisions. This is consistent with the following Land Use Plan policies:

***POLICY AG6:** For areas experiencing intense development pressure, new residential development may be allowed to locate in COMPACT, VILLAGE-LIKE CLUSTERS, PREFERABLY NEAR EXISTING, NON-AGRICULTURAL ACTIVITIES AND SERVICES, or in other locations that will not interfere with resource production activities. Overall density shall remain very low, with permanent open space, dedicated during the development review process, surrounding such clusters of homes. LUP, p. 9-7.*

***POLICY HN1:** Currituck County shall encourage development to occur at densities appropriate for the location. LOCATION AND DENSITY FACTORS shall include whether the development is within an environmentally suitable area, the type and capacity of sewage treatment available to the site, the*

adequacy of transportation facilities providing access to the site, and the proximity of the site to existing and planned urban services. For example, projects falling within the Full Services areas of the Future Land Use Map would be permitted a higher density because of the availability of infrastructure as well as similarity to the existing development pattern. Such projects could be developed at a density of two (2) or more dwelling units per acre.... LUP, p. 9-7.

POLICY HN3: Currituck County shall especially encourage two forms of residential development, each with the objective of avoiding traditional suburban sprawl...COMPACT, MIXED USE DEVELOPMENTS or DEVELOPMENTS NEAR A MIXTURE OF USES that promote a return to balanced, self-supporting community centers generally served by centralized water and sewer. The types of development are contemplated for the Full Service Areas identified on the Future Land Use Map. LUP, p. 9-7.

ii. Utilities:

Stormwater: The applicant is aware of stormwater drainage issues in the surrounding properties and has conducted a stormwater study to investigate causes in Rowland Creek, upstream and downstream from the property. That study has shown significant restrictions to flow on both on- and off-site properties, which the applicant is willing to remove and restore with the off-site landowners' consent. The applicant is also placing significant drainage facilities on site to collect and control its own water. The applicant plans to model the 100-year storm event and to manage stormwater runoff from that event. These commitments will provide a public benefit to the County by improving existing drainage problems with private funds, and providing a responsible mechanism for the site and surrounding areas to drain.

Wastewater: The applicant is proposing to connect to an off-site wastewater treatment and disposal facility. This will give the existing system new funds for upgrades, repair, and maintenance. Thus, the development will have a positive impact on sewer facilities and will not strain the County's infrastructure, consistent with the Full Service Area designation which anticipates additional density on this site.

This is consistent with the following Land Use Plan policies:

POLICY WS7: Currituck County allows for the appropriate use of PACKAGE SEWAGE TREATMENT PLANTS as a means of achieving more efficient land use, while properly disposing of waste. Such systems shall have a permanent organizational ownership to guarantee their proper management, including operation, maintenance and replacement needs. Depending on their location in the county, such systems may be required to have a design that allows for assimilation into a centralized system at a future date. LUP, p. 9-13.

POLICY WQ3: Currituck County supports policies, plans and actions that help protect the water quality of the county's estuarine system by preventing SOIL EROSION AND SEDIMENTATION, and by controlling the quantity and quality of STORMWATER RUNOFF entering the estuary. LUP, p. 9-17.

POLICY WQ4: RUNOFF AND DRAINAGE from development, forestry and agricultural activities shall be of a quality and quantity as near to natural conditions as possible. Post-development runoff shall not exceed pre-development volumes. LUP, p. 9-17.

iii. Recreational and Open Space: The project will provide for sidewalks, greenways, and walking trails to encourage mobility by pedestrians and bicyclists. It also

preserves a significant amount of open space and natural features throughout to promote recreation and preserve natural areas. This is consistent with the following Land Use Plan policies:

POLICY TR9: *BIKEWAY FACILITIES shall be encouraged as energy-efficient, healthful, and environmentally sound alternatives to the automobile. The inclusion of bikeways, sidewalks, trails, and other alternatives to the automobile shall be encouraged in both public and private developments. LUP, p. 9-11.*

POLICY PR4: *The County shall seek to identify, plan for and develop a system of OPEN SPACE GREENWAYS, HIKING and BIKING TRAILS as opportunities may allow. The use of (1) natural corridors such as streams and floodplains, and (2) man-made corridors such as utility and transportation rights-of-way and easements, shall be emphasized. LUP, p. 9-14.*

POLICY PR6: *All new residential development shall provide for ADEQUATE OPEN SPACE AND RECREATION IMPROVEMENTS including, as may be appropriate, funding in proportion to the demand created by the development. The amount of open space and improvements may be determined according to the number of dwelling units in the development and/or by a percentage of the total acreage in the development. Fees in lieu of land dedication shall be based on the inflation adjusted assessed value of the development or subdivision for property tax purposes. LUP, p. 9-14.*

iv. Transportation infrastructure: As set forth in the master plan, the project will provide for paved public roadways and drainage infrastructure, and will include convenient circulation within the proposed neighborhood. The project will have direct access to Survey Road and connectivity to the Fost development, which has direct access to NC 168, and will not include access to higher intensity development through an area of lower intensity development. This is consistent with the following Land Use Plan policies:

POLICY TR12: *New residential developments shall provide for the installation of PAVED PUBLIC ROADWAY AND DRAINAGE INFRASTRUCTURE at the time of development. This policy is intended to prevent the creation of substandard developments that must later correct for infrastructure problems that could have been avoided, had they been installed properly from the beginning.... LUP, p. 9-11.*

POLICY CA1: *The important economic, tourism, and community image benefits of attractive, functional MAJOR HIGHWAY CORRIDORS through Currituck County shall be recognized. Such highway corridors, beginning with US 158 and NC 168, shall receive priority attention for improved appearance and development standards, including driveway access, landscaping, buffering, signage, lighting and tree preservation. LUP, p. 9-19.*

POLICY TR11: *ACCESS TO HIGHER INTENSITY DEVELOPMENT shall generally not be permitted through an area of lower intensity development. For example, access to a multi-family development, a major park facility or other large traffic generator shall not be permitted through a local street serving a single-family residential neighborhood. LUP, p. 9-11.*

POLICY TR8: *Local streets shall be designed and built to allow for convenient CIRCULATION WITHIN AND BETWEEN NEIGHBORHOODS and to encourage mobility by pedestrians and bicyclists. Care shall be taken to encourage local street "connectivity" without creating opportunities for cut-through traffic from outside the connected areas. LUP, p. 9-11.*

b. The proposed use is consistent with the following provisions of the Moyock Area Policy Emphasis of the Land Use Plan:

Moyock Area Policy Emphasis: *The policy emphasis of this plan is on properly managing the increased urban level of growth that this area is sure to experience over the next decade and beyond. Residential development densities should be medium to high depending upon available services. In areas where on-site wastewater is proposed and other County services are limited, development density should be limited to 1-2 units per acre. However in areas where central sewer is proposed or existing, additional services are available and the character of the surrounding areas supports it, higher density ranging from 3-4 units per acre could be considered through the use of overlay zones.*

Clustered housing developments, with open space required by ordinance, will need to be encouraged. If sewage treatment collection systems are built, whether publicly or privately, all such systems should be designed so as to allow them to be tied together into a single system at some point in the future. LUP, p. 11-4.

The proposed use will include clustered housing accompanied by open spaces. The applicant is proposing connection to a privately developed sewer to avoid strain on County infrastructure. Because the wastewater system will be a central sewer system, and the 1.37 units/acre is below the 3-4 units per acre allowed where central sewer is available, the proposed use is consistent with the Moyock Area Policy Emphasis.

c. The proposed use is consistent with the Future Land Use Map.

The Currituck County Future Land Use Map designates the site as a Full Service area. In Full Service areas, residential density can be increased to 3-4 units per acre depending on the available services. A greater diversity in housing types is also appropriate in Full Service Areas. The proposed use will have 1.37 units per acre, which is within the contemplated development densities from Section 3.7.3 of the UDO for MXR districts.

d. The proposed use is consistent with the following policies and action items of the Moyock Area Small Area Plan ("SAP"):

The proposed use will include open spaces, sidewalks, greenways, and walking trails to for recreational purposes, and a clubhouse for community gathering. The plan will provide for connections to Ranchland, as appropriate. The applicant is studying the existing stormwater drainage issues and will ensure that the project improves these issues.

POLICY TR 2: *Ensure that development is designed with an interconnected, multi-modal transportation network between neighborhoods, activity centers, and other destinations to improve mobility and emergency access. Development of an interconnected road network east and west of Highway 16 that allows north-south movement for local residential traffic is strongly encouraged. SAP, p. 16.*

POLICY IS 1: *The costs of infrastructure, facilities, and services related to new growth and development should be borne primarily by those creating the demand. SAP, p. 17.*

POLICY IS 4: *Ensure that stormwater runoff, soil erosion, and sedimentation is properly managed to reduce nuisance flooding and pollution of sensitive environmental areas. SAP, p. 17.*

POLICY IS 5: *Encourage retrofitting of NCDOT drainage infrastructure to manage nuisance flooding. SAP, p. 18.*

ACTION IS 5A: *Coordinate with NCDOT to develop a plan of action for addressing ... Ranchland subdivision flooding.... SAP, p. 18.*

POLICY R-1: *Expand and develop recreational opportunities for all ages and users including access to the water and natural environment, walking trails, multi-purpose fields, multi-purpose community building, and other non-traditional types of recreational opportunities that are consistent with the Currituck County Parks and Recreation Master Plan. SUP, p. 21.*

The use will not exceed the county's ability to provide adequate public facilities, including, but not limited to, schools, fire and rescue, law enforcement, and other county facilities.

The site has adequate access to Survey Road and NC 168 and will be adequately served by schools (it is our understanding that additional school capacity will be available within 24 months), police, fire, and emergency services. The applicant has completed a stormwater study and improvements plan to ensure that stormwater management will be enhanced not only for the development but also for the surrounding community. Sewer service will be provided off-site and will not burden the county's wastewater system.

The Flora Tract

Community Meeting for a Request for Preliminary Plat and Special Use Permit

June 22, 2021

Scheduled Time/Place: 5:30pm, Eagle Creek Event Pavilion, Moyock, NC

Meeting Began at 5:35PM/ Meeting Ended: at approximately 6:25PM

Attendees from community(See attached sign-in sheet)

The meeting began at 5:35 PM and ended at approximately 6:25 PM. Several attendees stayed and talked informally for about another half hour.

An overview was first provided of the review process, with this being the second major step in the approval process after the conditional rezoning that was approved earlier this year.

Since the plan has not changed since the previous community meeting, the community comments and responses that were documented at that meeting were reviewed first.

New comments and responses we're received as follows:

Comments from the Community	How Addressed
Where will the ponds drain?	Some of them will be interconnected. The front ponds will drain to Survey Road and the back ponds will drain to Rowland Creek canal.
What about the ponds in the back? Will any drain to the new ditch on the property line?	One or two of the ponds in the back part of the development may drain to the new ditch along the property line which will then drain to Rowland Creek. It is uncertain at this point where the outlet for pond 10 will be.
Who will maintain the stormwater systems?	A stormwater association is being formed that will be responsible for the stormwater systems for Fost, Flora and Moyock Farms. This will be its sole function. It will operate under the authority of the HOA's that are being set up for the three developments.

What about wind tide influence?	Wind tides have been studied along Rowland Creek, and there is no real influence on Rowland creek on this side of 168.
How will sewer be handled?	It will be pumped to Eagle Creek via a new force main that will be installed along Survey Road
When will the ditch be dug?	With property owner permission, it will be dug from the top of the existing ditch bank on the Ranchland and Eagle Creek side and widened on the Flora side.
Will trees be taken down?	No trees will be taken beyond the top of the existing ditch bank. Comment: : It's OK with me if you take the trees on my side
What can be done on the 22 acres?	Right now it has agricultural zoning and there are a few things that could be done but there probably will need to be a rezoning in the future for some business uses.
Will there be ranch homes as well as two-story?	Probably yes.
How will the houses be priced?	Home construction is too far in the future to be able to price them right now.
When will you know how big the ditch will be along the property line?	It will be sized when the construction drawings are done for the first phases of the development which will probably be this fall, following stormwater modeling.
Will we be able to see the results of the model?	We will share the results of the modeling and the plans.
Will there be a traffic light at the Foster entrance?	Most likely there will be, following a signal warrant study when there is enough traffic to justify one.
Where will the entrance be to Flora?	(It was pointed out on the map.)
Will there be a signal at Survey Road at 168?	No light is planned there but there will be improvements to Survey Road such as widening and a turning lane and then a left turn restriction at 168.
Is there any way to connect Moyock Farms to Ranchland?	No, because any road would need to cross private property. Comment: Good.
Will there be natural gas?	Yes
Will there be recreational amenities?	Yes, there will be a clubhouse and pool, dog park, picnic and gathering areas, and multi-use paths.

Currituck, North Carolina 27929

RE: Wastewater Service – Flora Development and Fost Development
Eagle Creek WWTP
Moyock - Currituck County
Permit No. WQ0014306

Dear Ms. LoCicero:

Sandler Utilities at Mill Run, LLC holds permit Number WQ0014306 allowing for the continued operation of the Eagle Creek wastewater treatment and disposal system. The subject treatment system permit is in effect through June 30, 2027 and can be renewed and reissued. Based on a cursory review of the August 4, 2021 permit (attached), the following is offered in regards to available flow allocation for the Eagle Creek WWTP:

- Permit WQ0014306 was renewed and updated on August 4, 2021. The current permit specifies and/or covers:
 - Operation of a 175,000 gallon per day reclaimed water utilization and high-rate infiltration facility
 - Continued operation of a 5.5 million gallon high rate infiltration basin
 - Continued operation of a dedicated reclaimed water utilization system with 262,625 gpd of capacity. Note, Condition I.6 of the Permit (attached) specifies, in part, *“Prior to the expansion of the facility above the currently permitted 175,000 GPD, the Permittee shall provide a new Soil Evaluation and Hydrogeologic Report to determine the total disposal capacity of the facility.”*
 - Construction only of the WWTP expansion to its original permitted capacity of 350,000 gpd
 - Expansion of the non-conjunctive reclaimed water utilization facilities to provide a disposal capacity of 321,000 gpd (with satisfaction of criteria specified in Condition I.6.).
- Pathways forward to increase the operational capacity of facility include:

- Reassessment of current disposal capacities for the golf course documenting its ability to accommodate higher disposal volumes
 - Obtaining concurrence from DWR regarding recommendations presented in a Soil Evaluation and Hydrogeologic Report
 - Seeking a permit amendment/modification to support higher disposal volumes (based on conclusions made from a recent Soil and Hydrogeologic evaluation)
- The WWTP must demonstrate consistent performance achieving permit treatment requirements, prior to submittal of a sewer extension permit application. WWTP performance must be satisfactory for approval of any potential sewer extension permits.

Please note that the above position is based on a preliminary review of Eagle Creek's operational status. A final determination regarding the feasibility of directing flow from potential new development projects to the Eagle Creek WWTP would not be made until review of a sewer extension permit application package is performed. All conditions and requirements for issuance of a sewer system extension permit must be satisfied to enable approval of such permit. No part of a sewer collection system shall be constructed without first obtaining required permits.

This letter does not commit or obligate Sandler Utilities at Mill Run, LLC or any future facility owner to provide sewer service for other development projects or prospective customers, nor does it obligate the Division of Water Resources to issue related sewer system permits for the project.

Should you have any questions concerning this matter, please contact me at 252-948-3939 or at david.may@ncdenr.gov.

Sincerely,

David May

SANDLER UTILITIES AT MILL RUN, LLC

Michael Myers

Currituck Water & Sewer, LLC

4700 Homewood Ct., Suite 108

Raleigh, NC 27609

Re: Acceptance of Additional Flow, Fost Tract

Dear Mr. Myers,

Sandler Utilities at Mill Run, LLC ("Sandler Utilities") provides this written confirmation that the wastewater agreement permits the acceptance of the flow from the Fost project.

The current capacity of our plant is 175,000 gpd with permitted disposal capacity of 350,000 gpd. Our actual average inflow is 52,695 gpd, leaving remaining capacity of 122,305 gpd prior to expansion of the facility. As such, we have the ability to accept 104,805 gpd of flow prior to expansion to 350,000 gpd. The Fost Tract is only expected to generate 57,480 gpd of flow.

As you are aware, Sandler Utility and Currituck Water & Sewer are in the process of transferring the Eagle Creek wastewater system, so responsibility for expansion will be on Currituck Water & Sewer.

Sincerely,

Brittney M. Willis – Project Manager
Sandler Utilities at Mill Run, LLC

2021-5

STATE OF NORTH CAROLINA
COUNTY OF CURRITUCK

IN THE GENERAL COURT OF JUSTICE
SUPERIOR COURT DIVISION
21 CVS 78

STATE OF NORTH CAROLINA, *ex rel.*,
NORTH CAROLINA DEPARTMENT OF
ENVIRONMENTAL QUALITY,

Plaintiff,

v.

SANDLER UTILITIES AT MILL RUN,
LLC,

Defendant.

CONSENT JUDGMENT

FILED
2021 JUL -1 P 1:13
CURRITUCK CO., C.S.C.
BY JCT

Plaintiff, the State of North Carolina, by and through the North Carolina Department of Environmental Quality ("Plaintiff" or "DEQ"), and Defendant Sandler Utilities at Mill Run, LLC ("Defendant") hereby agree to the entry of this Consent Judgment in order to resolve the matters in controversy between Plaintiff and Defendant.

The Court makes, and Plaintiff and Defendant (collectively "the Parties") hereby stipulate to, the following findings of fact and conclusions of law:

FINDINGS OF FACT

1. Plaintiff is the sovereign State of North Carolina. This action was brought on the relation of the North Carolina Department of Environmental Quality ("DEQ"), the State agency established pursuant to N.C. Gen. Stat. § 143B-279.1 *et seq.*, and vested with the statutory authority to enforce the State's environmental pollution laws, including laws enacted to protect the water quality of the State. The Division of Water Resources ("DWR") is a division within DEQ and all actions taken by DWR are necessarily actions of the Plaintiff.

2. Defendant is a limited liability corporation formed in North Carolina with its principal office in Virginia and doing business in North Carolina. Defendant is the owner and operator of the wastewater collection system serving the Eagle Creek Subdivision, Eagle Creek Golf Club, and Moyock Middle School in Moyock, Currituck County, North Carolina ("Collection System").

3. The Eagle Creek Subdivision is a development in Moyock, Currituck County, North Carolina. The development includes approximately 420 single-family homes and is generally situated between Roland Creek Canal to the north and Guinea Mill Run Canal to the south. Stormwater swales run beside the roadways in the development and between homes. Those swales drain to the Roland Creek Canal to the north and Guinea Mill Run Canal to the south of the development.

4. On May 2, 2013, DWR issued non-discharge permit number WQCS00290 ("Permit") to Defendant for operation of the Collection System.

5. The Collection System consists of 4.8 miles of vacuum sewer and utilizes vacuum pumps to maintain a constant negative pressure within the sewer pipes. Domestic waste from individual homes connected to the system collects in containment vessels, commonly referred to as "pits," with each pit serving two homes. When the level of waste within the pit reaches a determined level, pneumatic pressure triggers the opening of a valve to the piping connected to the sewer line. The vacuum withdraws waste and wastewater from the pit into the sewer line. When the waste level within the pit drops, the valve connecting the pit to the sewer line is closed, allowing waste to again collect within the pit and maintaining the vacuum in the sewer line.

*Description
of vacuum
system*

6. Wastewater from the Collection System is conveyed to the Sandler Utilities Wastewater Treatment Plant for treatment and disposal as authorized by a separate permit,

WQ0014306.

7. A release of wastewater from a wastewater collection system such as Defendant's is referred to as a sanitary sewer overflow or "SSO."

8. Condition I.2 of the Permit requires that the Collection System "shall be effectively managed, maintained and operated at all times so that there is no SSO to land or surface waters, nor any contamination of groundwater." In the event of a system failure, the permittee is required to "take immediate corrective actions, including actions that may be required by [DWR] such as the construction of additional or replacement sewer lines and/or equipment."

9. Condition II.5 of the Permit provides that "for each pump station without pump reliability...at least one fully operational spare pump capable of pumping peak flow shall be maintained on hand."

10. Condition II.11 of the Permit provides that, if an SSO occurs, Defendant "shall restore the system operation, remove visible solids and paper, sanitize any ground area and restore the surroundings."

11. Condition IV.2 of the Permit provides that SSOs of over 1,000 gallons and any SSO that reaches surface waters, must be verbally reported to DWR as soon as possible, but no later than "24 hours following the occurrence or first knowledge of the occurrence."

12. On September 29, 2020, DWR's Washington Regional Office began receiving complaints from Eagle Creek residents indicating that the Collection System was not operating properly at homes throughout Eagle Creek.

13. On September 30, 2020, DWR inspectors Sarah Toppen and Victoria Herdt from the Washington Regional Office conducted a site inspection to investigate the complaints. DWR's investigation confirmed that the system had not been operating properly since September 27, 2020

due to failure of one of the two vacuum pumps. The vacuum pump failure caused SSOs that drained into stormwater swales in front of and between homes.

14. Upon learning of the incident, Defendant called in technical support from Airvac, the initial pump supplier, to assist in bringing the Collection System back on line. Due to insufficient replacement parts available on site, Defendant purchased replacement parts for the vacuum pumps and mechanical equipment located in the pits to address the reported issues.

15. Defendant provided cleanup and lime application at any location showing evidence of overflow and in all roadside ditches around October 9, 2021. Performance issues in the Collection System were resolved by October 11, 2020.

16. On October 26, 2020, the Washington Regional Office again began receiving complaints indicating that the Collection System was experiencing further performance issues resulting in SSOs.

17. On October 27, 2020, Ms. Toppen and another DWR inspector, Allen Stewart, conducted a site inspection to investigate the complaints and learned that a high water alarm within the Collection System had failed, causing the water to overflow and flood both of the system's vacuum pumps, taking them offline. The vacuum pumps' failure resulted in SSOs, and a water sample from the stormwater swale at 125 Eagleton Circle contained fecal coliform (bacteria from fecal matter) that were too numerous to count.

18. In response to this incident, Defendant requested assistance from technicians from Airvac and FloVac (another vacuum system supplier), and the vacuum pumps were restored and fully operational by October 29, 2020. Among other equipment and parts, Defendant ordered new parts for the malfunctioning high water alarm, which were installed on November 5, 2020.

19. On November 13, 2020, the Washington Regional Office began receiving new

complaints stating that, beginning on or around November 11, 2020, the Collection System was not operating properly causing SSOs.

20. On November 14, 2020, David May, DWR Regional Supervisor for the Washington Regional Office, conducted a site visit to investigate the complaints. DWR's investigation confirmed the Collection System was experiencing performance issues resulting in SSOs. A substantial number of houses and customers remained without functional sewer service through at least November 16, 2020.

21. Complaints to the Washington Regional Office recommenced on November 20, 2020. Residents indicated that the Collection System was not functioning properly, that residents were once again without sewer service due to vacuum leaks disrupting operation of the Collection System, and that some pits were overflowing. A number of houses remained without functional sewer service or sporadic sewer service through about November 25, 2020.

22. On December 16, 2020, the Washington Regional Office once again received complaints from Eagle Creek residents regarding disruption of sewer service and SSOs. DWR's investigation suggested that the problem was limited to one section of the Eagle Creek development due to a disconnected line in a pit and sustained rainfall. Residences affected by the disconnected line remained without functional sewer service or sporadic sewer service through approximately December 18, 2020.

23. Additional complaints to the Washington Regional Office were received on January 26, 2021, with residents complaining that they lacked sewer service and describing other performance issues including SSOs.

24. Defendant has been subject to various enforcement actions by the DWR related to the Permit as a result of the incidents described above.

25. On October 7, 2020, DWR issued a Notice of Violation and Notice of Intent to Enforce ("First NOV") to Defendant pertaining to SSOs and system failures occurring from September 27, 2020 and ongoing as of the date the NOV was issued. The First NOV alleged the following violations:

- a. Violation of Permit Condition I.2 for failure to effectively manage, maintain and operate the Collection System at all times so there are no SSOs to land or surface waters;
- b. Violation of Permit Condition II.11 for failure to restore the system operation, remove visible solids and paper, sanitize any ground area and restore surroundings after an SSO;
- c. Violation of Permit Condition IV.2 for failure to properly report SSOs.

26. In a letter dated October 27, 2020, Defendant responded to the First NOV. Defendant stated that replacement parts for the failed vacuum pumps were not readily available, causing a delay in fixing the Collection System. Once the vacuum pump was replaced, Defendant noted that two sewage pumps malfunctioned, forcing the entire system offline again for cleaning. Defendant acknowledged that its operator's personnel resources were stretched during the event limiting the ability to address the Collection System problems in a timely manner and that additional support from a vacuum sewer specialist was called in. Defendant stated that cleanup of any discharges was performed and the System was ultimately repaired.

27. DWR assessed a civil penalty of \$62,517.96 against Defendant arising out of the allegations in the First NOV on December 10, 2020 ("Civil Penalty") for fifteen violations of Permit Condition I.2 between September 27, 2020 and October 11, 2020.

28. On November 23, 2020, DWR issued a Second Notice of Violation and Notice of

Intent to Enforce (“Second NOV”) to Defendant pertaining to SSOs and system failures occurring during the period from October 26, 2020 through November 5, 2020. In addition to alleging violations of Permit Conditions I.2, II.11 and IV.2, the Second NOV alleged violations of Permit Condition II.5¹ for failure to maintain operational replacement pumps for stations without pump reliability and N.C. Gen. Stat. § 143-215.1(a)(1) for making an outlet into waters of the State without a permit.

29. In a letter dated December 15, 2020, Defendant responded to the Second NOV. Defendant stated that a “very large investment has been made into new equipment and parts” and that new equipment and parts were ordered. Defendant also stated that spills were addressed with lime application and solid waste overflow was physically removed. In response to the incident, Defendant installed a new vacuum pump and motor, acquired a spare vacuum pump and motor, purchased a new sewer pump, and replaced multiple controllers and valves within individual pits. Defendant further replaced parts needed to ensure functionality of the high-level alarm (which was the precipitating cause of this incident) to alleviate water intake into the vacuum sewer pumps causing failure.

30. On December 16, 2020, DWR issued a Third Notice of Violation and Notice of Intent to Enforce (“Third NOV”) to Defendant pertaining to SSOs and system failures occurring during the period from November 11, 2020 through November 16, 2020. The Third NOV alleged violations of Conditions I.2, II.11, and IV.2 as well as N.C. Gen. Stat. § 143-215.1(a)(1).

31. On January 14, 2021, DWR issued a Fourth Notice of Violation and Notice of Intent to Enforce (“Fourth NOV”) to Defendant pertaining to SSOs and system failures occurring during the period from November 20 through November 25, 2020. The Fourth NOV alleged violations

¹ A typographical error in the Second NOV identifies a violation of Permit Condition II.6, not II.5. The narrative description of the violation refers to Permit Condition II.5, however.

of Conditions I.2, II.11, and IV.2 as well as N.C. Gen. Stat. § 143-215.1(a)(1).

32. DEQ filed the instant action on March 4, 2021, seeking injunctive relief for existing or threatened violations of various laws and rules governing the protection of water quality pursuant to N.C. Gen. Stat. § 143-215.6C.

33. The Parties have reached a mutually agreeable and reasonable resolution of the injunctive relief sought by DEQ through this suit which they seek to memorialize in this Consent Judgment.

34. The Court has reviewed the pleadings and supporting materials in this matter. Counsel for the Parties have represented to the Court that their respective clients have reviewed and approved the substance of the proposed Consent Judgment and that the Parties supported a request that this Court approve a Consent Judgment embodying their agreement.

CONCLUSIONS OF LAW

1. This matter is properly before this Court, which has jurisdiction over the Parties and subject matter of this action pursuant to N.C. Gen. Stat. § 143-215.6C and other provisions of law.

2. Venue is proper pursuant to under N.C. Gen. Stat. §§ 1-79 and 143-215.6C.

3. Defendant is subject to non-discharge collection system permit number WQCS00290. Pursuant to that permit, as well as North Carolina laws and regulations, Defendant is expressly prohibited from discharging collected sewage and wastewater to land and waters of the State. *See* 15A NCAC subchapter 2T (“Waste Not Discharged to Surface Waters”); N.C. Gen. Stat. § 143-215.1(a)(1) (disallowing any person from making “any outlets into waters of the State” without receiving a permit to do so).

4. Whenever DEQ has reasonable cause to believe that any person has violated or is

threatening to violate any of the provisions of the State's environmental laws or administrative rules, including State water quality laws and rules, DEQ is authorized to "request the Attorney General to institute a civil action in the name of the State upon the relation of [DEQ] for injunctive relief to restrain the violation or threatened violation." N.C. Gen. Stat. § 143-215.6C. That section further provides that "[u]pon a determination by the court that the alleged violation of the provisions of this Part or the regulations of the Commission has occurred or is threatened, the court shall grant the relief necessary to prevent or abate the violation or threatened violation." N.C. Gen. Stat. § 143-215.6C.

5. As of the date of entry of this Consent Judgment, Defendant has repeatedly violated the conditions of its Permit and North Carolina's water quality laws, including, but not limited to, failing to properly manage, maintain and operate the Collection System to prevent SSOs, failing to maintain replacement equipment to prevent SSOs, and failure to restore consistent service to Eagle Creek residents.

6. The current state of the Collection System presents an ongoing threat that the Eagle Creek Development will continue to experience performance issues and SSOs into nearby surface water in violation of the Collection System Permit, and in violation of N.C. Gen. Stat. § 143-215.1(a)(1).

7. The State is entitled to permanent injunctive relief against Defendant to abate the repeated previous violations and prevent the threatened violations set forth in the Complaint pursuant to N.C. Gen. Stat. § 143-215.6C.

8. Based on the Court's review of the pleadings and materials submitted, the Court has concluded that the relief reflected in the Consent Judgment represents a lawful, fair, and reasonable resolution of this matter, consistent with the purposes of N.C. Gen. Stat. § 143-215.1,

and this Court further concludes that it is fully authorized and justified in entering this Consent Judgment.

9. The Parties expressly waive any argument that the recitation of the above Findings of Fact and Conclusions of Law is insufficient to support the injunctive relief ordered below.

Based upon the foregoing Findings of Fact and Conclusions of Law, **IT IS THEREFORE ORDERED, ADJUDGED, AND DECREED** as follows:

Defendant is ordered to do the following:

1. Fully comply with all terms and conditions of the Permit and State water quality laws, including by maintaining the Collection System in a manner that prevents the discharge of waste onto to land or into surface waters;
2. Report to a DWR staff member as soon as possible but in no case more than 24 hours following knowledge of the occurrence of any material equipment failure, any material system failure, and any SSO regardless of volume and file a written report within five days outlining actions taken or proposed to address the equipment failure, system failure, and SSO and prevent recurrence. An equipment or system failure shall be considered material if there is any SSO associated with the failure or the failure affects four or more residences in the Eagle Creek Development. The reports referenced in this subparagraph shall be submitted to the following email address:

David May, DWR
david.may@ncdenr.gov

3. Within 30 calendar days of entry of this Consent Judgment:
 - a. Secure all pits to ensure only Defendant and its operators have pit access;

- b. Submit to DWR for approval (which may include conditions) a plan for Defendant's operators to receive any necessary training in operating and maintaining the Collection System, including specialized training in vacuum system operation, or provide documentation that such training has been received ("Operator Training Plan");
 - c. Submit to DWR for review and approval (which may include conditions) a plan to prevent future SSOs, restore and sanitize areas impacted by prior SSOs, and expeditiously restore and maintain service to homeowners in the event of any system failures pending an engineering evaluation of the Collection System ("Interim Service and Restoration Plan");
 - d. Provide to DWR a complete engineering evaluation detailing actions necessary to prevent future SSOs and system failures, including but not limited to necessary upgrades to the design and physical infrastructure of the Collection System ("Engineering Evaluation").
4. Within 60 calendar days of entry of this Consent Judgment:
- a. Submit to DWR for review and approval (which may include conditions) a plan with actions to be taken to address necessary and proposed upgrades included in the Engineering Evaluation ("System Upgrade Plan"). The System Upgrade Plan must include a proposed schedule with dates by which each activity will be completed and, as appropriate, the frequency with which those activities will be repeated.
5. If DWR requires plan revisions in order for any of the plans listed above to be approved, Defendant shall resubmit the plan incorporating said revisions within 15 days of written

notification by DWR that such revisions are required. DWR's discretion to require plan revisions shall be limited to revisions necessary to ensure compliance with North Carolina's water quality laws and regulations including provisions applicable to wastewater collection systems.

6. Once each submission is approved (the Operator Training Plan, the Interim Service and Restoration Plan, and the System Upgrade Plan) including any conditions added by DWR to each, Defendant shall execute each plan in accordance with the dates included therein.
7. Once the work set forth in the approved System Upgrade Plan, including any conditions added by DWR, is completed, Defendant shall submit a final report documenting the results of the activities set forth in each respective plan. The final report shall include a certification from a licensed professional engineer.
8. Unless otherwise indicated, Defendant shall submit all plans and reports referenced above to:

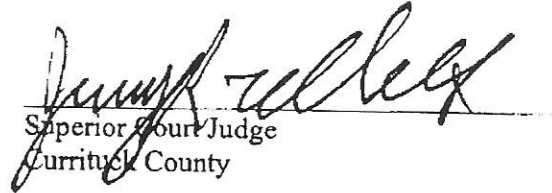

David May, DWR
david.may@ncdenr.gov
9. It is further ordered that this Consent Judgment shall take effect immediately and shall remain in effect until the Permittee can adequately demonstrate that the collection system can operate in a reliable manner and maintain compliance with North Carolina water quality laws and regulations on a consistent basis. The Defendant may request termination of this Consent Judgment by the Court at no time sooner than one year following submittal of the final report described in Paragraph 7 above and subsequent approval by DWR. The Parties shall comply with all terms of this Consent Judgment.
10. This Consent Judgment shall be binding upon Defendant's successors and assigns.

Defendant shall not transfer any of the assets that are the subject of the Complaint, including the Permit or the Collection System, unless and until Defendant moves to join the transferee as a defendant in this case such that this Consent Judgment shall be binding upon the transferee and the Court issues an order granting such motion. DEQ agrees that it will not oppose dismissal of Defendant in the event the assets that are the subject of the Complaint have been transferred and the transferee has been added as a defendant in this case and is bound by this Consent Judgment. Nothing in this Consent Judgment relieves Defendant of its duty to abide by the terms of the Permit and State water quality law. DEQ retains its authority, in accordance with applicable law, to initiate any and all enforcement actions that would otherwise be available to it in the absence of this Consent Judgment.

11. The Court shall retain continuing jurisdiction in this case to enforce the terms and conditions of this Consent Order, to modify this Consent Order, and to resolve disputes arising under this Consent Order until all parties have complied with all provisions of this Consent Judgment.
12. The contempt provisions of Article 2, Chapter 5A of North Carolina General Statutes shall be available to enforce this Consent Judgment.
13. This Consent Judgment may be signed out-of-court, out-of-term, out-of-county, and may be signed in multiple counterpart originals, all of which, taken together, shall be considered one and the same document. Facsimile or scanned signatures will be sufficient to render this Consent Judgment effective. Original signatures will be substituted at a later date.
14. Each undersigned representative of a party to this Consent Judgment certifies that the

representative is authorized to enter into the terms and conditions of this Consent Judgment, and to execute and legally bind such party to this Consent Judgment.

This the 23rd day of JUNE, 2021.

Superior Court Judge
Currituck County

April 1, 2021

Mr. William Grantmyre
Staff Attorney
North Carolina Public Staff Utilities Commission
4326 Mail Service Center
Raleigh, NC 27699-4300

Re: Docket No. W-1130, Sub 8
Eagle Creek Subdivision

Dear Mr. Grantmyre:

Sandler Utilities at Mill Run, LLC ("Sandler Utilities") sincerely regrets the recent wastewater system backups into the homes of customers caused by controller and valve failures due to water intrusion into the valve pit packages of the Eagle Creek Vacuum System ("Vacuum System"). As discussed in our January 22, 2021 letter, Sandler Utilities performed substantial capital improvements to the Vacuum System since the Commission's Recommended Order Granting Rate Increase, Requiring Refund, and Customer Notice was issued on December 11, 2015. As discussed in detail on our January 22, 2012 letter, more recently, Sandler Utilities (i) retained the services of FloVac to provide expert recommendations about how to address and correct the problems with the Vacuum System; (ii) enlisted FloVac's assistance in training the operator of the system, Envirolink, Inc. ("Envirolink"), as to how to prevent water ingestion in the system; (iii) installed 120 new controllers from October 12, 2020 through November 23, 2020 that are capable of processing small amounts of water and being submerged up to five feet with no impact to performance; (iv) performed proper installation of in-sump breather hoses on several valve pits; and (v) installed one new valve pit in December 2020. Also, Sandler Utilities has requested recommendations from FloVac about whether to install a monitoring system at each valve pit so that the operator of the system can timely respond to any issues with the system.

In addition to those actions and capital improvements, Sandler has performed, or will be performing, further remedial actions and improvements to the system to reduce rainwater intrusion and minimize flooding of the valve pits. Below is a list of the actions items and completion date for the additional improvements to reduce rainwater intrusion and minimize flooding of the valve pits.

Action Item	Recommended Response	Completion Schedule for Remedial Action
<u>Rainwater intrusion.</u> Reduce rainwater intrusion and minimize flooding in valve pits. Most rainwater intrusion is believed to be caused by I&I from the homeowners' laterals causing vacuum systems to struggle with inundation during heavy rain.	Install a monitoring system to detect in real time issues, such as missing clean out caps that the homeowners may have removed to relieve wastewater system back-ups. It will also alleviate time spent searching for leaks in the system, and response time is critical to keep problems from escalating.	FloVac has submitted proposals for the monitoring system to both Sandler Utilities and Envirolink, the potential purchaser of the Vacuum System. Sandler Utilities and Envirolink are reviewing FloVac's proposal, and determining the most effective method of addressing the problems with the system.

April 1, 2021

Page 2

<u>Continuous operation of vacuum pump.</u> The vacuum pump frequently operates continuously during periods of high water levels within the vacuum holding tank, and the continuous operation of the vacuum pump creates the potential for motor failure.	Repair high-level lock-out valve.	This repair was completed in December 2020.
<u>System monitoring.</u> Appropriate and effective system monitoring during off-hours has been accomplished.	Sandler Utilities is committed to ensuring that Envirolink is appropriately staffed so that any required service to the system will be performed timely. Sandler Utilities has instructed Envirolink to have a 24/7 presence at the plant. Envirolink's 24/7 presence at the plant will address previous issues of response time, such as when issues occurred during weekends when Envirolink was not physically on-site.	At the instruction of Sandler Utilities, effective on 3/19/2021, Envirolink has a physical presence at the site for 7-day, 20-hour shifts. Also, Envirolink will have at least two technicians on call during the remaining 4 hours of the day in which the plant is not physically staffed by an operator. During projected wet weather events, Sandler Utilities will be proactive and request that Envirolink ensure that 24-7 physical coverage is maintained until the wet weather event has subsided.
<u>Outsource controllers.</u> Outsource controllers and valves to be rebuilt so fully functional ones are available when needed.	37 controllers that had been waiting for technician repair were delivered to FloVac for repair and rebuilding by their expert technicians. FloVac repaired the controllers and delivered them to the Eagle Creek plant.	The repairs to the controllers were completed in December 2021. In the event that Envirolink has a back-log for repair of the controllers in the future, Sandler Utilities has informed Envirolink to deliver the controllers to FloVac for repair.
<u>Controller failure.</u> Controller failure from water ingestion was the result of new controllers being properly fitted to the valves within the collection network.	Envirolink technicians were trained about the proper procedure for removing water from the valve upper before fitting a new controller to prevent water ingestion.	FloVac provided training to Envirolink during the week beginning November 20, 2020.
<u>Operator's technical experience.</u>	Envirolink has been gaining experience and expertise in operating a vacuum wastewater system since the EnviroTech team who had previously operated the system left in	In November 2002, Sandler Utilities hired a former EnviroTech employee with experience in operating vacuum systems. This former EnviroTech employee is leading operations at the facility, and he has been

Page 3

	September 2020. Training in vacuum systems for all technicians who work at or will potentially work at this plant is critical.	instrumental in leading his team to detect and address potential issues. Also, Sandler Utilities has requested that Envirolink continue a training regimen with its operators to ensure that the operators will be proficient with the vacuum system. Mike Myers with Envirolink has that training has occurred and that additional training by a technician who leads training efforts with both AirVac and FloVac will be scheduled.
<u>Extended outages.</u> A delay in receipt of the initial vacuum pump replacement caused an extended outage that resulted serious problems to the system. The ongoing disassembly and reassembly of the valve pit by pump truck operators to clear the pits left the valve pits vulnerable to failures.	Once the system was stabilized, technicians analyzed each valve pit, and tested, repaired, reconnected, and replaced items as necessary. During this analysis, a technician discovered that a valve pit had collapsed. Therefore, a new valve pit was ordered and installed to replace the failed valve pit.	The analysis of each valve pit was conducted and completed during December 2020. As a result of the analysis, most of the valve pits that had sustained damage during the September and October outages were repaired. For example, each valve was fired multiple times by hand and then analyzed for hose orientation and correct hose connection and timing.
<u>Problem identification.</u> Identify problems early that cannot be readily observed.	Envirolink operators are required to record daily run times during their daily station "walk-through."	An example of a log and recording document was provided to Envirolink in November 2020 to use as an example. This document is now utilized as part of Envirolink's daily protocol.
<u>Pump station alarm.</u> The excessive pump run alarm is the most effective warning to keep the system from collapsing and causing a complete failure. Therefore, the pump alarm must be operating properly at all times.	Envirolink is required to check the pump alarm on a weekly basis, and check the control panel and sensors associated with all alarm systems at the plant on a weekly basis.	Since January 2021, Envirolink has been inspecting these systems to make sure they are operating properly. By the end of 2021, Sandler Utilities plans to provide and overhaul the control panel.
<u>Couplings wearing prematurely to the motor of the sewer pumps.</u>	Alignment of the motor on the pumps has been checked.	Pearson pumps completed this work during their repair and replacement efforts in November 2020.
<u>Nonoperational check valves on the vacuum main.</u>	Replace or repair as needed.	Valves are exercised weekly and are all currently in working order.

Page 4

<u>Inadequate stock levels.</u>	Ensure multiple spare parts are available at all times.	From October 2020 through January 2021, numerous controllers, valves, pumps, motors, and valve pits have been ordered and kept on-site for Envirolink to use when needed.
<u>Excessive activations caused by inflow and infiltration from the homeowners' gravity laterals.</u>	Install a monitoring system to identify locations of excessive activations.	In December 2020, FloVac submitted proposals for a monitoring system to Sandler Utilities and Envirolink. Sandler Utilities and Envirolink are considering the proposals.
<u>The length of time it takes Envirolink to identify the location of a valve that is stuck open.</u>	Install a monitoring system to eliminate the need for this search.	In December 2020, FloVac submitted proposals for a monitoring system to Sandler Utilities and Envirolink. Sandler Utilities and Envirolink are considering the proposals.
<u>Short cycling of sewage pumps likely caused by debris in the vacuum collection tanks.</u>	Clean and inspect the collection tank thoroughly.	The vacuum tank was cleaned and thoroughly inspected in October 2020.

Sandler Utilities is committed to ensuring that the wastewater system for the Eagle Creek Subdivision is both safe and reliable. We are continuing our efforts to ensuring that the problems with the Vacuum System are satisfactorily addressed.

If you have any question about our plan to address the problems with the system, please let me know.

Sincerely,

Brittney M. Willis – Project Manager

Re: Flora Farm Phases 1-5
 Sanitary Sewer Utility, Willingness to Serve

To Whom it may Concern,

Currituck Water & Sewer (CWS) is currently working through the regulatory approvals to acquire Eagle Creek Wastewater Treatment Facility serving the Eagle Creek community. CWS intends to provide wastewater service to the Fost Development. We understand the project to include 277 residential dwelling units and approximately 7,500 square feet of commercial for an estimated 62,847 gpd.

Eagle Creek WWTP has a NC DEQ approved 321,000 gpd of permitted capacity with actual plant capacity of 175,000 gpd and annual average flow of 53,917 gpd. In accordance with NC DEQ regulation, CWS will expand the capacity from 175,000 gpd on or before the annual average flow exceeds 157,500 gpd.

The following summarizes the capacity commitments for the Eagle Creek Wastewater Treatment System.

Description	Allocation	Remaining Permitted Capacity	Plant Capacity
Permitted Capacity		321,000 gpd	175,000 gpd
Eagle Creek Community	53,917 gpd	267,083 gpd	121,083 gpd
Golf Club	1,462 gpd	265,621 gpd	119,621 gpd
Moyock Middle School	3,546.91 gpd	262,074 gpd	116,047 gpd
Fost, phase 1-5	63,511 gpd	198,563 gpd	52,563 gpd
Fost, phase 6-9	37,758 gpd	160,805 gpd	14,805 gpd
Additional 175,000 gpd capacity			189,805 gpd
Flora	62,847 gpd	97,958 gpd	316,763 gpd
Total	223,042 gpd		

Prior to submitting for an NC DEQ collection system permit, CWS anticipates completion of the expansion from 175,000 gpd to 350,000 gpd.

As such upon approval by Currituck County, Currituck Water & Sewer, LLC intends to provide sanitary sewer service to Fost phases 6-9 and Flora.

Should you have any questions, please do not hesitate to contact me directly at 252-235-4900 or email at mmyers@envirolinkinc.com

Sincerely

Michael Myers

MEMORANDUM

To: Mark S. Bissell, P.E. – Bissell Professional Group

From: Lyle Overcash, P.E. – Kimley-Horn and Associates, Inc.

Date: August 24, 2021

Subject: Flora Farms Development – Moyock, NC – Traffic Assessment

The *Flora Farms Subdivision TIA* (VHB, May 2020) analyzed the traffic impacts of constructing 285 single-family homes, 125 apartments, and 100,000 square feet (SF) of general retail space south of Caratoke Highway (NC 168) and Survey Road in Moyock, North Carolina. As stated in the *Flora Farms Trip Generation Update Memorandum* (VHB, November 2020), the project's site plan (shown in **Figure 1**) has been updated and now includes up to 277 single-family homes and 7,500 SF of general retail space. This memorandum analyzes the traffic impacts of the reduced development on the local roadway network.

Study Area and Volume Development

The study intersections, existing roadway laneage, existing and background traffic volumes were obtained from the *Flora Farms Subdivision TIA* and were not modified as part of this analysis.

Trip Generation and Distribution

The traffic generation potential of the proposed project was determined using the data published in the 10th Edition of the ITE Trip Generation Manual. This data, as well as a comparison with the trip generation from the original TIA, is shown below in Table 1.

Land Use Code	Land Use	Intensity	Daily (Weekday)	AM Peak Hour		PM Peak Hour	
			Total	In	Out	In	Out
210	Single Family Detached Housing	277 d.u.	277	50	151	170	100
820	Shopping Center	7,500 s.f.	7,500	138	84	38	42
Subtotal			3,690	188	235	208	142
Internal Capture Total			346	3	3	3	3
Pass-By Total			293	0	0	12	14
Total Net New External Trips: 2021 Plan Update			3,051	185	232	193	125
Total Net New External Trips: Original TIA (2020)			8,380	189	274	316	246
Remaining Trip Bank: Original TIA minus August 2021 Update			5,329	4	42	123	121

As shown in Table 1, compared to the uses assumed in the original TIA, the updated development plan is expected to generate 5,329 fewer trips daily, a 64% trip reduction. Also, there were 46 fewer trips during the AM peak hour and 244 fewer trips in the PM peak hour on a typical weekday, 10% and 43% reductions respectively.

The generated trips were assigned to the external roadway network according to the overall distribution and percent assignment shown in **Figure 2**. Directional distribution and assignment were based on existing travel patterns, land uses in the area, and a review of origins and destinations.

Capacity Analysis

The assigned site traffic volumes were added to projected (2026) background volumes to obtain the projected (2026) build-out traffic volumes, which are shown in **Figure 3**. Peak hour capacity analyses for the build-out condition were performed at the study intersections using Synchro version 10 software. Table 2 below summarizes the results of these capacity analyses and compares them to the original TIA.

Table 2 Level-of-Service Summary		
Condition	AM Peak Hour LOS (Delay)	PM Peak Hour LOS (Delay)
Caratoke Hwy (NC 168) at Survey Road (signalized)

Summary & Recommendations

The following improvements were committed to be performed by other projects in the area and were assumed to be in place in the build-out condition:

Caratoke Highway (NC 168) at Fost Boulevard

- Construct a southbound right-turn lane with 150 feet of storage and appropriate taper on NC 168.
- Stripe out 200 feet of storage within the existing two-way left turn lane to provide a northbound left-turn lane on NC 168.
- Construct Fost Boulevard with one ingress lane and two egress lanes. Provide a continuous right-turn lane and a left-turn lane with 250 feet of storage and appropriate taper.
- Install a traffic signal.

The following improvements were recommended to be performed as part of the Flora Development project and were assumed to be in place in the build-out condition:

Caratoke Highway (NC 168) at Survey Road

- Construct a southbound right-turn lane with 100 feet of storage and appropriate taper on NC 168.
- Stripe out 200 feet of storage within the existing two-way left turn lane to provide a northbound left-turn lane on NC 168.
- Restrict access to not allow left turns from Survey Road.

Future Access #1/#2 at Survey Road

- Construct Future Access #1 with one ingress lane and two egress lanes. Provide an exclusive northbound left-turn lane with 100 feet of storage and appropriate taper and a shared through/right-turn lane.
- Construct Future Access #2 with one ingress lane and one egress lane.
- Provide eastbound left- and right-turn lanes on Survey Road, both with 100 feet of storage and appropriate taper.
- Construct a westbound left-turn lane on Survey Road with 100 feet of storage and appropriate taper.

Based on the analysis presented in Table 2, the committed and recommended laneage is anticipated to provide acceptable levels of service under projected build-out traffic demands. **Figure 4** shows the committed and recommended laneage.

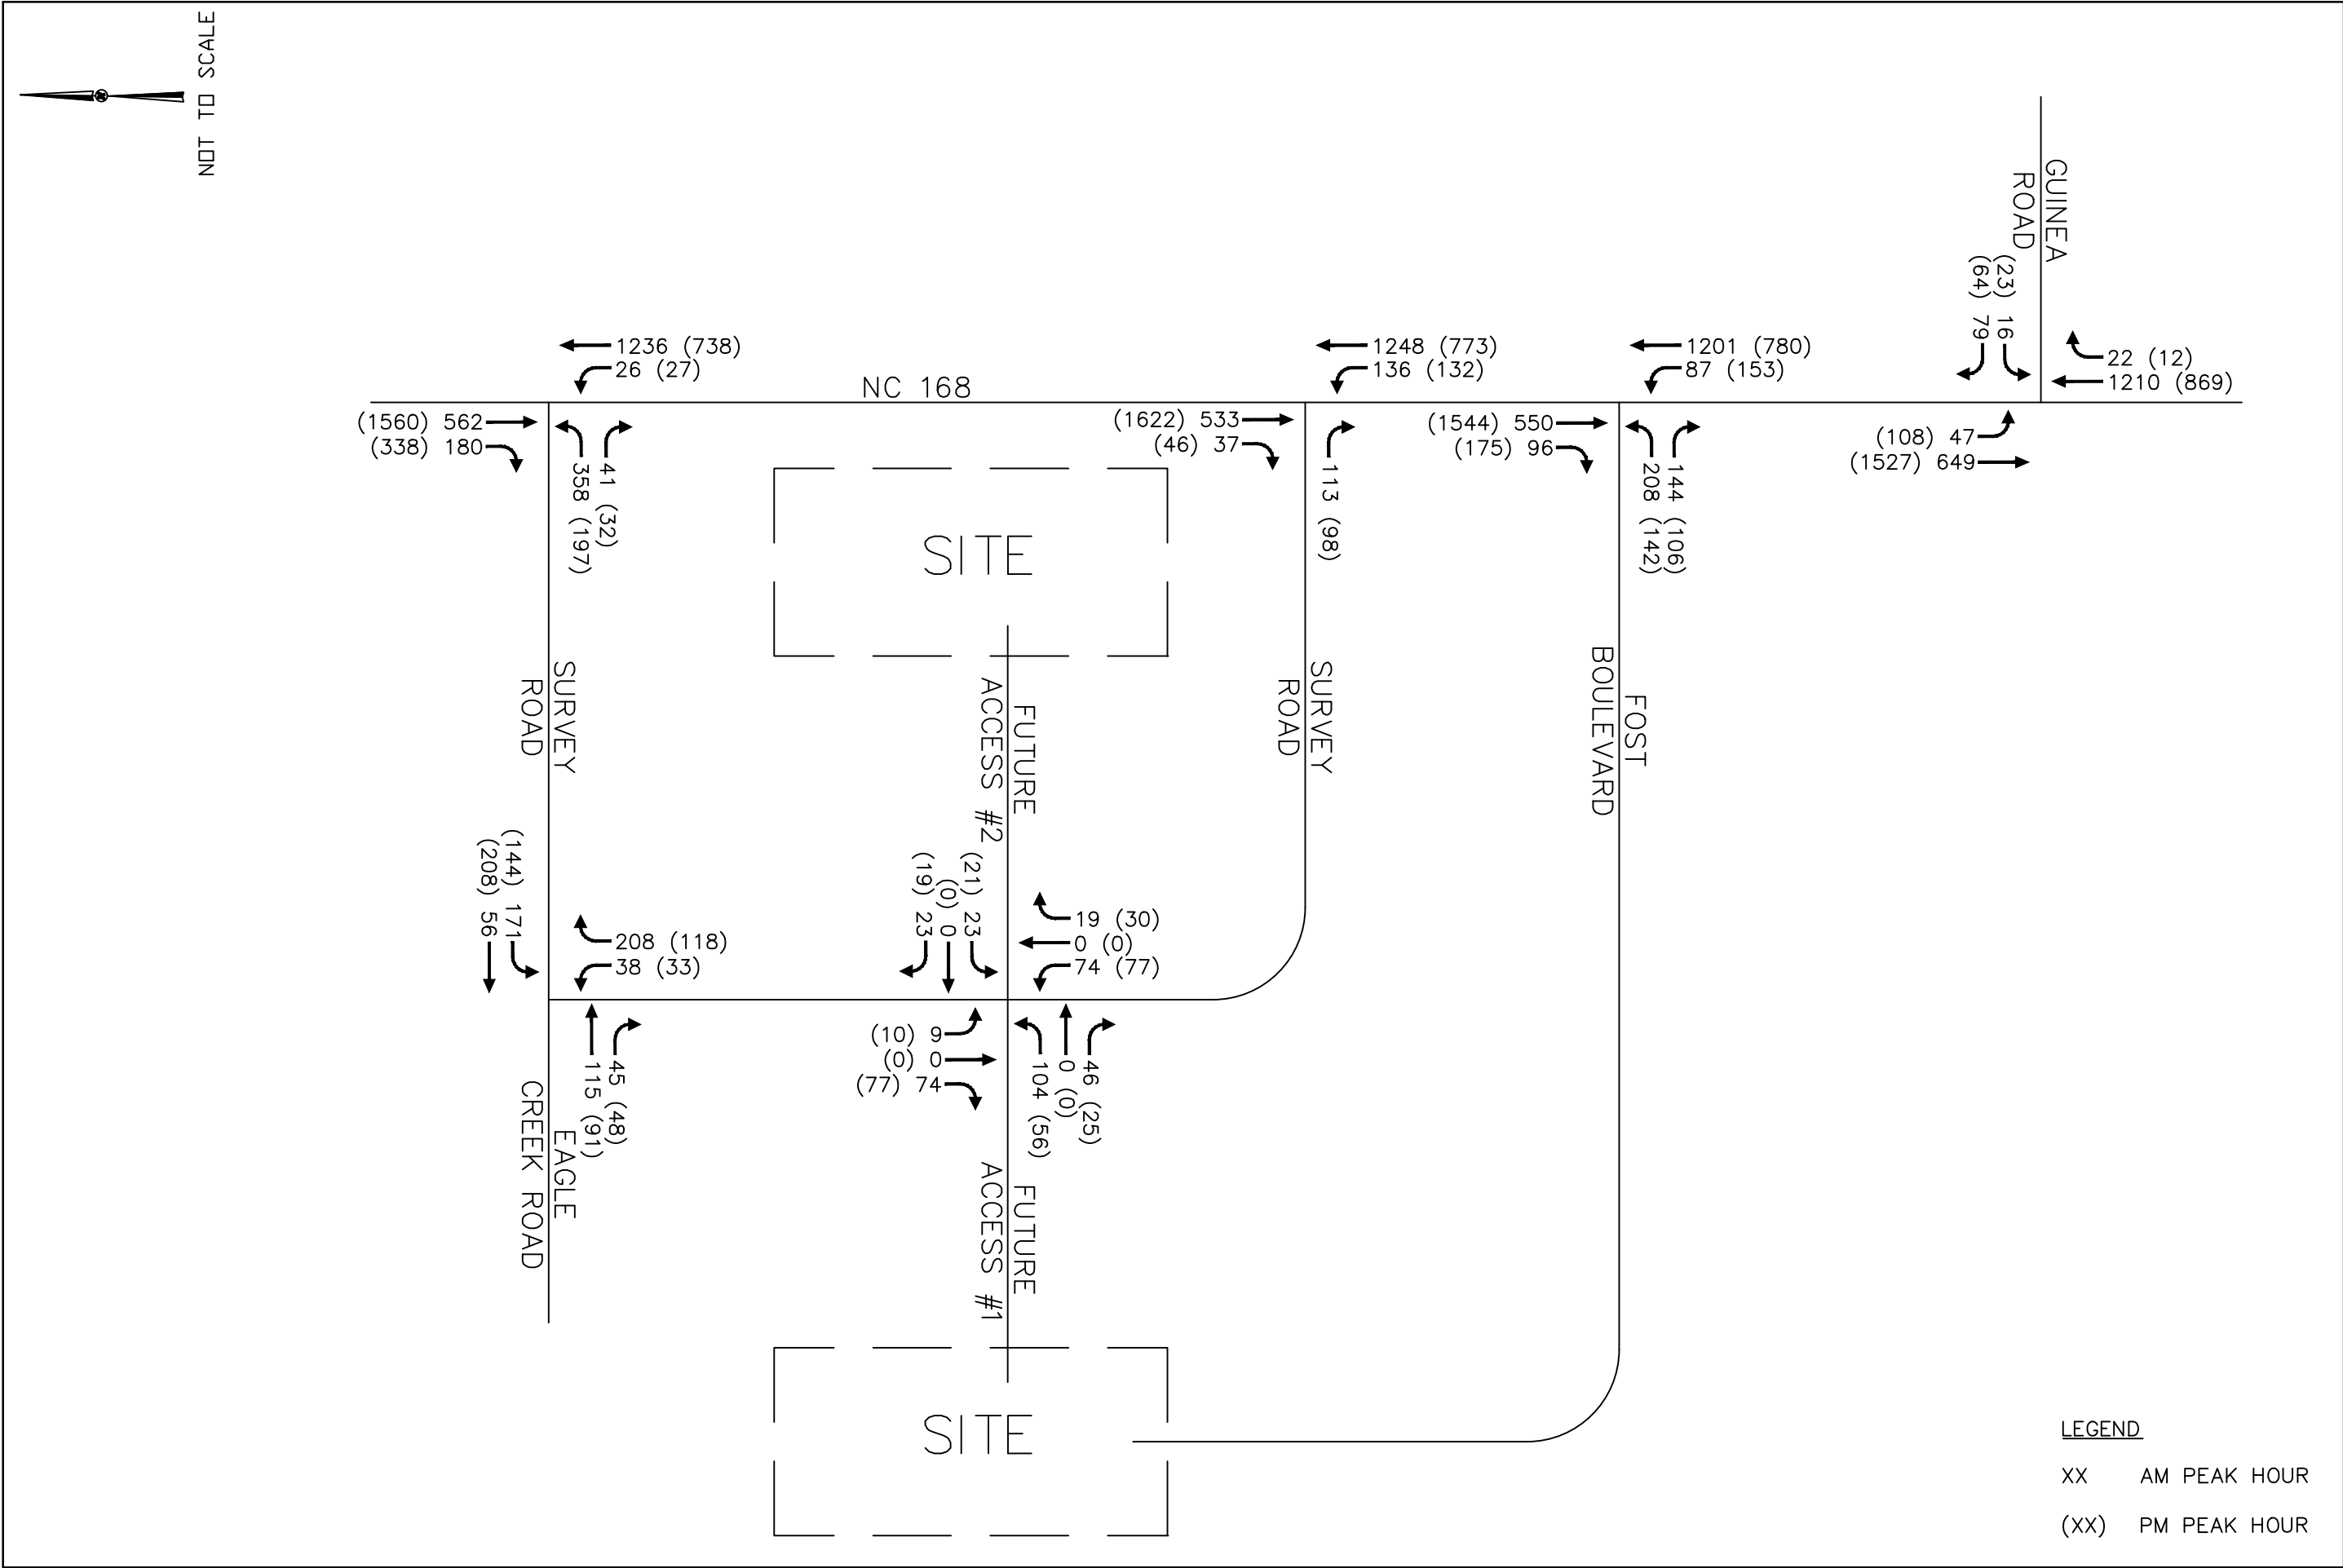

Should you have any questions or comments, please do not hesitate to contact me at (919) 678-4131 or lyle.overcash@kimley-horn.com.

Intersection Summary

Area Type: Other

Cycle Length: 90

Actuated Cycle Length: 90

Offset: 8 (9%), Referenced to phase 2:NBT and 6:SBT, Start of Green

Natural Cycle: 65

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 0.86

Intersection Signal Delay: 13.0

Intersection LOS: B

Intersection Capacity Utilization 71.5%

ICU Level of Service C

Analysis Period (min) 15

95th percentile volume exceeds capacity, queue may be longer.

Queue shown is maximum after two cycles.

m Volume for 95th percentile queue is metered by upstream signal.

NOTIFICATION OF JURISDICTIONAL DETERMINATION

Property Owner/Applicant: **Mary Flora Brumsey**
Address: **196 Ed Brumsey Lane**
Currituck, North Carolina 27929
Telephone Number: **252-232-3005**

Size (acres) 111.7- acres
Nearest Waterway Roland Creek
USGS HUC 03010205

Nearest Town Snowden
River Basin Albemarle-Chowan
Coordinates Latitude: 36.490988 N
Longitude: -76.156546 W

Location description: Property is an approximate 111.7-acre tract located off US Highway 168 and Survey Road, adjacent to Roland Creek and the Northwest River, near Snowden, in Currituck County, North Carolina. The project area consists of an approximate 42-acre wooded area immediately adjacent to the existing agricultural fields on the property. Currituck County Parcel No. 8031-61-2088. Deed Book 1230. Page 398.

Indicate Which of the Following Apply:

A. Preliminary Determination

- PAF X** There are waters, including wetlands, on the above described property that may be subject to Section 404 of the Clean Water Act (CWA)(33 USC § 1344) and/or Section 10 of the Rivers and Harbors Act (RHA) (33 USC § 403). The waters, including wetlands, have been delineated, and the delineation has been verified by the Corps to be sufficiently accurate and reliable. Therefore this preliminary jurisdiction determination may be used in the permit evaluation process, including determining compensatory mitigation. For purposes of computation of impacts, compensatory mitigation requirements, and other resource protection measures, a permit decision made on the basis of a preliminary JD will treat all waters and wetlands that would be affected in any way by the permitted activity on the site as if they are jurisdictional waters of the U.S. This preliminary determination is not an appealable action under the Regulatory Program Administrative Appeal Process (Reference 33 CFR Part 331). However, you may request an approved JD, which is an appealable action, by contacting the Corps district for further instruction.
- There are wetlands on the above described property, that may be subject to Section 404 of the Clean Water Act (CWA)(33 USC § 1344) and/or Section 10 of the Rivers and Harbors Act (RHA) (33 USC § 403). However, since the waters, including wetlands, have not been properly delineated, this preliminary jurisdiction determination may not be used in the permit evaluation process. Without a verified wetland delineation, this preliminary determination is merely an effective presumption of CWA/RHA jurisdiction over all of the waters, including wetlands, at the project area, which is not sufficiently accurate and reliable to support an enforceable permit decision. We recommend that you have the waters of the U.S. on your property delineated. As the Corps may not be able to accomplish this wetland delineation in a timely manner, you may wish to obtain a consultant to conduct a delineation that can be verified by the Corps.

B. Approved Determination

- There are Navigable Waters of the United States within the above described property subject to the permit requirements of Section 10 of the Rivers and Harbors Act (RHA) (33 USC § 403) and Section 404 of the Clean Water Act (CWA)(33 USC § 1344). Unless there is a change in law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

There are waters of the U.S., including wetlands, on the above described property subject to the permit requirements of Section 404 of the Clean Water Act (CWA) (33 USC § 1344). Unless there is a change in the law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

— We recommend you have the waters of the U.S. on your property delineated. As the Corps may not be able to accomplish this wetland delineation in a timely manner, you may wish to obtain a consultant to conduct a delineation that can be verified by the Corps.

SAW-2019-00619 Brumsey
Corps Regulatory Official:

R. W. Bland, P.W.S.

Date: March 8, 2019 Expiration Date: N/A for PJD

The Wilmington District is committed to providing the highest level of support to the public. To help us ensure we continue to do so, please complete our Customer Satisfaction Survey, located online at http://corpsmapu.usace.army.mil/cm_apex/f?p=136:4:0.

SAW-2019-00619 Brumsey

E: PRELIMINARY JURISDICTIONAL DETERMINATION: You do not need to respond to the Corps regarding the preliminary JD. The Preliminary JD is not appealable. If you wish, you may request an approved JD (which may be appealed), by contacting the Corps district for further instruction. Also you may provide new information for further consideration by the Corps to reevaluate the JD.

SECTION II - REQUEST FOR APPEAL or OBJECTIONS TO AN INITIAL PROFFERED PERMIT

REASONS FOR APPEAL OR OBJECTIONS: (Describe your reasons for appealing the decision or your objections to an initial proffered permit in clear concise statements. You may attach additional information to this form to clarify where your reasons or objections are addressed in the administrative record.)

ADDITIONAL INFORMATION: The appeal is limited to a review of the administrative record, the Corps memorandum for the record of the appeal conference or meeting, and any supplemental information that the review officer has determined is needed to clarify the administrative record. Neither the appellant nor the Corps may add new information or analyses to the record. However, you may provide additional information to clarify the location of information that is already in the administrative record.

POINT OF CONTACT FOR QUESTIONS OR INFORMATION:

If you have questions regarding this decision and/or the appeal process you may contact:

**District Engineer, Wilmington Regulatory Division,
Attn: Raleigh W. Bland, PWS
2407 West 5th Street
Washington, North Carolina 27889
910-252-4558**

If you only have questions regarding the appeal process you may also contact:

**Mr. Jason Steele, Administrative Appeal Review Officer
CESAD-PDO
U.S. Army Corps of Engineers, South Atlantic Division
60 Forsyth Street, Room 10M15
Atlanta, Georgia 30303-8801
Phone: (404) 562-5137**

RIGHT OF ENTRY: Your signature below grants the right of entry to Corps of Engineers personnel, and any government consultants, to conduct investigations of the project site during the course of the appeal process. You will be provided a 15 day notice of any site investigation, and will have the opportunity to participate in all site investigations.

Signature of appellant or agent.	Date:	Telephone number:
----------------------------------	-------	-------------------

For appeals on Initial Proffered Permits send this form to:

**District Engineer, Wilmington Regulatory Division, Raleigh W. Bland, PWS, 2407 West 5th Street
Washington, North Carolina 27889**

For Permit denials, Proffered Permits and approved Jurisdictional Determinations send this form to:

**Division Engineer, Commander, U.S. Army Engineer Division, South Atlantic, Attn: Mr. Jason Steele,
Administrative Appeal Officer, CESAD-PDO, 60 Forsyth Street, Room 10M15, Atlanta, Georgia 30303-8801
Phone: (404) 562-5137**

Remarks: (If observed, list morphological adaptations below).

Majority of project consists of mature timber with little evidence of timber activities.

Dominance Test worksheet:

Number of Dominant Species That Are OBL, FACW, or FAC: 3 (A)

Total Number of Dominant Species Across All Strata: 3 (B)

Percent of Dominant Species That Are OBL, FACW, or FAC: 100 (A/B)

Prevalence Index worksheet:

Total % Cover of: Multiply by:

OBL species x 1 =

FACW species x 2 =

FAC species x 3 =

FACU species x 4 =

UPL species x 5 =

Column Totals: (A) (B)

Prevalence Index = B/A =

Hydrophytic Vegetation Indicators:

☐ 1 - Rapid Test for Hydrophytic Vegetation

☒ 2 - Dominance Test is >50%

☐ 3 - Prevalence Index is ≤3.0¹

☐ Problematic Hydrophytic Vegetation¹ (Explain)

¹Indicators of hydric soil and wetland hydrology must be present, unless disturbed or problematic.

Definitions of Four Vegetation Strata:

Tree – Woody plants, excluding vines, 3 in. (7.6 cm) or larger in diameter at breast height (DBH), regardless of height.

Sapling/Shrub – Woody plants, excluding vines, less than 3 in. DBH and greater than 3.28 ft. (1m) tall.

Herb – All herbaceous (non-woody) plants, regardless of size, and woody plants less than 3.28 ft tall.

Woody vine – All woody vines, greater than 3.28 ft. in height.

Hydrophytic Vegetation Present? Yes ☒ No ☐

SOIL

Sampling Point: WM-1

U.S. ARMY CORPS OF ENGINEERS WILMINGTON DISTRICT

Action Id. SAW-2019-00618 County: Currituck U.S.G.S. Quad: Lambs Corner NE

NOTIFICATION OF JURISDICTIONAL DETERMINATION

Property Owner/Applicant: John J. Flora III
Address: Post Office Box 369
 Moyock, North Carolina 27958
Telephone Number: 252-232-3005

Size (acres) 108.9 acres
 Nearest Waterway Roland Creek
 USGS HUC 03010205

Nearest Town Snowden
 River Basin Albemarle-Chowan
 Coordinates Latitude: 36.489537 N
 Longitude: -76.154810 W

Location description: Property is an approximate 108.9-acre tract located off US Highway 168 and Survey Road, adjacent to Roland Creek and the Northwest River, near Snowden, in Currituck County, North Carolina. The project area consists of an approximate 48-acre wooded area immediately adjacent to the existing agricultural fields on the property. Currituck County Parcel No. 8031-71-1141. Deed Book 1230. Page 402.

Indicate Which of the Following Apply:

A. Preliminary Determination

- AMB X** There are waters, including wetlands, on the above described property that may be subject to Section 404 of the Clean Water Act (CWA)(33 USC § 1344) and/or Section 10 of the Rivers and Harbors Act (RHA) (33 USC § 403). The waters, including wetlands, have been delineated, and the delineation has been verified by the Corps to be sufficiently accurate and reliable. Therefore this preliminary jurisdiction determination may be used in the permit evaluation process, including determining compensatory mitigation. For purposes of computation of impacts, compensatory mitigation requirements, and other resource protection measures, a permit decision made on the basis of a preliminary JD will treat all waters and wetlands that would be affected in any way by the permitted activity on the site as if they are jurisdictional waters of the U.S. This preliminary determination is not an appealable action under the Regulatory Program Administrative Appeal Process (Reference 33 CFR Part 331). However, you may request an approved JD, which is an appealable action, by contacting the Corps district for further instruction.
- There are wetlands on the above described property, that may be subject to Section 404 of the Clean Water Act (CWA)(33 USC § 1344) and/or Section 10 of the Rivers and Harbors Act (RHA) (33 USC § 403). However, since the waters, including wetlands, have not been properly delineated, this preliminary jurisdiction determination may not be used in the permit evaluation process. Without a verified wetland delineation, this preliminary determination is merely an effective presumption of CWA/RHA jurisdiction over all of the waters, including wetlands, at the project area, which is not sufficiently accurate and reliable to support an enforceable permit decision. We recommend that you have the waters of the U.S. on your property delineated. As the Corps may not be able to accomplish this wetland delineation in a timely manner, you may wish to obtain a consultant to conduct a delineation that can be verified by the Corps.

B. Approved Determination

- There are Navigable Waters of the United States within the above described property subject to the permit requirements of Section 10 of the Rivers and Harbors Act (RHA) (33 USC § 403) and Section 404 of the Clean Water Act (CWA)(33 USC § 1344). Unless there is a change in law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

There are waters of the U.S., including wetlands, on the above described property subject to the permit requirements of Section 404 of the Clean Water Act (CWA) (33 USC § 1344). Unless there is a change in the law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

— We recommend you have the waters of the U.S. on your property delineated. As the Corps may not be able to accomplish this wetland delineation in a timely manner, you may wish to obtain a consultant to conduct a delineation that can be verified by the Corps.

SAW-2019-00618 FloraCorps Regulatory Official: Robert W. Bland, P.W.S.Date: March 8, 2019Expiration Date: N/A for PJD

The Wilmington District is committed to providing the highest level of support to the public. To help us ensure we continue to do so, please complete our Customer Satisfaction Survey, located online at http://corpsmapu.usace.army.mil/cm_apex/f?p=136:4:0.

SAW-2019-00618 Flora

E: PRELIMINARY JURISDICTIONAL DETERMINATION: You do not need to respond to the Corps regarding the preliminary JD. The Preliminary JD is not appealable. If you wish, you may request an approved JD (which may be appealed), by contacting the Corps district for further instruction. Also you may provide new information for further consideration by the Corps to reevaluate the JD.

SECTION II - REQUEST FOR APPEAL or OBJECTIONS TO AN INITIAL PROFFERED PERMIT

REASONS FOR APPEAL OR OBJECTIONS: (Describe your reasons for appealing the decision or your objections to an initial proffered permit in clear concise statements. You may attach additional information to this form to clarify where your reasons or objections are addressed in the administrative record.)

ADDITIONAL INFORMATION: The appeal is limited to a review of the administrative record, the Corps memorandum for the record of the appeal conference or meeting, and any supplemental information that the review officer has determined is needed to clarify the administrative record. Neither the appellant nor the Corps may add new information or analyses to the record. However, you may provide additional information to clarify the location of information that is already in the administrative record.

POINT OF CONTACT FOR QUESTIONS OR INFORMATION:

If you have questions regarding this decision and/or the appeal process you may contact:

**District Engineer, Wilmington Regulatory Division,
Attn: Raleigh W. Bland, PWS
2407 West 5th Street
Washington, North Carolina 27889
910-252-4558**

If you only have questions regarding the appeal process you may also contact:

**Mr. Jason Steele, Administrative Appeal Review Officer
CESAD-PDO
U.S. Army Corps of Engineers, South Atlantic Division
60 Forsyth Street, Room 10M15
Atlanta, Georgia 30303-8801
Phone: (404) 562-5137**

RIGHT OF ENTRY: Your signature below grants the right of entry to Corps of Engineers personnel, and any government consultants, to conduct investigations of the project site during the course of the appeal process. You will be provided a 15 day notice of any site investigation, and will have the opportunity to participate in all site investigations.

Signature of appellant or agent.	Date:	Telephone number:
----------------------------------	-------	-------------------

For appeals on Initial Proffered Permits send this form to:

**District Engineer, Wilmington Regulatory Division, Raleigh W. Bland, PWS, 2407 West 5th Street
Washington, North Carolina 27889**

For Permit denials, Proffered Permits and approved Jurisdictional Determinations send this form to:

**Division Engineer, Commander, U.S. Army Engineer Division, South Atlantic, Attn: Mr. Jason Steele,
Administrative Appeal Officer, CESAD-PDO, 60 Forsyth Street, Room 10M15, Atlanta, Georgia 30303-8801
Phone: (404) 562-5137**

Hydrophytic Vegetation Indicators:

- ☐ 1 - Rapid Test for Hydrophytic Vegetation
- ☒ 2 - Dominance Test is >50%
- ☐ 3 - Prevalence Index is ≤3.0¹
- ☐ Problematic Hydrophytic Vegetation¹ (Explain)

¹Indicators of hydric soil and wetland hydrology must be present, unless disturbed or problematic.

Definitions of Four Vegetation Strata:

Tree – Woody plants, excluding vines, 3 in. (7.6 cm) or larger in diameter at breast height (DBH), regardless of height.

Sapling/Shrub – Woody plants, excluding vines, less than 3 in. DBH and greater than 3.28 ft. (1m) tall.

Herb – All herbaceous (non-woody) plants, regardless of size, and woody plants less than 3.28 ft tall.

Woody vine – All woody vines, greater than 3.28 ft. in height.

Hydrophytic Vegetation Present?

Yes ☒ No ☐

Remarks: (If observed, list morphological adaptations below).

Majority of project consists of mature timber with little evidence of timber activities.

ADEQUATE PUBLIC FACILITIES ORDINANCE HISTORY

- **August 1994** – Anne Mackin, then Moyock Elementary School principal, sent a memo (see attached memo dated August 29, 1994) to Ronnie Capps, Currituck County School Superintendent, stating that with increased enrollment “Facilities, programs, and equipment need to be added and supported yearly to provide sufficient services for our student population. She noted the addition of mobile classrooms and the student crowding in restrooms, cafeteria, and library. She also noted that ‘all support services (counseling, special education, chapter 1) needed special attention to accommodate student numbers.’ Principal Mackin also itemized the additional staff, copy machines, instructional supplies, consumable materials, furniture textbooks, library materials, computers, and additional bus routes necessary to service the 713 students enrolled at Moyock Elementary. She said ‘Overall the increase in enrollment has required Currituck County School System to redesign facilities and programs.’
- **September 1994** – Ronnie Capps, Currituck County School Superintendent, approached the Planning Board (see attached memo dated September 13, 1994) regarding the “residential development having dramatic impact on each of our schools during recent years.” Superintendent Capps detailed the increase in attendance in his memo. He also noted the 38 mobile classroom units installed at schools to accommodate growth of the student population. The memo encourages the Planning Board and the Board of Commissioners to review options relative to the rate of residential development so all county agencies, including the schools, might respond to growth in a timely and positive manner. Superintendent Capps encourage the boards to be proactive instead of reactive to accommodate growth in the student population. Superintendent Capps noted the proposed subdivision “The Plantations” (now Eagle Creek) with 601 residential lots in the Moyock Township and its effect on the school district.
- **September 13, 1994** – Jack Simoneau Planning and Inspections Director, presented PB 94-42 Currituck County text amendment (attached) to the Planning Board to address adequate public facilities. The language read:
 2. Even if the permit issuing board finds that the application complies with all other provisions of this Ordinance, it may still deny the permit if it concludes, based upon the information submitted at the hearing, that if completed as proposed, the development, more probably than not:
 - e. **Will exceed the county’s ability to provide adequate public facilities, including, but not limited to, schools, fire and rescue, law enforcement, and other county facilities.**

The Planning Board minutes for September 13, 1994 are attached for reference. The Planning Board unanimously approved the text amendment.

- **October 3, 1994** – BOC held a public hearing on the proposed text amendment. (Minutes Attached)
- **October 17, 1994** – BOC unanimously approved the text amendment. (Minutes attached)
- **February 6, 1995** – BOC unanimously denied a special use permit for Tate Terrace Realty Investors Inc. request for a 601 lot subdivision (now Eagle Creek) based solely upon the provisions of the above noted text amendment to UDO Section 1402(2)(e). It is important to note that a prior property owner (Moyock Investment Group) received vesting approval to develop at 429 lots on this property.

CURRITUCK COUNTY PLANNING BOARD

September 13, 1994

7:30 p.m.

The Currituck County Planning Board met at the Currituck County Courthouse on September 13, 1994. The following members were present: Walter Jones, Jimmy Waterfield, Aubrey Dowdy, Owen Etheridge, Marguerite Hogge, Shirley Falls, Nolan Alcock, La Ree Lynn, and Walter Banks. Jack Simoneau, Planning and Inspections Director, and H.B. Briggs, Chief Planner were also present.

Mr. Etheridge called the meeting to order and announced a quorum had been met.

Ms. Falls asked if the board wanted her to vote on the Duck Ridge item since her daughter worked for Hearndon Construction. The board agreed that Ms. Falls could vote on this item since she said that her daughter's employment would not bias her opinion.

Mr. Etheridge welcomed Mr. Jimmy Waterfield to the board.

APPROVAL OF AUGUST 9, 1994, MINUTES

Mr. Lynn motioned to approve the August 9, 1994 minutes as presented. Mr. Jones seconded the motion and the motion passed unanimously.

RESOLUTION OF APPRECIATION FOR MR. LUTHER CROCKETT

The board presented the following resolution of appreciation to Mr. Crockett:

RESOLUTION
OF
APPRECIATION

WHEREAS, Mr. Luther Crockett has faithfully served as a member of Currituck County's Planning Board from January, 1994 until July, 1994; and,

WHEREAS, Mr. Crockett has devoted numerous hours and energies to serve in this capacity; and,

WHEREAS, Mr. Crockett has served as an integral part in shaping the future of Currituck County; and,

WHEREAS, Mr. Crockett always acted in the best interests of the Citizens of Currituck County as a member of the Planning Board; and,

Attachment: 18 9-13-1994 PB Minutes APFO (PB 21-25 Flora Farms)

Currituck County Board of Commissioners, shall be from ____ a. m. to ____ p. m.; and,

15. Should any conditions within this permit conflict with any other permit issued for this activity, then the more restrictive condition shall prevail.

Ms. Hogge seconded with Mr. Waterfield, Mr. Lynn, Mr. Alcock, and Mr. Jones voting no. (Mr. Etheridge asked for a show of hands to ~~determine those voting in opposition~~)

DISCUSSION ON IMPACT OF GROWTH INCLUDING ITS IMPACT ON THE SCHOOL SYSTEM BY BOARD OF EDUCATION REPRESENTATIVE

Mr. Ronnie Capps, Ms. Janet Taylor, and Mr. Skip Saunders appeared before the board.

Mr. Capps presented memo to the board with different charts and graphs to show the impact that increased development is having on the school system (see Attachment 1)

Mr. Capps expressed a concern that the county needs to plan better for development. He said that within 3 to 5 years, all of Currituck's public facilities will be overburdened.

Mr. Alcock asked what we had to do now to have the developers start paying for some of the impact they have on the county facilities.

Mr. Simoneau said that you must have a capital improvements plan, establish a level of service standard, compare estimates with proposed development, and to come up with a formula to require developers to pay their fair share of facility cost. He said that this is in the works now, but it will take about 2 - 3 years to get a system in place.

Ms. Taylor explained a problem teachers have in the mobile units. She said that a teacher cannot leave the trailer to take a student to the office for anything (including nurse) since there is not another teacher in the trailer to watch the students. She said this is not fair to the teacher nor the student and that the county should speed up the process in order to get more schools.

Mr. Saunders said that the expense of bringing new trailers was astronomical since special attention has to be given to the electrical requirements, water pressure, meeting handicap regulations, etc. He also said that each school is running out of room for trailers.

Ms. Taylor explained that there is no place for the students in the trailers to hold a fire drill since they have to go

inside and "crouch" against a wall and all of the walls were filled with the students who are in the school already.

Mr. Banks asked about moving the boundary line that said which school a child went to and move more from Moyock to Central, a less crowded school.

Mr. Capps said that this would only move trailers from one school to another and would not solve the problem.

Mr. Simoneau presented the following amendment as requested by the Planning Board at the August meeting as one mean to slow growth as well as a means for determining impact of development:

Currituck County requests the following amendment to the Currituck County Unified Development Ordinance:

PB 94-42 CURRITUCK COUNTY request amendments to Article 14 Section 1402, Articles 9, 10, and 11 Section IV, to provide adequate public facility regulations

BE IT ORDAINED by the Board of Commissioners of the County of Currituck, North Carolina that the Unified Development Ordinance of the County of Currituck be amended as follows:

Part I. That the following section be amended:

Article 14 Section 1402 (2)

(d) will not be in general conformity with the Land Use Plan, Thoroughfare Plan, or other plan officially adopted by the board; or,

(e) will exceed the county's ability to provide adequate public facilities, including, but not limited to, schools, fire and rescue, law enforcement, and other county facilities.

Articles 9, 10, and 11 Sections 903, 1003, and 1103

	SKETCH PLAT	PRELIMINARY PLAT	FINAL PLAT
IV. DEVELOPMENT IMPACT STATEMENT			
1. Physical Analysis (type units expected incl. number of bedrooms; projected value; size and timing of phases, etc.)	X		
2. Housing Market Analysis (delimit market area; project demand, supply and unmet demand; determine net			

capture; identify development profile)	X		
3. Environmental Impact (water consumption estimated per unit type, hydrological report by a licensed engineer identifying available water resources, report outlining sewer generation and means of disposal)	X		
4. Fiscal Analysis (estimated real property valuation, estimated personal property valuation, estimated annual land transfer tax value)	X		
5. Traffic Analysis (estimated number of trips generated, volume of existing traffic on roads adjacent to and within 1/2 mile of tract, directional distribution of traffic, capacity analysis)	X		

Part II. This ordinance amendment shall be in effect from and after the ____ day of ____, 1994.

B.U. Evans, Chairman

Attest:

Gwen Tatem,
Clerk to the Board

DATE ADOPTED: _____

MOTION TO ADOPT BY COMMISSIONER: _____

SECONDED BY COMMISSIONER: _____

VOTE: _ AYES _ NAYES

Mr. Etheridge asked if the school system says that a development will overburden their system, does this mean that the development could be denied?

Mr. Simoneau that if the school system said that a proposed development would overburden their facilities, then according to the above amendment the Board of Commissioners could deny the request. It was not know if the courts would uphold such a decision.

PLANNING BOARD ACTION

Mr. Alcock motioned to approve the above amendment request. Mr. Banks seconded the motion and the motion passed unanimously.

~~PB 94-40 CURRITUCK COUNTY: REQUEST AMENDMENTS TO ARTICLE 9 SECTION 914, ARTICLE 10 SECTION 1013 AND ARTICLE 11 SECTION 1113 OF THE UDO TO DELETE SURETY BONDS AND ADD DEED OF TRUST AND BOND AS ACCEPTABLE BOND TERMS AND METHODS.~~

Mr. Briggs presented the following memo to the board:

MEMORANDUM

TO: Board of Commissioners
FROM: H. B. Briggs, Jr., Chief Planner
DATE: September 2, 1994
SUBJECT: Proposed Amendment to the UDO

Staff has been directed to prepare the attached amendment for presentation to the Planning Board. The purpose of this amendment is two-fold: (1) to add Deeds of Trust and Bonds as acceptable bonding forms and methods; and, (2) to delete the utilization of Surety Bonds by a licensed surety bond company.

HISTORY of DEEDS of TRUST

Prior to and included within adoption of the Unified Development Ordinance on April 2, 1989, Deeds of Trust were an acceptable form of guarantee for Maintenance or Performance Bonds. However, when the UDO was updated in November, 1992, the county attorney at the time requested that Deeds of Trust be deleted as an acceptable form of guarantee.

ADVANTAGES of DEEDS of TRUST

The main advantage in allowing the use of Deeds of Trust for guarantee purposes is that it allows the developer to "put-up" a portion of the development to insure items will be installed as required (Performance Bond) or that maintenance will be performed as required (Maintenance Bond).

DISADVANTAGES of DEEDS of TRUST

- (1) although appraisals will be required, market cycles could cause an inflated value on the property, ie. appraisal done during high property values, at selling point property values low;

	2768	2962	+194

Attachment: 18 9-13-1994 PB Minutes APFO (PB 21-25 Flora Farms)

MEMO

Page 2

September 13, 1994

As you can see, since school ended in June, our enrollment has increased by 194 students. The four elementary schools and junior high school have each gained the equivalent of an additional class. The high school has gained the equivalent of three additional classes.

Based upon the initial enrollment this school year, our student population has increased by 476 pupils over the last four years.

Currently, the school district is using 38 mobile classroom units to accommodate growth of the student population. These units are assigned to the schools as follows:

<u>School</u>	<u>Number of Mobile Units</u>
Moyock	8
Central	4
Knapp	8
Currituck High	<u>18</u>
	38

Four of these units were sited this summer. Two double-wide units were placed at Moyock Elementary School and two single-wide units were located at the high school.

Moyock Elementary School is virtually at capacity in terms of parking space and locations to site additional mobile classrooms.

Low-flow rest room fixtures are being installed at Central School and Moyock School to maintain design standards for wastewater systems.

Based upon figures supplied by the State Treasurer in April, 1994, the cost of growth in the student population can be illustrated dramatically. The per student county expenditure for capital and operating costs during the 1992-93 school year was \$2,193.67. The costs per student have, of course, increased since the 1992-93 fiscal year, but by extending this cost data to the 194 students enrolled during the summer of 1994 we incur an additional expense of \$425,571.98 given the level of local support provided.

Outside of adding additional mobile classrooms, the overcrowding of our schools will not be relieved until the beginning of the 1996-97 school year when the new high school is completed.

Attachment: 18 9-13-1994 PB Minutes APFO (PB 21-25 Flora Farms)

MEMO

Page 3

September 13, 1994

Maintaining quality instructional programs and student safety are our primary concerns. Our schools have received high marks in both areas, but our rapid growth makes the job more difficult.

We encourage the Planning Board and the Board of Commissioners to review options relative to the rate of residential development so all county agencies, including the schools, might respond to growth in a timely and positive manner. In recent years, the schools have had to be reactive rather than pro-active to accommodate growth in the student population. By way of example, I received in my office last week the sketch plan for The Plantations, a proposed subdivision of 601 residential lots to be located in Moyock Township. You can imagine the impact this single subdivision will have on the school district. Though the long-range school facility plan prepared by the Board of Education proposed construction of a second school in Moyock Township, funds for this project were not included on the bond referendum and are not currently anticipated from other revenue sources. Assuming this subdivision receives eventual approval, we will find our schools and community in the reactive posture to which we have become accustomed.

RE: Enrollment

Date : August 29, 1994

Moyock Elementary has been experiencing increased enrollment over the past three years. Presently, Moyock has an enrollment of 713 students. Facilities, programs, and equipment need to be added and supported yearly to provide sufficient services for our student population.

Mobile units have been added to our campus in order to provide adequate instructional and storage space. Currituck County is still trying to provide appropriate student/teacher ratio which requires more classroom units.

Suitable schedule changes needed to be designed to reduce student crowding in restrooms, cafeteria, and library. All support services (counseling, special education, chapter 1) locations needed special attention to accommodate student numbers.

Moyock Elementary had to increase the professional staff to accommodate student growth. A counselor, Chapter 1 instructor, Special Education instructor, classroom instructors, and office personnel had to be supplemented to provide significant services. Additional materials and equipment needed to be purchased to cope with normal daily demands. The items purchased are as follows: copy machines, instructional supplies, consumable materials, furniture, textbooks, library materials, and computers.

Several changes have been made in bus routes to accommodate new building developments. Additional buses have been added to provide sufficient and timely transportation for all students.

Overall the increase in enrollment has required Currituck County School System to redesign facilities and programs.

Attachment: 18 9-13-1994 PB Minutes APFO (PB 21-25 Flora Farms)

Currituck County
North Carolina
October 17, 1994

The Currituck County Board of Commissioners met in a work session prior to the regular scheduled meeting to discuss the Cooperative Extension Legislative Grants.

The Currituck County Board of Commissioners met at 8:00 PM in regular session on October 17, 1994, in the Currituck County Courthouse with the following members present: Vice-Chairman Wright, Commissioners Gregory, Bowden, and Askew. Chairman Evans was absent.

Vice Chairman Wright called the meeting to order at 8:00 PM.

Invocation

Vice Chairman Wright called for a moment of silence.

Approval of Agenda

Vice Chairman Wright moved to amend the agenda as follows: move Item 14 to 5B, move Item 19 to 5C and add Consideration of library bids for furnishings. Commissioner Gregory seconded the motion. Motion carried unanimously.

Approval of September 6 and September 19, 1994 Minutes.

Commissioner Askew moved to approve the minutes of September 6 and September 19, 1994. Commissioner Gregory seconded the motion. Motion carried unanimously.

Public Comments

Vice Chairman Wright opened the public comment period.

Jan Smith, with the Humane Society, read a letter that all Board members had received by registered mail. The letter listed various questions and concerns regarding the animal shelter.

There being no further comments, Vice Chairman Wright closed the public comment period.

**Public Hearing and Action on PB 94-44
COROLLA FIRE AND RESCUE: special use
permit for an addition to the fire and**

rescue building located at 827 Whalehead Drive (intersection of Whalehead Drive and Dolphin Street) in Whalehead Subdivision in Corolla, Tax Map 115A, Section 13, Parcel 35A, Poplar Branch Township.

Jack Simoneau, Planning and Inspections Director, and Marshall Cherry were sworn in prior to giving testimony.

Jack Simoneau reviewed the following case analysis: The applicant is requesting a Special Use Permit (classification #13.200) for two additions to the existing fire station building. Proposed additions will add 2050 s.f. to the existing building. The additions will be used to house additional fire equipment. Property is shown on Tax Map 115A, lot 35A, Poplar Branch Township. Property is located on the northeast corner of Whalehead Drive and Dolphin Street in Whalehead Subdivision near Corolla

STAFF FINDINGS

Criteria: (a) Does the applicant meet the standards established in the Unified Development Ordinance (UDO) for the proposed use?

Findings: The applicant proposes an addition to the existing fire station building (Use Classification #13.200) which is a permitted use in a R01 (Outer Banks Standard Residential) zoned area with a Special Use Permit.

Adjacent Property Owner's Notifications were mailed 9/30/94; property was posted on 10/4/94.

The proposed addition meets setback requirements.

All required parking, vehicle accomodation areas, screening requirements, shading, etc. will be met by applicant.

Criteria: (b) Will the proposed use materially endanger the public health or safety?

Findings: The nearest residential dwellings to the site are located across Whalehead Drive and across Dolphin Street. Limited ingress/egress to site insures safe traffic movements.

Criteria: (c) Will the proposed use substantially injure the value of adjoining or abutting property?

Findings: The property is surrounded by the following land uses:

North: Vacant lot - zoned R01
 South: Residential - zoned R01
 East: Vacant lot - zoned R01
 West: Residential - zoned R01

Criteria: (d) Will the proposed use be in harmony with the particular neighborhood or area in which it is to be located?

Findings: See the findings listed under Criteria "a", "b" and "c" above.

Criteria: (e) Will the proposed use be in general conformity with the Land Use Plan, Thoroughfare Plan or other plans officially adopted by the board?

Findings: The 1990 Land Use Plan classifies this land as "Limited Transition". The purpose of the limited transition classification is to provide for Development in areas that will have some services, but are suitable for lower densities than those associated with the urban transition class, and/or are geographically remote from existing towns and municipalities.

The site is located along SR 1420 (Whalehead Drive) which is a Local road according to the 1988 Thoroughfare Plan.

STAFF RECOMMENDATION

Staff recommends **approval** of this request as presented.

PLANNING BOARD RECOMMENDATION

On October 11, 1994, the Planning Board voted to recommend approval of this request as presented.

Vice Chairman Wright opened the public hearing.

Marshall Cherry, Corolla Fire Chief, stated that they were adding 3 additional bays to house their equipment.

There being no further comments, Vice Chairman Wright closed the public hearing.

Commissioner Bowden moved to grant the Special Use Permit. Commissioner Gregory seconded the motion. Motion carried unanimously.

Public Hearing and Action on PB 94-45 LOWER
CURRITUCK VOLUNTEER FIRE DEPARTMENT,
INC.: special use permit for an addition to
the fire department building located in Grandy on
the east side of US 158 approximately
550 feet south of the intersection of SR 1129
(McHorney Road), Tax Map 94, Parcel 136,
Poplar Branch Township.

Jack Simoneau, Planning and Inspections Director and Tommy Brothers were sworn in prior to giving testimony.

Jack Simoneau, reviewed the following case analysis: The applicant is requesting a Special Use Permit (classification #13.200) for an addition to the existing fire station building. The proposed addition will add 2273 s.f. to the existing building. The addition will be used to house additional fire equipment. Property is shown on Tax Map 94, lot 136, Poplar Branch Township. Property is located on the east side of US 158 across from E & S General Merchandise in Grandy.

STAFF FINDINGS

Criteria: (a) Does the applicant meet the standards established in the Unified Development Ordinance (UDO) for the proposed use?

Findings: The applicant proposes an addition to the existing fire station building (Use Classification #13.200) which is a permitted use in both a A (Agricultural) and GB (General Business) zoned area with a Special Use Permit.

Adjacent Property Owner's Notifications were mailed 9/30/94; property was posted on 10/4/94.

The proposed addition meets setback requirements.

All required parking, vehicle accomodation areas, screening requirements, shading, etc. will be met by applicant.

Criteria: (b) Will the proposed use materially endanger the public health or safety?

Findings: According to county tax maps, the nearest residential dwelling to the site is located directly to the northwest approximately 140'+/-. Limited ingress/egress to site insures safe traffic movements.

Criteria: (c) Will the proposed use substantially injure the value of adjoining or abutting property?

Findings: The property is surrounded by the following land uses:

North: Woodlands/Residential - zoned GB & A
 South: Vacant lot/Residential - zoned GB & A
 East: Residential - zoned A
 West: Commercial (E & S Gen. Mdse.) - zoned GB

Criteria: (d) Will the proposed use be in harmony with the particular neighborhood or area in which it is to be located?

Findings: See the findings listed under Criteria "a", "b" and "c" above.

Criteria: (e) Will the proposed use be in general conformity with the Land Use Plan, Thoroughfare Plan or other plans officially adopted by the board?

Findings: The 1990 Land Use Plan classifies this land as "Limited Transition". The purpose of the limited transition classification is to provide for Development in areas that will have some services, but are suitable for lower densities than those associated with the urban transition class, and/or are geographically remote from existing towns and municipalities.

The site is located along US 158 which is a Minor Arterial road according to the 1988 Thoroughfare Plan.

STAFF RECOMMENDATION

Staff recommends **approval** of this request as presented.

PLANNING BOARD RECOMMENDATION

On October 11, 1994, the Planning Board voted to recommend approval of this request as presentedl

Vice Chairman Wright opened the public hearing.

Tommy Brothers, Lower Currituck Fire Department, was present to answer questions.

There being no further comments, Vice Chairman Wright closed the public hearing.

Commissioner Bowden moved to grant special use permit. Commissioner Gregory seconded the motion. Motion carried unanimously.

Action on: PB 94-42 CURRITUCK COUNTY: request amendments to Article 14 Section 1402, Articles 9, 10 and 11 Section IV, to provide adequate public facility regulations.

Commissioner Gregory moved to adopt the following ordinance and change the number of lots where impact statements are required, from 20 to 50 lots and the final number be determined when impact study is complete. Commissioner Bowden seconded the motion. Motion carried unanimously. Chairman Evans was absent.

BE IT ORDAINED by the Board of Commissioners of the County of Currituck, North Carolina that the Unified Development Ordinance of the County of Currituck be amended as follows:

Part I. That the following section be amended:

Article 14 Section 1402 (2)

(d) will not be in general conformity with the Land Use Plan, Thoroughfare Plan, or other plan officially adopted by the board; or,

(e) will exceed the county's ability to provide adequate public facilities, including, but not limited to, schools, fire and rescue, law enforcement, and other county facilities.

Part II. That Articles 9, 10, and 11, Sections 903, 1003, and 1103 be amended by adding the following provisions:

For subdivisions containing twenty (20) or more lots, the following information shall be provided.

	SKETCH PLAT	PRELIMINARY PLAT	FINAL PLAT
IV. DEVELOPMENT IMPACT STATEMENT			
1. Physical Analysis (type units expected incl. number of bedrooms; projected value; size and timing of phases, etc.)	X		
2. Housing Market Analysis (delimit market area; project demand, supply and unmet demand; determine net capture; identify development profile)	X		
3. Environmental Impact (water consumption estimated per unit type, hydrological report by a licensed engineer identifying available water resources, report outlining sewer generation and means of disposal)	X		
4. Fiscal Analysis (estimated real property valuation, estimated personal property valuation, estimated annual land transfer tax value)	X		
5. Traffic Analysis (estimated number of trips generated, volume of existing traffic on roads adjacent to and within 1/2 mile of tract, directional distribution of traffic, capacity analysis)	X		

Action on: ALOYSIUS AND JANE KREMPEL request to rename Ninth Street in Point Harbour Beach Subdivision, Poplar Branch Township.
Proposed Name: Rose Lane

Commissioner Bowden moved to approve request to rename street. Commissioner Gregory seconded the motion. Motion carried unanimously. Chairman Evans was absent.

Action on PB 94-37 ACEY COMMERCIAL PROPERTIES: rezone 18.7 acres from A (Agricultural) to GB (General Business) located in Moyock on the southwest side of NC

168 approximately 1364' south of SR 1216 (Puddin Ridge Road), Tax Map 15, Parcel 75A, Moyock Township.

Commissioner Bowden moved to approve the request to rezone from A to GB. Commissioner Gregory seconded the motion. Motion carried unanimously. Chairman Evans was absent.

Action on PB 94-38 C. W. BRYANT AND C. H. BRYANT: special use permit to expand an existing sand mining operation on property located on the east side of NC 168 at the North Carolina/Virginia state line, Tax Map 8, Parcels 15 and 17 and Tax Map 9, Parcels 1 and 2, Moyock Township.

Vice Chairman Wright moved to approve special use permit and hours will be from 7a.m. to 6p.m. Commissioner Gregory seconded the motion. Motion carried unanimously.

Action on: PB 88-62 THE PLANTATIONS (formerly Country Side): sketch plan approval of a 601-lot common open space subdivision located on SR 1215 (Survey Road) in Moyock, Tax Map 15, Parcel 84, Moyock Township.

This item was continued until next meeting at the request of the applicant.

Action on PB 94-40 CURRITUCK COUNTY: request amendments to Article 9 Section 914, Article 10 Section 1013 and Article 11 Section 1113 of the UDO to delete Surety Bonds and add Deed of Trust and Bond as acceptable bond terms and methods.

Vice Chairman moved to table until Chairman Evans was present. Commissioner Gregory seconded the motion. Motion carried unanimously.

CURRITUCK COUNTY: request to name an unnamed lane off of Barnard Road which services the Ezra and Lisa Graley Subdivision in Poplar Branch. Proposed Name: Graley Lane.

Jack Simoneau, Planning and Inspections Director, reviewed the proposed name change. He advised the Board that the two

property owners could not agree on the original name (Tanners Way) so the staff recommended Graley Lane, the subdivision name.

Commissioner Gregory moved to approve the road name. Commissioner Bowden seconded the motion. Motion carried unanimously.

Chiefs and Captains Advisory Board to discuss permits for bonfires on the beach.

Marshall Cherry, Corolla Fire Department, requests that the Board consider a beach fire notice. Mr. Cherry stated that they had several serious incidents with beach fires this summer and would like some way to the Corolla Fire Dept. could be notified in advance. This is needed only in the RO-1 district.

Commissioner Gregory moved to direct the staff to review proposal for bonfires and bring a recommendation back to the Board. Commissioner Askew seconded the motion. Motion carried unanimously.

Consideration of Legislative Grants for Cooperative Extension.

Rodney Sawyer, Cooperative Extension Director, was present to review legislative grants.

Vice Chairman Wright commended Mr. Sawyer and his staff on the enormous amount of work they have put into writing these grants.

Commissioner Gregory moved to endorse the legislative grants and provide space for additional staff. Commissioner Askew seconded the motion. Motion carried unanimously.

Consideration of DOT Agreement for restoration of the Whalehead footbridge.

Vice Chairman Wright moved to approve the DOT agreement for \$58,000. Commissioner Gregory seconded the motion. Motion carried unanimously.

Appointment to Whalehead Board of Trustees.

Vice Chairman Wright moved to appoint Rhett White to fill the unexpired term of John Wilson. Commissioner Gregory seconded the motion. Motion carried unanimously.

Consideration of Application for Archives and History Grant.

Commissioner Bowden moved to approve grant of \$100,000 for the Whalehead Club. Commissioner Gregory seconded the motion. Motion carried unanimously. The project will be assigned to the Whalehead Board of Trustees.

Discussion on proposed service district for northern Currituck Banks.

Bill Romm, County Attorney, reviewed the process for a proposed service district for street maintenance.

Commissioner Bowden stated that the mere creation of a District would not increase taxes.

Vice Chairman Wright moved to take no action at this time and direct staff to gather information to be presented to the new board in December. Commissioner Gregory seconded the motion. Motion carried unanimously.

Appointments to Land Transfer Tax Appeals Board.

Commissioner Bowden moved to appoint Gary Montalbaum and reappoint John Whitehurst and Bob Henley. Commissioner Gregory seconded the motion. Motion carried unanimously.

Release of taxes From September 12 through September 30, 1994.

Commissioner Bowden moved to release the following taxes. Commissioner Gregory seconded the motion. Motion carried unanimously.

Quality Oil	\$194.22
James Cooper	133.92
Thomas Clark	211.50
Cordelia Mack	117.42
James Smith	101.70

Consideration of Resolution to change Board meeting time.

Commissioner Bowden moved to adopt the following resolution. Commissioner Gregory seconded the motion. Motion carried unanimously.

RESOLUTION

WHEREAS, North Carolina General Statutes 153A-40, authorizes a County Board of Commissioners to fix the time and place of its regular meeting, and

WHEREAS, the Board of Commissioners of the County of Currituck finds that it is desirable to change its regular meeting time from 8:00 p.m. on the first and third Monday of each Monday to 7:00 p.m. on the first and third Monday of each month.

NOW, THEREFORE BE IT RESOLVED,

1. The regular meeting of the Board of Commissioners of Currituck shall be held at 7:00 p.m. on the first and third Monday of each month;
2. That the Clerk to the Board is instructed to post a copy of this Resolution on the Courthouse bulletin board and to cause a summary of this Resolution to be published.

Consideration of Library furnishing bids.

Commissioner Gregory moved to accept bid from Chesson's Business Interiors in the amount of \$55,597.52. Commissioner Askew seconded the motion. Motion carried unanimously.

Executive Session to discuss a property matter.

Vice Chairman Wright moved to go into executive session to discuss a property matter. Commissioner Gregory seconded the motion. Motion carried unanimously.

Adjourn

After reconvening from executive session no action was taken. There being no further business the meeting adjourned at 10:50 p.m.

Currituck County
 North Carolina
 February 6, 1995
 Work Sessions held on
 January 19, 1995 and January 31, 1995

The Currituck County Board of Commissioners met in a work session on January 19, 1995 at 7:00 p.m. with the School Board to discuss the High School bids and other related school projects. The following members were present: Chairman Bowden, Commissioners Gregory, Miller, O'Neal and Etheridge.

Chairman Bowden read the following statement:

- The Board of Commissioners does not intend to provide funding above the current project sheet estimates of \$19,400,000 for the five bond funded capital projects that are specified below:

New High School-	Professional Services	\$ 981,149
	Construction	12,264,363
	Furnishing	<u>750,000</u>
		\$ 13,995,512
Central Renovations-	Professional Services	\$ 65,983
	Construction	824,785
	Furnishings	<u>87,381</u>
		\$ 978,149
"Existing" High School Roof Replacement		\$ 200,000
School Site North		\$ 200,000
New Elem. School-	Professional Services	\$ 258,640
	Construction	3,233,000
	Furnishings	<u>467,675</u>
		\$ 3,959,315

- After cutting the project to the greatest extent possible, the Board of Education is requested to re-bid the new high school.
- The County will be a party to the high school construction contract in order to receive sales tax revenue needed for the bond projects.
- The five capital projects are requested to be placed on a five-year building/funding schedule.

13. Within sixty (60) days from the date of its first review of the sketch plan, the Planning Board will forward the plat along with its recommendations, including any conditions or modifications, to the Board of Commissioners. Failure to forward the plat within the allotted time shall have the same effect as a recommendation for approval.

14. During the first regularly scheduled monthly meeting of the Board of Commissioners following recommendation by the Planning Board, the Board of Commissioners will hold a public hearing to hear any and all remarks presented by the subdivider/developer, Staff comments and recommendations, Technical Staff comments and others.

15. The subdivider/developer or his agent must attend the Board of Commissioners and all subsequent Board meetings for presentation of the application to the appropriate Board and to answer any questions by Board members and others.

16. The Board of Commissioners shall discuss with the subdivider/developer or his agent changes deemed advisable, if any, and the kind and extent of improvements to be made by him.

17. Upon conclusion of the public hearing, the Board of Commissioners may approve, approve conditionally, disapprove or table the request as set forth in the Board of Commissioner's Rules of Procedures and by State law. Because of the conceptual presentation involved, this shall not constitute an official action of approval of the subdivision for recordation. The reasons for a conditional approval or disapproval shall be placed in the record of the minutes of the proceedings.

18. Receiving approval from the Board of Commissioners shall allow the subdivider/developer to proceed with submission of all materials and information required for the preliminary plat review process and to seek all permits as required under this Article.

Part IV. This ordinance amendment shall be in effect from and after the _____ day of _____, 1995.

Chairman Bowden opened the public hearing. There being no comments, Chairman Bowden closed the public hearing.

Action on PB 94-48 DOVE ROOST: special use permit/sketch plan approval of a 48 lot major subdivision located in Moyock at the southern end of SR 1216 (Puddin' Ridge Road), Tax Map 11, Parcel 2, Moyock Township.

This item was tabled at the request of the developer, James Ferebee, Jr.

Action on: PB 88-62 THE PLANTATIONS (formerly Country Side): sketch plan approval of a 601-lot common open space subdivision located on SR 1215 (Survey Road)

in Moyock, Tax Map 15, Parcel 84, Moyock Township.

Hood Ellis, Attorney, stated that the developer has met all the requirements of the UDO and complied with terms.

Commissioner Gregory moved to deny request as follows. Commissioner O'Neal seconded the motion. Motion carried unanimously.

MOTION FOR DENIAL BASED ON THE FOLLOWING:

The proposed 601 lot development fails to meet the provisions of Section 1402(2)(e) of the UDO because it exceeds the county's ability to provide adequate public school facilities based on evidence presented during the public hearings as stated below.

FINDINGS:

1. The 1992 School Facilities Needs Analysis and Long Range Capital Improvement Plan indicated that the then enrollment of 576 students in Moyock Elementary School required an additional 14,626 square feet of floor space to meet state school facility standards.
2. The 1994 school enrollment in Moyock Elementary School is 715 students.
3. The state standard for elementary school sites is 10 acres plus 1 acre for every 100 students in membership. The Moyock Elementary School is on a 10 acre site of which only 5.8 acres of the site is usable when utility and drainage areas are removed.
4. According to school enrollment figures for 1994, Quail Run, North Point, Quail Point, Moyock Meadows, Duck Ridge, and Old South Landing averaged the following number of students per home: .46 elementary school; .09 junior high school; .14 high school. Assuming these figures hold true for the Plantations subdivision, 601 single-family dwellings will generate 280 elementary students; 54 junior high school students; and 84 high school students at full buildout.
5. According to school officials, plans are that by September 1996, Knapp Jr. High will have been converted to an elementary school which will optimally accommodate up to 350 students; Moyock Elementary will optimally accommodate 450 students; and Central Elementary will optimally accommodate up to 375 students (1,175 total elementary students). Based on Planning staff estimates, under a high growth scenario, there will be 1,215 elementary students in

Moyock & Crawford Townships. Under a medium growth scenario, there will be 1,185 elementary students in Moyock and Crawford Townships.

6. According to Planning and Inspections, there are nearly 3,000 lots ready for development or having approval for development on the Currituck Mainland, Gibbs Woods and Knotts Island.
7. Based on the last 3 years, student enrollment at Moyock Elementary School has increased by 46 students per year.

Action on PB 94-49 THE CURRITUCK ASSOCIATES, RESIDENTIAL PARTNERSHIP AND THE CURRITUCK ASSOCIATES, GOLF PARTNERSHIP: rezone 586.7 acres from RO1 (Outer Banks Standard Residential) to Planned Unit Development RO1 (Outer Banks Standard Residential) and LBH (Limited Business, hotels allowed) located in Corolla on the west side of NC 12 (Ocean Trail) across from Ocean Sands, PUD, Tax Map 117, Parcel 1A, Poplar Branch Township.

This item was continued until the February 20, 1995 meeting.

Action on PB 94-49 THE CURRITUCK CLUB: sketch plan/special use permit for a planned unit development to contain: 476 single family lots, 104 golf course villas, 56 patio homes, 2 commercial areas and 4 employee housing units located in Corolla on the west side of NC 12 extending from northern property lines Pine Island, PUD, and National Audubon Society, Inc. to southern property lines of Ocean Sands, sections X and Y, Tax Map 117, parcel 1A, Poplar Branch Township.

This item was continued until the February 20, 1995 meeting.

Public Hearing on PB 94-51 CURRITUCK COUNTY: request amendments to the UDO in order to establish an expiration date on subdivision plats approved prior to April 2, 1989 where no work has begun; to increase the lot size in agricultural zoning districts to 3 acres and all other zoning districts except RO1 and RO2 to 40,000 sq. ft., to delete multi-family dwellings as permitted uses in the agricultural district; to increase the

APPLICATION SUMMARY

Property Owner: Moyock Development LLC 417-D Caratoke Hwy Moyock NC 27958	Applicant: Moyock Development LLC 417-D Caratoke Hwy Moyock NC 27958
Case Number: PB 18-23	Application Type: Preliminary Plat/Special Use Permit
Parcel Identification Number: 0015-000-0086-0000	Existing Use: Planned Development under construction
Land Use Plan Classification: Full Service	Parcel Size (Acres): 91.10
Moyock Small Area Plan Classification: Limited Service	Zoning: PD-R
Number of Units: 178	Overall Project Density (units/acre): 2.19
Required Open Space (Acres): 27.33	Provided Open Space (Acres): 39.07

SURROUNDING PARCELS

	Land Use	Zoning
North	Single-family dwellings, retail	AG, GB, SFM
South	Single-family dwellings, cultivated farmland	AG, SFM
East	Single-family dwellings, cultivated farmland	GB, SFM
West	Single-family dwellings, cultivated farmland	C-MXR

STAFF ANALYSIS

The Board of Commissioners approved the original Master Plan (PD-R) for this development on May 6, 2019 and three subsequent amendments thereafter. The developer notes that the goal of Phases 6-9 is to continue building a community that has a creative design, providing a mix of different residential uses in close proximity to one another, while at the same time providing an efficient use of open space that promotes an active lifestyle and strong sense of community. Limited, small scale commercial uses may also be constructed primarily to serve the needs of the residents in this development.

The Board of Commissioners approved the below phasing plan as part of the project. The phasing plan remains valid:

SCHEDULE B							
PHASING SCHEDULE							
PHASE	AREA (AC.)	DEVELOPMENT INTENSITY (D.U./AC.)	TND T.H.	TND S.F.	CONV. S.F.	TOTAL	OTHER IMPROVEMENTS
1	39.7	1.79	25	12	34	71	Rowland Creek Improvements
2	33.1	1.96	19	9	37	65	Main Lake (Completion)
3	29.2	1.88	16	14	25	55	Village Green & Clubhouse
4	19.9	3.67	27	7	39	73	Multi-Use Path
5	14.4	2.57		17	20	37	Swimming Pool
6	39.7	1.99	21		58	79	Up to 22,000 SF Neighborhood Commercial
7	23.8	2.56	18		43	61	
8	17	1.12			19	19	
9	12	1.58			19	19	
TOTALS	228.8	2.09	126	59	294	479	

The Phased Recording Schedule estimates earliest recording dates as shown below for Phases 6-9:

Phase Numbers	Number of Dwelling Units	ESTIMATED EARLIEST RECORDING DATE
6	79	August 2022
7	61	February 2023
8	19	August 2024
9	19	August 2024

INFRASTRUCTURE	
Water	Public
Sewer	Private Centralized System (connecting to Eagle Creek WWTP)
Transportation	<p>Pedestrian: A series of sidewalks and pedestrian trails; The developer must install an 8' multi-use path along the Caratoke Highway property line as required by the Connect Currituck Plan.</p> <p>Connectivity Score: Minimum = 1.6 Proposed = 1.67</p> <ul style="list-style-type: none"> • One Connection to Caratoke Highway (Main entrance) • One Connection to Moyock Farms (proposed development to the Southeast) • Four connections to Flora Farm (proposed development to the West)
Stormwater/Drainage	See attached map for required stormwater/drainage improvements (PB 18-23 Fost PD-R Rezoning Stormwater Conditions dated 7/2019 prepared by engineering staff)
Design Standards	Multi-family design standards apply to the townhomes.
Lighting	Street lights are proposed and must be full cut-off fixtures
Landscaping	Farmland buffers, street trees, major arterial screening, and site landscaping are required
Compatibility	The BOC determined that this development was compatible with the Land Use Plan, Moyock Small Area Plan, and the surrounding neighborhoods at its May 6, 2019 meeting.
Recreation and Park Area Dedication	The applicant will be paying approximately \$15,978.64 as a fee-in-lieu of recreation and park area dedication for these phases.
Riparian Buffers	Required for the wetlands in these phases.

COMMUNITY MEETING

The developer held a community meeting on March 23, 2021, at the Eagle Creek Pavilion. There were approximately seven people in attendance. Most of the questions were regarding drainage, traffic, fire hydrants, and wastewater. A community meeting summary prepared by the applicant is attached to this staff report.

SCHOOLS

There are Adequate Public Facility concerns that Shawboro Elementary is at 100% *Actual Capacity* for this school year, as per superintendent Dr. Lutz at the October 2, 2021, BOC meeting. This development is in the Shawboro Elementary School district and has not started sending children to Shawboro Elementary yet. Phases 6-9 being will send an additional 44 elementary students to Shawboro Elementary. When the complete, the overall development will send approximately 119 elementary students to Shawboro Elementary. These numbers were generated using the Tischler Study. The board should also be aware that Moyock Middle School is at 94% *actual capacity* for this school year and this development would send approximately 38 additional students to Moyock Middle School.

ADEQUATE PUBLIC FACILITIES – SCHOOLS¹

School	2021-2022 Actual Capacity ²	Committed Capacity ³	Proposed Capacity Changes
			Number of Students (Phases 6-9)
Moyock Elementary	128%	131%	+44
Shawboro Elementary	99%		
Central Elementary	96%		
Moyock Middle	94%	92%	+14
Currituck Middle	62%		
Currituck High	88%	105%	+24
JP Knapp Early College	86%		

¹Does not include minor subdivisions, exempt subdivisions, and subdivisions approved prior to the adoption of the adequate public facilities ordinance (October 1994)

²Capacity percentages are based on 2021-2022 school year classroom standards and Sep 2021 ADM

³Capacity percentages are based on the 2021-2022 school year classroom standards and Sep 2021 ADM

Based upon questions at a previous meeting regarding school capacity and the adequate public facilities ordinance, a brief history of the adequate public facilities ordinance and its application is attached for your review.

STORMWATER

The stormwater/drainage improvements required as shown on the attached “PB 18-23 Fost PD-R Rezoning Stormwater Conditions dated 7/2019” prepared by engineering staff remain unchanged. On-site stormwater will be conveyed to on-site retention ponds through a combination of curbs with inlets, stormwater pipes, and open vegetated swales.

TRANSPORTATION

The main subdivision entrance will connect directly to NC 168 (Caratoke Highway). Deceleration and acceleration lanes will be provided in accordance with NCDOT Standards and have been approved by NCDOT. Connectivity will be provided to the proposed development to the southeast, Moyock Farms, and to the proposed development to the west, Flora Farm. According to the application, streets will be in accordance with the approved right-of-way and pavement width characteristics, using the NCDOT Complete Streets Planning Manual as a guide.

Appropriate access has been made for emergency service vehicles in accordance with applicable standards including the North Carolina Fire Code.

WASTEWATER

The developer proposes to connect to the Eagle Creek wastewater treatment plant (WWTP). Currituck Water and Sewer, LLC (CWS) Major Utility operates the WWTP and is the process of acquiring ownership of the entire wastewater system (collection systems, treatment plant, etc.) from Sandler Utilities Company. A force main is being installed to connect the collection system in Fost development to the Eagle Creek WWTP. A wastewater collection system will be constructed by the developer for the entire Fost development and managed by Currituck Water and Sewer. The utility will be regulated by the North Carolina Utilities Commission and the North Carolina Department of Environmental Quality. CWS has begun the process with state regulatory agencies for this transference.

STAFF REVIEW

TECHNICAL REVIEW COMMITTEE

The Technical Review Committee (TRC) reviewed the application and provided the following comments:

1. The applicant has not demonstrated that the proposed use will meet the special use permit review standards of the UDO including adequate public facilities (LUP Policy PP2 Adequate Public Facilities) and public health and safety (LUP Purpose of the Plan).
2. Noted plan deficiencies:
 - a. Alleys shall only intersect with streets (not other alleys) and shall not have a pavement width more than 16'.
 - b. The Recreation and Parkland fee-in-lieu dedication is incorrect. The fee due prior to final plat approval for these phases is \$134,288.27. The fee is calculated based on the tax value of the land at subdivision submittal (preliminary plat/SUP). The value of the land based on "pre-closing value" as you requested to make the calculation is not relevant to determining the fee amount. Pre-closing value is typically based upon the then use of the land, often farmland, with a deferred tax value. The Recreation and Parkland fee-in-lieu is not calculated at conditional zoning approval because it is not required for the rezoning, but rather for the subdivision of property.
 - c. Add a note to the plan that the 'Reserved as effluent disposal area' is not permitted, an amended plan is required that must be approved by the BOC, and the BOC must approve the amended plan prior to any land disturbance for any part of the on-site effluent disposal system.

Other staff concerns:

1. The performance of the Eagle Creek WWTP is under evaluation by NCDEW DWR for non-compliance with the permit standards. Staff has concerns about allowing additional lots from other subdivisions to connect to the Eagle Creek WWTP with the known performance problems of the plant. On August 10, 2021, NCDEQ Division of Water Resources issued a Wastewater Collection Extension Permit for 60,000 gallons per day for 92 four-bedroom homes and 44 three-bedroom townhouses for Fost Phase 1A. On September 17, 2021, NCDEQ Division of Water Resources issued a letter stating "the WWTP must demonstrate consistent performance achieving permit treatment requirements, prior to submittal of a sewer extension permit application. WWTP performance must be satisfactory for approval of any potential sewer extension permits." County staff **has not received** notification that these permit requirements have been met and a sewer extension permit for additional lots will be issued. (LUP Purpose of the Plan – public health, safety, and welfare)
2. CWS is in the process with the NC Utilities Commission to acquire the Eagle Creek WWTP and collection system, and to establish a sewer service district and rate structure for the Fost development. There are concerns about the impact of the Consent Judgement on the process with the NCUC for creating the sewer district and applying a rate structure. Please see the Consent Judgement issued by the Superior Court on June 23, 2021 attached to this staff report for more detailed information (North Carolina Division of Environmental Quality v. Sandler Utilities at Mill Run, LLC). The Court ordered Sandler Utilities at Mill Run, LLC to complete a system upgrade plan, and then a timetable to implement the upgrade plan. The timetable to implement the upgrade plan has not been shared by NCDEQ DWR staff due to the legal proceedings. For the protection of the existing users of the system and future users, staff recommends the requirements of the Consent Order be met and certified by NCDEQ and the sewer district established by NCUC approval prior to approving additional lots to be created in

PB 18-23 Fost Tract, Phases 6-9
Preliminary Plat/Special Use Permit
Page 5 of 11

Attachment: 1 Fost PPUP P6-9 Staff Report 12-20-2021 (PB 18-23 Fost, Phases 6-9, Preliminary Plat/Special Use Permit)

the yet-to-be-established sewer district. (LUP Purpose of the Plan – public health, safety, and welfare)

2006 Land Use Plan and Moyock Small Area Plan

The 2006 Land Use Plan classifies the site as Full Service within the Moyock subarea. The Moyock Small Area Plan classifies the property as Limited Service. At its May 6, 2019, meeting, the BOC determined this development was compatible with the Land Use Plan, Moyock Small Area Plan, and the surrounding neighborhoods because:

- a. The proposed conditions for the property will improve drainage problems on the property and with nearby Ranchland subdivisions if improvements can be made to drainage system on off-site properties, and; *(Staff Addition: Potential LUP Policy WQ8)*
- b. The PDR is compatible with existing Moyock Township subdivisions. *(Staff Addition: Potential LUP Policy HN1)*

SPECIAL USE PERMIT REVIEW STANDARDS

Following an evidentiary hearing, the board shall decide if the application is in accordance with Section 2.3.10, Decision-Making Body Review and Decision, and Section 2.4.6.D, Special Use Permit Review Standards. It is the burden of the applicant to provide evidence to address the Review Standards. The applicant's findings can be found in the "Attachment to application for preliminary plat/special use permit approval for Fost Phases 6-9."

Special Use Permit Review Standards

A special use permit shall be approved on a finding that the applicant demonstrates the proposed use will:

1. Not endanger the public health or safety.
2. Not injure the value of adjoining or abutting lands and will be in harmony with the area in which it is located.
3. Be in conformity with the Land Use Plan or other officially adopted plan.
4. Not exceed the county's ability to provide adequate public facilities, including but not limited to, schools, fire and rescue, law enforcement, and other county facilities. Applicable state standards and guidelines shall be followed for determining when public facilities are adequate.

THE APPLICATION AND RELATED MATERIALS ARE AVAILABLE ON THE COUNTY'S WEBSITE

GENERAL NOTES:

- PROJECT NAME: THE FOST TRACT
- APPLICANT: MOYOCK DEVELOPMENT, LLC
OWNERS: MOYOCK DEVELOPMENT, LLC
417-D CARATOKE HIGHWAY
MOYOCK, NC 27958
- PROPERTY DATA:
ADDRESS: CARATOKE HIGHWAY, MOYOCK, NC 27958
PIN: 0015-000-0086-0000
RECORD DOCUMENT(S): D.B.13, PG.E/12
ACREAGE: 228.83 ACRES
PROPERTY ZONING: PD-R (PLANNED DEVELOPMENT - RESIDENTIAL)
- F.I.R.M. DATA:
ZONE X PER F.I.R.M. MAP NOS. 3721803100 K, 3721803000 K, & 3721804000 K ALL HAVING AN EFFECTIVE DATE DECEMBER 21, 2018. USE OF LAND WITHIN A FLOODWAY OR FLOOD PLAIN IS SUBSTANTIALLY RESTRICTED BY CHAPTER 7 OF THE CURRITUCK COUNTY UNIFIED DEVELOPMENT ORDINANCE.
- THIS PROPERTY CONTAINS ACOE "404" JURISDICTIONAL WETLANDS AS SHOWN AND CONFIRMED BY USACE ACTION ID# SAW 2018-00836, DATED APRIL 30, 2018, AND MAY REQUIRE U.S. CORP OF ENGINEERS APPROVAL PRIOR TO DEVELOPMENT OF THE PROPERTY.
- A 10' EASEMENT FOR UTILITIES AND DRAINAGE ALONG REAR AND SIDE PROPERTY LINES AND A 15' EASEMENT FOR UTILITIES AND DRAINAGE ALONG FRONT PROPERTY LINE IS HEREBY ESTABLISHED. PEDESTRIAN ACCESS AND STREET TREE EASEMENTS ARE HEREBY PROVIDED PER TYPICAL LOT DETAIL ON SHEET 20. ALL DRAINAGE EASEMENTS ARE HEREBY DEDICATED TO CURRITUCK COUNTY.
A 25' DRAINAGE EASEMENT SHALL BE ESTABLISHED ALONG ALL MAJOR DRAINAGE WAYS SERVING MORE THAN 5 ACRES. A BLANKET DRAINAGE, UTILITY, AND PEDESTRIAN ACCESS EASEMENT IS HEREBY ESTABLISHED ACROSS ALL OPEN SPACE AREAS.
- EXISTING CONDITION INFORMATION BASED ON A COMBINATION OF THE FOLLOWING:
 - 2012 AERIAL IMAGERY OBTAINED FROM NCONEMAP.COM
 - FIELD TOPOGRAPHIC SURVEY DATA BY BISSELL PROFESSIONAL GROUP.
 - ELEVATIONS ARE REFERENCED TO NAVD 1988 VERTICAL DATUM.
- SECTION 7.6.5 OF THE CURRITUCK U.D.O. SUBSTANTIALLY RESTRICTS DEVELOPMENT WITHIN A 30' RIPARIAN BUFFER.
- ALL UTILITIES ARE TO BE UNDERGROUND.
- NEAREST HYDRANT (MCH15) FLOW TESTED AT 1,146 GPM. DESIGN FIRE FLOW IS 1,000 GPM FOR SINGLE FAMILY RESIDENCES BASED ON STRUCTURES HAVING LESS THAN 4,800 SQ. FT. AND NOT OVER 2-STORIES HIGH. NFF FOR MULTI-FAMILY STRUCTURES IS BASED ON ISO STANDARDS.
- THERE IS A 50' FARM BUFFER IN ALL AREAS ADJOINING ACTIVE FARM LANDS.
- THIS SUBDIVISION CONTAINS RIGHTS-OF-WAY THAT ARE PLATTED WITH THE INTENT OF BEING EXTENDED AND CONTINUED TO AND FROM ADJOINING PROPERTIES. ACCESS WITHIN THE RIGHTS-OF-WAY FOR STREETS AND UTILITIES SHALL NOT BE RESTRICTED.

ZONING CONDITIONS:

SEE SHEET 18

LOT DEVELOPMENT CONFIGURATION:

LOT AREAS: VARY FROM 1,809 TO 18,051 SQUARE FEET.

RECREATIONAL AND PARK LAND FEE-IN-LIEU CALCULATION:

REQUIRED UPLAND RECREATION/PARKLAND DEDICATION ACREAGE = 4.539 AC. (178 LOTS * 0.0255AC./LOT)
CURRENT PROPERTY ACCESSED VALUE (LAND ONLY) = \$793,300 OR \$3,520.30/AC. (\$793,300/225.35 AC.)
FEE-IN-LIEU IS \$15,978.64 (4.539 AC * \$3,520.30/AC.)

PHASES 1-9 STREET CONNECTIVITY INDEX = 89 LINKS/53 NODES = 1.68

STORMWATER STATEMENT

NO MORE THAN 30% OF ANY LOT SHALL BE COVERED BY IMPERVIOUS STRUCTURES AND MATERIALS, INCLUDING ASPHALT, GRAVEL, CONCRETE, BRICK STONE, SLATE, OR SIMILAR MATERIAL, NOT INCLUDING WOOD DECKING OR THE WATER SURFACE OF SWIMMING POOLS. THIS COVENANT IS INTENDED TO ENSURE COMPLIANCE WITH THE STORMWATER PERMIT NUMBER _____ ISSUED BY THE STATE OF NORTH CAROLINA. THE COVENANT MAY NOT BE CHANGED OR DELETED WITHOUT THE CONSENT OF THE STATE. FILLING IN OR PIPING OF ANY VEGETATIVE CONVEYANCES (DITCHES, SWALES, ETC.) ASSOCIATED WITH THIS DEVELOPMENT, EXCEPT FOR AVERAGE DRIVEWAY CROSSINGS, IS STRICTLY PROHIBITED BY ANY PERSON. THE LOT COVERAGE ALLOWANCE PROVIDED IN THE CURRITUCK COUNTY UNIFIED DEVELOPMENT ORDINANCE MAY BE DIFFERENT THAN THE NC STATE STORMWATER PERMIT. THE MOST RESTRICTIVE LOT COVERAGE SHALL APPLY.

TOTALS	228.28	2.10	126	59	294	479	

ZONING TERMS AND CONDITIONS:

- a. THE PHASING PLAN ATTACHED TO THIS ORDINANCE AND INCORPORATED HEREIN BY REFERENCE AS SCHEDULE B (ATTACHED) SHALL BE ADHERED TO EXCEPT THAT THE DEVELOPER MAY DETERMINE THE SEQUENCE IN WHICH PHASES ARE DEVELOPED. THE DEVELOPER SHALL PROVIDE AN ANNUAL REPORT UPDATING THE PHASING PLAN FOR THE DEVELOPMENT. NOTWITHSTANDING THE FORGOING, THE FIRST PHASE OF DEVELOPMENT SHALL NOT EXCEED SEVENTY-ONE (71) RESIDENTIAL UNITS.
- b. DEVELOPMENT ON THE PROPERTY SHALL BE CONNECTED TO A NORTH CAROLINA DEPARTMENT OF ENVIRONMENTAL QUALITY ("NCDEQ") OR NORTH CAROLINA DEPARTMENT OF HEALTH & HUMAN SERVICES ("NCDHHS") PERMITTED AND APPROVED CENTRAL WASTEWATER TREATMENT AND DISPOSAL SYSTEM, AND TO THE CURRITUCK COUNTY WATER SYSTEM. FIRE PROTECTION SHALL BE PROVIDED IN ACCORDANCE WITH THE UDO STANDARDS AND THE N.C. FIRE CODE.
- c. THE DENSITY/INTENSITY STANDARDS, DIMENSIONAL STANDARDS AND DEVELOPMENT STANDARDS FOR DEVELOPMENT OF THE PROPERTY SHALL BE IN ACCORDANCE WITH THE MASTER PLAN AND SCHEDULE A (ATTACHED), SUBJECT TO THE DEGREE OF FLEXIBILITY PROVIDED IN THESE CONDITIONS.
- d. COMMUNITY FORM AND DESIGN FOR DEVELOPMENT OF THE PROPERTY SHALL CONFORM TO THE STREETScape PERSPECTIVES, EXAMPLE MODEL HOME DRAWINGS, MIXED USE, AND CLUBHOUSE PERSPECTIVE DRAWINGS ILLUSTRATED ON THE MASTER PLAN AND AS PROVIDED AND ILLUSTRATED IN APPENDIX TO THE MASTER PLAN SUPPLEMENTAL DOCUMENT. VARIATIONS MAY BE PROVIDED AND SHALL BE PERMITTED IN COLORS, MATERIALS, AND ARCHITECTURAL DETAILING THAT ARE COMPATIBLE WITH THE DESIGN CONCEPT.
- e. TRANSPORTATION: THE MAIN SUBDIVISION ENTRANCE WILL BE CONNECTED DIRECTLY TO N.C. HIGHWAY 168. DECELERATION AND ACCELERATION LANES SHALL BE PROVIDED ALONG THE PROPERTY FRONTAGE IN ACCORDANCE WITH NORTH CAROLINA DEPARTMENT OF TRANSPORTATION, ("NCDOT"), STANDARDS AND SHALL BE APPROVED BY NCDOT PRIOR TO CONSTRUCTION. CONNECTIVITY WILL BE PROVIDED TO THE EXISTING FARMLAND TO THE SOUTHEAST, IDENTIFIED WITH PARCEL IDENTIFICATION NUMBER ("PIN") 002300000070000. ROADWAYS SHALL BE LAID OUT GENERALLY AS SHOWN ON THE ATTACHED MASTER PLAN AND SCHEDULE C.
- f. POTABLE WATER: WATER SHALL BE SUPPLIED BY CURRITUCK COUNTY VIA AN EXISTING 12" MAIN LOCATED ON N.C. HIGHWAY 168 WHICH WILL BE TAPPED AND LOOPEO THROUGH THE SITE. FIRE PROTECTIONS SHALL BE PROVIDED IN ACCORDANCE WITH UDO STANDARD AND THE APPLICABLE INSURANCE SERVICE OFFICE STANDARDS. INDIVIDUAL LOTS AND DWELLINGS SHALL BE METERED. THE DEVELOPER SHALL MODEL THE COUNTY'S WATER SYSTEM TO DEMONSTRATE ADEQUATE WATER FLOW AND PRESSURE FOR FIGHTING FIRES WHILE MEETING THE MAXIMUM DAY DOMESTIC DEMAND.
- g. WASTEWATER: DEVELOPER INTENDS TO CONNECT TO A MAJOR UTILITY, OFF-SITE, OWNED BY CURRITUCK WATER & SEWER, LLC. FOR WASTEWATER TREATMENT AND DISPOSAL. A WASTEWATER COLLECTION SYSTEM WILL BE CONNECTED BY THE DEVELOPER AND MANAGED BY A WASTEWATER UTILITY. THE UTILITY WILL BE REGULATED BY THE NORTH CAROLINA UTILITIES COMMISSION.
- h. ON-SITE STORMWATER: THE FOLLOWING IMPROVEMENTS TO STORMWATER DRAINAGE ("IMPROVEMENTS") ON THE PROPERTY SHALL BE COMPLETED BY THE DEVELOPER PRIOR TO RECORDING THE FINAL PLAT FOR THE FIRST PHASE OF DEVELOPMENT ON THE PROPERTY:
- 1.1. IMPROVE ROWLAND CREEK FOR THE ENTIRE LENGTH ON THE PROPERTY BY CONSTRUCTION OF A DITCH ON A POSITIVE GRADE WITH 3:1 SIDE SLOPES AND SIZED FOR A 100 YEAR STORM EVENT FROM THE DRAINAGE BASIN IN WHICH THE PROPERTY IS LOCATED.

- 1.2. INSTALL A NEW DITCH ALONG THE ENTIRE LENGTH OF THE PROPERTY'S EASTERN COMMON BOUNDARY LINE WITH RANCHLAND SUBDIVISION ON A POSITIVE GRADE WITH 3:1 SIDE SLOPES AND SIZED FOR A 500 YEAR STORM EVENT FROM THE DRAINAGE BASIN IN WHICH THE PROPERTY AND A PORTION OF RANCHLAND SUBDIVISION ARE LOCATED.
- 1.3. THE IMPROVEMENTS SET FORTH IN THIS SECTION SHALL BE MAINTAINED BY THE DEVELOPER, OR A MANAGEMENT ASSOCIATION CREATED BY THE DEVELOPER.
- i. OFF-SITE STORMWATER: SUBJECT TO OBTAINING RIGHT OF ENTRY FROM OFF-SITE PROPERTY OWNERS, I.E. IF CONSENT OF THOSE PROPERTY OWNERS IS OBTAINED, THE FOLLOWING IMPROVEMENTS TO STORM WATER DRAINAGE SYSTEMS OUTSIDE THE BOUNDARIES OF THE PROPERTY SHALL BE COMPLETED BY THE DEVELOPER PRIOR TO RECORDING THE FINAL PLAT FOR THE FIRST PHASE OF THE DEVELOPMENT:
- 1.1. CLEAR AND SNAG ROWLAND CREEK FROM N. C. HIGHWAY 168 TO THE EAST END OF ROWLAND CREEK ESTATES SUBDIVISION (ADJACENT TO PIN 0022000088M0000)
- 1.2. CLEAR AND SNAG THE RANCHLAND OUTLETS DITCH FROM THE PROPERTY'S SOUTHEAST CORNER ADJACENT TO RANCHLAND SUBDIVISION (ADJACENT TO PIN 0238000004201F2) TO THE RANCHLAND OUTLETS' INTERSECTION WITH ROWLAND CREEK, AND CONSTRUCT A DITCH ON A POSITIVE GRADE WITH 3:1 SIDE SLOPES AND SIZED FOR A 100 STORM EVENT FROM THE DRAINAGE BASIN IN WHICH THE PROPERTY AND RANCHLAND SUBDIVISION ARE LOCATED.
- 1.3. IMPROVE THE SURVEY ROAD DITCH FROM GUINEA ROAD TO THE RAILROAD (ON PIN 0022000063Y0000) AND CONSTRUCT THE DITCH ON A POSITIVE GRADE WITH 3: 1 SIDE SLOPES AND SIZED FOR A 100 YEAR STORM EVENT FROM THE DRAINAGE BASIN IN WHICH THE PROPERTY IS LOCATED.
- 1.4. IMPROVE ROWLAND CREEK FROM THE EASTERN BOUNDARY OF EAGLE CREEK (ADJACENT TO PIN 015A000009880000) TO THE WESTERN BOUNDARY OF THE PROPERTY BY CONSTRUCTING A DITCH ON A POSITIVE GRADE WITH 3:1 SIDE SLOPES SIZED FOR A 100 YEAR STORM EVENT
- 1.5. DEVELOPER OR A MANAGEMENT ASSOCIATION SHALL CONTRIBUTE \$5,000 ANNUALLY TO THE COST OF MAINTENANCE FOR THE OFF-SITE IMPROVEMENTS SET FORTH IN THIS SECTION. SUCH FUNDS SHALL BE DEPOSITED WITHIN AN ASSOCIATION CREATED FOR THE PURPOSE OF MAINTAINING OFF-SITE IMPROVEMENTS. THE FIRST CONTRIBUTION SHALL BE MADE WITHIN 1 YEAR OF THE RECORDING OF THE FIRST PHASE OF DEVELOPMENT, AND SUBSEQUENT CONTRIBUTIONS MADE ANNUALLY FOR THE NEXT 10 YEARS.
- 1.6. SHOULD DEVELOPER BE UNABLE TO OBTAIN RIGHT OF ENTRY FROM ANY LANDOWNER PRIOR TO RECORDING PHASE 2, THEN DEVELOPER'S ONLY OBLIGATION UNDER THIS SECTION (I), OFF-SITE STORMWATER, SHALL BE TO PROVIDE FEE IN LIEU IN THE AMOUNT OF 115% OF THE COST OF THE OFF-SITE IMPROVEMENTS, SUCH THAT THE COUNTY MAY COMPLETE THESE IMPROVEMENTS IF AND WHEN RIGHT OF ENTRY IS OBTAINED.
- j. OVERALL STORMWATER CONDITIONS:
- 1.1. THE DEVELOPER SHALL CONSTRUCT BERMS ALONG DITCH OUTLETS AGAINST RANCHLAND TO KEEP PROPOSED DEVELOPMENT'S RUNOFF FROM FLOODING RANCHLAND DURING A 100-YEAR STORM.
- 1.2. ON-SITE STORMWATER WILL BE MANAGED BY CONSTRUCTION A SERIES OF STORMWATER MANAGEMENT PONDS THAT WILL BE INTERCONNECTED AND WILL RETAIN AND SLOW-RELEASE STORMWATER PRIMARILY TO ROWLAND CREEK BOTH DIRECTLY AND INDIRECTLY. A PORTION OF THE STORMWATER WILL ALSO OVERFLOW TO AN EXISTING CULVERT THAT RUNS DIRECTLY

UNDER N.C. HIGHWAY 168 NEAR THE NORTHWEST CORNER OF THE PROPERTY, THE DITCH THAT DRAINS THAT OUTLET WILL ALSO BE IMPROVED AS NECESSARY SUBJECT TO OBTAINING RIGHT OF ACCESS REFERENCED ABOVE. IN ADDITION TO MODELING AND RETAINING STORMWATER TO THE UDO AND STORMWATER MANUAL STANDARD FOR THE DIFFERENCE BETWEEN RUNOFF FROM THE 10-YEAR DEVELOPED CONDITION AND RUNOFF FROM A 2-YEAR WOODED CONDITION SITE, STORMWATER SHALL BE MODELED FOR THE 100- YEAR STORM EVENT AND PROPERTY LINE BERMS CONSTRUCTED AS NECESSARY TO MANAGE THE 100-YEAR STORM WITHOUT ADVERSELY IMPACTING NEIGHBORING PROPERTIES.

STORMWATER SHALL BE CONVEYED TO ON-SITE RETENTION PONDS THROUGH A COMBINATION OF CURBS WITH INLETS, STORMWATER PIPES AND OPEN, VEGETATED SWALES.

- k. PERIMETER COMPATIBILITY SHALL BE ADDRESSED AS FOLLOWS:
- 1.1. TO THE WEST: AS LONG AS THIS PROPERTY REMAINS ZONED AS IS, A 50-FOOT FARM BUFFER SHALL BE PROVIDED, FOLLOWED BY A 60-FOOT ROADWAY CORRIDOR, SO THE NEAREST EXISTING DWELLING UNIT WILL BE AT LEAST 565 FEET FROM THE EXISTING RESIDENCE ON THAT FARM. A VEGETATIVE BUFFER SHAL BE PROVIDED ALONG THAT PROPERTY LINE. IF THIS PROPERTY IS REZONED, THE BUFFER REQUIREMENTS IN THIS CONDITION SHALL NOT APPLY.
- 1.2. TO THE NORTH (CARATOKE HIGHWAY): A BERM SHALL BE PROVIDED ALONG THE HIGHWAY ALONG WITH LAKES FLANKING THE MAIN ENTRANCE ROAD. THE NEAREST DWELLING UNIT WILL BE SET BACK AT LEAST 200 FEET FROM THE HIGHWAY RIGHT-OF-WAY AT THE CLOSEST POINT. THE VISUAL IMPACT OF THE DEVELOPMENT SHALL BE MINIMIZED BY SETBACKS, BERMS AND LANDSCAPING.
- 1.3. TO THE EAST: A 50-FOOT VEGETATIVE FARM BUFFER SHALL BE P R O V I D E D ALONG THE EXISTING FARMLAND; TRADITIONAL SINGLE FAMILY DWELLING LOTS ARE BEING PROPOSED IN THE AREAS THAT BACK UP TO EXISTING DWELLING UNITS IN THE ADJACENT RANCH SUBDIVISION. A MINIMUM 50-FOOT BUFFER SHALL BE PROVIDED BETWEEN THE DEVELOPMENTS.
- 1.4. TO THE SOUTH: COMPATIBLE RESIDENTIAL DEVELOPMENT IS BEING PROPOSED AND A MINIMUM 90-FOOT OPEN SPACE BUFFER IS SHOWN TO THE PROPERTY LINE. THE SOUTHERN BUFFER MAY INCLUDE A POND.
- 1.5. LIMITED COMMERCIAL DEVELOPMENT IS LOCATED INTERIOR TO THE DEVELOPMENT AND SHALL FRONT ALONG THE LANDSCAPED ENTRANCE BOULEVARD.
- i. ENVIRONMENTAL PROTECTION AND MONITORING: WETLANDS SUBJECT TO THE JURISDICTION OF THE US ARMY CORPS OF ENGINEERS HAVE BEEN DELINEATED AND CONFIRMED BY THE CORPS OF ENGINEERS. WETLAND BUFFERS HAVE BEEN SHOWN ON THE MASTER PLAN AND THE DEVELOPMENT PLAN HONORS THOSE BUFFERS. THE ASSOCIATION DOCUMENTS (DECLARATION) WILL INCLUDE PROVISIONS THAT PROHIBIT THE FILLING OF WETLANDS AND PROHIBIT THE CLEARING OF THE BUFFER AREAS OTHER THAN INCIDENTAL TREE CUTTING AND VEGETATION REMOVAL, EXCEPT FOR MINOR IMPACTS ASSOCIATED WITH STORMWATER MANAGEMENT FACILITIES.

THE ASSOCIATION, EITHER ITSELF OR VIA A MANAGEMENT ENTITY, WILL ASSUME RESPONSIBILITY FOR ONGOING OPERATION AND MAINTENANCE OF ALL STORMWATER MANAGEMENT FACILITIES IN ACCORDANCE WITH THE CURRITUCK COUNTY UDO REQUIREMENTS AND ALL NCDEQ PERMIT REQUIREMENTS. THE ASSOCIATION DUES WILL BE STRUCTURED IN A WAY THAT FUNDS ARE PROVIDED FOR THE UPKEEP OF THESE FACILITIES, AS WELL AS PERIODIC IMPROVEMENTS TO ROWLAND CREEK BOTH THROUGH THE DEVELOPMENT, AS WELL AS A CONTRIBUTION TO OFF-SITE MAINTENANCE.

WIND TIDES WILL BE CONSIDERED IN THE DESIGN OF SITE GRADING, WITH STRUCTURES LOCATED ABOVE THE ELEVATION OF THE HISTORIC WIND TIDAL INFLUENCE FROM ROWLAND CREEK.

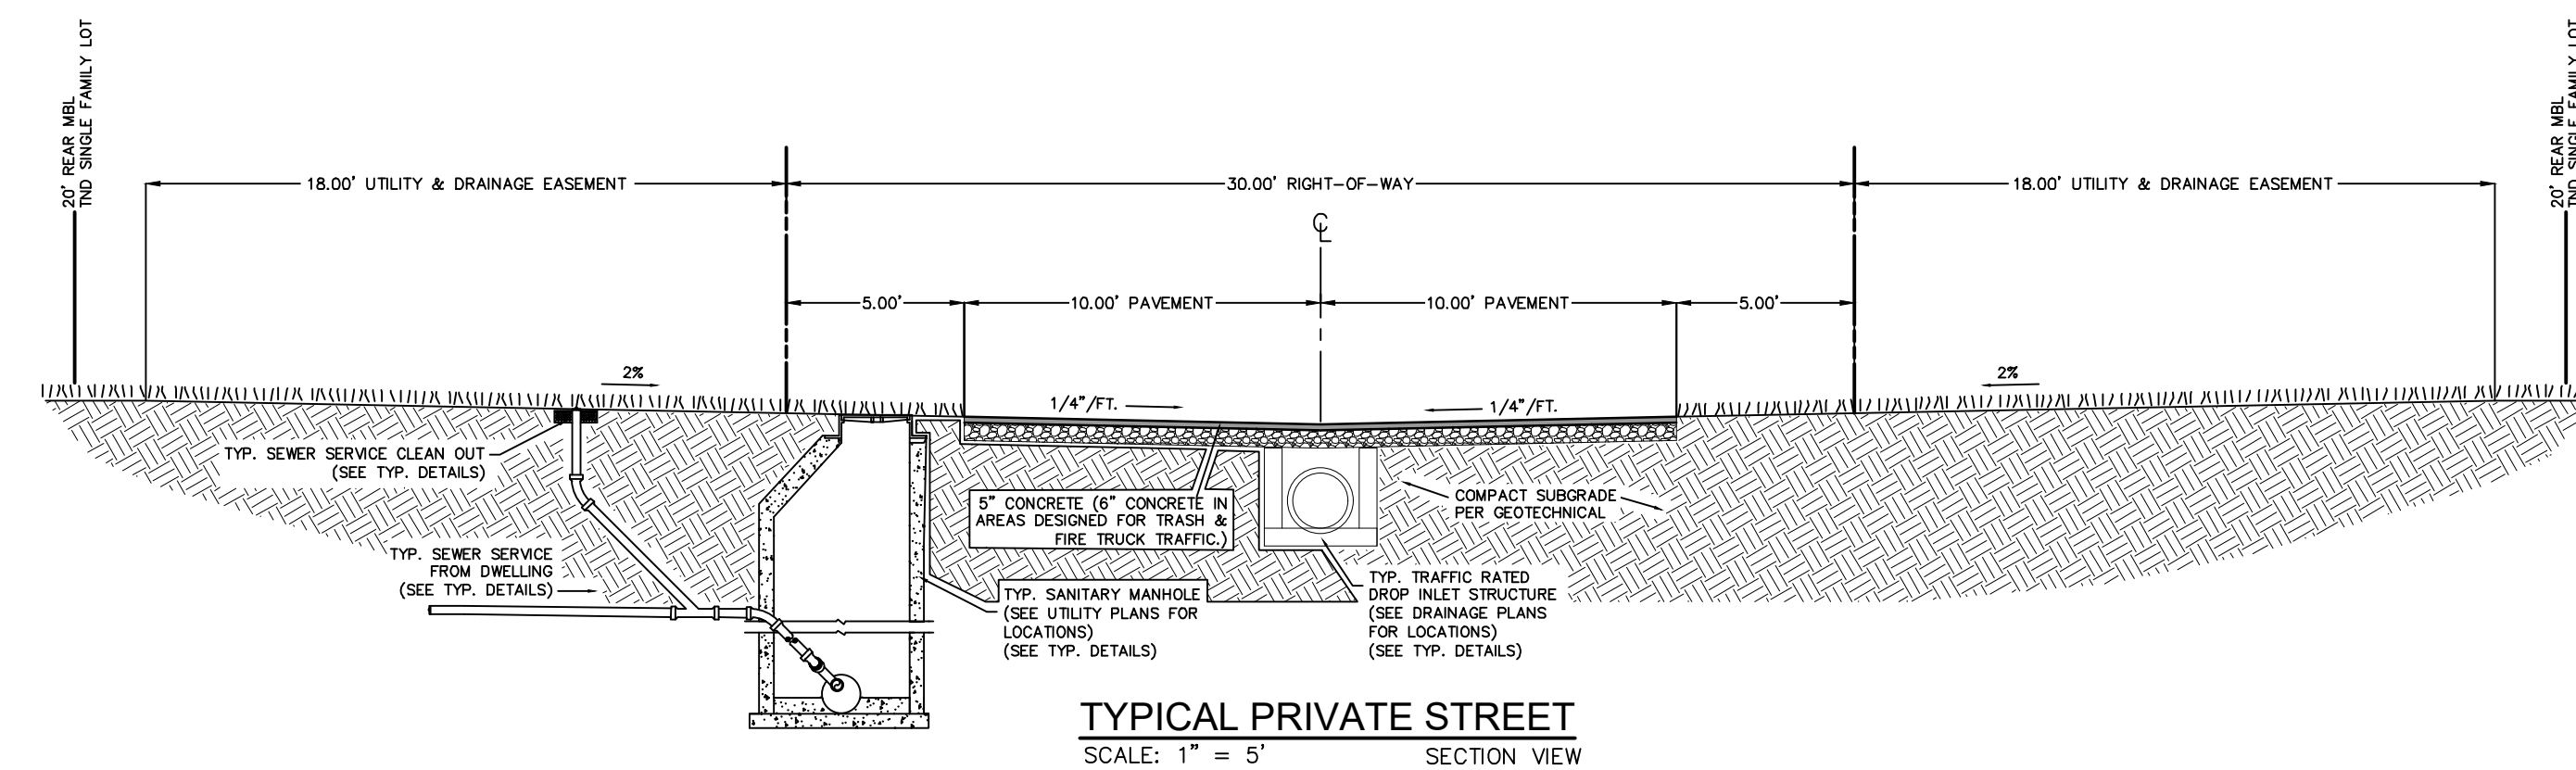

ADDITIONAL CONDITIONS OF APPROVAL MADE ON DECEMBER 7, 2020:

- m. ROWLAND CREEK NEAR THE SOUTH OF THE PROPERTY MUST BE CLEARED AND SNAGGED AS SOON AS POSSIBLE.
- n. STORMWATER MANAGEMENT ON ROWLAND CREEK AND AREAS DOWNSTREAM NORTH AND EAST OF THE RAILROAD TRACK ARE WITHIN CAMA JURISDICTION, REQUIRE A 30' SETBACK, AND CAMA PERMITTING IS REQUIRED.
- o. DRAINAGE AND UTILITY REQUIREMENTS IN THE JUNE 24, 2019 APPROVED ORDER REMAIN UNCHANGED.

SCHEDULE C ROADWAY STANDARDS		
TYPE	R/W WIDTH	PAV' T. WIDTH (B-B)

MEMORANDUM

To: Mark Bissell, Bissell Professional Group
 Justin Old, Allied Properties LLC

From: Tammy D. Glave, CZO, Senior Planner

Date: October 14, 2021

Subject: PB 18-23 Fost, Preliminary Plat/Special Use Permit, Phases 6-9

The following comments have been received for the October 13, 2021 TRC meeting for Fost, Preliminary Plat/Special Use Permit, Phases 6-9. In order to be scheduled for the November 15, 2021 Board of Commissioners meeting, please address all comments and resubmit a corrected plan by 3:00 p.m. on October 25, 2021. TRC comments are valid for six months from the date of the TRC meeting.

Planning (Tammy Glave, 252-232-6025)

Denied:

- Staff has concerns about the availability of elementary school capacity for the students this development is projected to generate. This development is districted to Shawboro Elementary that has zero % capacity and no plans for expansion. Without school capacity, a finding should not be made that the special use permit review standard of not exceeding the county's ability to provide adequate public facilities is met. (UDO Sections 2.4.6.D and 6.3.6) Section 6.6 of the UDO requires that all required public facilities shall be in place or programmed to be in place within two years after the initial approval of the special use permit. It should also be noted that the high schools are at 99% committed capacity.

2021-2022 Shawboro Elementary School Capacity	622 Students
10-4-2021 School Enrollment	622 Students
% Capacity Available	0%
Fost Phases 6-9 Proposed Capacity Changes	+44 Students

ADEQUATE PUBLIC FACILITIES – SCHOOLS¹			
School	2021-2022 Actual Capacity²	Committed Capacity³	Proposed Capacity Changes
			Number of Students
Moyock Elementary	128%	131%	+44
Shawboro Elementary	99%		
Central Elementary	96%		
Moyock Middle	94%	92%	+14
Currituck Middle	62%		
Currituck High	88%	105%	+24
JP Knapp Early College	86%		

¹Does not include minor subdivisions, exempt subdivisions, and subdivisions approved prior to the adoption of the adequate public facilities ordinance (October 1994)

²Capacity percentages are based on 2021-2022 school year classroom standards and Sep 2021 ADM

³Capacity percentages are based on the 2021-2022 school year classroom standards and Sep 2021 ADM

2. While regulated by the NCDEQ Division of Water Resources, staff has concerns about connecting any dwelling units to the WWTP at Eagle Creek until the system is compliant with State standards.
3. Please fix the word 'southern' on Sheet 18, k-1.4.
4. UDO Section 6.2.1.H Alleys states that alleys shall only intersect with streets (not other alleys) and shall not have a pavement width more than 16'. This was discovered after the preliminary plat approval of previous phases.
5. Please verify your calculations for Recreational and Parkland Fee-in-lieu. Staff's calculations are much higher than those shown on Sheet 1. Current property access value (land only) = \$3,942,400 with a resultant fee-in-lieu of \$134,288.27 as opposed to the \$15,978.64 as shown. (UDO Section 6.5)
6. Please confirm that the area marked as 'Reserved as effluent disposal area' is not counted as open space. (UDO Section 7.1.3.D)
7. Please note on the plan that on-site effluent disposal is not permitted, an amended plan is required that must be approved by the BOC, and the BOC must approve the amended plan prior to any land disturbance for any part of the on-site effluent disposal system.
8. Please indicate that drainage easements are dedicated to Currituck County. (UDO Section 7.3.4)

Currituck County Chief Building Inspector/Fire Official (Bill Newns, 252-232-6023)

Approved without comment.

Currituck County Economic Development (Larry Lombardi, 252-232-6015)

Reviewed without comment.

Currituck County GIS (Harry Lee, 252-232-4039)

1. Addresses will be assigned by GIS during final plat review.

The following items are necessary for resubmittal:

- 3 - full size copies of revised plans
- 1 – 8.5 x 11" reduced copy
- 1- PDF digital copy of all revised or new documents and plans.

A use permit hearing is an evidentiary hearing where the Board of Commissioners must make a Quasi-Judicial Decision.

- An evidentiary hearing will be held for the Board of Commissioners to gather competent, material and substantial evidence to establish the facts of the case.
- All testimony is made under oath.
- The applicant or opposing parties shall establish written findings of fact and conclusions of law.
- Parties with standing may participate fully in the evidentiary hearing, including presenting evidence, cross-examining witnesses, objecting to evidence, and making legal arguments.
- Non-parties may present competent, material, and substantial evidence that is not repetitive.

Typical Use Permit (Quasi-Judicial) Hearing at BOC

- Swearing in of witnesses/speakers
- Presentation by County Staff on Application
- Required Presentation by Applicant or Authorized Agent (20-25 minutes)
 - Applicant to Present Findings of Fact
- Public Comment Period (typically 3 minutes each)
- Applicant Rebuttal (typically 5 minutes)
- BOC Deliberation & Decision

RE: New Build & Development

Dear Development manager;

As you know the key need for all homes in this 21st Century is a solid internet connection, be it for business, education or entertainment, the public demand is here.

With this in mind, as you plan for your development and build out, we would like to encourage you to reach out to us, as you do for other essential utilities. It is most economical and reasonable for you to work with us and have this valuable infrastructure in advance of selling and building the homes. Any build out costs can easily be recouped as the lots are developed and make your neighborhoods more appealing to families and professionals.

We invite, you to partner with us and contact us locally. We will process a ROI for your location to determine partnership feasibility and estimated cost to ensure your development has access to the best internet services available.

Our key contacts are, Kim Mason, Director for North Carolina – information above and our construction coordinator Nathaniel Harris at 252- 793-5256 or 252-339-9375.

Mediacom launched 1-Gig broadband speeds in the following areas of North Carolina and operates customer service offices in Edenton and Plymouth.

Bertie County	Martin County	Chowan County	Perquimans County
Colerain	Jamesville	Arrowhead / Chowan Beach	Hertford
Kelford	Northampton County	Edenton	Winfall
Lewiston	Conway	Currituck County	Tyrrell County
Powellsville	Galatia	Barco	Columbia
Roxobel	Jackson	Currituck	Washington County
Windsor	Rich Square	Grandy	Creswell
Camden County	Seaboard	Moyock	Plymouth
Camden	Severn	Point Harbor	Roper
Shiloh	Woodland	Poplar Branch	
South Mills		Tulls Bay	

About Mediacom Communications

Mediacom Communications Corporation is the 5th largest cable operator in the U.S. serving over 1.3 million customers in smaller markets primarily in the Midwest and Southeast. Mediacom offers a wide array of information, communications and entertainment services to households and businesses, including video, high-speed data, phone, and home security and automation. Through Mediacom Business, the company provides innovative broadband solutions to commercial and public sector customers of all sizes and sells advertising and production services under the OnMedia brand. More information about Mediacom is available at www.mediacomcable.com.

We look forward to partnering with you to ensure your projects are successful and your development has the best services available for your buyers.

Best regards,

Kim Mason

MEMORANDUM

To: Mark Bissell, Bissell Professional Group
 Justin Old, Allied Properties LLC

From: Tammy D. Glave, CZO, Senior Planner

Date: October 14, 2021 **10-28-21 Response to TRC Comments**

Subject: PB 18-23 Fost, Preliminary Plat/Special Use Permit, Phases 6-9

The following comments have been received for the October 13, 2021 TRC meeting for Fost, Preliminary Plat/Special Use Permit, Phases 6-9. In order to be scheduled for the November 15, 2021 Board of Commissioners meeting, please address all comments and resubmit a corrected plan by 3:00 p.m. on October 25, 2021. TRC comments are valid for six months from the date of the TRC meeting.

Planning (Tammy Glave, 252-232-6025)

Denied:

- Staff has concerns about the availability of elementary school capacity for the students this development is projected to generate. This development is districted to Shawboro Elementary that has zero % capacity and no plans for expansion. Without school capacity, a finding should not be made that the special use permit review standard of not exceeding the county's ability to provide adequate public facilities is met. (UDO Sections 2.4.6.D and 6.3.6) Section 6.6 of the UDO requires that all required public facilities shall be in place or programmed to be in place within two years after the initial approval of the special use permit. It should also be noted that the high schools are at 99% committed capacity.

2021-2022 Shawboro Elementary School Capacity	622 Students
10-4-2021 School Enrollment	622 Students
% Capacity Available	0%
Fost Phases 6-9 Proposed Capacity Changes	+44 Students

ADEQUATE PUBLIC FACILITIES – SCHOOLS ¹			
School	2021-2022 Actual Capacity ²	Committed Capacity ³	Proposed Capacity Changes
			Number of Students
Moyock Elementary	128%	131%	+44
Shawboro Elementary	99%		
Central Elementary	96%		
Moyock Middle	94%	92%	+14
Currituck Middle	62%		
Currituck High	88%	105%	+24
JP Knapp Early College	86%		

¹Does not include minor subdivisions, exempt subdivisions, and subdivisions approved prior to the adoption of the adequate public facilities ordinance (October 1994)

²Capacity percentages are based on 2021-2022 school year classroom standards and Sep 2021 ADM

³Capacity percentages are based on the 2021-2022 school year classroom standards and Sep 2021 ADM

- While regulated by the NCDEQ Division of Water Resources, staff has concerns about connecting any dwelling units to the WWTP at Eagle Creek until the system is compliant with State standards.
- Please fix the word 'southern' on Sheet 18, k-1.4.
- UDO Section 6.2.1.H Alleys states that alleys shall only intersect with streets (not other alleys) and shall not have a pavement width more than 16'. This was discovered after the preliminary plat approval of previous phases. The alleys were designed with a 20' width as required for fire department access, and have a 30' right-of-way width. UDO Section 6.2.1.D has a standard for a local road in a PD-R calling for a 20' pavement width in a 30' right-of-way, so it appears that an easy solution to this problem is to reclassify these streets from alleys to private streets. This appears to solve the problem, so we have assigned street names to these former alleys.
- Please verify your calculations for Recreational and Parkland Fee-in-lieu. Staff's calculations are much higher than those shown on Sheet 1. Current property access value (land only) = \$3,942,400 with a resultant fee-in-lieu of \$134,288.27 as opposed to the \$15,978.64 as shown. (UDO Section 6.5) It is our understanding that the land value was established at the time of preliminary plat approval for the first phases, which should continue through the remaining phases. We have not previously had a request to change to an updated valuation in the middle of implementing a development phasing plan. It does not seem reasonable to require a fee that is more than 8 times what was budgeted based on the first phases, using an increased value that is based on the developer's purchase of the property, but we believe it should instead be based on the pre-closing value and fee schedule that had already been established at the time of the original approvals and budgeting.
- Please confirm that the area marked as 'Reserved as effluent disposal area' is not counted as open space. (UDO Section 7.1.3.D) This area has not been counted as open space.

7. Please note on the plan that on-site effluent disposal is not permitted, an amended plan is required that must be approved by the BOC, and the BOC must approve the amended plan prior to any land disturbance for any part of the on-site effluent disposal system. **A note has been added to the plan on sheet 5.**
8. Please indicate that drainage easements are dedicated to Currituck County. (UDO Section 7.3.4) **The notation has been added to sheet 1.**

Community Meeting, If applicable

Date Meeting Held: _____ Meeting Location: _____

ATTACHMENT TO APPLICATION FOR PRELIMINARY PLAT/USE PERMIT APPROVAL for FOST Phases 6-9**Purpose of the Use Permit and Project Narrative**

The goal is to continue building a community that has a creative design, providing a mix of different residential uses in close proximity to one another, while at the same time providing an efficient use of open space that promotes an active lifestyle and strong sense of community. Limited, small scale commercial uses may also be constructed primarily to serve the needs of the residents in this development.

The ways in which these goals and objectives will be achieved is shown graphically on the approved Master Plan, and is further described in the following paragraphs:

- Several different housing types are proposed, including traditional rear load traditional neighborhood development style townhomes, TND style homes with rear loaded driveways and garages, and more conventional frontloaded single family development lots.
- The Community will be pedestrian friendly, with open spaces and greenways strategically located throughout the community, and with a combination of sidewalks, multi-use paths/cart paths, a village green and a clubhouse with large outdoor recreation areas.
- The mixing of housing styles will also provide a mix of lot sizes, densities and streetscapes.
- The development is sensitive to existing wetlands, which have been delineated and confirmed by the Corps of Engineers; buffers have been shown and are being honored, existing drainage ways are being maintained and improved. Lower areas that are more flood prone are being set aside as open space, some of which will be used for the construction of lakes and ponds for the management of stormwater.

USE PERMIT CRITERIA:**1. The use will not endanger the public health or safety.**

Transportation, portable water, wastewater and stormwater management will be addressed in accordance with the following paragraphs:

- a. Transportation: The main subdivision entrance will be connected directly to NC 168 (Caratoke Highway). Deceleration and acceleration lanes will be provided in accordance with NCDOT Standards and have been approved by NCDOT. Connectivity will be provided to the existing farmland to the southeast (Moyock Farms) and to the west (Flora Farm).

Roadways have been laid out generally as shown on the Master Plan and will be in accordance

with the approved right-of-way and pavement width characteristics, using the NCDOT complete streets planning manual as a guide.

Appropriate access has been made for emergency service vehicles in accordance with applicable standards including the N.C. Fire Code.

- b. Potable Water: Water will be supplied by Currituck County via an existing 12" main located on Caratoke Highway, which will be tapped and looped through the site. Fire protection will be provided in accordance with UDO Standards and the applicable ISO standards. The water system will be modeled to demonstrate adequate flow and pressure for fighting fires while meeting the maximum day domestic demand.
- c. Wastewater: A centralized off-site wastewater treatment and disposal facility will be utilized (Currituck Water & Sewer Major Utility), and connected by running a force main from the Fost Tract to the treatment facility at Eagle Creek. A wastewater collection system will be constructed by the Developer and managed by the same wastewater utility. The utility will be regulated by the North Carolina Utilities Commission.
- d. Stormwater Management: A major drainage way known as Rowland Creek Canal runs through the development property. Due to the importance of this drainage feature not only to the development but to other properties located both upstream and downstream of this property, the Developer has committed to cleaning and laying back the slopes and stabilizing the portion of Rowland Creek that runs from Eagle Creek to the railroad next to NC 168. The Developer has also committed to improving the common property line ditch along Ranchland and the Moyock Farms property, and to excavate a new ditch that would be available to Ranchland along the common property line from the Moyock Farms site to south of the power easement. The Developer will also improve the sections of Rowland Creek downstream of the Fost property that require maintenance.

On-site stormwater will be managed by constructing a series of stormwater management ponds that will be interconnected and will retain and slow-release stormwater to existing outlets. In addition to modeling and retaining stormwater to the UDO and Stormwater Manual standard of the difference between runoff from the 10-year developed condition and runoff from a 2-year wooded condition site, stormwater will be modeled for the 100-year storm to determine improvements that are needed without adversely impacting neighboring properties. Implementation of this plan should improve drainage for neighboring properties compared to existing conditions.

Stormwater will be conveyed to on-site retention ponds through a combination of curbs with inlets, stormwater pipes, and open vegetated swales.

2. The use will not injure the value of adjoining or abutting lands and will be in harmony with the area in which it is located.

Land use to the west is agricultural, with one dwelling unit located approximately 435 feet from the nearest property line and approximately 565 feet from the nearest structure. Land use to the north, across the railroad and Caratoke Highway is commercial, land to the east is currently farmland, which has been approved for residential development, and existing residential lots, and land to the south is residential lots. Perimeter compatibility is being addressed as follows:

- a. To the west: A 50 foot farm buffer is being provided to existing farmland; however, the adjacent Flora farm has now been rezoned to C-MXR for compatible residential development.
- b. To the north (Caratoke Highway): A berm is being provided along the highway along with stormwater ponds flanking the main entrance road. The nearest dwelling unit will be set back at least 175 feet from the highway right-of-way at the closest point. The visual impact of the development will be minimized by setbacks, berms and landscaping.
- c. To the east: A 50 foot vegetative farm buffer is being provided along the existing farmland (which has been approved for residential development); traditional single family dwelling lots are being proposed in the areas that back up to existing dwelling units in the adjacent Ranchland subdivision. Even though the dwelling types are believed to be compatible, a minimum 50 foot buffer is being provided between the developments.
- d. To the south: Compatible residential development is being proposed and a minimum 90 foot open space buffer is shown to the property line. The buffer may contain a pond.
- e. Limited commercial development is proposed to be located interior to the development and will front along the landscaped entrance boulevard.

Lot size ratios and density ratios are comparable to other developments that have been approved in the immediate area and in other parts of Moyock.

The applicant is not aware of any adverse impacts on land value in the surrounding area. The applicant's proposed stormwater improvements will benefit the property values of the nearby Ranchland community. The Development is anticipated to **increase** the values of nearby properties by improving existing drainage problems.

The site is adjacent to non-agricultural activities including the Ranchland neighborhood to the south and southeast, and commercial and residential uses to the east. The site is also in close proximity to the Eagle Creek neighborhood. The proposed use is compatible with these adjacent uses and furthers the County's goal of concentrating new residential development in the vicinity of existing residential development. Nearby communities include existing planned communities of 588 lots to the west, a 275 lot subdivision to the east and 426 lots under development to the north of Caratoke Highway, all in the vicinity of the Fost tract. The development is appropriate for the location as it continues existing

development patterns in this part of Moyock. Lot area ratios and density ratios are consistent with other developments that have been approved recently nearby and in other parts of Moyock.

3. The use is consistent with the goals, objectives, and policies of the Land Use Plan or other applicable county-adopted plans:

a. The use is consistent with the following policies of the Currituck County Land Use Plan ("LUP"): The project is consistent with the Land Use Plan policies addressing density, recreational and open space, transportation infrastructure, and utilities:

i. Density: The project is located within the Full Service Area of the Land Use Plan, and proposes a density of 2.1 units per acre. The proposed use will include residential development in village like-clusters and will include open spaces surrounding the clusters, helping to prevent traditional suburban sprawl. The applicant is proposing centralized sewer, and the Full Service Area designation recognizes that higher density (above 2 units per acre) is appropriate here. The proposed use will not interfere with nearby resource production activities. This is consistent with the County's density designations because development is occurring along Caratoke Highway, a major transportation corridor, and is an infill site between two existing residential subdivisions but with its own access to Hwy 168. This is consistent with the following Land Use Plan policies:

POLICY AG6: *For areas experiencing intense development pressure, new residential development may be allowed to locate in COMPACT, VILLAGE-LIKE CLUSTERS, PREFERABLY NEAR EXISTING, NON-AGRICULTURAL ACTIVITIES AND SERVICES, or in other locations that will not interfere with resource production activities. Overall density shall remain very low, with permanent open space, dedicated during the development review process, surrounding such clusters of homes. LUP, p. 9-7.*

POLICY HN1: *Currituck County shall encourage development to occur at densities appropriate for the location. LOCATION AND DENSITY FACTORS shall include whether the development is within an environmentally suitable area, the type and capacity of sewage treatment available to the site, the adequacy of transportation facilities providing access to the site, and the proximity of the site to existing and planned urban services. For example, projects falling within the Full Services areas of the Future Land Use Map would be permitted a higher density because of the availability of infrastructure as well as similarity to the existing development pattern. Such projects could be developed at a density of two (2) or more dwelling units per acre.... LUP, p. 9-7.*

POLICY HN3: *Currituck County shall especially encourage two forms of residential development, each with the objective of avoiding traditional suburban sprawl...COMPACT, MIXED USE DEVELOPMENTS or DEVELOPMENTS NEAR A MIXTURE OF USES that promote a return to balanced, self-supporting community centers generally served by centralized water and sewer. The types of development are contemplated for the Full Service Areas identified on the Future Land Use Map. LUP, p. 9-7.*

ii. Utilities:

Stormwater: The applicant is aware of stormwater drainage issues in the surrounding properties and has conducted a stormwater study to investigate causes in Rowland Creek, upstream and downstream from the property. That study has shown significant restrictions to flow on both on- and off-site properties, which the applicant is willing to remove and restore with the off-site

landowners' consent. The applicant is also placing significant drainage facilities on site to collect and control its own stormwater. Where adjacent landowners are unwilling to allow the applicant to remove off-site obstructions, the applicant is willing to provide a additional stormwater storage on site to minimize flooding. The applicant plans to model the 100-year storm event and to manage stormwater runoff from that event. These commitments will provide a public benefit to the County by improving existing drainage problems with private funds, and providing a responsible mechanism for the site and surrounding areas to drain.

Wastewater: The applicant is proposing to connect to an off-site wastewater treatment and disposal facility. This will give the existing system new funds for upgrades, repair, and maintenance. Thus, the development will have a positive impact on sewer facilities and will not strain the County's infrastructure, consistent with the Full Service Area designation which anticipates additional density on this site. The applicant is also setting aside land to receive effluent and/or groundwater from the off-site facility.

This is consistent with the following Land Use Plan policies:

POLICY WS7: *Currituck County allows for the appropriate use of PACKAGE SEWAGE TREATMENT PLANTS as a means of achieving more efficient land use, while properly disposing of waste. Such systems shall have a permanent organizational ownership to guarantee their proper management, including operation, maintenance and replacement needs. Depending on their location in the county, such systems may be required to have a design that allows for assimilation into a centralized system at a future date.* LUP, p. 9-13.

POLICY WQ3: *Currituck County supports policies, plans and actions that help protect the water quality of the county's estuarine system by preventing SOIL EROSION AND SEDIMENTATION, and by controlling the quantity and quality of STORMWATER RUNOFF entering the estuary.* LUP, p. 9-17.

POLICY WQ4: *RUNOFF AND DRAINAGE from development, forestry and agricultural activities shall be of a quality and quantity as near to natural conditions as possible. Post-development runoff shall not exceed pre-development volumes.* LUP, p. 9-17.

iii. Recreational and Open Space: The project will provide for sidewalks, greenways, and walking trails to encourage mobility by pedestrians and bicyclists. It also preserves a significant amount of open space and natural features throughout to promote recreation and preserve natural areas. This is consistent with the following Land Use Plan policies:

POLICY TR9: *BIKEWAY FACILITIES shall be encouraged as energy-efficient, healthful, and environmentally sound alternatives to the automobile. The inclusion of bikeways, sidewalks, trails, and other alternatives to the automobile shall be encouraged in both public and private developments.* LUP, p. 9-11.

POLICY PR4: *The County shall seek to identify, plan for and develop a system of OPEN SPACE GREENWAYS, HIKING and BIKING TRAILS as opportunities may allow. The use of (1) natural corridors such as streams and floodplains, and (2) man-made corridors such as utility and transportation rights-of-way and easements, shall be emphasized.* LUP, p. 9-14.

POLICY PR6: *All new residential development shall provide for ADEQUATE OPEN SPACE AND RECREATION IMPROVEMENTS including, as may be appropriate, funding in proportion to the demand created by the development. The amount of open space and improvements may be determined according to the number of dwelling units in the development and/or by a percentage of the total acreage in the development. Fees in lieu of land dedication shall be based on the inflation adjusted assessed value of the development or subdivision for property tax purposes. LUP, p. 9-14.*

iv. Transportation infrastructure: As set forth in the master plan, the project will provide for paved public roadways and drainage infrastructure, and will include convenient circulation within the proposed neighborhood. The project will seek to preserve existing buffering along NC 168 where feasible. The project will have direct access to and frontage on NC 168, and will not include access to higher intensity development through an area of lower intensity development. This is consistent with the following Land Use Plan policies:

POLICY TR12: *New residential developments shall provide for the installation of PAVED PUBLIC ROADWAY AND DRAINAGE INFRASTRUCTURE at the time of development. This policy is intended to prevent the creation of substandard developments that must later correct for infrastructure problems that could have been avoided, had they been installed properly from the beginning.... LUP, p. 9-11.*

POLICY CA1: *The important economic, tourism, and community image benefits of attractive, functional MAJOR HIGHWAY CORRIDORS through Currituck County shall be recognized. Such highway corridors, beginning with US 158 and NC 168, shall receive priority attention for improved appearance and development standards, including driveway access, landscaping, buffering, signage, lighting and tree preservation. LUP, p. 9-19.*

POLICY TR11: *ACCESS TO HIGHER INTENSITY DEVELOPMENT shall generally not be permitted through an area of lower intensity development. For example, access to a multi-family development, a major park facility or other large traffic generator shall not be permitted through a local street serving a single-family residential neighborhood. LUP, p. 9-11.*

POLICY TR8: *Local streets shall be designed and built to allow for convenient CIRCULATION WITHIN AND BETWEEN NEIGHBORHOODS and to encourage mobility by pedestrians and bicyclists. Care shall be taken to encourage local street "connectivity" without creating opportunities for cut-through traffic from outside the connected areas. LUP, p. 9-11.*

b. The proposed use is consistent with the following provisions of the Moyock Area Policy Emphasis of the Land Use Plan:

Moyock Area Policy Emphasis: *The policy emphasis of this plan is on properly managing the increased urban level of growth that this area is sure to experience over the next decade and beyond. Residential development densities should be medium to high depending upon available services. In areas where on-site wastewater is proposed and other County services are limited, development density should be limited to 1-2 units per acre. However in areas where central sewer is proposed or existing, additional services are available and the character of the surrounding areas supports it, higher density ranging from 3-4 units per acre could be considered through the use of overlay zones.*

Clustered housing developments, with open space required by ordinance, will need to be encouraged. If sewage treatment collection systems are built, whether publicly or privately, all such

systems should be designed so as to allow them to be tied together into a single system at some point in the future. LUP, p. 11-4.

The proposed use will include clustered housing accompanied by open spaces. The applicant is proposing to connect to a privately developed major sewer utility to avoid strain on County infrastructure, since private central sewer is existing in the area and available. Because the wastewater system will be a central sewer system, and the 2.1 units/acre is well below the 3-4 units per acre allowed where central sewer is available, the proposed use is consistent with the Moyock Area Policy Emphasis.

c. The proposed use is consistent with the Future Land Use Map.

The Currituck County Future Land Use Map designates the site as a Full Service area. In Full Service areas, residential density can be increased to 3-4 units per acre depending on the available services. A greater diversity in housing types is also appropriate in Full Service Areas. The proposed use will have 2.1 units per acre, which is below the contemplated development densities from Section 3.7.3 of the UDO for PD-R districts (up to three units per acre). The proposed use will also include diversity in housing types, including townhomes, cottage style single-family lots and traditional single family lots.

d. The proposed use is consistent with the following policies and action items of the Moyock Area Small Area Plan ("SAP"):

The proposed use will include open spaces, sidewalks, greenways, and walking trails to for recreational purposes, and a clubhouse for community gathering. The plan will provide for connections to the Flora Farm and to Moyock Farms, as appropriate. The applicant has studied the existing stormwater drainage issues and will ensure that the project improves these issues.

POLICY TR 2: *Ensure that development is designed with an interconnected, multi-modal transportation network between neighborhoods, activity centers, and other destinations to improve mobility and emergency access. Development of an interconnected road network east and west of Highway 168 that allows north-south movement for local residential traffic is strongly encouraged. SAP, p. 16.*

POLICY IS 1: *The costs of infrastructure, facilities, and services related to new growth and development should be borne primarily by those creating the demand. SAP, p. 17.*

POLICY IS 4: *Ensure that stormwater runoff, soil erosion, and sedimentation is properly managed to reduce nuisance flooding and pollution of sensitive environmental areas. SAP, p. 17.*

POLICY IS 5: *Encourage retrofitting of NCDOT drainage infrastructure to manage nuisance flooding. SAP, p. 18.*

ACTION IS 5A: *Coordinate with NCDOT to develop a plan of action for addressing ... Ranchland subdivision street flooding.... SAP, p. 18.*

POLICY R-1: *Expand and develop recreational opportunities for all ages and users including access to the water and natural environment, walking trails, multi-purpose fields, multi-purpose community building, and other non-traditional types of recreational opportunities that are consistent with the Currituck County Parks and Recreation Master Plan. SUP, p. 21.*

The use will not exceed the county's ability to provide adequate public facilities, including, but not limited to, schools, fire and rescue, law enforcement, and other county facilities.

The site has adequate access to NC 168 and will be adequately served by, police, fire, and emergency services. The applicant has completed a stormwater study and improvements plan to ensure that stormwater management will be enhanced not only for the development but also for the surrounding community. Sewer service will be provided off-site and will not burden the county's wastewater system. The Development will not exceed the County's ability to provide adequate public facilities with respect to schools because the site is entirely in the Shawboro Elementary school district. In 2020, school capacity in this district was already allocated to students generated by this development, and these students have been included in the County's committed capacity tool. At the time of the hearing on this matter, there will be actual capacity in this district, and the County is expected to have a program in place for expansion of other nearby schools in the district which will deliver additional capacity to the elementary and middle school in this area within 2 years of approval.

The Fost Tract - Phases 6-9

March 23, 2021

Scheduled Time/Place: 6:00PM at Eagle Creek Event Pavilion

The meeting began at 6:00PM/Meeting Ended: at approximately 6:40PM

Attendees: (See attached sign-in sheets)

Also: Jeannie Turner, Currituck County
Justin Old, Developer
Mark Bissell, Engineer

Comments from the Community	How Addressed
Will the project tie in to Guinea Mill canal and will it be part of the Guinea Mill tax district?	No, the property drains away from Guinea Mill to Rowland Creek and 168. It will not be included in the drainage district
Will there be a traffic light and can Ranchland connect to it to get out to 168 at a light?	There will be a traffic signal at the main entrance to Fost. The timing for its installation will be up to NCDOT based on traffic counts. The Moyock Farms community will connect to Fost and be able to utilize the light, but the Ranchland property that borders Moyock Farms is all privately owned and the key will be finding a way to get a road connected from Ranchland to Moyock Farms.
Concerning the new ditch along Ranchland: where will it stop? Will it turn at the end?	The ditch will run to the end of the development and stop without turning.
Will it connect to Guinea Mill?	There are developed lots in between Guinea Mill and this property and all drainage will be in the opposite direction (toward Rowland).
There is a pile of dirt bermed up adjacent to the new ditch. Will that impede the drainage?	That is a temporary stockpile during the construction of the ditch. Any berming will be done on the Fost side of the Ranchland ditch so that Ranchland can benefit from it as much as possible.
How is it designed and how do you know what direction it will drain?	It was engineered and placed on a positive grade to drain toward Rowland Creek.
How will wastewater be handled?	A pump station will pump wastewater from Fost to the Eagle Creek wastewater treatment

Attachment: 7 Community Meeting (PB 18-23 Fost, Phases 6-9, Preliminary Plat/Special Use Permit)

	plant where it will be treated. Some of the clean water will be disposed of at Eagle Creek and eventually some of it will be returned to the Fost Tract and disposed of on a site that has been set aside for the purpose.
Who owns the wastewater system?	A privately owned public utility company is in the process of acquiring the Eagle Creek facility, and will own and operate it.
How many lots will there be?	479 including townhomes.
Will there be fire hydrants? And who maintains the hydrants?	There will be fire hydrants and they will be maintained by the County water department.
I heard that no one is in charge of the water department at this point.	Will Rumsey is the utilities director in charge of both water and sewer for the county, and Dave Spence is the water distribution supervisor.
Will there be dry hydrants for when the hydrants run dry?	There will not be dry hydrants, but there will be fire hydrants located throughout the subdivision which should not run dry.
I understand that the BOC is amending the ordinance to keep new development from raising lot elevations.	We have not heard of any such proposal. The lot grades in Fost will be raised, but the berming and ditching is being provided to protect Ranchland and other adjacent properties.

Summary:

Four residents from Ranchland were in attendance along with the developer, a representative from Currituck County, and the Engineer. Several people stayed to talk informally and look at the development plan. The meeting was adjourned at approximately 6:40PM.

2021-5

STATE OF NORTH CAROLINA
COUNTY OF CURRITUCK

IN THE GENERAL COURT OF JUSTICE
SUPERIOR COURT DIVISION
21 CVS 78

STATE OF NORTH CAROLINA, *ex rel.*,
NORTH CAROLINA DEPARTMENT OF
ENVIRONMENTAL QUALITY,

Plaintiff,

v.

SANDLER UTILITIES AT MILL RUN,
LLC,

Defendant.

CONSENT JUDGMENT

FILED
2021 JUL -1 P 1:13
CURRITUCK CO., C.S.C.
BY JCT

Plaintiff, the State of North Carolina, by and through the North Carolina Department of Environmental Quality ("Plaintiff" or "DEQ"), and Defendant Sandler Utilities at Mill Run, LLC ("Defendant") hereby agree to the entry of this Consent Judgment in order to resolve the matters in controversy between Plaintiff and Defendant.

The Court makes, and Plaintiff and Defendant (collectively "the Parties") hereby stipulate to, the following findings of fact and conclusions of law:

FINDINGS OF FACT

1. Plaintiff is the sovereign State of North Carolina. This action was brought on the relation of the North Carolina Department of Environmental Quality ("DEQ"), the State agency established pursuant to N.C. Gen. Stat. § 143B-279.1 *et seq.*, and vested with the statutory authority to enforce the State's environmental pollution laws, including laws enacted to protect the water quality of the State. The Division of Water Resources ("DWR") is a division within DEQ and all actions taken by DWR are necessarily actions of the Plaintiff.

2. Defendant is a limited liability corporation formed in North Carolina with its principal office in Virginia and doing business in North Carolina. Defendant is the owner and operator of the wastewater collection system serving the Eagle Creek Subdivision, Eagle Creek Golf Club, and Moyock Middle School in Moyock, Currituck County, North Carolina ("Collection System").

3. The Eagle Creek Subdivision is a development in Moyock, Currituck County, North Carolina. The development includes approximately 420 single-family homes and is generally situated between Roland Creek Canal to the north and Guinea Mill Run Canal to the south. Stormwater swales run beside the roadways in the development and between homes. Those swales drain to the Roland Creek Canal to the north and Guinea Mill Run Canal to the south of the development.

4. On May 2, 2013, DWR issued non-discharge permit number WQCS00290 ("Permit") to Defendant for operation of the Collection System.

5. The Collection System consists of 4.8 miles of vacuum sewer and utilizes vacuum pumps to maintain a constant negative pressure within the sewer pipes. Domestic waste from individual homes connected to the system collects in containment vessels, commonly referred to as "pits," with each pit serving two homes. When the level of waste within the pit reaches a determined level, pneumatic pressure triggers the opening of a valve to the piping connected to the sewer line. The vacuum withdraws waste and wastewater from the pit into the sewer line. When the waste level within the pit drops, the valve connecting the pit to the sewer line is closed, allowing waste to again collect within the pit and maintaining the vacuum in the sewer line.

6. Wastewater from the Collection System is conveyed to the Sandler Utilities Wastewater Treatment Plant for treatment and disposal as authorized by a separate permit,

*Description
of vacuum
system*

WQ0014306.

7. A release of wastewater from a wastewater collection system such as Defendant's is referred to as a sanitary sewer overflow or "SSO."

8. Condition I.2 of the Permit requires that the Collection System "shall be effectively managed, maintained and operated at all times so that there is no SSO to land or surface waters, nor any contamination of groundwater." In the event of a system failure, the permittee is required to "take immediate corrective actions, including actions that may be required by [DWR] such as the construction of additional or replacement sewer lines and/or equipment."

9. Condition II.5 of the Permit provides that "for each pump station without pump reliability...at least one fully operational spare pump capable of pumping peak flow shall be maintained on hand."

10. Condition II.11 of the Permit provides that, if an SSO occurs, Defendant "shall restore the system operation, remove visible solids and paper, sanitize any ground area and restore the surroundings."

11. Condition IV.2 of the Permit provides that SSOs of over 1,000 gallons and any SSO that reaches surface waters, must be verbally reported to DWR as soon as possible, but no later than "24 hours following the occurrence or first knowledge of the occurrence."

12. On September 29, 2020, DWR's Washington Regional Office began receiving complaints from Eagle Creek residents indicating that the Collection System was not operating properly at homes throughout Eagle Creek.

13. On September 30, 2020, DWR inspectors Sarah Toppen and Victoria Herdt from the Washington Regional Office conducted a site inspection to investigate the complaints. DWR's investigation confirmed that the system had not been operating properly since September 27, 2020

due to failure of one of the two vacuum pumps. The vacuum pump failure caused SSOs that drained into stormwater swales in front of and between homes.

14. Upon learning of the incident, Defendant called in technical support from Airvac, the initial pump supplier, to assist in bringing the Collection System back on line. Due to insufficient replacement parts available on site, Defendant purchased replacement parts for the vacuum pumps and mechanical equipment located in the pits to address the reported issues.

15. Defendant provided cleanup and lime application at any location showing evidence of overflow and in all roadside ditches around October 9, 2021. Performance issues in the Collection System were resolved by October 11, 2020.

16. On October 26, 2020, the Washington Regional Office again began receiving complaints indicating that the Collection System was experiencing further performance issues resulting in SSOs.

17. On October 27, 2020, Ms. Toppen and another DWR inspector, Allen Stewart, conducted a site inspection to investigate the complaints and learned that a high water alarm within the Collection System had failed, causing the water to overflow and flood both of the system's vacuum pumps, taking them offline. The vacuum pumps' failure resulted in SSOs, and a water sample from the stormwater swale at 125 Eagleton Circle contained fecal coliform (bacteria from fecal matter) that were too numerous to count.

18. In response to this incident, Defendant requested assistance from technicians from Airvac and FloVac (another vacuum system supplier), and the vacuum pumps were restored and fully operational by October 29, 2020. Among other equipment and parts, Defendant ordered new parts for the malfunctioning high water alarm, which were installed on November 5, 2020.

19. On November 13, 2020, the Washington Regional Office began receiving new

complaints stating that, beginning on or around November 11, 2020, the Collection System was not operating properly causing SSOs.

20. On November 14, 2020, David May, DWR Regional Supervisor for the Washington Regional Office, conducted a site visit to investigate the complaints. DWR's investigation confirmed the Collection System was experiencing performance issues resulting in SSOs. A substantial number of houses and customers remained without functional sewer service through at least November 16, 2020.

21. Complaints to the Washington Regional Office recommenced on November 20, 2020. Residents indicated that the Collection System was not functioning properly, that residents were once again without sewer service due to vacuum leaks disrupting operation of the Collection System, and that some pits were overflowing. A number of houses remained without functional sewer service or sporadic sewer service through about November 25, 2020.

22. On December 16, 2020, the Washington Regional Office once again received complaints from Eagle Creek residents regarding disruption of sewer service and SSOs. DWR's investigation suggested that the problem was limited to one section of the Eagle Creek development due to a disconnected line in a pit and sustained rainfall. Residences affected by the disconnected line remained without functional sewer service or sporadic sewer service through approximately December 18, 2020.

23. Additional complaints to the Washington Regional Office were received on January 26, 2021, with residents complaining that they lacked sewer service and describing other performance issues including SSOs.

24. Defendant has been subject to various enforcement actions by the DWR related to the Permit as a result of the incidents described above.

25. On October 7, 2020, DWR issued a Notice of Violation and Notice of Intent to Enforce ("First NOV") to Defendant pertaining to SSOs and system failures occurring from September 27, 2020 and ongoing as of the date the NOV was issued. The First NOV alleged the following violations:

- a. Violation of Permit Condition I.2 for failure to effectively manage, maintain and operate the Collection System at all times so there are no SSOs to land or surface waters;
- b. Violation of Permit Condition II.11 for failure to restore the system operation, remove visible solids and paper, sanitize any ground area and restore surroundings after an SSO;
- c. Violation of Permit Condition IV.2 for failure to properly report SSOs.

26. In a letter dated October 27, 2020, Defendant responded to the First NOV. Defendant stated that replacement parts for the failed vacuum pumps were not readily available, causing a delay in fixing the Collection System. Once the vacuum pump was replaced, Defendant noted that two sewage pumps malfunctioned, forcing the entire system offline again for cleaning. Defendant acknowledged that its operator's personnel resources were stretched during the event limiting the ability to address the Collection System problems in a timely manner and that additional support from a vacuum sewer specialist was called in. Defendant stated that cleanup of any discharges was performed and the System was ultimately repaired.

27. DWR assessed a civil penalty of \$62,517.96 against Defendant arising out of the allegations in the First NOV on December 10, 2020 ("Civil Penalty") for fifteen violations of Permit Condition I.2 between September 27, 2020 and October 11, 2020.

28. On November 23, 2020, DWR issued a Second Notice of Violation and Notice of

Intent to Enforce (“Second NOV”) to Defendant pertaining to SSOs and system failures occurring during the period from October 26, 2020 through November 5, 2020. In addition to alleging violations of Permit Conditions I.2, II.11 and IV.2, the Second NOV alleged violations of Permit Condition II.5¹ for failure to maintain operational replacement pumps for stations without pump reliability and N.C. Gen. Stat. § 143-215.1(a)(1) for making an outlet into waters of the State without a permit.

29. In a letter dated December 15, 2020, Defendant responded to the Second NOV. Defendant stated that a “very large investment has been made into new equipment and parts” and that new equipment and parts were ordered. Defendant also stated that spills were addressed with lime application and solid waste overflow was physically removed. In response to the incident, Defendant installed a new vacuum pump and motor, acquired a spare vacuum pump and motor, purchased a new sewer pump, and replaced multiple controllers and valves within individual pits. Defendant further replaced parts needed to ensure functionality of the high-level alarm (which was the precipitating cause of this incident) to alleviate water intake into the vacuum sewer pumps causing failure.

30. On December 16, 2020, DWR issued a Third Notice of Violation and Notice of Intent to Enforce (“Third NOV”) to Defendant pertaining to SSOs and system failures occurring during the period from November 11, 2020 through November 16, 2020. The Third NOV alleged violations of Conditions I.2, II.11, and IV.2 as well as N.C. Gen. Stat. § 143-215.1(a)(1).

31. On January 14, 2021, DWR issued a Fourth Notice of Violation and Notice of Intent to Enforce (“Fourth NOV”) to Defendant pertaining to SSOs and system failures occurring during the period from November 20 through November 25, 2020. The Fourth NOV alleged violations

¹ A typographical error in the Second NOV identifies a violation of Permit Condition II.6, not II.5. The narrative description of the violation refers to Permit Condition II.5, however.

of Conditions I.2, II.11, and IV.2 as well as N.C. Gen. Stat. § 143-215.1(a)(1).

32. DEQ filed the instant action on March 4, 2021, seeking injunctive relief for existing or threatened violations of various laws and rules governing the protection of water quality pursuant to N.C. Gen. Stat. § 143-215.6C.

33. The Parties have reached a mutually agreeable and reasonable resolution of the injunctive relief sought by DEQ through this suit which they seek to memorialize in this Consent Judgment.

34. The Court has reviewed the pleadings and supporting materials in this matter. Counsel for the Parties have represented to the Court that their respective clients have reviewed and approved the substance of the proposed Consent Judgment and that the Parties supported a request that this Court approve a Consent Judgment embodying their agreement.

CONCLUSIONS OF LAW

1. This matter is properly before this Court, which has jurisdiction over the Parties and subject matter of this action pursuant to N.C. Gen. Stat. § 143-215.6C and other provisions of law.

2. Venue is proper pursuant to under N.C. Gen. Stat. §§ 1-79 and 143-215.6C.

3. Defendant is subject to non-discharge collection system permit number WQCS00290. Pursuant to that permit, as well as North Carolina laws and regulations, Defendant is expressly prohibited from discharging collected sewage and wastewater to land and waters of the State. *See* 15A NCAC subchapter 2T (“Waste Not Discharged to Surface Waters”); N.C. Gen. Stat. § 143-215.1(a)(1) (disallowing any person from making “any outlets into waters of the State” without receiving a permit to do so).

4. Whenever DEQ has reasonable cause to believe that any person has violated or is

threatening to violate any of the provisions of the State's environmental laws or administrative rules, including State water quality laws and rules, DEQ is authorized to "request the Attorney General to institute a civil action in the name of the State upon the relation of [DEQ] for injunctive relief to restrain the violation or threatened violation." N.C. Gen. Stat. § 143-215.6C. That section further provides that "[u]pon a determination by the court that the alleged violation of the provisions of this Part or the regulations of the Commission has occurred or is threatened, the court shall grant the relief necessary to prevent or abate the violation or threatened violation." N.C. Gen. Stat. § 143-215.6C.

5. As of the date of entry of this Consent Judgment, Defendant has repeatedly violated the conditions of its Permit and North Carolina's water quality laws, including, but not limited to, failing to properly manage, maintain and operate the Collection System to prevent SSOs, failing to maintain replacement equipment to prevent SSOs, and failure to restore consistent service to Eagle Creek residents.

6. The current state of the Collection System presents an ongoing threat that the Eagle Creek Development will continue to experience performance issues and SSOs into nearby surface water in violation of the Collection System Permit, and in violation of N.C. Gen. Stat. § 143-215.1(a)(1).

7. The State is entitled to permanent injunctive relief against Defendant to abate the repeated previous violations and prevent the threatened violations set forth in the Complaint pursuant to N.C. Gen. Stat. § 143-215.6C.

8. Based on the Court's review of the pleadings and materials submitted, the Court has concluded that the relief reflected in the Consent Judgment represents a lawful, fair, and reasonable resolution of this matter, consistent with the purposes of N.C. Gen. Stat. § 143-215.1,

and this Court further concludes that it is fully authorized and justified in entering this Consent Judgment.

9. The Parties expressly waive any argument that the recitation of the above Findings of Fact and Conclusions of Law is insufficient to support the injunctive relief ordered below.

Based upon the foregoing Findings of Fact and Conclusions of Law, **IT IS THEREFORE ORDERED, ADJUDGED, AND DECREED** as follows:

Defendant is ordered to do the following:

1. Fully comply with all terms and conditions of the Permit and State water quality laws, including by maintaining the Collection System in a manner that prevents the discharge of waste onto to land or into surface waters;
2. Report to a DWR staff member as soon as possible but in no case more than 24 hours following knowledge of the occurrence of any material equipment failure, any material system failure, and any SSO regardless of volume and file a written report within five days outlining actions taken or proposed to address the equipment failure, system failure, and SSO and prevent recurrence. An equipment or system failure shall be considered material if there is any SSO associated with the failure or the failure affects four or more residences in the Eagle Creek Development. The reports referenced in this subparagraph shall be submitted to the following email address:

David May, DWR
david.may@ncdenr.gov

3. Within 30 calendar days of entry of this Consent Judgment:
 - a. Secure all pits to ensure only Defendant and its operators have pit access;

- b. Submit to DWR for approval (which may include conditions) a plan for Defendant's operators to receive any necessary training in operating and maintaining the Collection System, including specialized training in vacuum system operation, or provide documentation that such training has been received ("Operator Training Plan");
 - c. Submit to DWR for review and approval (which may include conditions) a plan to prevent future SSOs, restore and sanitize areas impacted by prior SSOs, and expeditiously restore and maintain service to homeowners in the event of any system failures pending an engineering evaluation of the Collection System ("Interim Service and Restoration Plan");
 - d. Provide to DWR a complete engineering evaluation detailing actions necessary to prevent future SSOs and system failures, including but not limited to necessary upgrades to the design and physical infrastructure of the Collection System ("Engineering Evaluation").
4. Within 60 calendar days of entry of this Consent Judgment:
- a. Submit to DWR for review and approval (which may include conditions) a plan with actions to be taken to address necessary and proposed upgrades included in the Engineering Evaluation ("System Upgrade Plan"). The System Upgrade Plan must include a proposed schedule with dates by which each activity will be completed and, as appropriate, the frequency with which those activities will be repeated.
5. If DWR requires plan revisions in order for any of the plans listed above to be approved, Defendant shall resubmit the plan incorporating said revisions within 15 days of written

notification by DWR that such revisions are required. DWR's discretion to require plan revisions shall be limited to revisions necessary to ensure compliance with North Carolina's water quality laws and regulations including provisions applicable to wastewater collection systems.

6. Once each submission is approved (the Operator Training Plan, the Interim Service and Restoration Plan, and the System Upgrade Plan) including any conditions added by DWR to each, Defendant shall execute each plan in accordance with the dates included therein.
7. Once the work set forth in the approved System Upgrade Plan, including any conditions added by DWR, is completed, Defendant shall submit a final report documenting the results of the activities set forth in each respective plan. The final report shall include a certification from a licensed professional engineer.
8. Unless otherwise indicated, Defendant shall submit all plans and reports referenced above to:

David May, DWR
david.may@ncdenr.gov
9. It is further ordered that this Consent Judgment shall take effect immediately and shall remain in effect until the Permittee can adequately demonstrate that the collection system can operate in a reliable manner and maintain compliance with North Carolina water quality laws and regulations on a consistent basis. The Defendant may request termination of this Consent Judgment by the Court at no time sooner than one year following submittal of the final report described in Paragraph 7 above and subsequent approval by DWR. The Parties shall comply with all terms of this Consent Judgment.
10. This Consent Judgment shall be binding upon Defendant's successors and assigns.

Defendant shall not transfer any of the assets that are the subject of the Complaint, including the Permit or the Collection System, unless and until Defendant moves to join the transferee as a defendant in this case such that this Consent Judgment shall be binding upon the transferee and the Court issues an order granting such motion. DEQ agrees that it will not oppose dismissal of Defendant in the event the assets that are the subject of the Complaint have been transferred and the transferee has been added as a defendant in this case and is bound by this Consent Judgment. Nothing in this Consent Judgment relieves Defendant of its duty to abide by the terms of the Permit and State water quality law. DEQ retains its authority, in accordance with applicable law, to initiate any and all enforcement actions that would otherwise be available to it in the absence of this Consent Judgment.

11. The Court shall retain continuing jurisdiction in this case to enforce the terms and conditions of this Consent Order, to modify this Consent Order, and to resolve disputes arising under this Consent Order until all parties have complied with all provisions of this Consent Judgment.
12. The contempt provisions of Article 2, Chapter 5A of North Carolina General Statutes shall be available to enforce this Consent Judgment.
13. This Consent Judgment may be signed out-of-court, out-of-term, out-of-county, and may be signed in multiple counterpart originals, all of which, taken together, shall be considered one and the same document. Facsimile or scanned signatures will be sufficient to render this Consent Judgment effective. Original signatures will be substituted at a later date.
14. Each undersigned representative of a party to this Consent Judgment certifies that the

representative is authorized to enter into the terms and conditions of this Consent Judgment, and to execute and legally bind such party to this Consent Judgment.

This the 23rd day of JUNE, 2021.

Superior Court Judge
Currituck County

SANDLER UTILITIES AT MILL RUN, LLC

April 1, 2021

Mr. William Grantmyre
Staff Attorney
North Carolina Public Staff Utilities Commission
4326 Mail Service Center
Raleigh, NC 27699-4300

Re: Docket No. W-1130, Sub 8
Eagle Creek Subdivision

Dear Mr. Grantmyre:

Sandler Utilities at Mill Run, LLC ("Sandler Utilities") sincerely regrets the recent wastewater system backups into the homes of customers caused by controller and valve failures due to water intrusion into the valve pit packages of the Eagle Creek Vacuum System ("Vacuum System"). As discussed in our January 22, 2021 letter, Sandler Utilities performed substantial capital improvements to the Vacuum System since the Commission's Recommended Order Granting Rate Increase, Requiring Refund, and Customer Notice was issued on December 11, 2015. As discussed in detail on our January 22, 2012 letter, more recently, Sandler Utilities (i) retained the services of FloVac to provide expert recommendations about how to address and correct the problems with the Vacuum System; (ii) enlisted FloVac's assistance in training the operator of the system, Envirolink, Inc. ("Envirolink"), as to how to prevent water ingestion in the system; (iii) installed 120 new controllers from October 12, 2020 through November 23, 2020 that are capable of processing small amounts of water and being submerged up to five feet with no impact to performance; (iv) performed proper installation of in-sump breather hoses on several valve pits; and (v) installed one new valve pit in December 2020. Also, Sandler Utilities has requested recommendations from FloVac about whether to install a monitoring system at each valve pit so that the operator of the system can timely respond to any issues with the system.

In addition to those actions and capital improvements, Sandler has performed, or will be performing, further remedial actions and improvements to the system to reduce rainwater intrusion and minimize flooding of the valve pits. Below is a list of the actions items and completion date for the additional improvements to reduce rainwater intrusion and minimize flooding of the valve pits.

Action Item	Recommended Response	Completion Schedule for Remedial Action
<u>Rainwater intrusion.</u> Reduce rainwater intrusion and minimize flooding in valve pits. Most rainwater intrusion is believed to be caused by I&I from the homeowners' laterals causing vacuum systems to struggle with inundation during heavy rain.	Install a monitoring system to detect in real time issues, such as missing clean out caps that the homeowners may have removed to relieve wastewater system back-ups. It will also alleviate time spent searching for leaks in the system, and response time is critical to keep problems from escalating.	FloVac has submitted proposals for the monitoring system to both Sandler Utilities and Envirolink, the potential purchaser of the Vacuum System. Sandler Utilities and Envirolink are reviewing FloVac's proposal, and determining the most effective method of addressing the problems with the system.

April 1, 2021
Page 2

<u>Continuous operation of vacuum pump.</u> The vacuum pump frequently operates continuously during periods of high water levels within the vacuum holding tank, and the continuous operation of the vacuum pump creates the potential for motor failure.	Repair high-level lock-out valve.	This repair was completed in December 2020.
<u>System monitoring.</u> Appropriate and effective system monitoring during off-hours has been accomplished.	Sandler Utilities is committed to ensuring that Envirolink is appropriately staffed so that any required service to the system will be performed timely. Sandler Utilities has instructed Envirolink to have a 24/7 presence at the plant. Envirolink's 24/7 presence at the plant will address previous issues of response time, such as when issues occurred during weekends when Envirolink was not physically on-site.	At the instruction of Sandler Utilities, effective on 3/19/2021, Envirolink has a physical presence at the site for 7-day, 20-hour shifts. Also, Envirolink will have at least two technicians on call during the remaining 4 hours of the day in which the plant is not physically staffed by an operator. During projected wet weather events, Sandler Utilities will be proactive and request that Envirolink ensure that 24-7 physical coverage is maintained until the wet weather event has subsided.
<u>Outsource controllers.</u> Outsource controllers and valves to be rebuilt so fully functional ones are available when needed.	37 controllers that had been waiting for technician repair were delivered to FloVac for repair and rebuilding by their expert technicians. FloVac repaired the controllers and delivered them to the Eagle Creek plant.	The repairs to the controllers were completed in December 2021. In the event that Envirolink has a back-log for repair of the controllers in the future, Sandler Utilities has informed Envirolink to deliver the controllers to FloVac for repair.
<u>Controller failure.</u> Controller failure from water ingestion was the result of new controllers being properly fitted to the valves within the collection network.	Envirolink technicians were trained about the proper procedure for removing water from the valve upper before fitting a new controller to prevent water ingestion.	FloVac provided training to Envirolink during the week beginning November 20, 2020.
<u>Operator's technical experience.</u>	Envirolink has been gaining experience and expertise in operating a vacuum wastewater system since the EnviroTech team who had previously operated the system left in	In November 2002, Sandler Utilities hired a former EnviroTech employee with experience in operating vacuum systems. This former EnviroTech employee is leading operations at the facility, and he has been

April 1, 2021
Page 3

	September 2020. Training in vacuum systems for all technicians who work at or will potentially work at this plant is critical.	instrumental in leading his team to detect and address potential issues. Also, Sandler Utilities has requested that Envirolink continue a training regimen with its operators to ensure that the operators will be proficient with the vacuum system. Mike Myers with Envirolink has that training has occurred and that additional training by a technician who leads training efforts with both AirVac and FloVac will be scheduled.
<u>Extended outages.</u> A delay in receipt of the initial vacuum pump replacement caused an extended outage that resulted serious problems to the system. The ongoing disassembly and reassembly of the valve pit by pump truck operators to clear the pits left the valve pits vulnerable to failures.	Once the system was stabilized, technicians analyzed each valve pit, and tested, repaired, reconnected, and replaced items as necessary. During this analysis, a technician discovered that a valve pit had collapsed. Therefore, a new valve pit was ordered and installed to replace the failed valve pit.	The analysis of each valve pit was conducted and completed during December 2020. As a result of the analysis, most of the valve pits that had sustained damage during the September and October outages were repaired. For example, each valve was fired multiple times by hand and then analyzed for hose orientation and correct hose connection and timing.
<u>Problem identification.</u> Identify problems early that cannot be readily observed.	Envirolink operators are required to record daily run times during their daily station "walk-through."	An example of a log and recording document was provided to Envirolink in November 2020 to use as an example. This document is now utilized as part of Envirolink's daily protocol.
<u>Pump station alarm.</u> The excessive pump run alarm is the most effective warning to keep the system from collapsing and causing a complete failure. Therefore, the pump alarm must be operating properly at all times.	Envirolink is required to check the pump alarm on a weekly basis, and check the control panel and sensors associated with all alarm systems at the plant on a weekly basis.	Since January 2021, Envirolink has been inspecting these systems to make sure they are operating properly. By the end of 2021, Sandler Utilities plans to provide and overhaul the control panel.
<u>Couplings wearing prematurely to the motor of the sewer pumps.</u>	Alignment of the motor on the pumps has been checked.	Pearson pumps completed this work during their repair and replacement efforts in November 2020.
<u>Nonoperational check valves on the vacuum main.</u>	Replace or repair as needed.	Valves are exercised weekly and are all currently in working order.

Page 4

<u>Inadequate stock levels.</u>	Ensure multiple spare parts are available at all times.	From October 2020 through January 2021, numerous controllers, valves, pumps, motors, and valve pits have been ordered and kept on-site for Envirolink to use when needed.
<u>Excessive activations caused by inflow and infiltration from the homeowners' gravity laterals.</u>	Install a monitoring system to identify locations of excessive activations.	In December 2020, FloVac submitted proposals for a monitoring system to Sandler Utilities and Envirolink. Sandler Utilities and Envirolink are considering the proposals.
<u>The length of time it takes Envirolink to identify the location of a valve that is stuck open.</u>	Install a monitoring system to eliminate the need for this search.	In December 2020, FloVac submitted proposals for a monitoring system to Sandler Utilities and Envirolink. Sandler Utilities and Envirolink are considering the proposals.
<u>Short cycling of sewage pumps likely caused by debris in the vacuum collection tanks.</u>	Clean and inspect the collection tank thoroughly.	The vacuum tank was cleaned and thoroughly inspected in October 2020.

Sandler Utilities is committed to ensuring that the wastewater system for the Eagle Creek Subdivision is both safe and reliable. We are continuing our efforts to ensuring that the problems with the Vacuum System are satisfactorily addressed.

If you have any question about our plan to address the problems with the system, please let me know.

Sincerely,

Brittney M. Willis – Project Manager

Re: Fost PD-R, Phases 6-9, Moyock North Carolina
Sanitary Sewer Utility, Willingness to Serve

To Whom it May Concern,

Currituck Water & Sewer (CWS) is currently working through the regulatory approvals to allow to acquire the Eagle Creek Wastewater Treatment Facility serving the Eagle Creek community. CWS intends to provide wastewater services to surrounding developments as approved by the County. We understand the project to include 139 residential dwelling units, 39 Town homes and approximately 22,000 square feet of commercial for an estimated 45,000 gpd of sewer flow. The Eagle Creek WWTP has capacity and is able to adequately treat wastewater from this project.

Upon approval by Currituck County, Currituck Water and Sewer, LLC intends to provide sanitary sewer utility services to the 479 residential dwelling units known as the Fost Project.

Should you have any questions, please do not hesitate to contact me directly at (252) 235-4900 or by email at mmyers@envirolinkinc.com.

Thank you for your attention to this matter.

Sincerely,
Currituck Water and Sewer, LLC

Re: Flora Farm Phases 1-5
 Sanitary Sewer Utility, Willingness to Serve

To Whom it may Concern,

Currituck Water & Sewer (CWS) is currently working through the regulatory approvals to acquire Eagle Creek Wastewater Treatment Facility serving the Eagle Creek community. CWS intends to provide wastewater service to the Fost Development. We understand the project to include 277 residential dwelling units and approximately 7,500 square feet of commercial for an estimated 62,847 gpd.

Eagle Creek WWTP has a NC DEQ approved 321,000 gpd of permitted capacity with actual plant capacity of 175,000 gpd and annual average flow of 53,917 gpd. In accordance with NC DEQ regulation, CWS will expand the capacity from 175,000 gpd on or before the annual average flow exceeds 157,500 gpd.

The following summarizes the capacity commitments for the Eagle Creek Wastewater Treatment System.

Description	Allocation	Remaining Permitted Capacity	Plant Capacity
Permitted Capacity		321,000 gpd	175,000 gpd
Eagle Creek Community	53,917 gpd	267,083 gpd	121,083 gpd
Golf Club	1,462 gpd	265,621 gpd	119,621 gpd
Moyock Middle School	3,546.91 gpd	262,074 gpd	116,047 gpd
Fost, phase 1-5	63,511 gpd	198,563 gpd	52,563 gpd
Fost, phase 6-9	37,758 gpd	160,805 gpd	14,805 gpd
Additional 175,000 gpd capacity			189,805 gpd
Flora	62,847 gpd	97,958 gpd	316,763 gpd
Total	223,042 gpd		

Prior to submitting for an NC DEQ collection system permit, CWS anticipates completion of the expansion from 175,000 gpd to 350,000 gpd.

As such upon approval by Currituck County, Currituck Water & Sewer, LLC intends to provide sanitary sewer service to Fost phases 6-9 and Flora.

Should you have any questions, please do not hesitate to contact me directly at 252-235-4900 or email at mmyers@envirolinkinc.com

Sincerely

Michael Myers

SANDLER UTILITIES AT MILL RUN, LLC

Michael Myers

Currituck Water & Sewer, LLC

4700 Homewood Ct., Suite 108

Raleigh, NC 27609

Re: Acceptance of Additional Flow, Fost Tract

Dear Mr. Myers,

Sandler Utilities at Mill Run, LLC ("Sandler Utilities") provides this written confirmation that the wastewater agreement permits the acceptance of the flow from the Fost project.

The current capacity of our plant is 175,000 gpd with permitted disposal capacity of 350,000 gpd. Our actual average inflow is 52,695 gpd, leaving remaining capacity of 122,305 gpd prior to expansion of the facility. As such, we have the ability to accept 104,805 gpd of flow prior to expansion to 350,000 gpd. The Fost Tract is only expected to generate 57,480 gpd of flow.

As you are aware, Sandler Utility and Currituck Water & Sewer are in the process of transferring the Eagle Creek wastewater system, so responsibility for expansion will be on Currituck Water & Sewer.

Sincerely,

Brittney M. Willis – Project Manager
Sandler Utilities at Mill Run, LLC

Conceptual Drainage Plan Narrative

The Fost Tract PD-R – Permitting Phases 6-9

Planned Residential Development

Moyock

Currituck County Submittal

March 22, 2021

General

The Fost Tract PD-R project is a proposed Residential Development to be located on a (+/-) 225.35 acre parcel located on the west side of NC 168 to the southwest of the intersection of Survey Road and NC 168 in Moyock, NC. The development is segregated into North and South "Project Areas" by Rowland Creek, which flows in an west-east direction and bisects the property. Additionally, the survey road ditch to the north and a NC 168 culvert located at the northeast corner of the Ranchland Subdivision to the south serve as interconnected outfalls.

The North Project Area contains the densest development within the project and, accordingly, an NCDEQ High Density Stormwater Permit is being pursued for the North Project Area.

The South Project Area contains lower density single family residential development and accordingly, an NCDEQ Low Density Stormwater Permit is being pursued for the South Project Area.

To meet Currituck County's peak flow mitigation requirements, a stormwater management system consisting of multiple interconnected wet ponds and multiple outlet control structures draining to the multiple existing outfalls has been designed which will mitigate post-construction peak flows from the developed area.

Summary of Existing Conditions

The project site consists of a 225.35 acre parcel located on the west side of NC 168 to the southwest of the intersection of Survey Road and NC 168 in Moyock, NC. Before construction started, the North Project Area consisted of farm fields planted in row crops and the South Project Area consisted primarily of woods. A series of ditches drained the farm field to the Survey Road Ditch to the north and to the Rowland Creek Canal to the south. And a single ditch on the east side of the South Project Area drains the Project as well as a significant portion of the Ranchland Subdivision. This ditch will be referred to as the Ranchland Ditch from this point forward. There is an interconnected ditch that flows from the Ranchland Ditch to an outfall culvert located at the northeast corner of the Ranchland Subdivision – from this point forward, this culvert will be referred to as the "Ranchland Outfall Culvert." Therefore, the three outfalls that drain this project site are the Survey Road Ditch, Rowland Creek, and the Ranchland Outfall Culvert.

Development of the project has started under a phased development approach. The bulk of the proposed development within the North Project Area is currently underway whereas the South Project Area remains largely undeveloped, except for the installation of a trailer Parking Area and wastewater infrastructure.

Improvements to Existing Common Drainage Features

At the request of Currituck County, improvements are being made to Rowland Creek and to the Ranchland Ditch in order to improve drainage conveyance for off-site, upstream properties. These drainage improvements are included in the phase of construction currently underway.

Summary of Proposed Conditions – Phases 6-9

Phases 6-9 represent ultimate build-out of the proposed Master Plan, consisting of the installation of townhomes within the North Project Area and Single Family Residential Lots within the South Project Area. These phases will install drainage infrastructure in the North Project Area adequate to drain the proposed townhome sections to the Pond Infrastructure installed with earlier phases. Within the south project area, an additional series of wet ponds and drainage infrastructure will be installed to mitigate peak flows from the proposed residential subdivision.

For each outfall, post-construction runoff resulting from a 10-yr, 24 hr storm event will be retained and released at a peak flow rate which does not exceed the 2-yr, 24 hr peak runoff rate for the site in a theoretical wooded pre-development condition. Post-construction runoff resulting from a 100-yr, 24 hr storm event will be retained and released at a peak flow rate which does not exceed the actual calculated pre-construction 100-yr, 24 hr peak runoff rate for the site.

Stormwater Collection, Treatment, Storage and Disposal

The topography of the drainage area, existence of low permeability soils, clearance to groundwater, and peak flow mitigation requirement indicate that wet ponds would be the preferable BMP to specify for this site. Runoff will be collected and treated in multiple wet ponds, with control structures located at the connection of the system with the existing outfalls.

Collection

The stormwater runoff will be collected and directed to the wet ponds via a combination of site grading, curb & gutter, storm piping, and conveyance swales.

Treatment

The proposed system will offer several methods of stormwater runoff treatment prior to release. The majority of runoff from developed areas will flow overland to the collection system, providing initial filtration and opportunities for infiltration. The collection system is designed such that runoff is conveyed through vegetated swales either upstream or downstream of piped conveyances, providing treatment of runoff within the swales. The large pond system provides an additional treatment opportunity which is not typical of low-density designs. The primary purpose of the pond system is peak flow mitigation, but considerable water quality treatment will occur within the pond system prior to any runoff being allowed to leave the site.

Storage

Currituck County's Stormwater Ordinance requires that the runoff rate from the 10-yr, 24-hr storm in the post-construction condition not exceed the runoff rate from the 2-yr, 24-hr storm in the pre-construction, theoretical fully wooded condition.

Disposal

A small amount of the runoff will be infiltrated or be disposed of via infiltration and evapotranspiration. The primary source of disposal, however, will be via discharge to the four outfalls via the Outlet Control Structures.

Soils

Information collected on site indicates that the soils found throughout this site are composed primarily of sandy loam. These soil types will have slow permeability. These findings generally correlate with the description mapped and discussed in the United States Department of Agriculture, Soil Conservation Service, Soil Survey of Currituck County, North Carolina, which map the soil for this site as follows:

RoA – Roanoke silt loam, Permeability is very low to moderately high
Ca – Cape Fear loam, Permeability is moderately low to moderately high
Ws – Wada muck, Permeability is low

A soils report has been included in the appendix of this narrative. Water levels in the proposed Wet Ponds will be regulated via the weir structures.

Conclusions

The proposed stormwater management plan for this site will be designed to handle the difference in runoff between the pre-development 2-yr, 24hr and the post-development 10-yr, 24 hr storm events, as prescribed in the Currituck County Stormwater Management Ordinance. Additionally, the design mitigates peak flows from the 100-yr, 24 hr storm events and provides treatment of the NCDEQ required water quality volume. This proposed system will be designed to more than adequately serve the stormwater management requirements of this site.

NOTIFICATION OF JURISDICTIONAL DETERMINATION

Property Owner/Applicant: **Sandra D. Fost**
Address: **121 Soundshore Drive**
Currituck, North Carolina 27929
Telephone Number: **252-232-3005**

Size (acres) 228.8 acres
Nearest Waterway Roland Creek
USGS HUC 03010205

Nearest Town Snowden
River Basin Albemarle-Chowan
Coordinates Latitude: 36.491912 N
Longitude: -76.150370 W

Location description: Property is an approximate 228.8-acre tract located off US Highway 168 and Survey Road, adjacent to Roland Creek and the Northwest River, near Snowden, in Currituck County, North Carolina. The project area consists of an approximate 102-acre wooded area immediately adjacent to the existing agricultural fields on the property. Currituck County PARID: 001500000860000. TAXID: 130052. NC PIN 8031-80-3559.

Indicate Which of the Following Apply:

A. Preliminary Determination

- AMF* ☒ There are waters, including wetlands, on the above described property that may be subject to Section 404 of the Clean Water Act (CWA)(33 USC § 1344) and/or Section 10 of the Rivers and Harbors Act (RHA) (33 USC § 403). The waters, including wetlands, have been delineated, and the delineation has been verified by the Corps to be sufficiently accurate and reliable. Therefore this preliminary jurisdiction determination may be used in the permit evaluation process, including determining compensatory mitigation. For purposes of computation of impacts, compensatory mitigation requirements, and other resource protection measures, a permit decision made on the basis of a preliminary JD will treat all waters and wetlands that would be affected in any way by the permitted activity on the site as if they are jurisdictional waters of the U.S. This preliminary determination is not an appealable action under the Regulatory Program Administrative Appeal Process (Reference 33 CFR Part 331). However, you may request an approved JD, which is an appealable action, by contacting the Corps district for further instruction.
- ☐ There are wetlands on the above described property, that may be subject to Section 404 of the Clean Water Act (CWA)(33 USC § 1344) and/or Section 10 of the Rivers and Harbors Act (RHA) (33 USC § 403). However, since the waters, including wetlands, have not been properly delineated, this preliminary jurisdiction determination may not be used in the permit evaluation process. Without a verified wetland delineation, this preliminary determination is merely an effective presumption of CWA/RHA jurisdiction over all of the waters, including wetlands, at the project area, which is not sufficiently accurate and reliable to support an enforceable permit decision. We recommend that you have the waters of the U.S. on your property delineated. As the Corps may not be able to accomplish this wetland delineation in a timely manner, you may wish to obtain a consultant to conduct a delineation that can be verified by the Corps.

B. Approved Determination

- ☐ There are Navigable Waters of the United States within the above described property subject to the permit requirements of Section 10 of the Rivers and Harbors Act (RHA) (33 USC § 403) and Section 404 of the Clean Water Act (CWA)(33 USC § 1344). Unless there is a change in law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

There are waters of the U.S., including wetlands, on the above described property subject to the permit requirements of Section 404 of the Clean Water Act (CWA) (33 USC § 1344). Unless there is a change in the law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

☐ We recommend you have the waters of the U.S. on your property delineated. As the Corps may not be able to accomplish this wetland delineation in a timely manner, you may wish to obtain a consultant to conduct a delineation that can be verified by the Corps.

SAW-2018-00838 Fost Farm

The waters of the U.S., including wetlands, on your project area have been delineated and the delineation has been verified by the Corps. If you wish to have the delineation surveyed, the Corps can review and verify the survey upon completion. Once verified, this survey will provide an accurate depiction of all areas subject to CWA and/or RHA jurisdiction on your property which, provided there is no change in the law or our published regulations, may be relied upon for a period not to exceed five years.

The waters of the U.S., including wetlands, have been delineated and surveyed and are accurately depicted on the plat signed by the Corps Regulatory Official identified below on Date. Unless there is a change in the law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

There are no waters of the U.S., to include wetlands, present on the above described property which are subject to the permit requirements of Section 404 of the Clean Water Act (33 USC 1344). Unless there is a change in the law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

RWT The property is located in one of the 20 Coastal Counties subject to regulation under the Coastal Area Management Act (CAMA). You should contact the Division of Coastal Management in Elizabeth City, NC at 252-264-3901 to determine their requirements.

Placement of dredged or fill material within waters of the US, including wetlands, without a Department of the Army permit may constitute a violation of Section 301 of the Clean Water Act (33 USC § 1311). Placement of dredged or fill material, construction or placement of structures, or work within navigable waters of the United States without a Department of the Army permit may constitute a violation of Sections 9 and/or 10 of the Rivers and Harbors Act (33 USC § 401 and/or 403). If you have any questions regarding this determination and/or the Corps regulatory program, please contact **Raleigh W. Bland, PWS at (910) 251-4564 or Raleigh.w.bland@usace.army.mil**.

C. Basis For Determination: The delineated wetlands on this site meets the wetland criteria as described in the 1987 Corps Wetland Delineation Manual and the Atlantic and Gulf Coastal Plain Regional Supplement to the 1987 Wetland Delineation Manual. The wetlands are a part of a broad continuum of wetlands connected to Roland Creek and the Northwest River.

D. Remarks: Department of the Army authorization is required to work within any jurisdictional waters and or wetlands on the property.

E. Attention USDA Program Participants

This delineation/determination has been conducted to identify the limits of Corps' Clean Water Act jurisdiction for the particular site identified in this request. The delineation/determination may not be valid for the wetland conservation provisions of the Food Security Act of 1985. If you or your tenant are USDA Program participants, or anticipate participation in USDA programs, you should request a certified wetland determination from the local office of the Natural Resources Conservation Service, prior to starting work.

F. Appeals Information (This information applies only to approved jurisdictional determinations as indicated in B. above)

This correspondence constitutes an approved jurisdictional determination for the above described site. If you object to this determination, you may request an administrative appeal under Corps regulations at 33 CFR Part 331. Enclosed you will find a Notification of Appeal Process (NAP) fact sheet and request for appeal (RFA) form. If you request to appeal this determination you must submit a completed RFA form to the following address:

US Army Corps of Engineers
South Atlantic Division
Attn: Jason Steele, Review Officer
60 Forsyth Street SW, Room 10M15
Atlanta, Georgia 30303-8801

In order for an RFA to be accepted by the Corps, the Corps must determine that it is complete, that it meets the criteria for appeal under 33 CFR part 331.5, and that it has been received by the Division Office within 60 days of the date of the NAP. Should you decide to submit an RFA form, it must be received at the above address by March 30, 2017.

SAW-2018-00838 Fost Farm

****It is not necessary to submit an RFA form to the Division Office if you do not object to the determination in this correspondence.****

NOTIFICATION OF ADMINISTRATIVE APPEAL OPTIONS AND PROCESS AND REQUEST FOR APPEAL

Applicant: Fost Farm	File Number: SAW 2018-00838	April 30, 2018
Attached is:		See Section below
<input type="checkbox"/> INITIAL PROFFERED PERMIT (Standard Permit or Letter of permission)		A
<input type="checkbox"/> PROFFERED PERMIT (Standard Permit or Letter of permission)		B
<input type="checkbox"/> PERMIT DENIAL		C
<input type="checkbox"/> APPROVED JURISDICTIONAL DETERMINATION		D
<input checked="" type="checkbox"/> PRELIMINARY JURISDICTIONAL DETERMINATION		E

SECTION I - The following identifies your rights and options regarding an administrative appeal of the above decision. Additional information may be found at <http://www.usace.army.mil/Missions/CivilWorks/RegulatoryProgramandPermits.aspx> or Corps regulations at 33 CFR Part 331.

A: INITIAL PROFFERED PERMIT: You may accept or object to the permit.

- **ACCEPT:** If you received a Standard Permit, you may sign the permit document and return it to the district engineer for final authorization. If you received a Letter of Permission (LOP), you may accept the LOP and your work is authorized. Your signature on the Standard Permit or acceptance of the LOP means that you accept the permit in its entirety, and waive all rights to appeal the permit, including its terms and conditions, and approved jurisdictional determinations associated with the permit.
- **OBJECT:** If you object to the permit (Standard or LOP) because of certain terms and conditions therein, you may request that the permit be modified accordingly. You must complete Section II of this form and return the form to the district engineer. Your objections must be received by the district engineer within 60 days of the date of this notice, or you will forfeit your right to appeal the permit in the future. Upon receipt of your letter, the district engineer will evaluate your objections and may: (a) modify the permit to address all of your concerns, (b) modify the permit to address some of your objections, or (c) not modify the permit having determined that the permit should be issued as previously written. After evaluating your objections, the district engineer will send you a proffered permit for your reconsideration, as indicated in Section B below.

B: PROFFERED PERMIT: You may accept or appeal the permit

- **ACCEPT:** If you received a Standard Permit, you may sign the permit document and return it to the district engineer for final authorization. If you received a Letter of Permission (LOP), you may accept the LOP and your work is authorized. Your signature on the Standard Permit or acceptance of the LOP means that you accept the permit in its entirety, and waive all rights to appeal the permit, including its terms and conditions, and approved jurisdictional determinations associated with the permit.
- **APPEAL:** If you choose to decline the proffered permit (Standard or LOP) because of certain terms and conditions therein, you may appeal the declined permit under the Corps of Engineers Administrative Appeal Process by completing Section II of this form and sending the form to the division engineer. This form must be received by the division engineer within 60 days of the date of this notice.

C: PERMIT DENIAL: You may appeal the denial of a permit under the Corps of Engineers Administrative Appeal Process by completing Section II of this form and sending the form to the division engineer. This form must be received by the division engineer within 60 days of the date of this notice.

D: APPROVED JURISDICTIONAL DETERMINATION: You may accept or appeal the approved JD or provide new information.

- **ACCEPT:** You do not need to notify the Corps to accept an approved JD. Failure to notify the Corps within 60 days of the date of this notice, means that you accept the approved JD in its entirety, and waive all rights to appeal the approved JD.
- **APPEAL:** If you disagree with the approved JD, you may appeal the approved JD under the Corps of Engineers Administrative Appeal Process by completing Section II of this form and sending the form to the district engineer. This form must be received by the division engineer within 60 days of the date of this notice.

E: PRELIMINARY JURISDICTIONAL DETERMINATION: You do not need to respond to the Corps regarding the preliminary JD. The Preliminary JD is not appealable. If you wish, you may request an approved JD (which may be appealed), by contacting the Corps district for further instruction. Also you may provide new information for further consideration by the Corps to reevaluate the JD.

SECTION II - REQUEST FOR APPEAL or OBJECTIONS TO AN INITIAL PROFFERED PERMIT

REASONS FOR APPEAL OR OBJECTIONS: (Describe your reasons for appealing the decision or your objections to an initial proffered permit in clear concise statements. You may attach additional information to this form to clarify where your reasons or objections are addressed in the administrative record.)

ADDITIONAL INFORMATION: The appeal is limited to a review of the administrative record, the Corps memorandum for the record of the appeal conference or meeting, and any supplemental information that the review officer has determined is needed to clarify the administrative record. Neither the appellant nor the Corps may add new information or analyses to the record. However, you may provide additional information to clarify the location of information that is already in the administrative record.

POINT OF CONTACT FOR QUESTIONS OR INFORMATION:

If you have questions regarding this decision and/or the appeal process you may contact:

**District Engineer, Wilmington Regulatory Division,
Attn: Raleigh W. Bland, PWS
2407 West 5th Street
Washington, North Carolina 27889
910-252-4558**

If you only have questions regarding the appeal process you may also contact:

**Mr. Jason Steele, Administrative Appeal Review Officer
CESAD-PDO
U.S. Army Corps of Engineers, South Atlantic Division
60 Forsyth Street, Room 10M15
Atlanta, Georgia 30303-8801
Phone: (404) 562-5137**

RIGHT OF ENTRY: Your signature below grants the right of entry to Corps of Engineers personnel, and any government consultants, to conduct investigations of the project site during the course of the appeal process. You will be provided a 15 day notice of any site investigation, and will have the opportunity to participate in all site investigations.

Signature of appellant or agent.	Date:	Telephone number:
----------------------------------	-------	-------------------

For appeals on Initial Proffered Permits send this form to:

**District Engineer, Wilmington Regulatory Division, Raleigh W. Bland, PWS, 2407 West 5th Street
Washington, North Carolina 27889**

For Permit denials, Proffered Permits and approved Jurisdictional Determinations send this form to:

**Division Engineer, Commander, U.S. Army Engineer Division, South Atlantic, Attn: Mr. Jason Steele,
Administrative Appeal Officer, CESAD-PDO, 60 Forsyth Street, Room 10M15, Atlanta, Georgia 30303-8801
Phone: (404) 562-5137**

Attachment: 16 4-30-18 SAW-00838 JD (PB 18-23 Fost, Phases 6-9, Preliminary Plat/Special Use Permit)

ADEQUATE PUBLIC FACILITIES ORDINANCE HISTORY

- **August 1994** – Anne Mackin, then Moyock Elementary School principal, sent a memo (see attached memo dated August 29, 1994) to Ronnie Capps, Currituck County School Superintendent, stating that with increased enrollment “Facilities, programs, and equipment need to be added and supported yearly to provide sufficient services for our student population. She noted the addition of mobile classrooms and the student crowding in restrooms, cafeteria, and library. She also noted that ‘all support services (counseling, special education, chapter 1) needed special attention to accommodate student numbers.’ Principal Mackin also itemized the additional staff, copy machines, instructional supplies, consumable materials, furniture textbooks, library materials, computers, and additional bus routes necessary to service the 713 students enrolled at Moyock Elementary. She said ‘Overall the increase in enrollment has required Currituck County School System to redesign facilities and programs.’
- **September 1994** – Ronnie Capps, Currituck County School Superintendent, approached the Planning Board (see attached memo dated September 13, 1994) regarding the “residential development having dramatic impact on each of our schools during recent years.” Superintendent Capps detailed the increase in attendance in his memo. He also noted the 38 mobile classroom units installed at schools to accommodate growth of the student population. The memo encourages the Planning Board and the Board of Commissioners to review options relative to the rate of residential development so all county agencies, including the schools, might respond to growth in a timely and positive manner. Superintendent Capps encourage the boards to be proactive instead of reactive to accommodate growth in the student population. Superintendent Capps noted the proposed subdivision “The Plantations” (now Eagle Creek) with 601 residential lots in the Moyock Township and its effect on the school district.
- **September 13, 1994** – Jack Simoneau Planning and Inspections Director, presented PB 94-42 Currituck County text amendment (attached) to the Planning Board to address adequate public facilities. The language read:
 2. Even if the permit issuing board finds that the application complies with all other provisions of this Ordinance, it may still deny the permit if it concludes, based upon the information submitted at the hearing, that if completed as proposed, the development, more probably than not:
 - e. **Will exceed the county’s ability to provide adequate public facilities, including, but not limited to, schools, fire and rescue, law enforcement, and other county facilities.**

The Planning Board minutes for September 13, 1994 are attached for reference. The Planning Board unanimously approved the text amendment.

- **October 3, 1994** – BOC held a public hearing on the proposed text amendment. (Minutes Attached)
- **October 17, 1994** – BOC unanimously approved the text amendment. (Minutes attached)
- **February 6, 1995** – BOC unanimously denied a special use permit for Tate Terrace Realty Investors Inc. request for a 601 lot subdivision (now Eagle Creek) based solely upon the provisions of the above noted text amendment to UDO Section 1402(2)(e). It is important to note that a prior property owner (Moyock Investment Group) received vesting approval to develop at 429 lots on this property.

9/13/94 PB MTG: Page 1

CURRITUCK COUNTY PLANNING BOARD

September 13, 1994

7:30 p.m.

The Currituck County Planning Board met at the Currituck County Courthouse on September 13, 1994. The following members were present: Walter Jones, Jimmy Waterfield, Aubrey Dowdy, Owen Etheridge, Marguerite Hogge, Shirley Falls, Nolan Alcock, La Ree Lynn, and Walter Banks. Jack Simoneau, Planning and Inspections Director, and H.B. Briggs, Chief Planner were also present.

Mr. Etheridge called the meeting to order and announced a quorum had been met.

Ms. Falls asked if the board wanted her to vote on the Duck Ridge item since her daughter worked for Hearndon Construction. The board agreed that Ms. Falls could vote on this item since she said that her daughter's employment would not bias her opinion.

Mr. Etheridge welcomed Mr. Jimmy Waterfield to the board.

APPROVAL OF AUGUST 9, 1994, MINUTES

Mr. Lynn motioned to approve the August 9, 1994 minutes as presented. Mr. Jones seconded the motion and the motion passed unanimously.

RESOLUTION OF APPRECIATION FOR MR. LUTHER CROCKETT

The board presented the following resolution of appreciation to Mr. Crockett:

RESOLUTION
OF
APPRECIATION

WHEREAS, Mr. Luther Crockett has faithfully served as a member of Currituck County's Planning Board from January, 1994 until July, 1994; and,

WHEREAS, Mr. Crockett has devoted numerous hours and energies to serve in this capacity; and,

WHEREAS, Mr. Crockett has served as an integral part in shaping the future of Currituck County; and,

WHEREAS, Mr. Crockett always acted in the best interests of the Citizens of Currituck County as a member of the Planning Board; and,

Attachment: 18 9-13-1994 PB Minutes APFO (PB 18-23 Fost, Phases 6-9, Preliminary Plat/Special Use Permit)

Currituck County Board of Commissioners, shall be from ____ a. m. to ____ p. m.; and,

15. Should any conditions within this permit conflict with any other permit issued for this activity, then the more restrictive condition shall prevail.

Ms. Hogge seconded with Mr. Waterfield, Mr. Lynn, Mr. Alcock, and Mr. Jones voting no. (Mr. Etheridge asked for a show of hands to ~~determine those voting in opposition~~)

DISCUSSION ON IMPACT OF GROWTH INCLUDING ITS IMPACT ON THE SCHOOL SYSTEM BY BOARD OF EDUCATION REPRESENTATIVE

Mr. Ronnie Capps, Ms. Janet Taylor, and Mr. Skip Saunders appeared before the board.

Mr. Capps presented memo to the board with different charts and graphs to show the impact that increased development is having on the school system (see Attachment 1)

Mr. Capps expressed a concern that the county needs to plan better for development. He said that within 3 to 5 years, all of Currituck's public facilities will be overburdened.

Mr. Alcock asked what we had to do now to have the developers start paying for some of the impact they have on the county facilities.

Mr. Simoneau said that you must have a capital improvements plan, establish a level of service standard, compare estimates with proposed development, and to come up with a formula to require developers to pay their fair share of facility cost. He said that this is in the works now, but it will take about 2 - 3 years to get a system in place.

Ms. Taylor explained a problem teachers have in the mobile units. She said that a teacher cannot leave the trailer to take a student to the office for anything (including nurse) since there is not another teacher in the trailer to watch the students. She said this is not fair to the teacher nor the student and that the county should speed up the process in order to get more schools.

Mr. Saunders said that the expense of bringing new trailers was astronomical since special attention has to be given to the electrical requirements, water pressure, meeting handicap regulations, etc. He also said that each school is running out of room for trailers.

Ms. Taylor explained that there is no place for the students in the trailers to hold a fire drill since they have to go

inside and "crouch" against a wall and all of the walls were filled with the students who are in the school already.

Mr. Banks asked about moving the boundary line that said which school a child went to and move more from Moyock to Central, a less crowded school.

Mr. Capps said that this would only move trailers from one school to another and would not solve the problem.

Mr. Simoneau presented the following amendment as requested by the Planning Board at the August meeting as one mean to slow growth as well as a means for determining impact of development:

Currituck County requests the following amendment to the Currituck County Unified Development Ordinance:

PB 94-42 CURRITUCK COUNTY request amendments to Article 14 Section 1402, Articles 9, 10, and 11 Section IV, to provide adequate public facility regulations

BE IT ORDAINED by the Board of Commissioners of the County of Currituck, North Carolina that the Unified Development Ordinance of the County of Currituck be amended as follows:

Part I. That the following section be amended:

Article 14 Section 1402 (2)

(d) will not be in general conformity with the Land Use Plan, Thoroughfare Plan, or other plan officially adopted by the board; or,

(e) will exceed the county's ability to provide adequate public facilities, including, but not limited to, schools, fire and rescue, law enforcement, and other county facilities.

Articles 9, 10, and 11 Sections 903, 1003, and 1103

	SKETCH PLAT	PRELIMINARY PLAT	FINAL PLAT
IV. DEVELOPMENT IMPACT STATEMENT			
1. Physical Analysis (type units expected incl. number of bedrooms; projected value; size and timing of phases, etc.)	X		
2. Housing Market Analysis (delimit market area; project demand, supply and unmet demand; determine net			

capture; identify development profile)	X		
3. Environmental Impact (water consumption estimated per unit type, hydrological report by a licensed engineer identifying available water resources, report outlining sewer generation and means of disposal)	X		
4. Fiscal Analysis (estimated real property valuation, estimated personal property valuation, estimated annual land transfer tax value)	X		
5. Traffic Analysis (estimated number of trips generated, volume of existing traffic on roads adjacent to and within 1/2 mile of tract, directional distribution of traffic, capacity analysis)	X		

Part II. This ordinance amendment shall be in effect from and after the ____ day of ____, 1994.

B.U. Evans, Chairman

Attest:

Gwen Tatem,
Clerk to the Board

DATE ADOPTED: _____

MOTION TO ADOPT BY COMMISSIONER: _____

SECONDED BY COMMISSIONER: _____

VOTE: _ AYES _ NAYES

Mr. Etheridge asked if the school system says that a development will overburden their system, does this mean that the development could be denied?

Mr. Simoneau that if the school system said that a proposed development would overburden their facilities, then according to the above amendment the Board of Commissioners could deny the request. It was not know if the courts would uphold such a decision.

PLANNING BOARD ACTION

Mr. Alcock motioned to approve the above amendment request. Mr. Banks seconded the motion and the motion passed unanimously.

~~PB 94-40 CURRITUCK COUNTY: REQUEST AMENDMENTS TO ARTICLE 9 SECTION 914, ARTICLE 10 SECTION 1013 AND ARTICLE 11 SECTION 1113 OF THE UDO TO DELETE SURETY BONDS AND ADD DEED OF TRUST AND BOND AS ACCEPTABLE BOND TERMS AND METHODS.~~

Mr. Briggs presented the following memo to the board:

MEMORANDUM

TO: Board of Commissioners
FROM: H. B. Briggs, Jr., Chief Planner
DATE: September 2, 1994
SUBJECT: Proposed Amendment to the UDO

Staff has been directed to prepare the attached amendment for presentation to the Planning Board. The purpose of this amendment is two-fold: (1) to add Deeds of Trust and Bonds as acceptable bonding forms and methods; and, (2) to delete the utilization of Surety Bonds by a licensed surety bond company.

HISTORY of DEEDS of TRUST

Prior to and included within adoption of the Unified Development Ordinance on April 2, 1989, Deeds of Trust were an acceptable form of guarantee for Maintenance or Performance Bonds. However, when the UDO was updated in November, 1992, the county attorney at the time requested that Deeds of Trust be deleted as an acceptable form of guarantee.

ADVANTAGES of DEEDS of TRUST

The main advantage in allowing the use of Deeds of Trust for guarantee purposes is that it allows the developer to "put-up" a portion of the development to insure items will be installed as required (Performance Bond) or that maintenance will be performed as required (Maintenance Bond).

DISADVANTAGES of DEEDS of TRUST

- (1) although appraisals will be required, market cycles could cause an inflated value on the property, ie. appraisal done during high property values, at selling point property values low;

September 13, 1994

As you can see, since school ended in June, our enrollment has increased by 194 students. The four elementary schools and junior high school have each gained the equivalent of an additional class. The high school has gained the equivalent of three additional classes.

Based upon the initial enrollment this school year, our student population has increased by 476 pupils over the last four years.

Currently, the school district is using 38 mobile classroom units to accommodate growth of the student population. These units are assigned to the schools as follows:

<u>School</u>	<u>Number of Mobile Units</u>
Moyock	8
Central	4
Knapp	8
Currituck High	<u>18</u>
	38

Four of these units were sited this summer. Two double-wide units were placed at Moyock Elementary School and two single-wide units were located at the high school.

Moyock Elementary School is virtually at capacity in terms of parking space and locations to site additional mobile classrooms.

Low-flow rest room fixtures are being installed at Central School and Moyock School to maintain design standards for wastewater systems.

Based upon figures supplied by the State Treasurer in April, 1994, the cost of growth in the student population can be illustrated dramatically. The per student county expenditure for capital and operating costs during the 1992-93 school year was \$2,193.67. The costs per student have, of course, increased since the 1992-93 fiscal year, but by extending this cost data to the 194 students enrolled during the summer of 1994 we incur an additional expense of \$425,571.98 given the level of local support provided.

Outside of adding additional mobile classrooms, the overcrowding of our schools will not be relieved until the beginning of the 1996-97 school year when the new high school is completed.

September 13, 1994

Maintaining quality instructional programs and student safety are our primary concerns. Our schools have received high marks in both areas, but our rapid growth makes the job more difficult.

We encourage the Planning Board and the Board of Commissioners to review options relative to the rate of residential development so all county agencies, including the schools, might respond to growth in a timely and positive manner. In recent years, the schools have had to be reactive rather than pro-active to accommodate growth in the student population. By way of example, I received in my office last week the sketch plan for The Plantations, a proposed subdivision of 601 residential lots to be located in Moyock Township. You can imagine the impact this single subdivision will have on the school district. Though the long-range school facility plan prepared by the Board of Education proposed construction of a second school in Moyock Township, funds for this project were not included on the bond referendum and are not currently anticipated from other revenue sources. Assuming this subdivision receives eventual approval, we will find our schools and community in the reactive posture to which we have become accustomed.

RE: Enrollment

Date : August 29, 1994

Moyock Elementary has been experiencing increased enrollment over the past three years. Presently, Moyock has an enrollment of 713 students. Facilities, programs, and equipment need to be added and supported yearly to provide sufficient services for our student population.

Mobile units have been added to our campus in order to provide adequate instructional and storage space. Currituck County is still trying to provide appropriate student/teacher ratio which requires more classroom units.

Suitable schedule changes needed to be designed to reduce student crowding in restrooms, cafeteria, and library. All support services (counseling, special education, chapter 1) locations needed special attention to accommodate student numbers.

Moyock Elementary had to increase the professional staff to accommodate student growth. A counselor, Chapter 1 instructor, Special Education instructor, classroom instructors, and office personnel had to be supplemented to provide significant services. Additional materials and equipment needed to be purchased to cope with normal daily demands. The items purchased are as follows: copy machines, instructional supplies, consumable materials, furniture, textbooks, library materials, and computers.

Several changes have been made in bus routes to accommodate new building developments. Additional buses have been added to provide sufficient and timely transportation for all students.

Overall the increase in enrollment has required Currituck County School System to redesign facilities and programs.

Attachment: 18 9-13-1994 PB Minutes APFO (PB 18-23 Fost, Phases 6-9, Preliminary Plat/Special Use Permit)

Currituck County
North Carolina
October 17, 1994

The Currituck County Board of Commissioners met in a work session prior to the regular scheduled meeting to discuss the Cooperative Extension Legislative Grants.

The Currituck County Board of Commissioners met at 8:00 PM in regular session on October 17, 1994, in the Currituck County Courthouse with the following members present: Vice-Chairman Wright, Commissioners Gregory, Bowden, and Askew. Chairman Evans was absent.

Vice Chairman Wright called the meeting to order at 8:00 PM.

Invocation

Vice Chairman Wright called for a moment of silence.

Approval of Agenda

Vice Chairman Wright moved to amend the agenda as follows: move Item 14 to 5B, move Item 19 to 5C and add Consideration of library bids for furnishings. Commissioner Gregory seconded the motion. Motion carried unanimously.

Approval of September 6 and September 19, 1994 Minutes.

Commissioner Askew moved to approve the minutes of September 6 and September 19, 1994. Commissioner Gregory seconded the motion. Motion carried unanimously.

Public Comments

Vice Chairman Wright opened the public comment period.

Jan Smith, with the Humane Society, read a letter that all Board members had received by registered mail. The letter listed various questions and concerns regarding the animal shelter.

There being no further comments, Vice Chairman Wright closed the public comment period.

**Public Hearing and Action on PB 94-44
COROLLA FIRE AND RESCUE: special use
permit for an addition to the fire and**

rescue building located at 827 Whalehead Drive (intersection of Whalehead Drive and Dolphin Street) in Whalehead Subdivision in Corolla, Tax Map 115A, Section 13, Parcel 35A, Poplar Branch Township.

Jack Simoneau, Planning and Inspections Director, and Marshall Cherry were sworn in prior to giving testimony.

Jack Simoneau reviewed the following case analysis: The applicant is requesting a Special Use Permit (classification #13.200) for two additions to the existing fire station building. Proposed additions will add 2050 s.f. to the existing building. The additions will be used to house additional fire equipment. Property is shown on Tax Map 115A, lot 35A, Poplar Branch Township. Property is located on the northeast corner of Whalehead Drive and Dolphin Street in Whalehead Subdivision near Corolla

STAFF FINDINGS

Criteria: (a) Does the applicant meet the standards established in the Unified Development Ordinance (UDO) for the proposed use?

Findings: The applicant proposes an addition to the existing fire station building (Use Classification #13.200) which is a permitted use in a R01 (Outer Banks Standard Residential) zoned area with a Special Use Permit.

Adjacent Property Owner's Notifications were mailed 9/30/94; property was posted on 10/4/94.

The proposed addition meets setback requirements.

All required parking, vehicle accomodation areas, screening requirements, shading, etc. will be met by applicant.

Criteria: (b) Will the proposed use materially endanger the public health or safety?

Findings: The nearest residential dwellings to the site are located across Whalehead Drive and across Dolphin Street. Limited ingress/egress to site insures safe traffic movements.

Criteria: (c) Will the proposed use substantially injure the value of adjoining or abutting property?

Findings: The property is surrounded by the following land uses:

North: Vacant lot - zoned R01
 South: Residential - zoned R01
 East: Vacant lot - zoned R01
 West: Residential - zoned R01

Criteria: (d) Will the proposed use be in harmony with the particular neighborhood or area in which it is to be located?

Findings: See the findings listed under Criteria "a", "b" and "c" above.

Criteria: (e) Will the proposed use be in general conformity with the Land Use Plan, Thoroughfare Plan or other plans officially adopted by the board?

Findings: The 1990 Land Use Plan classifies this land as "Limited Transition". The purpose of the limited transition classification is to provide for Development in areas that will have some services, but are suitable for lower densities than those associated with the urban transition class, and/or are geographically remote from existing towns and municipalities.

The site is located along SR 1420 (Whalehead Drive) which is a Local road according to the 1988 Thoroughfare Plan.

STAFF RECOMMENDATION

Staff recommends **approval** of this request as presented.

PLANNING BOARD RECOMMENDATION

On October 11, 1994, the Planning Board voted to recommend approval of this request as presented.

Vice Chairman Wright opened the public hearing.

Marshall Cherry, Corolla Fire Chief, stated that they were adding 3 additional bays to house their equipment.

There being no further comments, Vice Chairman Wright closed the public hearing.

Commissioner Bowden moved to grant the Special Use Permit. Commissioner Gregory seconded the motion. Motion carried unanimously.

Public Hearing and Action on PB 94-45 LOWER
CURRITUCK VOLUNTEER FIRE DEPARTMENT,
INC.: special use permit for an addition to
the fire department building located in Grandy on
the east side of US 158 approximately
550 feet south of the intersection of SR 1129
(McHorney Road), Tax Map 94, Parcel 136,
Poplar Branch Township.

Jack Simoneau, Planning and Inspections Director and Tommy Brothers were sworn in prior to giving testimony.

Jack Simoneau, reviewed the following case analysis: The applicant is requesting a Special Use Permit (classification #13.200) for an addition to the existing fire station building. The proposed addition will add 2273 s.f. to the existing building. The addition will be used to house additional fire equipment. Property is shown on Tax Map 94, lot 136, Poplar Branch Township. Property is located on the east side of US 158 across from E & S General Merchandise in Grandy.

STAFF FINDINGS

Criteria: (a) Does the applicant meet the standards established in the Unified Development Ordinance (UDO) for the proposed use?

Findings: The applicant proposes an addition to the existing fire station building (Use Classification #13.200) which is a permitted use in both a A (Agricultural) and GB (General Business) zoned area with a Special Use Permit.

Adjacent Property Owner's Notifications were mailed 9/30/94; property was posted on 10/4/94.

The proposed addition meets setback requirements.

All required parking, vehicle accomodation areas, screening requirements, shading, etc. will be met by applicant.

Criteria: (b) Will the proposed use materially endanger the public health or safety?

Findings: According to county tax maps, the nearest residential dwelling to the site is located directly to the northwest approximately 140'+/-. Limited ingress/egress to site insures safe traffic movements.

Criteria: (c) Will the proposed use substantially injure the value of adjoining or abutting property?

Findings: The property is surrounded by the following land uses:

North: Woodlands/Residential - zoned GB & A
 South: Vacant lot/Residential - zoned GB & A
 East: Residential - zoned A
 West: Commercial (E & S Gen. Mdse.) - zoned GB

Criteria: (d) Will the proposed use be in harmony with the particular neighborhood or area in which it is to be located?

Findings: See the findings listed under Criteria "a", "b" and "c" above.

Criteria: (e) Will the proposed use be in general conformity with the Land Use Plan, Thoroughfare Plan or other plans officially adopted by the board?

Findings: The 1990 Land Use Plan classifies this land as "Limited Transition". The purpose of the limited transition classification is to provide for Development in areas that will have some services, but are suitable for lower densities than those associated with the urban transition class, and/or are geographically remote from existing towns and municipalities.

The site is located along US 158 which is a Minor Arterial road according to the 1988 Thoroughfare Plan.

STAFF RECOMMENDATION

Staff recommends **approval** of this request as presented.

PLANNING BOARD RECOMMENDATION

On October 11, 1994, the Planning Board voted to recommend approval of this request as presentedl

Vice Chairman Wright opened the public hearing.

Tommy Brothers, Lower Currituck Fire Department, was present to answer questions.

There being no further comments, Vice Chairman Wright closed the public hearing.

Commissioner Bowden moved to grant special use permit. Commissioner Gregory seconded the motion. Motion carried unanimously.

Action on: PB 94-42 CURRITUCK COUNTY: request amendments to Article 14 Section 1402, Articles 9, 10 and 11 Section IV, to provide adequate public facility regulations.

Commissioner Gregory moved to adopt the following ordinance and change the number of lots where impact statements are required, from 20 to 50 lots and the final number be determined when impact study is complete. Commissioner Bowden seconded the motion. Motion carried unanimously. Chairman Evans was absent.

BE IT ORDAINED by the Board of Commissioners of the County of Currituck, North Carolina that the Unified Development Ordinance of the County of Currituck be amended as follows:

Part I. That the following section be amended:

Article 14 Section 1402 (2)

(d) will not be in general conformity with the Land Use Plan, Thoroughfare Plan, or other plan officially adopted by the board; or,

(e) will exceed the county's ability to provide adequate public facilities, including, but not limited to, schools, fire and rescue, law enforcement, and other county facilities.

Part II. That Articles 9, 10, and 11, Sections 903, 1003, and 1103 be amended by adding the following provisions:

For subdivisions containing twenty (20) or more lots, the following information shall be provided.

	SKETCH PLAT	PRELIMINARY PLAT	FINAL PLAT
IV. DEVELOPMENT IMPACT STATEMENT			
1. Physical Analysis (type units expected incl. number of bedrooms; projected value; size and timing of phases, etc.)	X		
2. Housing Market Analysis (delimit market area; project demand, supply and unmet demand; determine net capture; identify development profile)	X		
3. Environmental Impact (water consumption estimated per unit type, hydrological report by a licensed engineer identifying available water resources, report outlining sewer generation and means of disposal)	X		
4. Fiscal Analysis (estimated real property valuation, estimated personal property valuation, estimated annual land transfer tax value)	X		
5. Traffic Analysis (estimated number of trips generated, volume of existing traffic on roads adjacent to and within 1/2 mile of tract, directional distribution of traffic, capacity analysis)	X		

Action on: ALOYSIUS AND JANE KREMPEL request
to rename Ninth Street in Point Harbour Beach
Subdivision, Poplar Branch Township.
Proposed Name: Rose Lane

Commissioner Bowden moved to approve request to rename
street. Commissioner Gregory seconded the motion. Motion
carried unanimously. Chairman Evans was absent.

Action on PB 94-37 ACEY COMMERCIAL
PROPERTIES: rezone 18.7 acres from A
(Agricultural) to GB (General Business)
located in Moyock on the southwest side of NC

168 approximately 1364' south of SR 1216 (Puddin Ridge Road), Tax Map 15, Parcel 75A, Moyock Township.

Commissioner Bowden moved to approve the request to rezone from A to GB. Commissioner Gregory seconded the motion. Motion carried unanimously. Chairman Evans was absent.

Action on PB 94-38 C. W. BRYANT AND C. H. BRYANT: special use permit to expand an existing sand mining operation on property located on the east side of NC 168 at the North Carolina/Virginia state line, Tax Map 8, Parcels 15 and 17 and Tax Map 9, Parcels 1 and 2, Moyock Township.

Vice Chairman Wright moved to approve special use permit and hours will be from 7a.m. to 6p.m. Commissioner Gregory seconded the motion. Motion carried unanimously.

Action on: PB 88-62 THE PLANTATIONS (formerly Country Side): sketch plan approval of a 601-lot common open space subdivision located on SR 1215 (Survey Road) in Moyock, Tax Map 15, Parcel 84, Moyock Township.

This item was continued until next meeting at the request of the applicant.

Action on PB 94-40 CURRITUCK COUNTY: request amendments to Article 9 Section 914, Article 10 Section 1013 and Article 11 Section 1113 of the UDO to delete Surety Bonds and add Deed of Trust and Bond as acceptable bond terms and methods.

Vice Chairman moved to table until Chairman Evans was present. Commissioner Gregory seconded the motion. Motion carried unanimously.

CURRITUCK COUNTY: request to name an unnamed lane off of Barnard Road which services the Ezra and Lisa Graley Subdivision in Poplar Branch. Proposed Name: Graley Lane.

Jack Simoneau, Planning and Inspections Director, reviewed the proposed name change. He advised the Board that the two

property owners could not agree on the original name (Tanners Way) so the staff recommended Graley Lane, the subdivision name.

Commissioner Gregory moved to approve the road name. Commissioner Bowden seconded the motion. Motion carried unanimously.

Chiefs and Captains Advisory Board to discuss permits for bonfires on the beach.

Marshall Cherry, Corolla Fire Department, requests that the Board consider a beach fire notice. Mr. Cherry stated that they had several serious incidents with beach fires this summer and would like some way to the Corolla Fire Dept. could be notified in advance. This is needed only in the RO-1 district.

Commissioner Gregory moved to direct the staff to review proposal for bonfires and bring a recommendation back to the Board. Commissioner Askew seconded the motion. Motion carried unanimously.

Consideration of Legislative Grants for Cooperative Extension.

Rodney Sawyer, Cooperative Extension Director, was present to review legislative grants.

Vice Chairman Wright commended Mr. Sawyer and his staff on the enormous amount of work they have put into writing these grants.

Commissioner Gregory moved to endorse the legislative grants and provide space for additional staff. Commissioner Askew seconded the motion. Motion carried unanimously.

Consideration of DOT Agreement for restoration of the Whalehead footbridge.

Vice Chairman Wright moved to approve the DOT agreement for \$58,000. Commissioner Gregory seconded the motion. Motion carried unanimously.

Appointment to Whalehead Board of Trustees.

Vice Chairman Wright moved to appoint Rhett White to fill the unexpired term of John Wilson. Commissioner Gregory seconded the motion. Motion carried unanimously.

Consideration of Application for Archives and History Grant.

Commissioner Bowden moved to approve grant of \$100,000 for the Whalehead Club. Commissioner Gregory seconded the motion. Motion carried unanimously. The project will be assigned to the Whalehead Board of Trustees.

Discussion on proposed service district for northern Currituck Banks.

Bill Romm, County Attorney, reviewed the process for a proposed service district for street maintenance.

Commissioner Bowden stated that the mere creation of a District would not increase taxes.

Vice Chairman Wright moved to take no action at this time and direct staff to gather information to be presented to the new board in December. Commissioner Gregory seconded the motion. Motion carried unanimously.

Appointments to Land Transfer Tax Appeals Board.

Commissioner Bowden moved to appoint Gary Montalbaum and reappoint John Whitehurst and Bob Henley. Commissioner Gregory seconded the motion. Motion carried unanimously.

Release of taxes From September 12 through September 30, 1994.

Commissioner Bowden moved to release the following taxes. Commissioner Gregory seconded the motion. Motion carried unanimously.

Quality Oil	\$194.22
James Cooper	133.92
Thomas Clark	211.50
Cordelia Mack	117.42
James Smith	101.70

Consideration of Resolution to change Board meeting time.

Commissioner Bowden moved to adopt the following resolution. Commissioner Gregory seconded the motion. Motion carried unanimously.

RESOLUTION

WHEREAS, North Carolina General Statutes 153A-40, authorizes a County Board of Commissioners to fix the time and place of its regular meeting, and

WHEREAS, the Board of Commissioners of the County of Currituck finds that it is desirable to change its regular meeting time from 8:00 p.m. on the first and third Monday of each Monday to 7:00 p.m. on the first and third Monday of each month.

NOW, THEREFORE BE IT RESOLVED,

1. The regular meeting of the Board of Commissioners of Currituck shall be held at 7:00 p.m. on the first and third Monday of each month;
2. That the Clerk to the Board is instructed to post a copy of this Resolution on the Courthouse bulletin board and to cause a summary of this Resolution to be published.

Consideration of Library furnishing bids.

Commissioner Gregory moved to accept bid from Chesson's Business Interiors in the amount of \$55,597.52. Commissioner Askew seconded the motion. Motion carried unanimously.

Executive Session to discuss a property matter.

Vice Chairman Wright moved to go into executive session to discuss a property matter. Commissioner Gregory seconded the motion. Motion carried unanimously.

Adjourn

After reconvening from executive session no action was taken. There being no further business the meeting adjourned at 10:50 p.m.

Currituck County
 North Carolina
 February 6, 1995
 Work Sessions held on
 January 19, 1995 and January 31, 1995

The Currituck County Board of Commissioners met in a work session on January 19, 1995 at 7:00 p.m. with the School Board to discuss the High School bids and other related school projects. The following members were present: Chairman Bowden, Commissioners Gregory, Miller, O'Neal and Etheridge.

Chairman Bowden read the following statement:

- The Board of Commissioners does not intend to provide funding above the current project sheet estimates of \$19,400,000 for the five bond funded capital projects that are specified below:

New High School-	Professional Services	\$ 981,149
	Construction	12,264,363
	Furnishing	<u>750,000</u>
		\$ 13,995,512
Central Renovations-	Professional Services	\$ 65,983
	Construction	824,785
	Furnishings	<u>87,381</u>
		\$ 978,149
"Existing" High School Roof Replacement		\$ 200,000
School Site North		\$ 200,000
New Elem. School-	Professional Services	\$ 258,640
	Construction	3,233,000
	Furnishings	<u>467,675</u>
		\$ 3,959,315

- After cutting the project to the greatest extent possible, the Board of Education is requested to re-bid the new high school.
- The County will be a party to the high school construction contract in order to receive sales tax revenue needed for the bond projects.
- The five capital projects are requested to be placed on a five-year building/funding schedule.

13. Within sixty (60) days from the date of its first review of the sketch plan, the Planning Board will forward the plat along with its recommendations, including any conditions or modifications, to the Board of Commissioners. Failure to forward the plat within the allotted time shall have the same effect as a recommendation for approval.

14. During the first regularly scheduled monthly meeting of the Board of Commissioners following recommendation by the Planning Board, the Board of Commissioners will hold a public hearing to hear any and all remarks presented by the subdivider/developer, Staff comments and recommendations, Technical Staff comments and others.

15. The subdivider/developer or his agent must attend the Board of Commissioners and all subsequent Board meetings for presentation of the application to the appropriate Board and to answer any questions by Board members and others.

16. The Board of Commissioners shall discuss with the subdivider/developer or his agent changes deemed advisable, if any, and the kind and extent of improvements to be made by him.

17. Upon conclusion of the public hearing, the Board of Commissioners may approve, approve conditionally, disapprove or table the request as set forth in the Board of Commissioner's Rules of Procedures and by State law. Because of the conceptual presentation involved, this shall not constitute an official action of approval of the subdivision for recordation. The reasons for a conditional approval or disapproval shall be placed in the record of the minutes of the proceedings.

18. Receiving approval from the Board of Commissioners shall allow the subdivider/developer to proceed with submission of all materials and information required for the preliminary plat review process and to seek all permits as required under this Article.

Part IV. This ordinance amendment shall be in effect from and after the _____ day of _____, 1995.

Chairman Bowden opened the public hearing. There being no comments, Chairman Bowden closed the public hearing.

Action on PB 94-48 DOVE ROOST: special use permit/sketch plan approval of a 48 lot major subdivision located in Moyock at the southern end of SR 1216 (Puddin' Ridge Road), Tax Map 11, Parcel 2, Moyock Township.

This item was tabled at the request of the developer, James Ferebee, Jr.

Action on: PB 88-62 THE PLANTATIONS (formerly Country Side): sketch plan approval of a 601-lot common open space subdivision located on SR 1215 (Survey Road)

in Moyock, Tax Map 15, Parcel 84, Moyock Township.

Hood Ellis, Attorney, stated that the developer has met all the requirements of the UDO and complied with terms.

Commissioner Gregory moved to deny request as follows. Commissioner O'Neal seconded the motion. Motion carried unanimously.

MOTION FOR DENIAL BASED ON THE FOLLOWING:

The proposed 601 lot development fails to meet the provisions of Section 1402(2)(e) of the UDO because it exceeds the county's ability to provide adequate public school facilities based on evidence presented during the public hearings as stated below.

FINDINGS:

1. The 1992 School Facilities Needs Analysis and Long Range Capital Improvement Plan indicated that the then enrollment of 576 students in Moyock Elementary School required an additional 14,626 square feet of floor space to meet state school facility standards.
2. The 1994 school enrollment in Moyock Elementary School is 715 students.
3. The state standard for elementary school sites is 10 acres plus 1 acre for every 100 students in membership. The Moyock Elementary School is on a 10 acre site of which only 5.8 acres of the site is usable when utility and drainage areas are removed.
4. According to school enrollment figures for 1994, Quail Run, North Point, Quail Point, Moyock Meadows, Duck Ridge, and Old South Landing averaged the following number of students per home: .46 elementary school; .09 junior high school; .14 high school. Assuming these figures hold true for the Plantations subdivision, 601 single-family dwellings will generate 280 elementary students; 54 junior high school students; and 84 high school students at full buildout.
5. According to school officials, plans are that by September 1996, Knapp Jr. High will have been converted to an elementary school which will optimally accommodate up to 350 students; Moyock Elementary will optimally accommodate 450 students; and Central Elementary will optimally accommodate up to 375 students (1,175 total elementary students). Based on Planning staff estimates, under a high growth scenario, there will be 1,215 elementary students in

Moyock & Crawford Townships. Under a medium growth scenario, there will be 1,185 elementary students in Moyock and Crawford Townships.

6. According to Planning and Inspections, there are nearly 3,000 lots ready for development or having approval for development on the Currituck Mainland, Gibbs Woods and Knotts Island.
7. Based on the last 3 years, student enrollment at Moyock Elementary School has increased by 46 students per year.

Action on PB 94-49 THE CURRITUCK ASSOCIATES, RESIDENTIAL PARTNERSHIP AND THE CURRITUCK ASSOCIATES, GOLF PARTNERSHIP: rezone 586.7 acres from RO1 (Outer Banks Standard Residential) to Planned Unit Development RO1 (Outer Banks Standard Residential) and LBH (Limited Business, hotels allowed) located in Corolla on the west side of NC 12 (Ocean Trail) across from Ocean Sands, PUD, Tax Map 117, Parcel 1A, Poplar Branch Township.

This item was continued until the February 20, 1995 meeting.

Action on PB 94-49 THE CURRITUCK CLUB: sketch plan/special use permit for a planned unit development to contain: 476 single family lots, 104 golf course villas, 56 patio homes, 2 commercial areas and 4 employee housing units located in Corolla on the west side of NC 12 extending from northern property lines Pine Island, PUD, and National Audubon Society, Inc. to southern property lines of Ocean Sands, sections X and Y, Tax Map 117, parcel 1A, Poplar Branch Township.

This item was continued until the February 20, 1995 meeting.

Public Hearing on PB 94-51 CURRITUCK COUNTY: request amendments to the UDO in order to establish an expiration date on subdivision plats approved prior to April 2, 1989 where no work has begun; to increase the lot size in agricultural zoning districts to 3 acres and all other zoning districts except RO1 and RO2 to 40,000 sq. ft., to delete multi-family dwellings as permitted uses in the agricultural district; to increase the

Manager Recommendation:

DRAFT AIA® Document A141™ – 2014

Exhibit A

Design-Build Amendment

This Amendment is incorporated into the accompanying AIA Document A141™–2014, Standard Form of Agreement Between Owner and Design-Builder dated the « » day of « » in the year «2022» (the “Agreement”) (In words, indicate day, month and year.)

for the following PROJECT:

(Name and location or address)

« Moyock Middle School Addition and Renovation »
« 216 Survey Road, -Moyock, North Carolina 27958 »

THE OWNER:

(Name, legal status and address)

« County of Currituck
County Manager’s Office »« »
« 153 Courthouse Road, Suite 204, Currituck, North Carolina 27929 »

THE DESIGN-BUILDER:

(Name, legal status and address)

« Sussex Development Corporation -»« »
« 109 S. Lynnhaven Road, Suite 200, Virginia Beach, Virginia 23452 »

The Owner and Design-Builder hereby amend the Agreement as follows.

TABLE OF ARTICLES

- A.1 CONTRACT SUM

ARTICLE A.1 CONTRACT SUM

§ A.1.1 The Owner shall pay the Design-Builder the Contract Sum in current funds for the Design-Builder's performance of the Contract after the execution of this Amendment. The Contract Sum shall be one of the following and shall not include compensation the Owner paid the Design-Builder for Work performed prior to execution of this Amendment:

(Check the appropriate box.)

[☐] Stipulated Sum, in accordance with Section A.1.2 below

[☐] Cost of the Work plus the Design-Builder's Fee, in accordance with Section A.1.3 below

[☒] Cost of the Work plus the Design-Builder's Fee with a Guaranteed Maximum Price, in accordance with Section A.1.4 below

(Based on the selection above, complete Section A.1.2, A.1.3 or A.1.4 below.)

§ A.1.2 Stipulated Sum

§ A.1.2.1 The Stipulated Sum shall be (\$), subject to authorized adjustments as provided in the Design-Build Documents.

§ A.1.2.2 The Stipulated Sum is based upon the following alternates, if any, which are described in the Design-Build Documents and are hereby accepted by the Owner:

(State the numbers or other identification of accepted alternates. If the Owner is permitted to accept other alternates subsequent to the execution of this Amendment, attach a schedule of such other alternates showing the change in Stipulated Sum for each and the deadline by which the alternate must be accepted.)

« »

§ A.1.2.3 Unit prices, if any:

(Identify item, state the unit price, and state any applicable quantity limitations.)

Item	Units and Limitations	Price per Unit (\$0.00)
<input type="text"/>	<input type="text"/>	<input type="text"/>

§ A.1.3 Cost of the Work Plus Design-Builder's Fee

§ A.1.3.1 The Cost of the Work is as defined in Article A.5, Cost of the Work.

§ A.1.3.2 The Design-Builder's Fee:

(State a lump sum, percentage of Cost of the Work or other provision for determining the Design-Builder's Fee, and the method for adjustment to the Fee for changes in the Work.)

« »

§ A.1.4 Cost of the Work Plus Design-Builder's Fee With a Guaranteed Maximum Price

§ A.1.4.1 The Cost of the Work is as defined in Article A.5, Cost of the Work.

§ A.1.4.2 The Design-Builder's Fee:

(State a lump sum, percentage of Cost of the Work or other provision for determining the Design-Builder's Fee and the method for adjustment to the Fee for changes in the Work.)

« 8 % »

§ A.1.4.3 Guaranteed Maximum Price

§ A.1.4.3.1 The sum of the Cost of the Work and the Design-Builder's Fee is guaranteed by the Design-Builder not to exceed « Seven Million One Hundred Sixty-Three Thousand and Thirty-Nine Dollars and Seven Cents » (\$ 7,163,039.07 »), subject to additions and deductions for changes in the Work as provided in the Design-Build

Documents. Costs that would cause the Guaranteed Maximum Price to be exceeded shall be paid by the Design-Builder without reimbursement by the Owner.

(Insert specific provisions if the Design-Builder is to participate in any savings.)

<< >>

§ A.1.4.3.2 Itemized Statement of the Guaranteed Maximum Price

Provided below is an itemized statement of the Guaranteed Maximum Price organized by trade categories, allowances, contingencies, alternates, the Design-Builder's Fee, and other items that comprise the Guaranteed Maximum Price.

(Provide information below or reference an attachment.)

<< See Exhibit 1A (Attached) >>

§ A.1.4.3.3 The Guaranteed Maximum Price is based on the following alternates, if any, which are described in the Design-Build Documents and are hereby accepted by the Owner:

(State the numbers or other identification of accepted alternates. If the Owner is permitted to accept other alternates subsequent to the execution of this Amendment, attach a schedule of such other alternates showing the change in the Cost of the Work and Guaranteed Maximum Price for each and the deadline by which the alternate must be accepted.)

<< >>

§ A.1.4.3.4 Unit Prices, if any:

(Identify item, state the unit price, and state any applicable quantity limitations.)

Item	Units and Limitations	Price per Unit (\$0.00)
------	-----------------------	-------------------------

§ A.1.4.3.5 Assumptions, if any, on which the Guaranteed Maximum Price is based:

<< See Exhibit 1A (Attached) >>

§ A.1.5 Payments

§ A.1.5.1 Progress Payments

§ A.1.5.1.1 Prior to the submission of any Application for Payment, the Design-Builder shall submit for approval a schedule to values with respective quantities. The schedule of values shall allocate the contract amount among the various portions of the Design-Builder's work and be prepared in such form and supported by such data to substantiate its accuracy as the Owner may require. Based upon Applications for Payment submitted to the Owner by the Design-Builder, the Owner shall make progress payments on account of the Contract Sum to the Design-Builder as provided below and elsewhere in the Design-Build Documents.

§ A.1.5.1.2 The period covered by each Application for Payment shall be one calendar month ending on the last day of the month, or as follows:

<< >>

§ A.1.5.1.3 Provided that an Application for Payment is received not later than the « 1st » day of the month, the Owner shall make payment of the certified amount to the Design-Builder not later than the « 25th » day of the « Same » month. If an Application for Payment is received by the Owner after the application date fixed above, payment shall be made by the Owner not later than « thirty » (« 30 ») days after the Owner receives the Application for Payment. With respect to all materials, equipment, or supplies for which the Design-Builder has made a request for payment:

1. all such materials, equipment or supplies shall be deemed owned by the Owner and shall be clearly marked as belonging to the Owner; and
2. the Design-Builder shall be responsible for all security and shall promptly reimburse the Owner for all loss, damage and theft.

(Federal, state or local laws may require payment within a certain period of time.)

§ A.1.5.1.4 With each Application for Payment where the Contract Sum is based upon the Cost of the Work, or the Cost of the Work with a Guaranteed Maximum Price, the Design-Builder shall submit payrolls, petty cash accounts, receipted invoices or invoices with check vouchers attached, and any other evidence required by the Owner to demonstrate that cash disbursements already made by the Design-Builder on account of the Cost of the Work equal or exceed (1) progress payments already received by the Design-Builder, less (2) that portion of those payments attributable to the Design-Builder's Fee; plus (3) payrolls for the period covered by the present Application for Payment. In addition to the other required items, each Application for Payment shall be accompanied by the following, all in form and substance satisfactory to the Owner and in compliance with state law:

1. A current sworn statement from the Design-Builder setting forth all contractors, subcontractors, and material suppliers with whom the Design-Builder has contracted or subcontracted, the amount of each contract or subcontract, the amount requested for any contractor, subcontractor, or material supplier in the Application for Payment, and the amount to be paid by the Design-Builder from such progress payment to contractors, subcontractors, and material suppliers, together with a current duly executed waiver of mechanics' and material suppliers' liens from the Design-Builder establishing receipt of payment for satisfaction of the payments requested by the Design-Builder in the currently Application for Payment. In its sole discretion, the Owner shall be entitled to pay directly any or all of the Design-Builder's contractors, subcontractors, and material suppliers and charge those payments against the Contract Sum. In the event the amounts remaining due under the Design-Build Contract to Design-Builder then Owner shall be entitled to collect from Design-Builder those amounts.
2. Commencing with the second Application for Payment submitted by a Contractor, duly executed so-called "after-the-fact" waivers of mechanics' and material suppliers' liens from all contractors, subcontractors, material suppliers, and when appropriate, lower-tier subcontractors, acknowledging receipt of payment or satisfaction of payment of all amounts requested on behalf of such entities and disbursed prior to submittal by the Design-Builder of the current Application for Payment, plus sworn statements from all contractors, subcontractors, material suppliers, and where appropriate, lower-tier subcontractors, covering all amounts described in this Section 5.1.4.
3. Such other information, documentation, and materials as the Owner, the Architect, Owner's lender, or the title insurer may require.
4. If at any time there shall be evidence of a lien or claim of lien which, if established, the Owner might become liable, and that is for Work within the scope of this Design-Build Contract or if the Design-Builder shall incur any liability to the Owner, or the Owner shall have any claim or demand against the Design-Builder of any kind or for any reason, whether reduced to judgment or award, the Owner shall have the right to retain out of any payment due, or to become due under this Agreement or any other agreement between the Owner and the Design-Builder, an amount sufficient to indemnify the Owner against any lien or claim, or to fully satisfy such liability, claim, or demand. The Owner shall also be entitled to charge against or deduct from any such payment all costs of defense or collection with respect thereto, including reasonable attorneys' fees and expenses. Should any claim or lien develop after all payments are made hereunder, the Design-Builder shall refund to the Owner within ten (10) days of demand therefor all monies that the Owner shall be compelled to pay in discharging or satisfying such claims or liens and all costs, including reasonable attorneys' fees incurred in collecting said monies from the Design-Builder. Owner shall have the right in its sole judgment to satisfy or file a bond to discharge a claim of lien or other claim and to deduct all amounts paid to satisfy or discharge a claim of lien or other claim plus Owner's attorneys' fees and expenses from any amounts remaining due under the Design-Build Contract to Design-Builder or to collect from Design-Builder those amounts to the extent those amounts exceed the amount remaining in the Contract Sum.
5. No progress payments made under this Agreement shall be conclusive evidence of the performance of this Agreement either in whole or in part, and no such payment shall be construed to be acceptance of defective work or improper materials.

§ A.1.5.1.5 With each Application for Payment where the Contract Sum is based upon a Stipulated Sum or Cost of the Work with a Guaranteed Maximum Price, the Design-Builder shall submit the most recent schedule of values in accordance with the Design-Build Documents. The schedule of values shall allocate the entire Contract Sum among the various portions of the Work. Compensation for design services, if any, shall be shown separately. Where the Contract Sum is based on the Cost of the Work with a Guaranteed Maximum Price, the Design-Builder's Fee shall be shown

separately. The schedule of values shall be prepared in such form and supported by such data to substantiate its accuracy as the Owner may require. This schedule of values, unless objected to by the Owner, shall be used as a basis for reviewing the Design-Builder's Applications for Payment.

§ **A.1.5.1.6** In taking action on the Design-Builder's Applications for Payment, the Owner shall be entitled to rely on the accuracy and completeness of the information furnished by the Design-Builder and shall not be deemed to have made a detailed examination, audit or arithmetic verification of the documentation submitted in accordance with Sections A.1.5.1.4 or A.1.5.1.5, or other supporting data; to have made exhaustive or continuous on-site inspections; or to have made examinations to ascertain how or for what purposes the Design-Builder has used amounts previously paid. Such examinations, audits and verifications, if required by the Owner, will be performed by the Owner's auditors acting in the sole interest of the Owner.

§ **A.1.5.1.7** Except with the Owner's prior approval, the Design-Builder shall not make advance payments to suppliers for materials or equipment which have not been delivered and stored at the site.

§ **A.1.5.2 Progress Payments—Stipulated Sum**

§ **A.1.5.2.1** Applications for Payment where the Contract Sum is based upon a Stipulated Sum shall indicate the percentage of completion of each portion of the Work as of the end of the period covered by the Application for Payment.

§ **A.1.5.2.2** Subject to other provisions of the Design-Build Documents, the amount of each progress payment shall be computed as follows:

- .1 Take that portion of the Contract Sum properly allocable to completed Work as determined by multiplying the percentage completion of each portion of the Work by the share of the Contract Sum allocated to that portion of the Work in the schedule of values, less retainage of « » percent (« » %) on the Work. Pending final determination of cost to the Owner of Changes in the Work, amounts not in dispute shall be included as provided in Section 6.3.9 of the Agreement;
- .2 Add that portion of the Contract Sum properly allocable to materials and equipment delivered and suitably stored at the site for subsequent incorporation in the completed construction (or, if approved in advance by the Owner, suitably stored off the site at a location agreed upon in writing), less retainage of « » percent (« » %);
- .3 Subtract the aggregate of previous payments made by the Owner; and
- .4 Subtract amounts, if any, the Owner has withheld or nullified, as provided in Section 9.5 of the Agreement.

§ **A.1.5.2.3** The progress payment amount determined in accordance with Section A.1.5.2.2 shall be further modified under the following circumstances:

- .1 Add, upon Substantial Completion of the Work, a sum sufficient to increase the total payments to the full amount of the Contract Sum, less such amounts as the Owner shall determine for incomplete Work, retainage applicable to such work and unsettled claims; and
(Section 9.8.6 of the Agreement discusses release of applicable retainage upon Substantial Completion of Work.)
- .2 Add, if final completion of the Work is thereafter materially delayed through no fault of the Design-Builder, any additional amounts payable in accordance with Section 9.10.3 of the Agreement.

§ **A.1.5.2.4** Reduction or limitation of retainage, if any, shall be as follows:

(If it is intended, prior to Substantial Completion of the entire Work, to reduce or limit the retainage resulting from the percentages inserted in Sections A.1.5.2.2.1 and A.1.5.2.2.2 above, and this is not explained elsewhere in the Design-Build Documents, insert provisions here for such reduction or limitation.)

§ **A.1.5.2.4.1** If after the Project is deemed fifty percent (50%) complete based upon the Design-Builder's gross project invoices, excluding the value of materials stored off-site, except that the value of the materials stored on-site shall not exceed twenty percent (20%) of the Design-Builder's gross project invoices for the purpose of determining the percent completion of the Project, and the Design-Builder provides Owner the following:

1. Written verification evidencing fifty percent (50%) completion of the Project; and,
2. Written consent of the surety named in the Project Performance and payment bonds agreeing that the Owner shall not retain any further retainage from periodic payments due to the Design-Builder.

The Owner shall cease holding retainage from future periodic payments if the Owner finds that the Design-Builder is performing satisfactorily, and any nonconforming work identified in writing by the Owner (prior to the point of 50% project completion) has been corrected by the Design-Builder and accepted by the Owner. If, however, the Owner determines the Design-Builder's performance is unsatisfactory, the Owner may reinstate the specified retainage for each subsequent periodic payment. Notwithstanding anything to the contrary, Owner may assess retainage after 50% project completion, even if the Design-Builder has complied with Section A1.5.2.4.1.1 and A.1.5.2.4.1.2 (above) and continues to perform satisfactorily as necessary to retain two and one-half percentage (2.5%) total retainage through the completion of the Project.

§ A.1.5.2.4.2 If by or before the Project is deemed 50% complete and one hundred percent (100%) performance has been completed for the following "early" finishing trades: (1) structural steel; (2) piling; (3) caisson; or (4) demolition; and after receipt by the Owner of an approval or certificate from the Architect and Design-Builder that such early finishing work is acceptable and in accordance with the Design-Build Documents, and after Design-Builder provides the Owner the following:

1. The early finishing trade subcontractor's written request for such payment; and,
2. Written consent of the surety named in the project performance and payment bonds agreeing that the Owner shall make such early finishing trade payment;

The Owner shall make full payment to the Design-Builder for said 100% completion early finishing trade work less retainage of five-tenths percent (0.5%)(of the early finishing trade contract) upon the later occurrence of (1) sixty (60) days receipt of said early finishing trade subcontractor's written request, or (2) immediately upon receipt of said written consent of the surety.

§ A.1.5.2.4.3 Within sixty (60) days of receipt by Owner of (1) a pay request, and (2) written consent of the surety, and after Owner has either (1) received a certificate of substantial completion, or (2) received a beneficial occupancy or use of the Project (if applicable), the Owner shall pay an amount sufficient to increase total payment to the Design-Builder to the Contract Sum, less such amounts as the Owner shall determine in accordance with the Final Payment provisions of A.1.5.5 including up to two hundred fifty percent (250%) of the Owner's estimate of Work to be completed or corrected as shown on the tentative list of items to be completed or corrected attached to the certificate of Substantial Completion.

<< >>

§ A.1.5.3 Progress Payments—Cost of the Work Plus a Fee

§ A.1.5.3.1 Where the Contract Sum is based upon the Cost of the Work plus a fee without a Guaranteed Maximum Price, Applications for Payment shall show the Cost of the Work actually incurred by the Design-Builder through the end of the period covered by the Application for Payment and for which Design-Builder has made or intends to make actual payment prior to the next Application for Payment.

§ A.1.5.3.2 Subject to other provisions of the Design-Build Documents, the amount of each progress payment shall be computed as follows:

- .1 Take the Cost of the Work as described in Article A.5 of this Amendment;
- .2 Add the Design-Builder's Fee, less retainage of <> percent (<> %). The Design-Builder's Fee shall be computed upon the Cost of the Work described in the preceding Section A.1.5.3.2.1 at the rate stated in Section A.1.3.2; or if the Design-Builder's Fee is stated as a fixed sum in that Section, an amount which bears the same ratio to that fixed-sum Fee as the Cost of the Work in that Section bears to a reasonable estimate of the probable Cost of the Work upon its completion;
- .3 Subtract retainage of <> percent (<> %) from that portion of the Work that the Design-Builder self-performs;
- .4 Subtract the aggregate of previous payments made by the Owner;
- .5 Subtract the shortfall, if any, indicated by the Design-Builder in the documentation required by Section A.1.5.1.4 or resulting from errors subsequently discovered by the Owner's auditors in such documentation; and
- .6 Subtract amounts, if any, for which the Owner has withheld or withdrawn a Certificate of Payment as provided in the Section 9.5 of the Agreement.

§ A.1.5.3.3 The Owner and Design-Builder shall agree upon (1) a mutually acceptable procedure for review and approval of payments to the Architect, Consultants, and Contractors and (2) the percentage of retainage held on

agreements with the Architect, Consultants, and Contractors, and the Design-Builder shall execute agreements in accordance with those terms.

§ A.1.5.4 Progress Payments—Cost of the Work Plus a Fee with a Guaranteed Maximum Price

§ A.1.5.4.1 Applications for Payment where the Contract Sum is based upon the Cost of the Work Plus a Fee with a Guaranteed Maximum Price shall show the percentage of completion of each portion of the Work as of the end of the period covered by the Application for Payment. The percentage of completion shall be the lesser of (1) the percentage of that portion of the Work which has actually been completed; or (2) the percentage obtained by dividing (a) the expense that has actually been incurred by the Design-Builder on account of that portion of the Work for which the Design-Builder has made or intends to make actual payment prior to the next Application for Payment by (b) the share of the Guaranteed Maximum Price allocated to that portion of the Work in the schedule of values.

§ A.1.5.4.2 Subject to other provisions of the Design-Build Documents, the amount of each progress payment shall be computed as follows:

- .1 Take that portion of the Guaranteed Maximum Price properly allocable to completed Work as determined by multiplying the percentage of completion of each portion of the Work by the share of the Guaranteed Maximum Price allocated to that portion of the Work in the schedule of values. Pending final determination of cost to the Owner of changes in the Work, amounts not in dispute shall be included as provided in Section 6.3.9 of the Agreement.
- .2 Add that portion of the Guaranteed Maximum Price properly allocable to materials and equipment delivered and suitably stored at the site for subsequent incorporation in the Work, or if approved in advance by the Owner, suitably stored off the site at a location agreed upon in writing;
- .3 Add the Design-Builder's Fee, ~~less retainage of « » percent (« » %).~~ The Design-Builder's Fee shall be computed upon the Cost of the Work at the rate stated in Section A.1.4.2 or, if the Design-Builder's Fee is stated as a fixed sum in that Section, shall be an amount that bears the same ratio to that fixed-sum fee as the Cost of the Work bears to a reasonable estimate of the probable Cost of the Work upon its completion;
- .4 Subtract retainage of ~~«Five » percent («5 » %)~~ ~~from that portion of the Work that the Design-Builder self performs in accordance with N.C.G.S. 143-134.1;~~
- .5 Subtract the aggregate of previous payments made by the Owner;
- .6 Subtract the shortfall, if any, indicated by the Design-Builder in the documentation required by Section A.1.5.1.4 to substantiate prior Applications for Payment, or resulting from errors subsequently discovered by the Owner's auditors in such documentation; and
- .7 Subtract amounts, if any, for which the Owner has withheld or nullified a payment as provided in Section 9.5 of the Agreement.

§ A.1.5.4.3 The Owner and Design-Builder shall agree upon (1) a mutually acceptable procedure for review and approval of payments to the Architect, Consultants, and Contractors and (2) the percentage of retainage held on agreements with the Architect, Consultants, and Contractors; and the Design-Builder shall execute agreements in accordance with those terms.

§ A.1.5.5 Final Payment

§ A.1.5.5.1 Final payment, constituting the entire unpaid balance of the Contract Sum, shall be made by the Owner to the Design-Builder not later than 30 days after the Design-Builder has fully performed the Contract and the requirements of Section 9.10 of the Agreement have been satisfied, except for the Design-Builder's responsibility to correct non-conforming Work discovered after final payment or to satisfy other requirements, if any, which extend beyond final payment. Final Payment is further subject to the Owner's prior receipt from the Design-Builder of all as-built drawings, certifications, maintenance manuals, operating instructions, written guarantees, warranties, and bonds related to the Work, and assignments of all guarantees and warranties from contractors, subcontractors, vendors, suppliers, or manufacturers, all as required by the Design-Build Documents.

§ A.1.5.5.2 If the Contract Sum is based on the Cost of the Work, the Owner's auditors will review and report in writing on the Design-Builder's final accounting within 30 days after the Design-Builder delivers the final accounting to the Owner. Based upon the Cost of the Work the Owner's auditors report to be substantiated by the Design-Builder's final accounting, and provided the other conditions of Section 9.10 of the Agreement have been met, the Owner will, within seven days after receipt of the written report of the Owner's auditors, either issue a final

Certificate for Payment, or notify the Design-Builder in writing of the reasons for withholding a certificate as provided in Section 9.5.1 of the Agreement.

ARTICLE A.2 CONTRACT TIME

§ A.2.1 Contract Time, as defined in the Agreement at Section 1.4.13, is the period of time, including authorized adjustments, for Substantial Completion of the Work.

§ A.2.2 The Design-Builder shall achieve Substantial Completion of the Work not later than « » (« ») days from the date of this Amendment, or as follows: Not later than the date set forth in Section 1.1.7 of the Agreement. (Insert number of calendar days. Alternatively, a calendar date may be used when coordinated with the date of commencement. If appropriate, insert requirements for earlier Substantial Completion of certain portions of the Work.)

« »

Portion of Work

Substantial Completion Date

, subject to adjustments of the Contract Time as provided in the Design-Build Documents. The Design-Builder shall pay the Owner as liquidated damages, and not as penalty, the sum of FIVE HUNDRED AND NO/100 DOLLARS (\$500.00) for each calendar day of delay after the date established for Substantial Completion until the Work is substantially complete.

(Insert provisions, if any, for liquidated damages relating to failure to achieve Substantial Completion on time or for bonus payments for early completion of the Work.)

« »

ARTICLE A.3 INFORMATION UPON WHICH AMENDMENT IS BASED

§ A.3.1 The Contract Sum and Contract Time set forth in this Amendment are based on the following:

§ A.3.1.1 The Supplementary and other Conditions of the Contract:

ARTICLE A.4 DESIGN-BUILDER'S PERSONNEL, CONTRACTORS AND SUPPLIERS

§ A.4.1 The Design-Builder's key personnel are identified below:

(Identify name, title and contact information.)

.1 Superintendent

«Jeff Ocker, Project Superintendent
109 South Lynnhaven Road, Suite 200
Virginia Beach, VA 23452
Office: (757) 422-2400
Cell: (757) 636-4404
Email: jocker@sussexdevelopment.com »

.2 Project Manager

«-Jim Vachon, Senior Project Manager
109 South Lynnhaven Road, Suite 200
Virginia Beach, VA 23452
Office: (757) 422-2400
Cell: (757) 636-0548
Email: jvachon@sussexdevelopment.com »

.3 Others

«Danielle Hangen, Senior Project Engineer
109 South Lynnhaven Road, Suite 200
Virginia Beach, VA 23452
Office: (757) 422-2400
Cell: (757) 636-4421
Email: dhangen@sussexdevelopment.com »

§ A.4.2 The Design-Builder shall retain the following Consultants, Contractors and suppliers, identified below:
(List name, discipline, address and other information.)

«Angela Crawford Easterday, Architect
Boomerang Design, P.A.
6131 Falls of Neuse Road, Suite 204
Raleigh, NC 27609
Office: (919) 573-6403
Cell: (919) 280-5009
Email: ACrawford@thinkboomerang.com

ARTICLE A.5 COST OF THE WORK

§ A.5.1 Cost To Be Reimbursed as Part of the Contract

§ A.5.1.1 Labor Costs

§ A.5.1.1.1 Wages of construction workers directly employed by the Design-Builder to perform the construction of the Work at the site or, with the Owner's prior approval, at off-site workshops.

§ A.5.1.1.2 With the Owner's prior approval, wages or salaries of the Design-Builder's supervisory and administrative personnel when stationed at the site.

(If it is intended that the wages or salaries of certain personnel stationed at the Design-Builder's principal or other offices shall be included in the Cost of the Work, identify below the personnel to be included, whether for all or only part of their time, and the rates at which their time will be charged to the Work.)

Person Included	Status (full-time/part-time)	Rate (\$0.00)	Rate (unit of time)

§ A.5.1.1.3 Wages and salaries of the Design-Builder's supervisory or administrative personnel engaged at factories, workshops or on the road, in expediting the production or transportation of materials or equipment required for the Work, but only for that portion of their time required for the Work.

§ **A.5.1.1.4** Costs paid or incurred by the Design-Builder for taxes, insurance, contributions, assessments and benefits required by law or collective bargaining agreements and, for personnel not covered by such agreements, customary benefits such as sick leave, medical and health benefits, holidays, vacations and pensions, provided such costs are based on wages and salaries included in the Cost of the Work under Section A.5.1.1.

§ **A.5.1.1.5** Bonuses, profit sharing, incentive compensation and any other discretionary payments paid to anyone hired by the Design-Builder or paid to the Architect or any Consultant, Contractor or supplier, with the Owner's prior approval.

§ **A.5.1.2 Contract Costs.** Payments made by the Design-Builder to the Architect, Consultants, Contractors and suppliers in accordance with the requirements of their subcontracts.

§ **A.5.1.3 Costs of Materials and Equipment Incorporated in the Completed Construction**

§ **A.5.1.3.1** Costs, including transportation and storage, of materials and equipment incorporated or to be incorporated in the completed construction.

§ **A.5.1.3.2** Costs of materials described in the preceding Section A.5.1.3.1 in excess of those actually installed to allow for reasonable waste and spoilage. Unused excess materials, if any, shall become the Owner's property at the completion of the Work or, at the Owner's option, shall be sold by the Design-Builder. Any amounts realized from such sales shall be credited to the Owner as a deduction from the Cost of the Work.

§ **A.5.1.4 Costs of Other Materials and Equipment, Temporary Facilities and Related Items**

§ **A.5.1.4.1** Costs of transportation, storage, installation, maintenance, dismantling and removal of materials, supplies, temporary facilities, machinery, equipment and hand tools not customarily owned by construction workers that are provided by the Design-Builder at the site and fully consumed in the performance of the Work. Costs of materials, supplies, temporary facilities, machinery, equipment and tools that are not fully consumed shall be based on the cost or value of the item at the time it is first used on the Project site less the value of the item when it is no longer used at the Project site. Costs for items not fully consumed by the Design-Builder shall mean fair market value.

§ **A.5.1.4.2** Rental charges for temporary facilities, machinery, equipment and hand tools not customarily owned by construction workers that are provided by the Design-Builder at the site and costs of transportation, installation, minor repairs, dismantling and removal. The total rental cost of any Design-Builder-owned item may not exceed the purchase price of any comparable item. Rates of Design-Builder-owned equipment and quantities of equipment shall be subject to the Owner's prior approval.

§ **A.5.1.4.3** Costs of removal of debris from the site of the Work and its proper and legal disposal.

§ **A.5.1.4.4** Costs of document reproductions, electronic communications, postage and parcel delivery charges, dedicated data and communications services, teleconferences, Project websites, extranets and reasonable petty cash expenses of the site office.

§ **A.5.1.4.5** Costs of materials and equipment suitably stored off the site at a mutually acceptable location, with the Owner's prior approval.

§ **A.5.1.5 Miscellaneous Costs**

§ **A.5.1.5.1** Premiums for that portion of insurance and bonds required by the Design-Build Documents that can be directly attributed to the Contract. With the Owner's prior approval self-insurance for either full or partial amounts of the coverages required by the Design-Build Documents.

§ **A.5.1.5.2** Sales, use or similar taxes imposed by a governmental authority that are related to the Work and for which the Design-Builder is liable.

§ **A.5.1.5.3** Fees and assessments for the building permit and for other permits, licenses and inspections for which the Design-Builder is required by the Design-Build Documents to pay.

§ **A.5.1.5.4** Fees of laboratories for tests required by the Design-Build Documents, except those related to defective or nonconforming Work for which reimbursement is excluded by Section 15.5.3 of the Agreement or by other provisions of the Design-Build Documents, and which do not fall within the scope of Section A.5.1.6.3.

§ **A.5.1.5.5** Royalties and license fees paid for the use of a particular design, process or product required by the Design-Build Documents; the cost of defending suits or claims for infringement of patent rights arising from such requirement of the Design-Build Documents; and payments made in accordance with legal judgments against the Design-Builder resulting from such suits or claims and payments of settlements made with the Owner's consent. However, such costs of legal defenses, judgments and settlements shall not be included in the calculation of the Design-Builder's Fee or subject to the Guaranteed Maximum Price. If such royalties, fees and costs are excluded by the second to last sentence of Section 3.1.13.2 of the Agreement or other provisions of the Design-Build Documents, then they shall not be included in the Cost of the Work.

§ **A.5.1.5.6** With the Owner's prior approval, costs for electronic equipment and software directly related to the Work.

§ **A.5.1.5.7** Deposits lost for causes other than the Design-Builder's negligence or failure to fulfill a specific responsibility in the Design-Build Documents.

§ **A.5.1.5.8** With the Owner's prior approval, which shall not be unreasonably withheld, legal, mediation and arbitration costs, including attorneys' fees, other than those arising from disputes between the Owner and Design-Builder, reasonably incurred by the Design-Builder after the execution of the Agreement and in the performance of the Work.

§ **A.5.1.5.9** With the Owner's prior approval, expenses incurred in accordance with the Design-Builder's standard written personnel policy for relocation, and temporary living allowances of, the Design-Builder's personnel required for the Work.

§ **A.5.1.5.10** That portion of the reasonable expenses of the Design-Builder's supervisory or administrative personnel incurred while traveling in discharge of duties connected with the Work.

§ **A.5.1.6 Other Costs and Emergencies**

§ **A.5.1.6.1** Other costs incurred in the performance of the Work if, and to the extent, approved in advance in writing by the Owner.

§ **A.5.1.6.2** Costs incurred in taking action to prevent threatened damage, injury or loss in case of an emergency affecting the safety of persons and property.

§ **A.5.1.6.3** Costs of repairing or correcting damaged or nonconforming Work executed by the Design-Builder, Contractors or suppliers, provided that such damaged or nonconforming Work was not caused by negligence or failure to fulfill a specific responsibility of the Design-Builder and only to the extent that the cost of repair or correction is not recovered by the Design-Builder from insurance, sureties, Contractors, suppliers, or others.

§ **A.5.1.7 Related Party Transactions**

§ **A.5.1.7.1** For purposes of Section A.5.1.7, the term "related party" shall mean a parent, subsidiary, affiliate or other entity having common ownership or management with the Design-Builder; any entity in which any stockholder in, or management employee of, the Design-Builder owns any interest in excess of ten percent in the aggregate; or any person or entity which has the right to control the business or affairs of the Design-Builder. The term "related party" includes any member of the immediate family of any person identified above.

§ **A.5.1.7.2** If any of the costs to be reimbursed arise from a transaction between the Design-Builder and a related party, the Design-Builder shall notify the Owner of the specific nature of the contemplated transaction, including the identity of the related party and the anticipated cost to be incurred, before any such transaction is consummated or cost incurred. If the Owner, after such notification, authorizes the proposed transaction, then the cost incurred shall be included as a cost to be reimbursed, and the Design-Builder shall procure the Work, equipment, goods or service from the related party, as a Contractor, according to the terms of Section A.5.4. If the Owner fails to authorize the

transaction, the Design-Builder shall procure the Work, equipment, goods or service from some person or entity other than a related party according to the terms of Section A.5.4.

§ A.5.2 Costs Not to Be Reimbursed as Part of this Contract

The Cost of the Work shall not include the items listed below:

- .1 Salaries and other compensation of the Design-Builder's personnel stationed at the Design-Builder's principal office or offices other than the site office, except as specifically provided in Section A.5.1.1;
- .2 Expenses of the Design-Builder's principal office and offices other than the site office;
- .3 Overhead and general expenses, except as may be expressly included in Section A.5.1;
- .4 The Design-Builder's capital expenses, including interest on the Design-Builder's capital employed for the Work;
- .5 Except as provided in Section A.5.1.6.3 of this Agreement, costs due to the negligence or failure of the Design-Builder, Contractors and suppliers or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable to fulfill a specific responsibility of the Contract;
- .6 Any cost not specifically and expressly described in Section A.5.1; and
- .7 Costs, other than costs included in Change Orders approved by the Owner, that would cause the Guaranteed Maximum Price to be exceeded.

§ A.5.3 Discounts, Rebates, and Refunds

§ A.5.3.1 Cash discounts obtained on payments made by the Design-Builder shall accrue to the Owner if (1) before making the payment, the Design-Builder included them in an Application for Payment and received payment from the Owner, or (2) the Owner has deposited funds with the Design-Builder with which to make payments; otherwise, cash discounts shall accrue to the Design-Builder. Trade discounts, rebates, refunds and amounts received from sales of surplus materials and equipment shall accrue to the Owner, and the Design-Builder shall make provisions so that they can be obtained.

§ A.5.3.2 Amounts that accrue to the Owner in accordance with Section A.5.3.1 shall be credited to the Owner as a deduction from the Cost of the Work.

§ A.5.4 Other Agreements

§ A.5.4.1 When the Design-Builder has provided a Guaranteed Maximum Price, and a specific bidder (1) is recommended to the Owner by the Design-Builder; (2) is qualified to perform that portion of the Work; and (3) has submitted a bid that conforms to the requirements of the Design-Build Documents without reservations or exceptions, but the Owner requires that another bid be accepted, then the Design-Builder may require that a Change Order be issued to adjust the Guaranteed Maximum Price by the difference between the bid of the person or entity recommended to the Owner by the Design-Builder and the amount of the subcontract or other agreement actually signed with the person or entity designated by the Owner.

§ A.5.4.2 Agreements between the Design-Builder and Contractors shall conform to the applicable payment provisions of the Design-Build Documents, and shall not be awarded on the basis of cost plus a fee without the prior consent of the Owner. If an agreement between the Design Builder and a Contractor is awarded on a cost plus a fee basis, the Design-Builder shall provide in the agreement for the Owner to receive the same audit rights with regard to the Cost of the Work performed by the Contractor as the Owner receives with regard to the Design-Builder in Section A.5.5, below.

§ A.5.4.3 The agreements between the Design-Builder and Architect and other Consultants identified in the Agreement shall be in writing. These agreements shall be promptly provided to the Owner upon the Owner's written request.

§ A.5.5 Accounting Records

The Design-Builder shall keep full and detailed records and accounts related to the cost of the Work and exercise such controls as may be necessary for proper financial management under the Contract and to substantiate all costs incurred. The accounting and control systems shall be satisfactory to the Owner. The Owner and the Owner's auditors shall, during regular business hours and upon reasonable notice, be afforded access to, and shall be permitted to audit and copy, the Design-Builder's records and accounts, including complete documentation supporting accounting entries, books, correspondence, instructions, drawings, receipts, subcontracts, Contractor's proposals, purchase orders, vouchers, memoranda and other data relating to the Contract. The Design-Builder shall

preserve these records for a period of three years after final payment, or for such longer period as may be required by law.

§ A.5.6 Relationship of the Parties

The Design-Builder accepts the relationship of trust and confidence established by this Agreement and covenants with the Owner to exercise the Design-Builder's skill and judgment in furthering the interests of the Owner; to furnish efficient construction administration, management services and supervision; to furnish at all times an adequate supply of workers and materials; and to perform the Work in an expeditious and economical manner consistent with the Owner's interests.

This Amendment to the Agreement entered into as of the day and year first written above.

Michelle Perry, PE
Assistant County Engineer
County of Currituck
Public Works Department
153 Courthouse Road, Suite 302
Currituck, North Carolina 27929

Project: Moyock Middle School Additions and Renovations
Subject: 95% Progress Budget for GMP

Dear Michelle,

We respectfully submit to you and the County our 95% Progress Budget for the purpose of setting the Guaranteed Maximum Price for the overall design and construction of the Additions and Renovations at Moyock Middle School. The overall Baseline project budget including construction and non-construction costs is **\$7,163,039.07**. This amount includes the design fees that were in the original contract award, PO#20211783. This total excludes alternates, add options, and unit pricing items.

Attached you will find a Proposed 95% Progress Budget summary outlining the budgeted, versus 35% projected costs, versus 65% projected costs.

Attached you will find a Clarifications and Exclusions page. We have listed Add Alternates, Options, and Unit Pricing for future consideration.

Please let us know if you have questions or require additional information. We appreciate the continued opportunities to be of service to Currituck County and look forward to breaking ground on this project in winter 2022.

Sincerely,

Harry L. Davis, III
President

SUSSEX

MOYOCK MIDDLE SCHOOL ADDITIONS & RENOVATIONS 95% BUDGET CLARIFICATIONS & EXCLUSIONS

The following clarifications, exclusions and allowances summary serves as a supplement to the proposed 95% Budget dated 21 December 2021 with Estimate dated 21 December 2021.

Clarifications

1. The 95% Budget was assembled based upon the Currituck County RFQ dated 1 December 2020 and Boomerang Design drawings dated 2 December 2021.
2. The project schedule is based upon a timeline of eighteen (18) months.
3. Builders Risk insurance is included, with coverage as noted below:
 - Term – to be determined prior to project start, current duration of (18) months
 - Perils – All Risk Excluding Flood/Quake
 - Deductibles – \$25K AOP, \$50K Water Intrusion, \$25K W/H, 14-Day S/Cs
4. Construction Costs include the complete budget for construction excluding any costs presented as Non-Construction Costs. Non-Construction costs include design, special inspections and 3rd party testing, FF&E design and procurement, Commissioning, and Permit review fees. Refer to the breakdown included in this presentation package.
5. The FF&E Budget has not been reduced from its original projected cost. The Owner Reserve has not been reduced from its original projected cost. Furniture, fixtures, and equipment and the design of same are included under non-construction costs in the budget. FF&E includes items that would require installation such as display boards, marker boards, smart boards, window blinds, appliances, benches, projection screens, projectors and mounts, etc.
6. The Roof Material pricing is based upon a PVC Membrane system in lieu of a TPO Membrane. Alternate #1 presents optional pricing for a downgrade to a TPO Membrane system.
7. Alternate #2 presents optional pricing for COVID-19 Measures if required. This pricing is being presented in the event that the State of North Carolina and/or County of Currituck restrictions are imposed that impact the operations, policies, procedures, and safety of the project.
8. Alternate #3 all demolition and construction in Area E Multi-purpose rooms. The design of Area E is already included in the project.
9. Alternate #4 presents a potential deduct of (2) new AHU's based upon analysis of existing units by mechanical vendor. A value engineering session with awarded subcontractor required.
10. Alternate #7 presents a budget to provide casework features that are currently shown on the 65% drawings in the Dining Area. These amenities are not required to fulfill the requirements of this project but they are features that the School team would desire if they can be provided without exceeding the project budget.
11. Alternates #7 through #12 are currently open/not used.
12. Alternate #13 provides Unit Pricing for the removal of unsuitable material and the placement of Select fill.
13. Alternate #14 provides Unit Pricing for the removal of unsuitable material and the placement of #57 stone.

Attachment: MMS_ Exhibit 1A to DB Amendment (Consideration of max price for MES Addition)

SUSSEX

MOYOCK MIDDLE SCHOOL ADDITIONS & RENOVATIONS 95% BUDGET CLARIFICATIONS & EXCLUSIONS

Alternates and Unit Prices:

1. Credit for TPO Roof in lieu of PVC	-\$6,625.38
2. COVID Measures	\$20,268.42
3. ADD OPTION Area E: Multi-Purpose Area Alterations	\$221,138.81
4. Potential Value Engineering Credit, Re-use existing AHU's	-\$81,182.65
5. Credit to Delete Hushcore Roof Curbs & Use Standard Curbs	-\$45,767.40
6. Credit to allow Exterior Insulation alternate	-\$22,874.98
13. <u>Unit Price</u> - Remove Unsuitable, replace with Select Fill	\$32.69
14. <u>Unit Price</u> - Remove Unsuitable, replace with #57 stone	\$78.44

Allowances (currently reflected in Base Budget, final design requirements in development in coordination with Owner)

1. Architectural Casework	\$117,975.00
2. Floor Coverings	\$190,619.00
3. Builder's Risk Insurance	\$130,000.00

Exclusions

1. Cost of project land.
2. Furniture relocation or movement.
3. Fences or gates other than what is delineated on the plans.
4. Floor moisture mitigation in existing building areas, if required at time of flooring installation.
5. Building Permit fees.
6. Upgrades to existing whole systems inside the main building facility unless specifically called out in the project documents; i.e. HVAC systems, fire alarm system, main electrical service, etc.
7. Alterations or renovations to other areas of the existing main building facility that are not directly impacted by the project additions.

MEMORANDUM

To: Board of Commissioners
Donald I. McRee, Jr., Interim County Manager/County Attorney

From: Eric T. Weatherly, County Engineer

Subject: Recommendation of Award
Phase II – Whalehead Subdivision Public Access Walkover Replacement

Date: December 14, 2021

Project Description:

Phase II of the public access walkover replacement project consists of the demolition and reconstruction of three existing pedestrian ocean access walkovers in the Whalehead Subdivision. The walkovers are located at Dolphin, Coral, and Mackerel Streets.

Phase I was completed last winter and replaced Sailfish, Perch and Barracuda. The walkovers were 8' wide (as compared to the standard 6' width) and were constructed of treated lumber. Phase II walkovers are also 8' wide but will use concrete decks in lieu of treated lumber. In addition, this phase has alternate bids for the use of stainless-steel cable versus treated lumber for the railing system and/or the inclusion of showers at each walkover.

Future replacement projects are:

- Phase III – Sturgeon, Bonito and Marlin walkovers during the 2022/2023 winter
- Phase IV – Herring, Tuna and Shad during the 2023/2024 winter.

Recommendation of Award:

Bids for Phase II – Whalehead Subdivision Public Access Walkover Replacement were received and opened at 2:00 p.m. on December 7, 2021 in the Board of Commissioners meeting room in the Currituck County Historic Courthouse. A total of three (3) bids were received. The bid tabulation is attached for your reference.

Attachment: Recommendation of Award (Phase 2-Dune Walk Over Designs)

Bidders provided a base bid for the three walkovers. A total base bid was then provided which includes prices for beach grass plugs, retaining walls, and permit fee. Alternates were provided to allow the county to choose between stainless-steel cable versus treated lumber railing systems and an additional cost for a shower at each walkover.

Regardless of the selection of the alternate bid items, the low bidder is WM Dunn Construction of Powells Point. The total base bid is \$704,450.00. As seen on the bid tab, this includes:

- Base Bid = \$669,500.00
 - This includes all three walkovers
- Total Unit Price = \$33,450.00
 - This includes \$1650.00 for beach grass plugs and \$31,800.00 for retaining walls
- Allowance = \$1500
 - This includes V-Zone Certification consultant preparation costs
- Total Base Bid = \$704,450.00

Staff recommends award of the project to WM Dunn Construction based on the above total base bid. Board of Commissioner input is needed for the selection of the alternates in the bid. A description of the alternates is as follows:

- Alternate Bid – 1 = Add \$67,900.00
 - All work associated with installation of a shower at each walkway which includes the shower, concrete, plumbing and meter fees.
- Alternate Bid – 2 = Deduct \$45,500.00
 - The walkover railings are 3'-6" high. The base bid railings are to be constructed with 7 horizontal rows of 316 stainless-steel cables. The alternate bid is for the use of horizontal 2" x 4" treated lumber with 3 ¼" gaps in lieu of cabling.

Staff is prepared to move forward with construction contracts, pending Board of Commissioner approval of award of the project to WM Dunn Construction, and determination of a final contract price based on alternate bid selections by the Board of Commissioners.

Staff also requests delegation of contract execution authority to the County Manager for this contract.

NORTH CAROLINA
 CURRITUCK COUNTY

EASEMENT AGREEMENT

This Easement Agreement made and entered into this the _____ day of _____, 2021 by and between **the County of Currituck, a body politic and a political subdivision of the State of North Carolina**, hereinafter referred to as “**Grantor**” and **Eric B. Kean** of 160 Point Heron Drive, Newport News, VA 23606, hereinafter referred to as “**Grantees**”.

RECITALS:

A. Grantor is the owner of a certain tract or parcel of land conveyed to Grantor by Corolla Bay, LLC by deed recorded in Deed Book 716, Page 76, Currituck County Public Registry.

B. The deed recorded in Deed Book 716, Page 76, Currituck County Public Registry provided in part that:

“All owners of lots in Corolla Bay Subdivision who share their Western boundary with that area designated as “Reserved Area” on the Conveyance Plat (the “CB Lots Pier Access”) shall have an easement appurtenant to their lot to construct within that portion of the Reserved Area which is situated within an extension of the Northern and Southern lines of the CB Lots with Pier Access a 4 foot uncovered walkway to the Eastern margin of the Currituck Sound for purposes of access to the Currituck Sound. The appurtenant easement reserved herein for the benefit of the Owners of CB Lots with Pier Access shall include the right to apply for all necessary permits with the Coastal Act Management Authority. The appurtenant easements reserved herein are designated as “4 Foot Pier Access Easements for Individual Sound Front Lots (“TYP”) on the Conveyance Plat.”

C. Grantor has agreed to increase the width of the easement right granted herein

to the benefit of Lot 17, Corolla Bay Subdivision.

NOW, THEREFORE, the Grantor, in consideration of the sum of One Dollar (\$1.00), to them in hand paid, the receipt of which is hereby acknowledged, and for other good and valuable consideration, has and by these presents does grant, bargain, sell and convey unto Grantee an easement which shall be appurtenant to Lot 17, Corolla Bay Subdivision as recorded in Plat Cabinet J, Slide 199, Currituck County Public Registry, the easement for ingress, egress, and access for placement of a wood walkway and, an easement granting riparian rights, for purposes of constructing a pier. Said easement being more particularly described as follows:

Beginning at a point, said point being located the following calls and distances from the Southwest corner of Lot 17, Corolla Bay as shown on map or plat recorded in Plat Cabinet J, Slide 199, Currituck County Public Registry: North 22 deg. 04 min. 01 sec. West 48.40 feet to a point, South 73 deg. 29 min. 13 sec. West 24.95 feet to a point, being the point and place of beginning; from said beginning point turning and running South 73 deg. 29 min. 13 sec. West 378.06 feet to a point; thence turning and running South 16 deg. 30 min. 47 sec. East 16.05 feet to a point; thence turning and running South 73 deg. 29 min. 13 sec. West 80.61 feet to a point; thence turning and running North 16 deg. 30 min. 47 sec. West 31.55 feet to a point; thence turning and running North 73 deg. 29 min. 13 sec. East 80.61 feet to a point; thence turning and running South 16 deg. 30 min. 47 sec. East 9.50 feet to a point; thence turning and running North 73 deg. 29 min. 13 sec. East 378.27 feet to a point; thence turning and running South 14 deg. 28 min. 42 sec. East 6.0 feet to a point, being the point and place of beginning.

Reference is hereby made to that certain map or plat entitled in part "Pier Easement Exhibit - Currituck County, Lot 17, Section 1, Corolla Bay, Poplar Branch Township, Currituck County, North Carolina" by Quible & Associates, P.C., which is attached hereto and incorporated herein by reference for a more complete and concise description of the lands being herein described.

TO HAVE AND TO HOLD the aforesaid easement as an appurtenance to Lot 17, Corolla Bay.

The aforereferenced easement is conveyed subject to the following rights, duties and obligations:

- (a) Grantor shall have no obligation to maintain, repair or replace any improvements made to the easement and/or pier. Grantee shall be solely responsible to maintain, repair and replace any components of any improvements made to the easement, including any pier.
- (b) The owner of Lot 17, Corolla Bay agrees that they will hold harmless, protect and indemnify Grantor from any and all liability, damage, expenses and charges, including but not limited to, attorneys' fees and expenses of litigation, which arise out of the use of the easement by any person whomsoever.

IN WITNESS WHEREOF, the Grantor has executed this easement agreement the day and year first above written.

DATE: December 15, 2021

TO: Currituck County Commissioners

RE: Corporal Mark Chappell's Retirement

Corporal Mark Chappell is retiring from the Currituck County Sheriff's Office effective 12/31/2021. Corporal Chappell has been with our agency and in good standing since 5/19/2001. Corporal Chappell's issued service weapon is a Glock 45 9M handgun, serial #BSBD915, and he has made the request to purchase his weapon upon retirement.

It has been our policy to allow deputies, upon retirement, the option of purchasing their issued service weapon for the total sum of one dollar (\$1.00).

Sheriff Matthew Beickert
Currituck County Sheriff's Office

December 20, 2021

Minutes – Regular Meeting of the Board of Commissioners

WORK SESSION

1. 5:00 PM Discussion of the Moyock Regional Wastewater Treatment Plant

The Board of Commissioners met at 5:00 PM in the Board Meeting Room of the Historic Courthouse to discuss the County's options for operation of the Moyock Regional Wastewater Treatment Plant. Interim County Manager/County Attorney (ICM/CA) Ike McRee, recalled previous work session discussion when the Board directed staff to collect more data regarding the process of public private partnerships before moving forward with the county funding the Moyock Regional Wastewater Plant project or sell of system. He encouraged Board not to make a pressured decision and this issue could be viewed as a retreat item.

Assistant to the County Manager, Rebecca Gay, provided a presentation on the Public-private partnership (P3) defined through the N.C General Statue § 143-128.1C describing the P3 process and outlining the role of a private sector. Mrs. Gay included the variety of contract structures and financing in comparison of Traditional design build, P3, and sale. Mrs. Gay provided examples highlighting the aspects of each project and limitations of the P3 along with a charted timeline of the P3 steps that would be evaluated.

During discussion ICM/CA Ike McRee recommended the Board continue discussion as an Item during the Commissioners Retreat.

Commissioner White motioned to conduct further discussion as a retreat item and move item for action to a regular meeting in February 2022. Commissioner Mary Etheridge seconded. Motion carried 7-0

Discussion concluded and the Work Session was adjourned.

RESULT:	CONTINUED [UNANIMOUS]	Next: 2/7/2022 6:00 PM
MOVER:	Bob White, Commissioner

PUBLIC COMMENT

Please limit comments to matters other than those appearing on this agenda as a Public Hearing. Public comments are limited to 3 minutes.

Chairman Payment opened the Public Comment period.

Susan Powers, Green View resident expressed her concerns regarding the Eagle Creek Sewer issues and the consideration of the wastewater plant sell to a private sector.

Richard Shortway with Corolla Volunteer Fire Department provided a letter discussing the recently Board approved grant application.

No others were signed up nor wished to speak and the Public Comment period was closed.

COMMISSIONER'S REPORT

Commissioner Jarvis attended the Chamber of Commerce Leadership Day event with Interim County Manager/County Attorney, Ike McRee, and expressed the desire for the Currituck Citizens Academy to return.

Commissioner Mary Etheridge, attended the Senior Center Christmas luncheon and extended gratitude to Senior Center Director Stacey Joseph and the Senior Center's staff. She also attended the ABC Commissions meeting providing the yearly independent audit revenue and expressed gratitude to the ABC staff for the dedication of hard work.

Commissioner White, addressed the quarterly County Newsletters congratulating Tourism Director Tameron Kugler for being selected as a VP of the North Carolina Travel Industry Association. He encouraged the community to sign up for the monthly E-newsletter, and addressed the development in Currituck County as a positive outlook.

Chairman Payment echoed Commissioner White regarding economic growth of the County and shared the upcoming businesses in the Lower end of the County. Mr. Payment thanked all of the Fire departments for the community outreach of bringing Santa Claus around.

Commissioner Beaumont attended the Corolla Volunteer Awards Dinner and expressed gratitude for the invitation. Commissioner Beaumont shared a NCDOT letter regarding the Mid-county bridge is to move forward. He praised the Crawford breakfast with Santa and the community outreach.

Commissioner McCord echoed praises to all the Fire departments for sharing Santa Claus with the community. He shared the success of "Operation Santa" and "Shop with a Cop". Mr. McCord shared county office closings for the holidays.

Commissioner J.O. Etheridge echoed Commissioner Jarvis desire for the Currituck Citizens Academy.

Commissioners conveyed Merry Christmas to all.

COUNTY MANAGER/COUNTY ATTORNEY REPORT

Interim County Manager/ County Attorney, (ICM/CA) Ike McRee, reported the decision by the court of appeals in the 85 Sunny, LLC vs. Currituck County.

PUBLIC HEARINGS

A. PB 21-25 Flora Farms:

Parties were sworn in and Planner, Tammy Glave, reviewed the use permit application to

the Board. Ms. Glave used a powerpoint to review the site location and site plan. Recording dates were presented and student generation and school capacities were reviewed. Outstanding issues, including several that the Technical Review Committee (TRC) recommended be addressed prior to approval were presented, and Ms. Glave said the TRC recommended denial. She presented the findings of fact and responded to questions related to the TRC comments included in the agenda documents.

Jamie Schwedler, Attorney for the applicant, called several witnesses to provide testimony and provided Special Use Permit/Preliminary Plat witness Exhibits.

Engineer, Mark Bissell, was questioned by Ms. Schwedler as to his role in developing the project site plan configuration and stormwater plan. Mr. Bissell discussed the reviews and modifications. The 1st phase of date 12/1/2020 County Staff reports have pushed back 6 months. Commission McCord questioned the wastewater line connectivity with the Eagle Creek lines. Bissell clarified that for a short distance the lines run parallel, but A wastewater collection system will be constructed for the entire development and managed by Currituck Water and Sewer.

Mike Myers explained how the sewer systems are designed and constructed to handle the capacity needed to serve projects need and the process of an engineer's review. Mr. Myers stated a system is under capacity it is harder to operate due to the of the lack of bacteria food. The Flora development is planned to tie into the Eagle Creek wastewater treatment system own by Sandler Utilities. He indicated that the Eagle Creek collection system has no impact on the operation of the plant.

Lyle Overcash, Raleigh, was tendered as an expert by the Board and testified on behalf of the applicant. Responding to questioning by Ms. Schwedler, he provided his background in traffic engineering and transportation. He reviewed a traffic analysis performed at the site location.

Chairman Payment called a recess at 7:47 PM. The meeting reconvened at 7:56 PM.

Hunter Howell, Cary, was tendered as an expert by the Board and testified on behalf of the applicant as a licensed state certified appraiser. Mr. Howell provided an analysis to determine the effects of the proposed Flora projects development.

Jonathan Wells, a certified planner, was tendered as an expert by the Board and testified on behalf of the applicant in school planning and capacity. He summarized his review and analysis and testified in support of the findings of fact for approval relative to the adequate public facilities ordinance for school capacities. Commissioner Jarvis questioned the exhibits capacity information provided in 2019 to current capacity data.

Matt Lutz, Superintendent Sworn in. Dr. Lutz responded to questions from Commissioners and Attorney for the applicant, Jamie Schwedler related to adequate student capacity and school rezoning.

Chairman Payment opened the Public Hearing.

Jenna Kehoe, Green View resident, requested a moratorium on the Flora or any subdivision that may attached to the Wastewater Treatment plant expressed concerns

regarding the Eagle Creek sewer system

Brian Dodd, Green View resident expressed concerns regarding the effects on Eagle Creek that may occur with the Flora or any subdivision approval.

David Roberson, Ranchland resident addressed a retention pond backs up to his property that is not deemed wetland but is flooding due to surrounding development.

No others were signed up nor wished to speak. Public Hearing was closed.

Ms. Schwedler provided a summary of the witness testimony and stated the applicant has met the burden to support the findings of fact and asked the Board to approve the Special Use Permit.

Commissioner White motioned to continue item to next meeting January 3, 2022, for further action. Chairman Payment seconded the motion. Motion carried, 5-2. Commissioner Jarvis and Commissioner Mary Etheridge opposed.

RESULT:	CONTINUED [5 TO 2]	Next: 1/3/2022 6:00 PM

3. Resolution Authorizing the Purchase of Powered Ambulance Stretchers and Stair Chairs From Stryker Corporation Through Sole Source Purchase Pursuant To N.C GEN. STAT. §143-129(e)(6)

COUNTY OF CURRITUCK

RESOLUTION AUTHORIZING THE PURCHASE OF POWERED AMBULANCE STRETCHERS AND STAIR CHAIRS FROM STRYKER CORPORATION THROUGH SOLE SOURCE PURCHASE PURSUANT TO N.C. GEN. STAT. ?143-129(e)(6)

WHEREAS, N.C. Gen. Stat. ?143-129(e)(6) authorizes a unit of local government to purchase apparatus, supplies, materials or equipment when standardization or compatibility is an overriding consideration; and

WHEREAS, Currituck County Fire-EMS needs two (2) ambulance stretchers and two (2) stair chairs; and

WHEREAS, Currituck Fire-EMS must comply with North Carolina Office of Emergency Medical Services rules and regulations for equipment; and

WHEREAS, Stryker Corporation is the only entity capable of providing Fire-EMS with ambulance stretchers and stair chairs compatible with current North Carolina Office of Emergency Medical Services rules and regulations; and

WHEREAS, the County has been using Stryker Corporation to purchase emergency response, power loaded stretchers and ambulance equipment; and

WHEREAS, as the sole and exclusive distributor of the Stryker Power-PRO XT and Stair-PRO, Stryker Corporation is supplying Fire-EMS with two (2) Power-PRO XT

ambulance stretchers and two (2) Stair Chairs and accessories at a cost of \$86,788.81; and

WHEREAS, the total cost of the purchase is \$86,788.81.

NOW, THEREFORE, BE IT RESOLVED by the Board of Commissioners for Currituck County, North Carolina as follows:

Section 1. The County of Currituck is authorized to enter into a contract in the amount of \$86,788.81 with Stryker Corporation for the sole source purchase of Power-PRO XT ambulance stretchers and Stair-PRO chairs in accordance with the sole source provision requirements set forth by N.C. Gen. Stat. ?143-129(e)(6). Further, the County Manager is authorized to execute the agreement with Stryker for the acquisition of apparatus, materials, and equipment described in this resolution and the proposed contract.

Section 2. This resolution shall be effective upon its adoption.

This the 20th day of December 2021.

ATTEST:
Chairman
Samantha Evans
Deputy Clerk to the Board of Commissioners
(COUNTY SEAL)

Michael H. Payment,
Board of Commissioners

4. Resolution Authorizing the Moyock Volunteer Fire Department to Expend \$8000 of Capital Project Fund to Replace Flooring
