

Stormwater BMP Inspection Checklist

Wetlands

Development Name: _____

Address: _____

Inspector Name: _____

Signature: _____ Date: _____

BMP Feature	Potential Problem	Maintenance Needed	✓
Deep Pools & Temporary inundation zone	Temporary inundation zone remains flooded for more than 5 days after a storm event	Unclog the outlet device immediately.	<input type="checkbox"/>
	Sediment has accumulated and reduced the original design sediment storage depth to 75%	Search for the sediment source and correct problem if possible. Remove accumulated sediment and dispose of it in a location where it will not impact the BMP.	<input type="checkbox"/>
Plants	Cattails, phragmites, and other invasive plants cover 50% of the area	Remove plants by wiping them with an herbicide (do not spray).	<input type="checkbox"/>
	Plants are dead, diseased, or dying	Try to determine the cause of the problem (may need to consult an expert). Correct the problem and replace the plants.	<input type="checkbox"/>
